

RESOURCES **TRUST FUNDS**

NOTE: Although exception trusts created in accordance with the criteria set forth above are exempt as resources in the eligibility determination process regardless of the disabled individual's age, for purposes of the transfer provisions, any additions to the trust after the individual becomes 65 years of age are subject to applicable transfer penalties.

Amounts paid out of the pooled trust for the benefit of the disabled individual subsequent to the transfer and prior to the Medicaid eligibility determination for nursing home care must be used to offset all or a portion of the assets transferred to the trust. It is the responsibility of the disabled individual to provide proof of the amounts that the non-profit association which managed the pooled trust paid for expenses to meet the needs of the individual during this period. (See **RESOURCES TRANSFER OF ASSETS**)

It is the responsibility of the trustee of an exception trust to ensure that the funds are expended for the benefit of the disabled person. In some cases, this disbursement of funds may indirectly benefit someone other than the beneficiary. Such disbursements are valid, as long as the primary benefit accrues to the disabled person. For example, payment of travel expenses for a companion to a disabled person going on vacation may be appropriate. Also, the abilities and capabilities of the person are taken into account. The purchase of sophisticated computer equipment to assist a physically disabled person to communicate would be considered appropriate, while purchase of the same type of equipment for an individual who could not be trained to use it, would not.

b. Irrevocable Trust – An irrevocable trust is a trust created by an individual, over which the individual may or may not be able to exercise some control, but which may not be cancelled under any circumstances.

When an irrevocable trust is established by an SSI-related A/R or the A/R's spouse on or after August 11, 1993, any portion of the trust principal, and income generated by the trust principal, from which no payments may be made to or for the benefit of

RESOURCES
TRUST FUNDS

the A/R or the A/R's spouse, is considered to be an asset transferred for less than fair market value for purposes of the transfer of assets rule. (See **RESOURCES TRANSFER OF ASSETS**)

1. Payments made from the trust to or for the benefit of the A/R of any category or the A/R's spouse are considered available income in the month received. Any portion of the principal of the trust, or the income generated from the trust, which can be paid to or for the benefit of the SSI-related A/R or the A/R's spouse, is considered an available resource. If the language of the trust specifies that the money can be made available for a specific event, that amount is considered an available resource to an SSI-related A/R, whether or not that event has occurred.
2. Payments which are made from trust assets considered available to the SSI-related A/R or the A/R's spouse, as described in paragraph (1) above, and which are not made to or for the benefit of the A/R or the A/R's spouse, are considered assets transferred for less than fair market value for purposes of the transfer of assets rule. (See **RESOURCES TRANSFER OF ASSETS**)

c. Revocable Trust – A revocable trust is a trust created by an individual, which the individual has the right to revoke or terminate.

When a revocable trust is established by an SSI-related A/R or the A/R's spouse, the entire value of the trust is considered an available resource.

1. All payments made from the trust to or for the benefit of the A/R of any category or the A/R's spouse are considered available income in the month received.
2. All payments made from the trust fund to a person other than the SSI-related A/R or the A/R's spouse are considered to be assets transferred for less than fair market value for purposes of the transfer of assets rule. (See **RESOURCES TRANSFER OF ASSETS**)

d. Supplemental Needs Trust (SNT) – A supplemental

RESOURCES

TRUST FUNDS

needs trust, as defined in Section 7-1.12 of the Estates, Powers and Trust Law, is a trust established for the benefit of an individual of any age with a severe and chronic or persistent impairment, designed to supplement government benefits for which the individual is otherwise eligible. Under the terms of such a trust:

1. the beneficiary does not have the power to assign, encumber, direct, distribute, or authorize distributions from the trust; and
2. the trust document generally prohibits the trustee from expending funds in any way that would diminish the beneficiary's eligibility for or receipt of any type of government benefit.

If a supplemental needs trust conforms to the rules of an exception trust, the trust is not counted for the purpose of determining the eligibility of the A/R who is the beneficiary of the trust. (See **RESOURCES EXCEPTION TRUST**) If the trust was created from the A/R's own assets and the trust is not an exception trust, the rules for irrevocable trust apply. Payments made to and for the benefit of a disabled person, other than for personal items, are considered available income. If a supplemental needs trust is created with the assets of someone other than the A/R and the trust is not an exception trust, the trust is a third party trust as defined below. Any distribution of trust assets actually made to the A/R of any category is counted as income in the month received.

e. Testamentary Trust – A testamentary trust is any trust established by will. Testamentary trusts are third party trusts, as defined below.

f. Third Party Trusts – A third party trust is a trust established with the funds of someone other than the A/R. A third party trust may or may not be a supplemental needs trust, as defined in Section 7-1.12 of the Estates, Powers and Trust Law. For purposes of

RESOURCES**TRUST FUNDS**

determining the eligibility of an A/R who is a beneficiary of a third party trust, the principal and accumulated income of the trust are not considered available to the A/R. However, any distributions of trust assets actually made to an A/R of any category are counted as income in the month received.

- Verify Status:**
- (a) When the A/R states that s/he or a member of the household is the trustee of a trust fund;
 - (b) When the A/R states that s/he or a member of the household is the beneficiary of a trust fund;
 - (c) When the A/R states that s/he or a member of the household has created a trust;
 - (d) When the A/R states that s/he has a child who was injured in an accident.

Verification: The local district contacts the trustee, court or financial institution involved to obtain a copy of the trust, determine the terms of the trust, and whether or not it can be invaded.

NOTE: Although SSI-related Medicaid A/Rs who are not seeking coverage of long-term care services (Community Coverage without Long-Term Care) may attest to the amount of their resources (See **RESOURCES DOCUMENTATION REQUIREMENTS**), they must provide documentation of any trust agreement in which the applicant is named the creator or beneficiary. This enables the district to determine the availability of any trust income/principal.

- Documentation:** Sufficient to establish an audit trail:
- (a) Type of trust, name of trustee, name of beneficiary, amount of trust, amount and frequency of payments derived from the trust; and
 - (b) Name of person contacted for verification of trust, date of contact, determination of availability with reasonable explanation.
