- **Link and Retain Persons with HIV in Care and Maintain Viral Suppression**
- **Use Pre-exposure Prophylaxis to Prevent New Infections among HIV Negative Persons**
- **Additional Recommendations in Support of Decreasing New Infections and Disease Progression**
- **Getting to Zero**

III. Process for Updating and Reporting on Blueprint Progress

IV. Appendices

- **Task Force Membership List**
 - **Task Force Organizational Chart**
 - **Task Force Meeting and Committee Summaries**
 - **Link to All Recommendations Submitted to the Task Force through November 26, 2014**
 - **Link to All Resources Provided to Task Force Members**
 - **Regional Listening Forum Summaries**
- 

Background on the Task Force

- Governor's Announcement
 - Epidemiology
 - Community involvement
 - Task Force Process
- 

Recommendations

Identify Undiagnosed Persons and Linking Them To Care.

- Strategies and Activities
- Policy
- Investment
- Populations
- Metrics

Link and Retain Persons with HIV in Care and Maintain Viral Suppression.

- Strategies and Activities
- Policy
- Investment
- Populations
- Metrics

Use Pre-exposure Prophylaxis to Prevent New Infections among HIV Negative Persons.

- Strategies and Activities
- Policy
- Investment
- Populations
- Metrics

➤ Additional Recommendations in Support of Decreasing New Infections and Disease Progression

➤ Getting to Zero

Process for Updating and Reporting on Blueprint Progress

- Regular process reports.
 - Accommodate the evolution of strategies.
 - Annual performance review and update on key factors.
- 

Appendices

- Task Force Membership List
 - Link to All Recommendations Submitted to the Task Force
 - Link to All Resources Provided to Task Force Members
 - Task Force Organizational Chart
 - Task Force Meeting and Committee Summaries
 - Statewide Regional Listening Forum Summaries
- 

Considerations

- ✓ How to differentiate among potential levels of impact among Recommendations.
- ✓ How not to lose sight of Recommendations that may not be of the highest impact but are important and easily implemented.
- ✓ How to describe possible benefits of implementing Recommendations on areas other than HIV/AIDS.
- ✓ How to ensure transparency and multi-sector involvement from January 2015 through 2020.
- ✓ How to manage Blueprint updates as advances in treatment, prevention, support, data or policy occur.
- ✓ How to reflect the specific needs of critical populations.
- ✓ How to differentiate between expanding successful existing models versus the need to initiate new efforts.
- ✓ How to leverage academia, research and evaluation capacity.
