

CHRONIC CONDITIONS: Chronic conditions in the context that we wish to use for the Health Homes implies an impactful health condition that requires ongoing monitoring and care. The condition should not be incidental to the care of the member, but significantly impactful on their health and well-being. For example, being near-sighted is a common chronic condition for which a simple treatment of eye glasses/contacts resolves the impact of the condition. Having macular degeneration, on the other hand, requires ongoing monitoring and care to reduce the risk of blindness which is very impactful upon the health and well-being of a member. The following list is likely not exhaustive but is reasonably comprehensive in intent.

System:	Condition:
Neurovasacular/CNS:	Cerebral vascular incident with or without paralysis/neurological deficit
	Neurodegenerative Diseases (including MS, Parkinsons, etc.)
	Alzheimer's Disease and Other Dementias
	Cerebral Palsy
	Acquired/Congenital Brain Anomalies such as aneurysm
	Chronic Neuromuscular/Other Neurological Diagnoses
	Seizure Disorders
Ocular:	Blindness, Visual Loss including macular degeneration, and other significant chronic eye diagnoses
Congenital Facial Anomalies:	Congenital Maxillo-facial Anomalies -- including cleft palate syndromes requiring ongoing care
Pulmonary:	Chronic Obstructive Pulmonary Disease and Bronchiectasis
	Other Major Chronic Pulmonary Diagnoses including congenital anomalies/genetic diseases
	Asthma
Cardiovascular:	Major Congenital Heart Disease
	Congestive Heart Failure
	Cardiomyopathies
	Valvular Disorders
	Ischemic Heart Disease including post-surgical intervention for symptom control
	Chronic cardiac arrhythmias and dysrhythmia requiring medication or other intervention
	Hypertension
	Significant Vascular Disease of the Major Arteries and Veins (such as aortic aneurysm)
Peripheral Vascular Disease requiring medical treatment	
	Chronic Venous Insufficiency with ulceration and other chronic manifestations requiring medical intervention
Gastrointestinal:	Inflammatory Bowel Disease, e.g., Crohn's
	Congenital GI Disorders, e.g., short bowel syndrome; Prune Belly
	Chronic Gastrointestinal Disorders affecting nutrition, e.g., acquired short bowel syndrome
	Alcoholic Liver Disease including cirrhosis
	Non-alcoholic Liver Disease including chronic hepatitis C and B
	Chronic Pancreatic and Liver Disorders with Symptoms
Musculo-Skeletal:	Significant Congenital/Acquired Bone, Cartilage, and Muscle Diagnoses such as spina bifida, O.I.

	History of Hip Fracture Age > 64 Years
	Spinal Stenosis
	Abnormalities in the structure of the Spine without correction/with symptoms
	Amputation and Bone Disease placing Limb at Risk
	Symptomatic Disc Disease and Other Chronic Back Diagnoses
	Crystal Arthropathy
	Major Joint Replacement
	Osteoporosis
	Connective Tissue Disease and Vasculitis
	Rheumatoid Arthritis
	Spondyloarthropathy and Other Inflammatory Arthropathies
Dermatologic:	Significant Chronic Dermatological Condition (requiring ongoing medical management)
Endocrine:	Diabetes Mellitus
	Chronic Metabolic, Endocrine and Immune Diagnoses Requiring Medical Intervention
	Thyroid Diseases requiring ongoing treatment
	Obesity
Renal:	Chronic Renal Failure
	History of Renal Transplant
	Major Anomalies of the Kidney and Urinary Tract Requiring Ongoing Management
	Nephritis
	Chronic Genitourinary Conditions Requiring Ongoing Medical Intervention
Congenital Developmental D/O:	Chromosomal Anomalies and Syndromes such as Down's
	Severe / Profound to Moderate Mental Retardation
	Pervasive Development Disorder
	Developmental Delay NOS / NEC / Mixed
Immunologic:	Immune System Disorders
Hematological:	Sickle Cell Anemia and other genetic anemias with significant symptoms
	Coagulation Disorders (not related to anticoagulation therapy for another diagnosis)
	Chronic Hematological and Immune Diagnoses requiring ongoing medical management
	Chronic Lymphoid Leukemia
	Chronic Non-Lymphoid Leukemia
Infectious:	Chronic Infections such as TB, Hep B, Hep C
	HIV/AIDS
Mental Health:	Schizophrenia
	Eating Disorder
	Bi-Polar Disorder
	Conduct, Impulse Control, and Other Disruptive Behavior Disorders
	Depressive and Other Psychoses
	Major Personality Disorders
	Other Chronic Mental Health Diagnoses Requiring Medical Intervention
Substance Abuse:	Substance Abuse
	Chronic Alcohol Abuse/Dependence
Trauma:	History of Significant second and third degree burns requiring significant chronic care

MALIGNANCIES AND CERTAIN
 CATASTROPHIC CONDITIONS
 ARE NOT CURRENTLY INCLUDED
 IN HEALTH HOMES -
 THEY ALSO DO NOT EXCLUDE
 SOMEONE FROM HEALTH
 HOMES IF THERE WERE
 OTHER CHRONIC CONDITIONS -
 IF SOMEONE HAS A CANCER
 + ANOTHER CHRONIC -> COULD
 REFER TO HEALTH HOME
 FOR EVALUATION AND
 HAVE HEALTH HOME DETERMINE
