The policy and procedure is intended to assist this facility in its efforts to achieve compliance with regulator standards. The policy represents the facility's goal(s) with respect to the subject matter and is intended to conform with, but not supplant applicable regulator requirements. The procedural steps that are outlined are intended to serve as recommended guidelines for achieving the facility's objectives. As such, they may be modified to address the needs of the particular Resident or situation. Compliance is to be measured against the intent and spirit of the policy and procedure, and not literally.
