Albany, New York 12237  
Telephone: (518) 402-7600  
Fax: (518) 402-7609

## **ACKNOWLEDGEMENTS**

Special thanks go to the local health department enforcement officers, the New York City Department of Consumer Affairs and the youth who participated in the access compliance check surveillance program. For more than 20 years, these dedicated agencies and individuals have been the leaders in the State's effort to increase retailer compliance with the public health law in our communities.

Staff of the New York State Department of Health's Bureau of Community Environmental Health and Food Protection, Tobacco Enforcement Program prepared this report with data provided from the local enforcement officers, other state agencies and programs within the Department of Health.

The New York State Department of Health's Tobacco Control Program and the New York State Education Department supplied information regarding tobacco use and trends among minors. The State Department of Taxation and Finance provided registration and revenue data. The Department of State's Office of Fire Prevention and Control supplied data regarding fires.

## PREFACE

The purpose of New York's Adolescent Tobacco Use Prevention Act (ATUPA) is to aid in reducing morbidity and mortality caused by tobacco use by reducing children's access to cigarettes and other tobacco products. It has been well documented that most smokers begin before they are 18 years old and half before they are 15. Many people who start smoking as youth find it nearly impossible to quit during their lifetime. For more than 20 years, state and local enforcement officials have been increasingly successful at reducing youth access to tobacco products and improving retailer compliance with the Adolescent Tobacco Use Prevention Act, realizing a reduction in the rate of non-compliance by retailers from 19.0% in 1997 to 6.09% in 2017-2018.

The Adolescent Tobacco Use Prevention Act requires retailers to obtain positive proof that the person buying cigarettes is over the age of 18. Retailers found in violation of this law are subject to fines and loss of their tobacco registrations and lottery licenses for repeated violations. The law also limits the location of vending machines and limits the venues in which free tobacco products can be distributed. These enforcement measures are aimed at making tobacco products less accessible to minors and are a part of the State's comprehensive anti-smoking program.

This Annual Report is prepared by the Tobacco Enforcement Program, located in the New York State Department of Health's Center for Environmental Health. The report covers the period April 1, 2017 to March 31, 2018. The report includes the following information:

- Number of tobacco compliance checks that were conducted;
- Names and addresses of tobacco vendors who sold tobacco products to youth and were penalized;
- New York State results of 2017 Youth Risk Behavior Survey (YRBS);
- Tobacco sales data from the State Department of Taxation and Finance; and
- Tobacco-related fire injury data from the Department of State's Fire Reporting System.

During the 2017 – 2018 program year, state and local enforcement officers conducted 29,605 inspections of tobacco retailers to assess compliance with the State's Public Health Law (Adolescent Tobacco Use Prevention Act). Of these inspections, more than 21,698 included unannounced compliance checks where minors attempted to purchase tobacco and other restricted products under the direct supervision of the enforcement officials. An additional 7,907 visits were made to determine compliance with Department of Health signage requirements and Department of Taxation and Finance registration requirements, to educate retailers about the Public Health Law, to verify vending machine supervision and location compliance and to investigate complaints. A total of 1,618 enforcement actions were taken for sales of tobacco products to minors and more than \$1,978,000 fines were assessed.

In the last 20 program years, State grants totaling nearly \$92.97 million have been awarded to local enforcement officials to implement the Tobacco Enforcement Program, which resulted in a decline in the rate of retailer non-compliance from 19.3 percent to 6.09 percent. From September 1997 to March 2018, more than \$37.8 million in fines have been levied against 48,462 retailers for selling tobacco to minors. The Department of Taxation and Finance has suspended the registrations of 3,315 tobacco retailers as a result of multiple enforcement actions for selling tobacco products to youth. There were also 908 lottery agent licenses suspended for multiple sales to minors. Of the 714,508 compliance inspections that have taken place during the 20 years, 519,826 (72.8%) were conducted with the assistance of minors attempting to purchase tobacco products.

**New York State Department of Health (NYSDOH)**  
**Center for Environmental Health**  
**Youth Access Tobacco Enforcement Program Annual Report**  
**April 1, 2017 – March 31, 2018**

**Program Overview**

In March 2018, the New York State Department of Health (NYSDOH) completed its twentieth program year of statewide youth tobacco access enforcement. As part of the State's continued commitment to preventing youth access to tobacco, \$4.7 million was awarded to local enforcement officers to determine and enforce retail tobacco vendor compliance with Article 13-F of the Public Health Law, also known as the Adolescent Tobacco Use Prevention Act (ATUPA). This report covers the twelve-month period from April 1, 2017, through March 31, 2018.

The ATUPA enforcement program is part of the State's comprehensive tobacco control initiative, the New York State Tobacco Control Program (NYS TCP), administered by the Bureau of Tobacco Control (BTC) in the Division of Chronic Disease Prevention. In 2017-2018, the NYS TCP was funded through a state appropriation of \$39.3 million and three grants from the federal Centers for Disease Control and Prevention (CDC) totaling \$3.2 million.

The goals of the State's comprehensive tobacco control program are to prevent the initiation of tobacco use among youth and young adults, promote adult tobacco use cessation, and eliminate exposure to secondhand smoke, with a focus on populations disproportionately affected by tobacco use and related health consequences, i.e., those with low income, low educational attainment, poor mental health and/or substance use disorders. NYS TCP's evidence-based, population-level, and policy-driven interventions strive to accelerate tobacco control in New York State. BTC funds and manages statewide and community programs to work towards achieving environmental change on the state and local level and expand tobacco dependence treatment by medical and mental health care systems.

**Statewide and local level actions** are used to change the community environment to support and reinforce the State's tobacco-free norm and denormalize tobacco use through education and mobilization. BTC funds *Advancing Tobacco-Free Communities* grantees, which consist of two components – community engagement and youth action, branded as Reality Check. Community engagement entails educating local community members, organizations, employers, decision-makers, and policymakers about the harms of tobacco use and secondhand smoke exposure to change public opinion about tobacco and tobacco use. Grantees implement a coordinated set of evidence-based strategies to build public and organizational support to foster environments that demand policy change to reduce the impact of retail tobacco product marketing on youth and eliminate secondhand smoke exposure in the places where people live, learn, work, and play, including in multiunit dwellings and outdoor spaces. Reality Check grantees engage middle- and high school-age youth from diverse economic and cultural backgrounds to change community norms about tobacco use. Reality Check aims to achieve this goal through activities aimed at deglamorizing and denormalizing tobacco use in the youths' communities and by exposing the tobacco industry's manipulative and deceptive marketing practices. Through civic engagement, youth program initiatives include community education linked to social action, media advocacy, community and media events, and advocacy with organizational decision-makers to advance tobacco-free norms through policy change.

**Health systems transformation** strategies address tobacco dependence treatment and cessation from a health systems and organizational perspective. BTC funds *Health Systems for a Tobacco-Free NY* grantees who work with high-level administrators at large or local medical and mental health care systems to encourage and assist them in adopting and implementing policies to provide evidence-based, guideline-concordant tobacco dependence treatment among disproportionately affected populations as part of routine care.

**Mass-reach health communications** aim to increase awareness of the dangers of tobacco use and secondhand smoke exposure, motivate tobacco users to quit, provide information about the Medicaid smoking cessation benefit, prevent youth initiation, expose tobacco industry propaganda, deglamorize and denormalize tobacco use, and educate community members and decision-makers about tobacco control. Emotionally evocative paid media campaigns promote tobacco use cessation by motivating tobacco users who want to quit to speak with their health care providers for assistance and providing contact information for the New York State Smokers' Quitline, which offers free telephonic and web-based information, resources, quit coaching, and starter kits of nicotine replacement therapy to eligible New Yorkers. Targeted media campaigns also educate health care professionals about their role as providers of tobacco dependence treatment and to increase their knowledge about and use of the Medicaid smoking cessation benefit. Paid media campaigns include television, radio, internet, social media, print, and out-of-home advertising.

Grantees, Reality Check youth, and mobilized community members and leaders garner earned (free) media via issued press releases, opinion pieces, letters to the editor, and hosted events to draw attention to the problems of tobacco use, youth initiation, and secondhand smoke exposure to increase support for policy change that supports the tobacco-free norm.

**Surveillance and evaluation** activities ensure that the NYS TCP uses effective and proven strategies to obtain the goal of a tobacco-free New York State. These activities monitor program progress and impact, provide technical assistance and guidance, and manage the effective and efficient investment of state and federal tobacco control funding. Evaluation data from media studies, surveys, and observational projects contribute to the ongoing improvement of the program, help focus key messaging, and determine the effective use of media. The NYS TCP contributes to the science of tobacco control through a variety of data collection activities related to program initiatives and the dissemination of program findings.

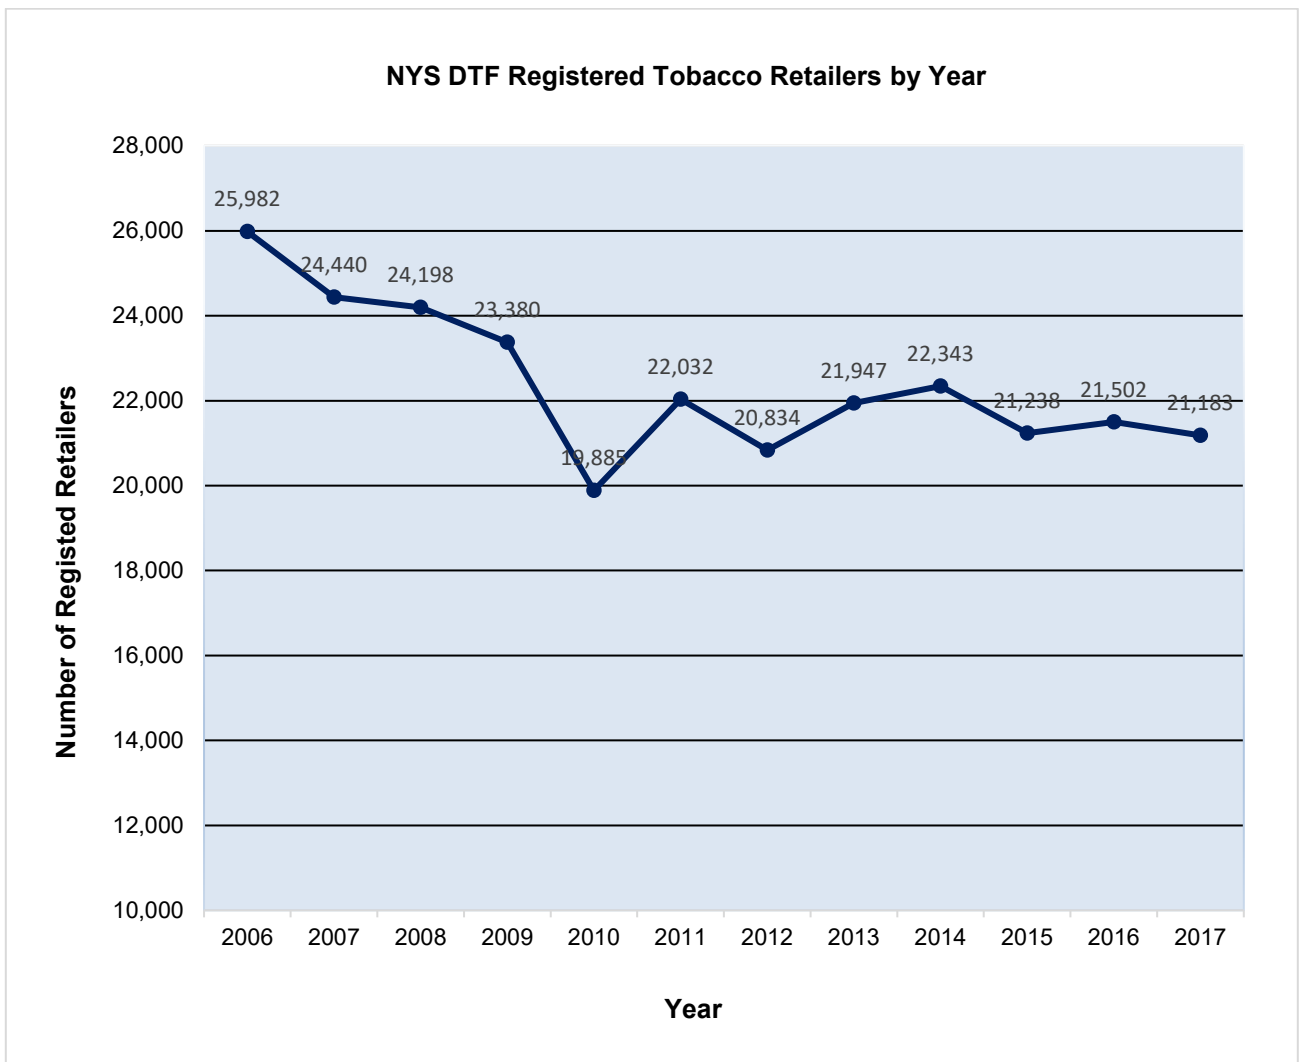

## Program Purpose

The goal of the Tobacco Enforcement Program is to lower the prevalence of tobacco use among youth by reducing tobacco product sales and preventing the onset of its use by this population. Specifically, the program seeks to improve tobacco retailer compliance with ATUPA.

## Status and Accomplishments

The New York State Department of Taxation and Finance (DTF) reports the total number of registered tobacco retailers in New York State, including the total number of vending machines. A total of 21,183 tobacco retailers were registered as of July 2017.

**Number of DTF registered tobacco retailers in New York State**

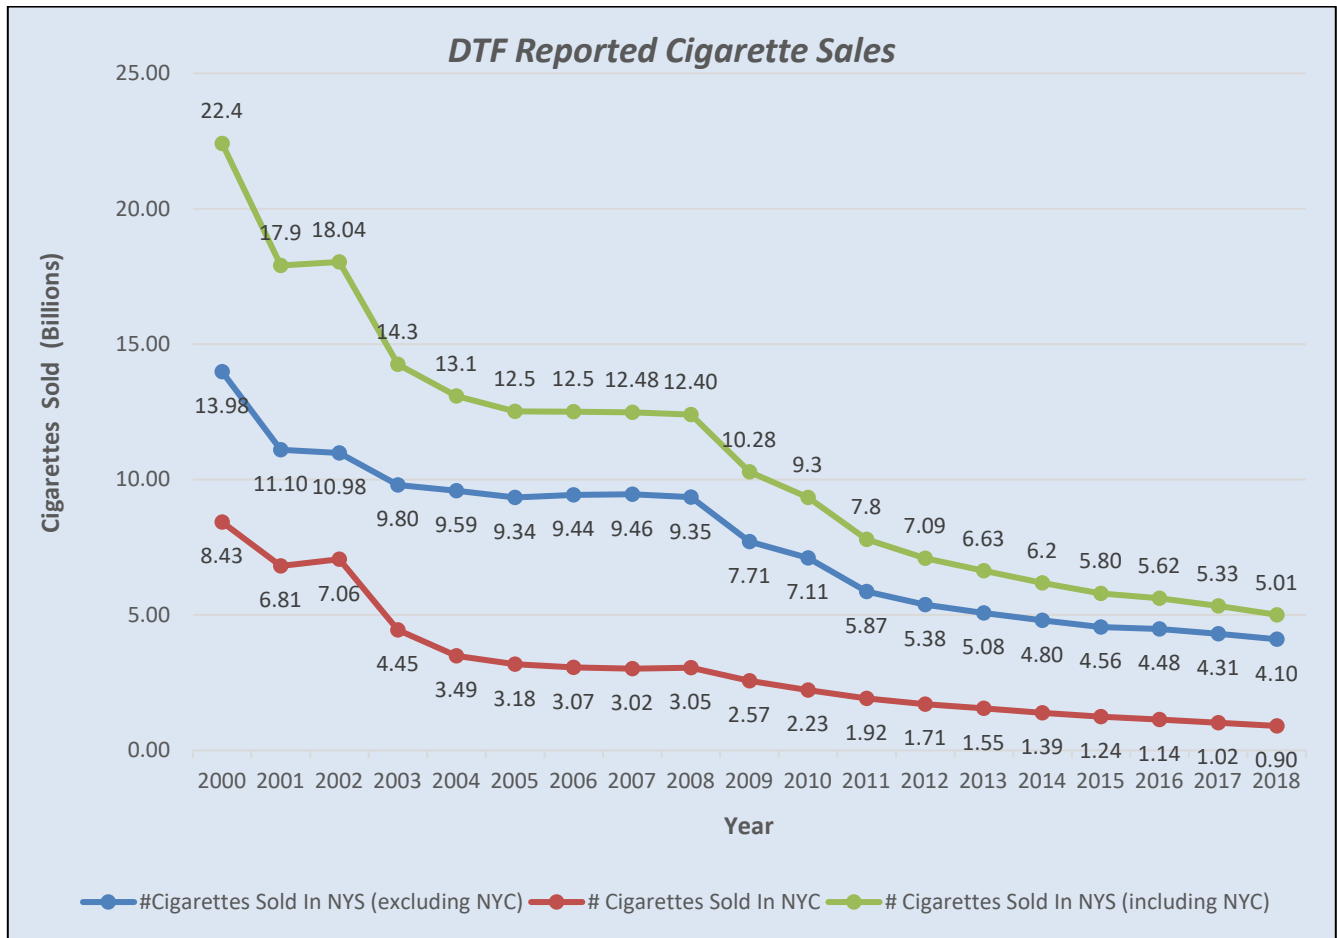

**DTF reported number of registered vending machines**

The total number of vending machines registered in New York State by DTF during 2017 was 87. This is down from 807 registered in 2010 and considerably lower than the 4,434 registered in 2000.

The Family Smoking Prevention and Tobacco Control Act (Tobacco Control Act) (Public Law 111-31; 123 Stat. 1776) was enacted on June 22, 2009, amending the Federal Food, Drug, and Cosmetic Act and providing the U.S. Food & Drug Administration (FDA) with the authority to regulate tobacco products. Effective June 22, 2010 vending machines are only permitted in facilities where no one younger than 18 years of age is present or permitted to enter at any time.

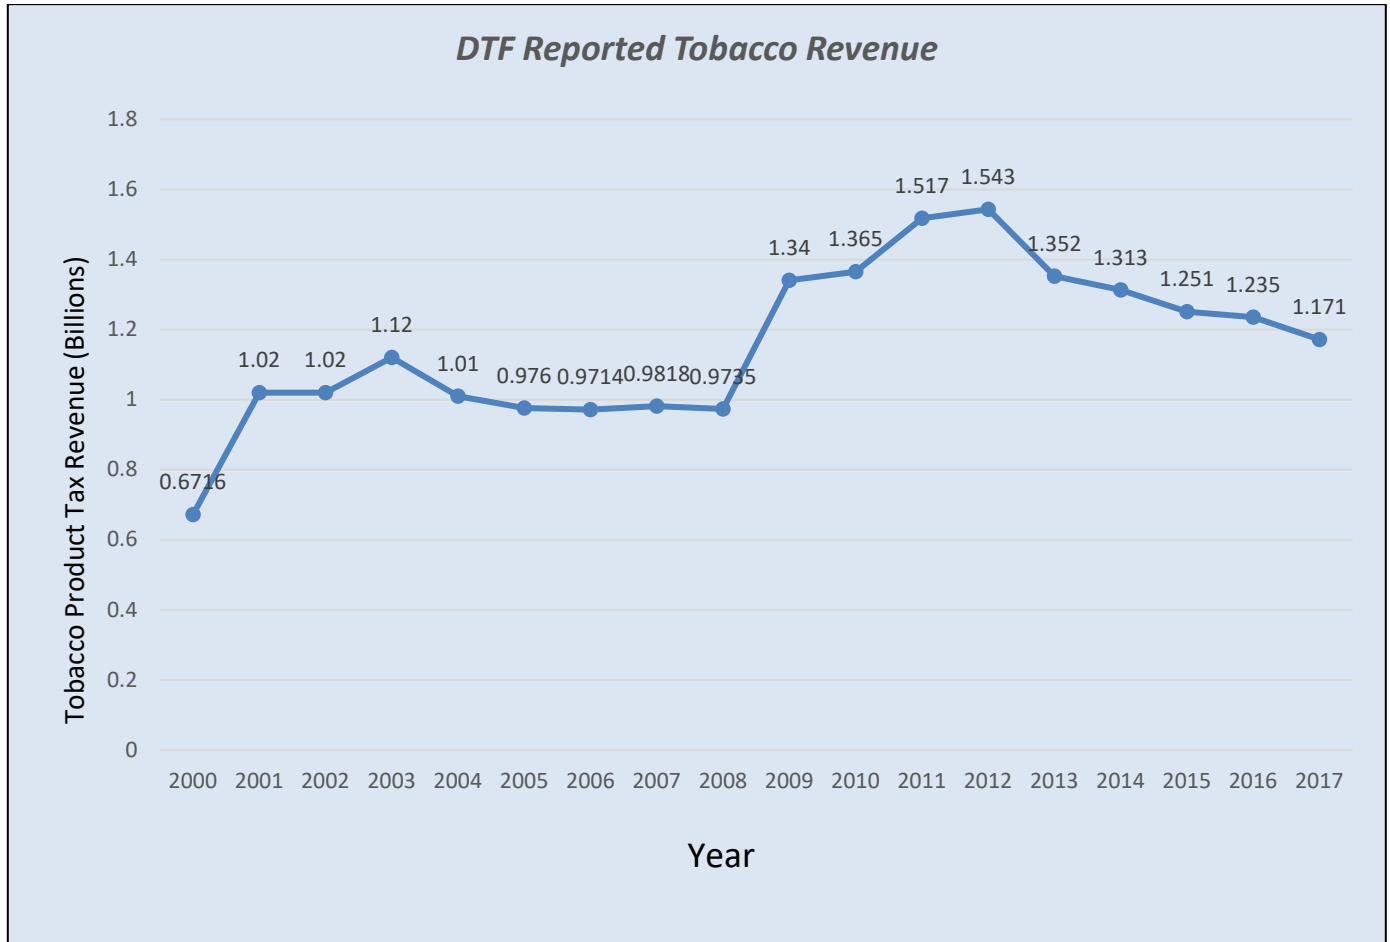

**DTF reported number of cigarettes sold in New York State**

Approximately 5.01 billion cigarettes were sold in New York State for the fiscal year ending March 31, 2018. Of this number, approximately 904 million were sold in New York City.

**DTF reported tax revenue collected in New York State**

Excluding local sales tax, the tax revenue collected by DTF from the sale of cigarettes and tobacco products for the fiscal year ending March 31, 2018, totaled approximately \$1.171 billion from retailer licensure, vending machine registrations and the excise tax. Retail licensure and vending machine registrations yielded \$6.875 million in the 2017-2018 State Fiscal Year. The excise tax on cigarettes yielded \$1.09 billion, and taxes on other tobacco products yielded \$73.2 million.

**NYSDOH reported the following information:**

**Number and type of compliance checks conducted in NYS**

State and local enforcement officers conducted 29,605 compliance inspections during the program year April 1, 2017 to March 31, 2018. Of these, 21,698 were compliance checks where underage youth attempted to purchase tobacco and other restricted products. Additional visits were made to determine compliance with DTF registration or NYS DOH signage requirements, to educate operators of the Public Health Law requirements, to verify vending machine supervision and location compliance, or to investigate complaints. Appendix 1 reflects a county-by-county listing of compliance investigations. Appendix 1A reflects a county-by-county 5-year summary of the sale to minor violation rate.

**Number of complaints filed against registered tobacco retailers in NYS**

During the time period April 1, 2017 to March 31, 2018, a total of 353 inspections were conducted in response to 235 complaints received concerning ATUPA violations. Two hundred complaints were filed against registered tobacco retailers. Included in Appendix 1 is a county-by-county breakdown of this data.

**Retailers reported by local enforcement officers to have paid fines or otherwise penalized due to enforcement action in NYS**

During the time period April 1, 2017 to March 31, 2018, State and local enforcement officers conducted 29,605 inspections of tobacco retailers to assess compliance with ATUPA. A total of 1,618 enforcement actions were taken for ATUPA violations and more than \$1,978,000 in fines were assessed. The names and addresses of penalized tobacco retailers are listed by county in Appendix 2.

**Number of tobacco users and trends among minors in New York State**

New York State conducts a Youth Tobacco Survey every other year to develop statewide estimates of tobacco use and related behaviors and attitudes for students from grades 6 to 12. The survey includes questions about tobacco use, exposure to environmental tobacco smoke, minors' ability to purchase or otherwise obtain tobacco products, knowledge and attitudes about tobacco and familiarity with pro-tobacco and anti-tobacco media messages. A total of 75 public, parochial and other private schools agreed to participate in the survey, with a total of 8,182 students completing the survey in 2018. The results of the survey are applicable to New York State youth attending middle school or high school. There has been a significant downward trend in the use of cigarettes by high school and middle school students since 2000. Additional data from the 2018 New York State Youth Tobacco Survey are found in Appendix 4.

### **Funding disbursement**

Appendix 5 lists the funding amounts distributed to 35 county health departments, the New York City Department of Health and Mental Hygiene, and the New York City Department of Consumer Affairs to conduct youth access tobacco enforcement activities. As guided by Section 1399-hh of the Public Health Law, funding was based on the number of retail facilities registered with DTF to sell tobacco products within the local health department's jurisdiction. Nine NYS DOH district offices conducted compliance checks in the 22 upstate counties that do not, or did not elect to, conduct enforcement activities in their counties.

### **Enforcement**

During the time period April 1, 2017 to March 31, 2018, a total of 785 vendors were reported to DTF for lack of required registration to sell tobacco products. As a result, DTF verified the status of the facilities, directed unregistered retailers to obtain a registration, and fined them up to \$3,500 for non-compliance.

During compliance checks conducted from April 1, 2017 to March 31, 2018, youth purchased tobacco and other restricted products 1,321 times. By the close of the program year, 1,618 non-compliant retailers were fined \$1,978,525 for ATUPA violations. Fines collected for this period totaled \$1,081,549.

During the reporting period from April 1, 2017 to March 31, 2018, a total of 194 retailer registrations to sell tobacco products were suspended by DTF as a result of multiple enforcement actions for selling tobacco to youth. Of this total, 166 were suspended for six months, 8 were suspended for one year, and 20 were permanently revoked. There were also 40 lottery agent licenses suspended for six months for multiple sales to minor violations.

\* Other Regulatory Requirements include proper DTF registration compliance, posting required signs, educating operators of the Public Health Law requirements, verifying vending machine supervision and proper location, attempting compliance checks and/or investigation of complaints.

\*\* Includes compliance checks conducted by adult inspectors for out of the package cigarettes, self-service restrictions, bidis, gutka, etc.

<sup>1</sup> Total for years 3 through 15, data not collected in the first two program years.

<sup>2</sup> The FFY 2011 program year covers 18 months, October 1, 2010 to March 31, 2012.

<sup>3</sup> The tobacco enforcement program year now follows the State Fiscal Year (SFY).

The tobacco retailer non-compliance rate for FFY 1998 & 1999 is based on the number of enforcement actions for illegal sales to minors; the 2000-2012 rate is based on the actual number of sales to minors.

\* The FFY 2011 contract period covers the 18 months from October 1, 2010 to March 31, 2012.

\*\* The tobacco enforcement program year now follows the State Fiscal Year (SFY).

**Fires and related injuries and deaths caused or believed to be caused by tobacco products\***

The New York State Department of State's Fire Reporting System data for the period of January 1, 2017 to December 31, 2017 identified 792 fires classified as being caused by abandoned or discarded cigarettes. There were 3 deaths and 25 injuries to civilians resulting from fires caused by tobacco products. Fourteen firefighters were also injured. Appendix 6 includes a breakdown of tobacco-related fire statistics by county.

\* Data reported by The New York State Department of State

**Survey of attitudes and behaviors regarding tobacco use among minors\***

The New York State Education Department conducts a Federal Center for Disease Control and Prevention (CDC) funded statewide "Youth Risk Behavior Survey" (YRBS) of students in New York State schools. The survey contains several questions on youth tobacco use and is conducted every two years. For each survey, a new sample of schools and students is selected; student participation is voluntary. In 2017, 11,411 ninth through twelfth grade students from 87 schools participated. New York State data from the YRBS for years 2011, 2013, 2015 and 2017 are included in Appendix 3.

\*Data reported by The New York State and New York City Education Departments to CDC, additional results are available at: <https://www.cdc.gov/healthyyouth/data/yrbs/results.htm>

Appendix 4

2018 New York State Youth Tobacco Survey  
 New York State Middle and High School Students – Ever and Current Use of Tobacco Products

	Cigarettes		Cigars		Smokeless Tobacco		ENDS		Hookah	
	%	±C.I.*	%	±C.I.*	%	±C.I.*	%	±C.I.*	%	±C.I.*
<b>Middle School</b>										
Ever Use	4.8	1.4	1.2	0.5	1.5	0.6	13.8	3.5	1.3	0.7
Current Use	0.9	0.6	0.7	0.4	0.8	0.4	6.8	2.0	0.6	0.4
<b>High School</b>										
Ever Use	16.3	4.0	9.9	2.9	5.8	2.5	44.9	6.8	7.6	2.2
Current Use	4.8	0.4	4.4	1.6	2.7	1.5	27.4	5.5	3.4	1.4

Note: \* 95% Confidence Interval

ENDS (Electronic Nicotine Delivery System) also called electronic cigarettes are battery powered devices that heat a solution of liquid nicotine and other chemicals creating an emission which is inhaled by the user.

Hookah - a single or multi-stemmed water pipe for smoking.
