NEW YORK STATE | Department of Health | Medicaid Redesign Team

MAPP 101 Webinar

June 2015

Presenter: Chip Barnes

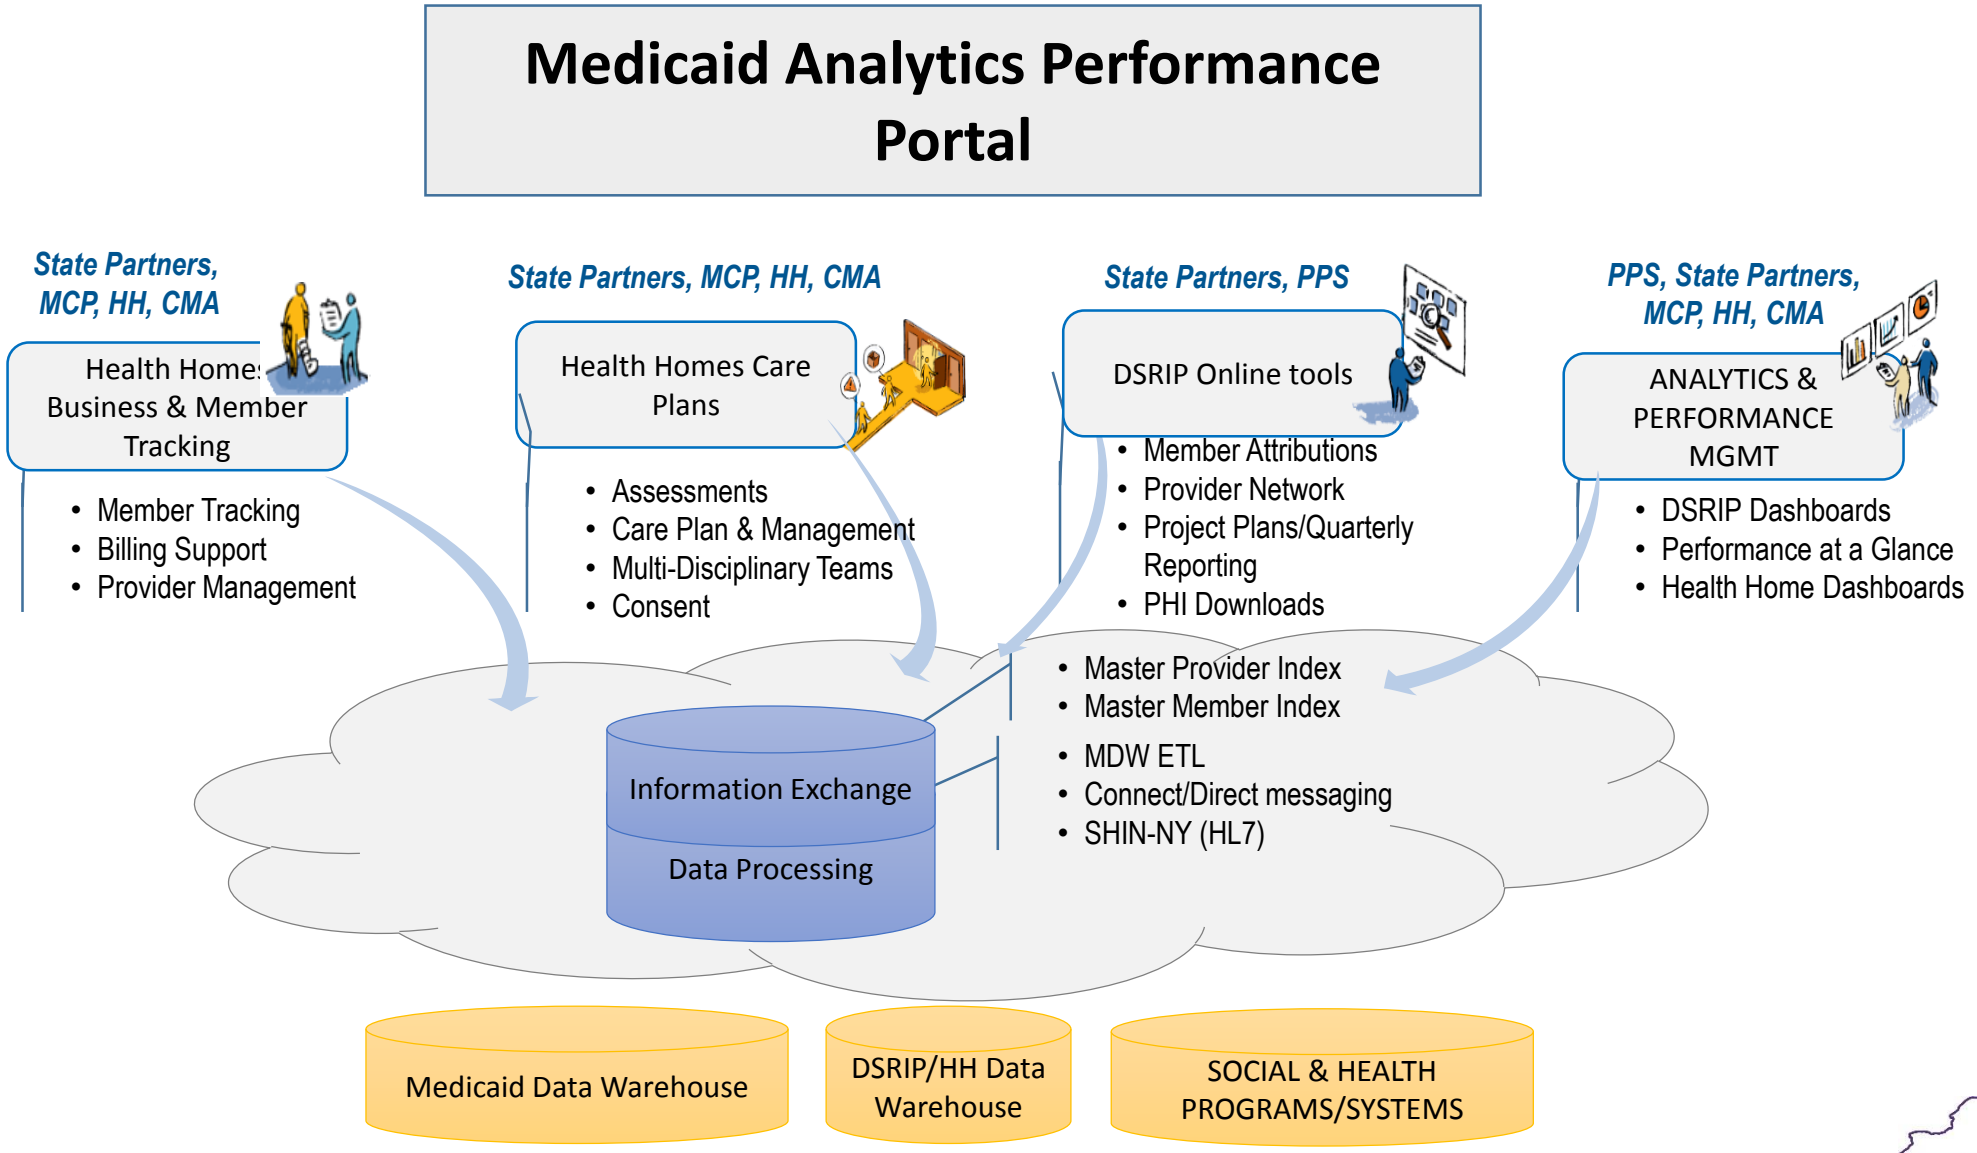
MAPP 101 Agenda

- MAPP Introduction
  - What is MAPP
  - MAPP Building Blocks
- What we currently have through 6/30/15
- DSRIP Performance Dashboards

What is MAPP

- MAPP: Medicaid Analytics Performance Portal
- MAPP supports both Health Homes and DSRIP performance management technology needs
- MAPP Technology:
    - Serve as retail front-end to the Medicaid Data Warehouse for PPS / Health Home community
    - Robust dashboard capabilities provided by Salient
    - Online tools available in portal technology to support DSRIP
    - Health Homes Business and Care Management Functionality
    - Data management and analytics to drive performance

MAPP Conceptual Diagram



NEW YORK STATE OF OPPORTUNITY. Department of Health

MAPP Building Blocks

- Member focused
- It’s about Projects and Performance
- Specific Care Management/Care Plan modules
- Workflow capabilities
- Interoperability
- Data Integration and Single Source of truth
- Rich analytics
    - Drill down capabilities
    - Graphical, tabular, exportable

Functionality in MAPP planned through 6/30/15

- **MAPP Portal and Infrastructure**
  - Integration with Medicaid Data Warehouse
  - Health Commerce Authentication
  - 2 Factor Authentication
- **DSRIP:**
  - Online Provider Network
  - Attribution for Valuation and Attribution for Performance
  - Online Project Plan Application
  - Salient SIM Access and training of non-PHI Medicaid data and DSRIP data for each PPS
  - Implementation Plan Phase 1
  - Member Roster
  - Claims Data Extract for PPS

DSRIP Performance Dashboards

- We want a single source of truth (i.e., MDW, plus DSRIP Measures tables)
- Maximize areas for MAPP automation (calculations done in MDW environment)
- Salient is go-to environment for all measures that allow for drill-downs
- MAPP Users:
  - Primarily PPSs
  - DOH
  - MCOs

Core Questions

- How are we doing on the core DSRIP metrics?
  - Compared to myself, compared to others
- What is driving these results
- What can we do about that?
- Both Accountability views and Improvement views

Questions?

We'd like to hear from you!
