New York State Medicaid Drug Utilization Review Board Meeting Agenda

The Drug Utilization Review (DUR) Board will meet April 22, 2015, from 9:00 a.m. to 4:00 p.m., Meeting Room 6, Concourse, Empire State Plaza, Albany, New York

Agenda Items

Preferred Drug Program (PDP)

The DUR Board will review therapeutic classes, described and listed below, as they pertain to the PDP. The therapeutic classes to be reviewed contain new relevant clinical and/or financial information. Therapeutic classes not included on this agenda may be reviewed at a later date.

- The Board will review new clinical and financial information as required, to recommend preferred and non-preferred drugs. ^
- The Board will only consider clinical information which is new since the previous review of the therapeutic class and then consider financial information.
- New clinical information may include a new drug or drug product information, new indications, new safety information or new published clinical trials (comparative evidence is preferred, or placebo controlled when no head-to-head trials are available). Information in abstract form alone, posters, or unpublished data are poor quality evidence for the purpose of re-review and submission is discouraged.
- Those wishing to submit new clinical information must do so in an electronic format by April 9, 2014 or the Board may not have ample time to review the information.

^ The current preferred and non-preferred status of drugs subject to the Preferred Drug List (PDL) may be viewed at
