## **ACKNOWLEDGEMENTS**

Special thanks go to the local health department enforcement officers, the New York City Department of Consumer Affairs and the youth who participated in the access compliance check surveillance program. For more than 14 years, these dedicated agencies and individuals have been the leaders in the State's effort to increase retailer compliance with the public health law in our communities.

Staff of the New York State Department of Health's Bureau of Community Environmental Health and Food Protection, Tobacco Enforcement Program prepared this report with data provided from the local enforcement officers, other state agencies and programs within the Department of Health. The New York State Department of Health's Tobacco Control Program and the New York State Education Department supplied information regarding tobacco use and trends among minors. The State Department of Taxation and Finance provided registration and revenue data. The Department of State's Office of Fire Prevention and Control supplied data regarding fires.

## PREFACE

The purpose of New York's Adolescent Tobacco Use Prevention Act is to aid in reducing morbidity and mortality caused by tobacco use by reducing children's access to cigarettes and other tobacco products. It has been well documented that most smokers begin before they are 18 years old and half before they are 15. Many people who start smoking as youth find it nearly impossible to quit during their lifetimes. For more than 14 years, state and local enforcement officials have been increasingly successful at reducing youth access to tobacco products and improving retailer compliance with the Adolescent Tobacco Use Prevention Act, realizing a reduction in the rate of non-compliance by retailers from 19% in 1997 to 4.99% in 2011-12.

The Adolescent Tobacco Use Prevention Act requires retailers to obtain positive proof that the person buying cigarettes is over the age of 18. Retailers found in violation of this law are subject to fines and loss of their tobacco registrations and lottery licenses for repeated violations. The law also limits the location of vending machines and limits the venues in which free tobacco products can be distributed. These enforcement measures are aimed at making tobacco products less accessible to minors and are a part of the State's \$45.6 million comprehensive anti-smoking program (2011 expenditures).

This Annual Report is prepared by the Tobacco Enforcement Program, located in the New York State Department of Health's Center for Environmental Health. The report covers the period October 1, 2010 to March 31, 2012. The report includes the following information:

- Number of tobacco compliance checks that were conducted;
- Names and addresses of tobacco vendors who sold tobacco products to underage youth and were penalized;

- New York State results of the 2010 National Youth Tobacco Survey;
- Tobacco sales data from the State Department of Taxation and Finance; and
- Tobacco-related fire injury data from the Department of State's Fire Reporting System.

During the 2010 – 2011 program year, state and local enforcement officers conducted 31,100 inspections of tobacco retailers to assess compliance with the State's Public Health Law (Adolescent Tobacco Use Prevention Act). Of these inspections, more than 24,268 included unannounced compliance checks where minors attempted to purchase tobacco under the direct supervision of the enforcement officials. Over 6,800 additional visits were made to determine compliance with Department of Health signage requirements and Department of Taxation and Finance registration requirements, to educate retailers about the Public Health Law, to verify vending machine supervision and location compliance and to investigate complaints. A total of 1,313 enforcement actions were taken for sales of tobacco products to minors and more than \$1.174 million in fines were assessed.

During the period from October 1, 2011 to March 31, 2012 an additional 15,754 inspections were conducted, 11,951 of which included unannounced compliance checks with minors. A total of 3,803 additional visits were made to determine compliance with other aspects of the Public Health Law and the Department of Taxation and Finance registration requirements. A total of 478 enforcement actions were taken and \$346,100 in fines were assessed during this period.

In the last 14 program years, state grants totaling nearly \$59.8 million have been awarded to local enforcement officials to implement the Tobacco Enforcement Program, which resulted in a decline in the rate of non-compliance by retailers from 19.0 percent to 4.99 percent. From September 1997-March 2012, more than \$27.6 million in fines have been levied against 38,018 retailers for selling

tobacco to minors. The Department of Taxation and Finance has suspended the registrations of 2,715 tobacco retailers as a result of multiple enforcement actions for selling tobacco to underage youth. There were also 722 lottery agent licenses suspended for multiple sales to minors. Of the 530,497 compliance inspections that have taken place during the 14 years, 380,037 were conducted with the assistance of minors attempting to purchase tobacco products.

**New York State Department of Health (NYSDOH)  
Center for Environmental Health  
Youth Access Tobacco Enforcement Program Annual Report  
October 1, 2010 – March 31, 2012**

**Program Overview**

In March 2012, the New York State Department of Health (NYSDOH) completed its fourteenth program year of youth tobacco access enforcement statewide. As part of the State's continued commitment to preventing youth access to tobacco, \$8.295 million was awarded to local enforcement officers to determine and enforce retail tobacco vendor compliance with Article 13-F of the Public Health Law, also known as the Adolescent Tobacco Use Prevention Act (ATUPA). This report covers the eighteen month period from October 1, 2010 to March 31, 2012.

The ATUPA enforcement program is part of the State's comprehensive anti-smoking and tobacco control initiative, the New York Tobacco Control Program (NY TCP). In 2011-2012, the NY TCP was funded through a state appropriation of \$41.4 million and a grant from the federal Centers for Disease Control and Prevention (CDC) of \$4.161 million. The NY TCP targets tobacco use by promoting cessation, reducing the social acceptability of tobacco use, preventing youth initiation, addressing disproportionately high smoking rates in specific population groups and eliminating exposure to secondhand smoke. The NY TCP uses a multi-pronged strategic approach to reduce tobacco use in the population and seeks to impact the population as a whole through:

**Statewide and community action** to change the community environment to support the tobacco-free norm, change community attitudes about tobacco and de-normalize tobacco use. A key outcome of the NY TCP's community mobilization strategy is the adoption and effective implementation of local and statewide policies that permanently change society's acceptance of tobacco use.

**Health communication** to increase awareness of the dangers of tobacco use and secondhand smoke and motivate tobacco users to stop, to expose tobacco industry propaganda and de-glamorize tobacco use and educate community members and decision makers about tobacco control. A key outcome of the NY TCP's health communication strategy is better-educated

community members and decision makers who will support effective tobacco control policies and take personal action toward a tobacco-free New York.

**Cessation interventions** to establish and maintain community, governmental and health care delivery systems that promote cessation, increase access to and delivery of evidence-based cessation services and motivate individual tobacco users to quit successfully. Key outcomes of the NY TCP's cessation interventions are provision of guideline-concordant tobacco dependence treatment by the health care sector and adoption of policies that motivate smokers and other tobacco users to quit.

The NY TCP is supported by surveillance and evaluation activities to monitor program progress and impact and by program administration to provide technical assistance and guidance and manage the effective and efficient investment of state tobacco control funding. The NY TCP strives to contribute to the science of tobacco control through surveillance and evaluation of program initiatives and dissemination of program findings.

### **NY TCP Community Action Areas**

The NY TCP is implemented through statewide and community programs directed and managed by the NYSDOH. Community action areas other than the Tobacco Enforcement Program include: Community Partnerships for tobacco control, youth action programs and the youth action program Reality Check.

***Community Partnerships for Tobacco Control.*** Community Partnerships work with local governments and decision makers, employers, community organizations, health care institutions and community groups to address tobacco use, tobacco company marketing in the retail environment and change public opinion about tobacco and tobacco use. Rather than directly implementing tobacco control policies, Community Partnerships foster community environments that are supportive of policy change, including policies to reduce the impact of retail tobacco product marketing on youth and policies that limit opportunities for exposure to second hand smoke in multi-unit dwellings and in outdoor areas such as parks, beaches and playgrounds. Community Partnerships implement a coordinated set of strategies designed to build public, political and organizational support and reinforce a tobacco free norm.

***Reality Check.*** Reality Check engages middle and high school youth and youth leaders to expose the manipulative and deceptive marketing practices of the tobacco industry and change community norms regarding tobacco use. Strategies include civic action, educating and mobilizing community members, leaders and decision makers in the fight against tobacco. Like Community Partnerships, Reality Check fosters community environments that are supportive of policy change, including policies to reduce the impact of retail tobacco marketing on youth and policies to reduce the impact of smoking in movies and other media on youth. Reality Check also implements a coordinated set of strategies designed to build public, political and organizational support for policies that support and reinforce the tobacco-free norm.

### **Public Health Communications**

Public health communications focused on tobacco include paid placement of advertising on television, radio, print, Internet and other venues, with the goals of educating New Yorkers about the health risks of tobacco use and the dangers of secondhand smoke; motivating tobacco users to stop and promoting use of the New York State Smokers' Quitline; coverage and discussion of tobacco control issues and events in the news media; and strategic use of both paid and earned media to advocate for tobacco control policies and practices.

### **Cessation Interventions**

The most effective interventions to support cessation are raising the price of tobacco products, banning smoking from workplaces and public places and emotionally evocative paid media campaigns that make a compelling case for quitting.

In addition to these environmental interventions, the NY TCP:

- Provides support to health care organizations and providers to establish the policies, practices and procedures to deliver effective tobacco dependence treatment through the work of 19 contracted tobacco cessation centers; and
- Offers telephonic and web-based information, resources, coaching and “starter kits” of nicotine medication to help smokers quit through the New York State Smokers' Quitline, operated under contract by the Roswell Park Cancer Institute.

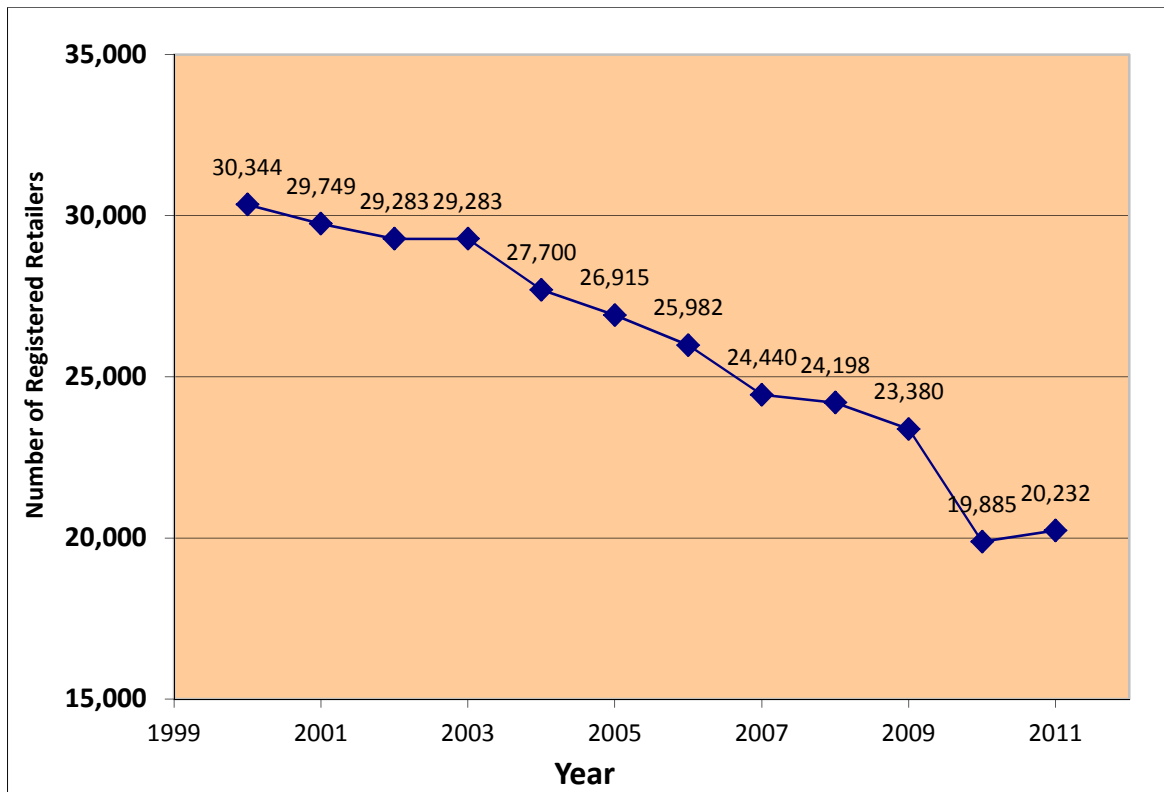

## Program Purpose

The goal of the Tobacco Enforcement Program is to lower the prevalence of tobacco use among youth by reducing tobacco product sales and preventing the onset of its use by this population. Specifically, the program seeks to improve compliance by tobacco retailers with the ATUPA.

## Status and Accomplishments

The New York State Department of Taxation and Finance (DTF) reports the total number of registered tobacco retailers and vendors in New York State. A total of 20,232 tobacco retailers were registered as of June 2011. This represents a decline in the number of tobacco retailers of 10,112 (33%) from the highest reported number of retailers in 2000.

**Number of DTF registered tobacco retailers and vendors in New York State**

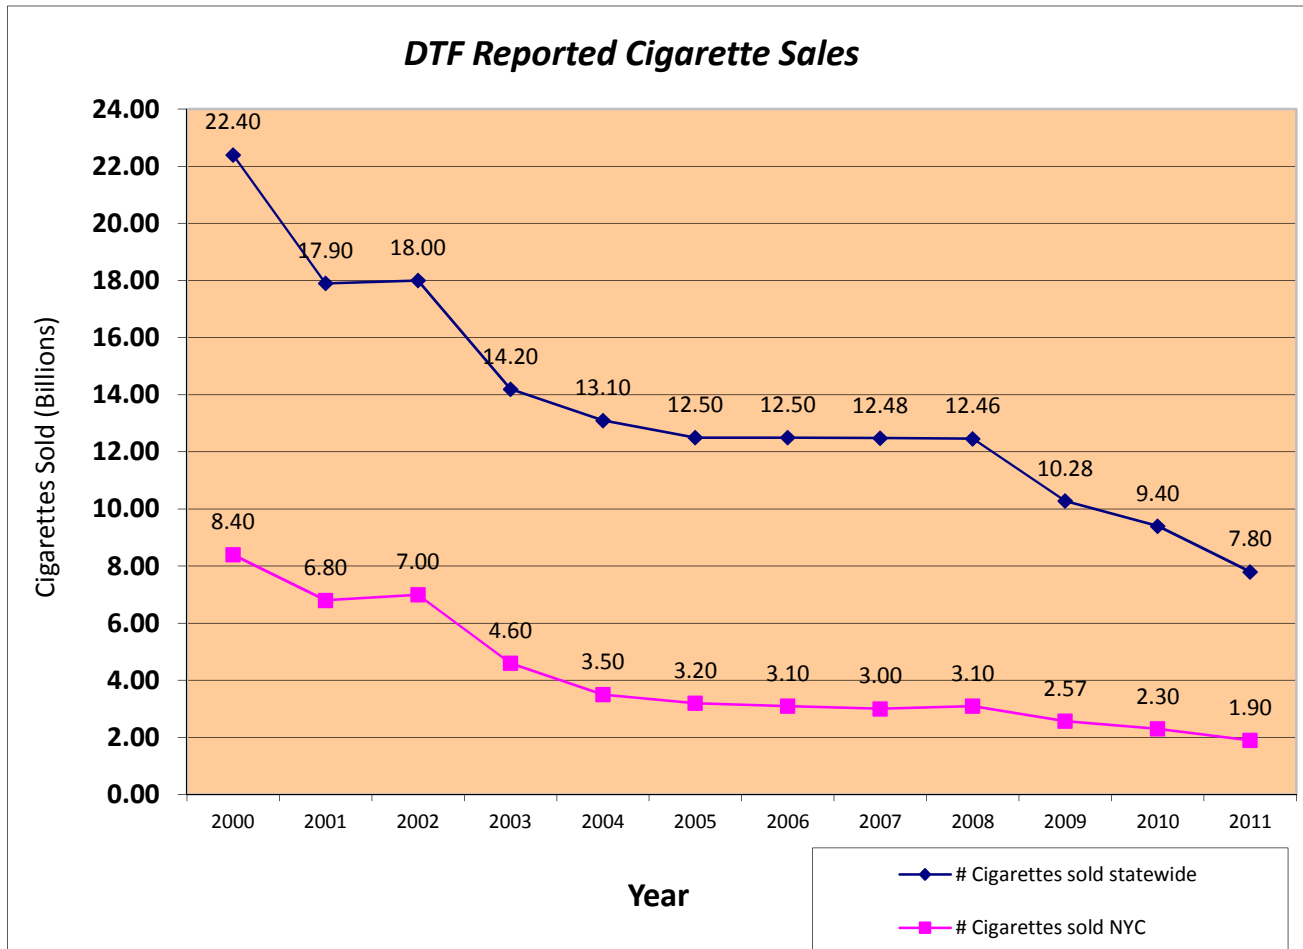

DTF reported number of registered vending machines

The total number of vending machines registered in New York State by DTF during 2011 was 207. This is down from 807 registered in 2010 and considerably lower than the 4,434 registered in 2000.

The Family Smoking Prevention and Tobacco Control Act (Tobacco Control Act) (Public Law 111-31; 123 Stat. 1776) was enacted on June 22, 2009, amending the Federal Food, Drug, and Cosmetic Act (FFDCA) and providing the U.S. Food & Drug Administration (FDA) with the authority to regulate tobacco products. Effective June 22, 2010 vending machines are only permitted in facilities where no one younger than 18 years of age is present or permitted to enter at any time.

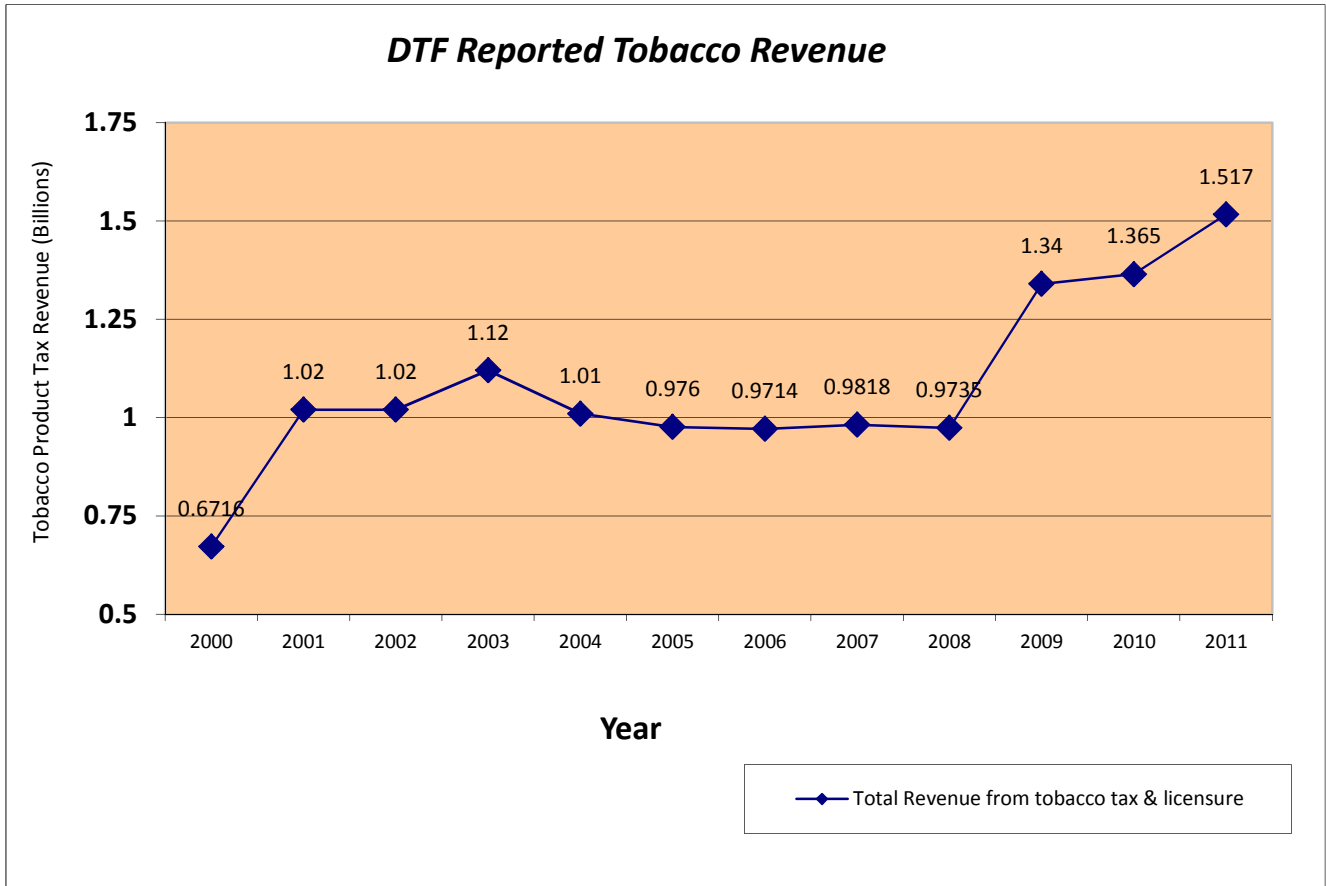

DTF reported number of cigarettes sold in New York State

Approximately 7.8 billion cigarettes were sold in New York State for the fiscal year ending March 31, 2011. Of this number, approximately 1.9 billion were sold in New York City.

DTF reported tax revenue collected in New York State

Excluding local sales tax, the tax revenue collected by the DTF from the sale of cigarettes and tobacco products for the fiscal year ending March 31, 2011, totaled approximately \$1.617 billion and resulted from retailer licensure, vending machine registrations and the excise tax. Retail vendor licensure and vending machines yielded \$189,457 in 2010-2011. The excise tax on cigarettes yielded \$1.517 billion, and other tobacco products yielded \$95.9 million.

The NYSDOH reported the following information.

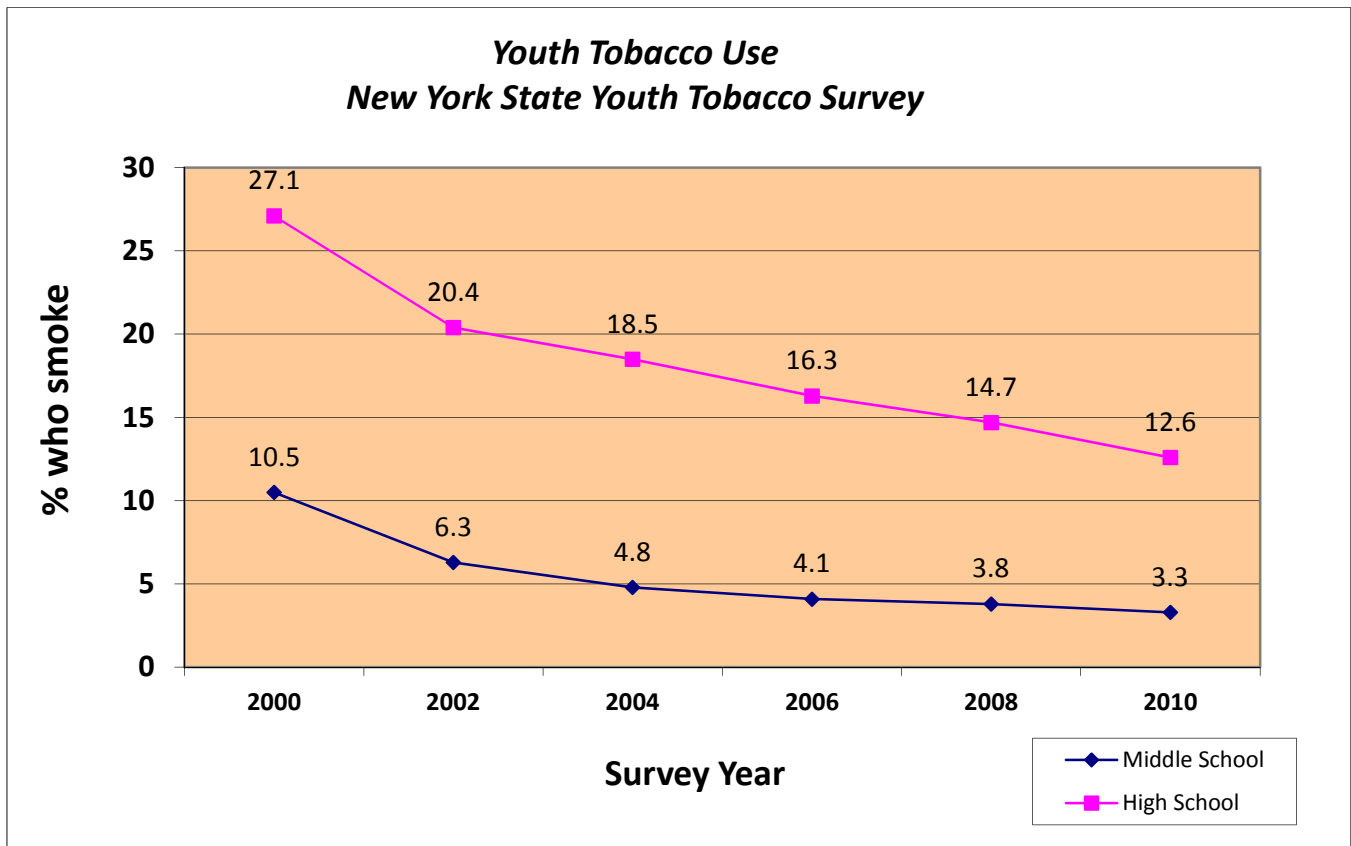

The number and types of compliance checks conducted in New York State: State and local enforcement officers conducted 46,854 compliance inspections during the fourteenth program year (October 1, 2010 to March 31, 2012). Of these, 36,219 were compliance checks where underage youth attempted over-the-counter purchases of tobacco products. Additional visits were made to determine compliance with Department of Taxation and Finance registration or NYSDOH signage requirements, to educate operators of the Public Health Law requirements, to verify vending machine supervision and location compliance, or to investigate complaints. Appendix 1 reflects a county-by-county listing of compliance investigations. Appendix 1A reflects a county-by-county 6 year summary of the sale to minor violation rate. Appendix 1B reflects the sale to minor violation rate by facility type.

Number of complaints filed against registered tobacco retailers and vendors in New York State: During the time period October 1, 2010 – March 31, 2012 a total of 384 inspections were conducted in response to 231 complaints received concerning ATUPA violations. One hundred seventy-seven complaints were filed against “registered” tobacco retailers. Included in Appendix 1 is a county-by-county breakdown.

The names and addresses of retailers and vendors reported by local enforcement officers to have paid fines or been otherwise penalized due to tobacco enforcement actions in New York State: During the time period October 1, 2010 to March 31, 2012, state and local enforcement officers conducted 46,854 inspections of tobacco retailers to assess compliance with the State’s Public Health Law (ATUPA). A total of 1,919 enforcement actions were taken for ATUPA violations and more than \$1.52 million in fines were assessed. The names of penalized tobacco retailers and vendors are listed by county in Appendix 2.

The number of tobacco users and trends among minors in New York State: New York State conducts a Youth Tobacco Survey every other year to develop statewide estimates of tobacco use and related behaviors and attitudes for students from grades 6 to 12. The survey includes questions about tobacco use, exposure to environmental tobacco smoke, minors' ability to purchase or otherwise obtain tobacco products, knowledge and attitudes about tobacco and familiarity with pro- and anti-tobacco media messages. A total of 83 public, parochial and other private schools agreed to participate in the survey with a total of 9,503 students

completing the survey in 2010. The results of the survey are applicable to New York State youth attending middle school or high school. There was a significant downward trend in current use of cigarettes by high school and middle school students in each year from 2000 through 2010. Additional data from the 2010 National Youth Tobacco Survey are found in Appendix 4.

Funding disbursement: Appendix 5 lists the funding amounts distributed to 35 county health departments, the New York City Department of Health and Mental Hygiene and the New York City Department of Consumer Affairs to conduct, as enforcement officers, youth access tobacco enforcement activities. As guided by Section 1399-hh of the Public Health Law, funding was based on the number of retail facilities registered with the Department of Taxation and Finance to sell tobacco products within the local health department’s jurisdiction. Nine State Health Department district offices conducted compliance checks in the 22 upstate counties that do not, or did not elect to, conduct enforcement activities in their counties.

Enforcement: Fourteen-hundred-and one vendors were reported to the Department of Taxation and Finance for lack of required registration to sell tobacco products from October 1, 2010 to March 31, 2012. As a result, the Department of Taxation and Finance verifies the status and notifies unregistered vendors of the need to pay a fee to gain a registration and fines them up to \$3,500 for non-compliance. During compliance checks conducted from October 1, 2010 to March 31, 2012, under-aged youth purchased tobacco 1,808 times. By the close of the program year, health officers assessed fines totaling \$1,520,450 against tobacco vendors for ATUPA violations and finalized enforcement against 1,919 of the vendors. Fines collected for the period October 1, 2010 to March 31, 2012 totaled \$1,295,838.

During the reporting period from October 1, 2010 – March 31, 2012, a total of 274 tobacco retailers' registrations to sell tobacco products were suspended by the Department of Taxation and Finance as a result of multiple enforcement actions for selling tobacco to underage youth. Of this total, 265 were suspended for six months, four for one year and five permanently. There were also 91 lottery agent licenses suspended for six months for multiple sales to minors.

\*\* Includes compliance checks conducted by adult inspectors for out of the package cigarettes, self-service restrictions, bidis, gutka, etc.

<sup>1</sup> Total for years 3 through 14, data not collected in the first two program years.

<sup>2</sup> The FFY 2011 program year covers 18 months, October 1, 2010 to March 31, 2012.

### New York State Tobacco Vendor Non-Compliance Rate ATUPA Program Years 1-14

The vendor non-compliance rate for FFY 1998 & 1999 is based on the number of enforcement actions for illegal sales to minors; the 2000-2011 rate is based on the actual number of sales to minors.

\* The FFY 2011 contract period covers the 18 months from October 1, 2010 to March 31, 2012.

The New York State Department of State reported the following information:

Number of fires and related injuries and deaths caused or believed to be caused by tobacco products: The New York State Department of State's Fire Reporting System data for the period of October 1, 2009 to September 30, 2010, identified 1,033 fires classified as being caused by abandoned or discarded cigarettes. There were 30 deaths and 25 injuries to civilians resulting from fires caused by tobacco products. Eight firefighters were also injured. Appendix 6 includes a breakdown of tobacco-related fire statistics by county.

The New York State Education Department reported the following information:

A survey of attitudes and behaviors regarding tobacco use among minors: During 1999, 2003, 2005, 2007, 2009 and again in 2011, the New York State Education Department conducted a Federal Center for Disease Control (CDC) funded statewide "Youth Risk Behavior Survey" (YRBS) of students in New York State (including New York City) schools. The survey contains several questions on youth tobacco use and is conducted every two years. For each survey, a new sample of schools and students is selected; student participation is voluntary. In 1999, 3,312 ninth through twelfth grade students representing 97 schools participated. In 2003, 9,320 ninth through twelfth grade students representing 140 schools participated (the sample from the 2001 survey was not large enough to be compiled into weighted data). In 2005, 9,708 ninth through twelfth grade students representing 146 schools participated. ). In 2007, 13,439 ninth through twelfth grade students representing 144 schools participated. In 2009, 14,870 ninth through twelfth grade students representing 144 schools participated. In 2011, 13,201 ninth through twelfth grade students representing 136 schools participated. New York State data from the YRBS for 2005, 2007, 2009 and 2011 is included in Appendix 3.

Note: \* 95% Confidence Interval

Bidis - a product containing tobacco that is wrapped in tamberni leaf (*diospyros melanoxylon*) or tendra leaf (*diospyros exculpra*).

Kreteks - a cigarette containing a blend of cloves and tobacco.

Hookah - a single or multi-stemmed water pipe for smoking.
