What is NYSIIS?

NYSIIS is the New York State Immunization Information System

- Confidential, web-based data system
- Collects and consolidates vaccination information from multiple healthcare providers
- Provider participation mandated by law as of January 1, 2008 for immunizations given to children less than 19 years of age (including immunization histories)
- Lifespan system (with consent, age 19 years or older)

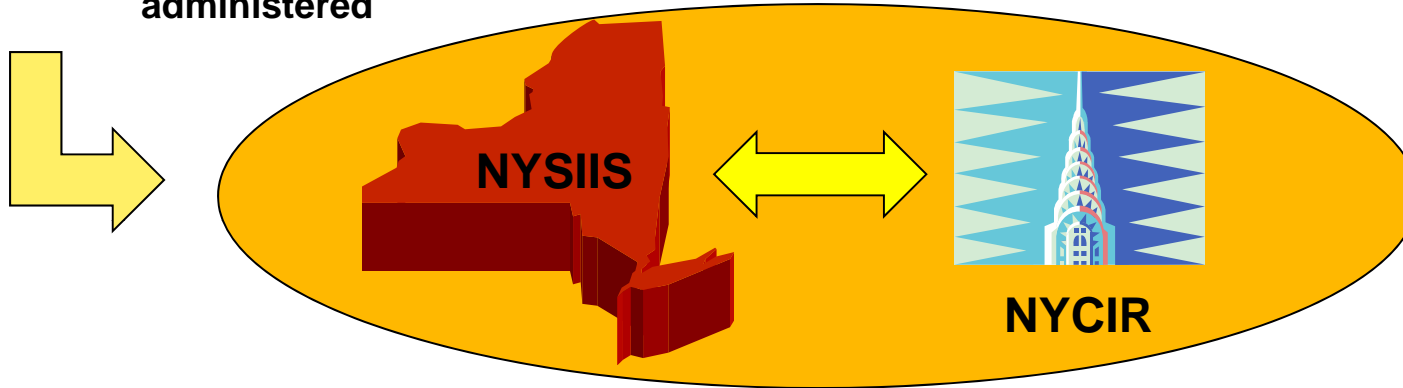

Immunization Registry Law

Who is required to report

- Vital Records: All births in NYS outside of NYC
- Public and private providers, including hospitals
- Only one report required to either NYSIIS or NYCIR, depending on where immunization administered

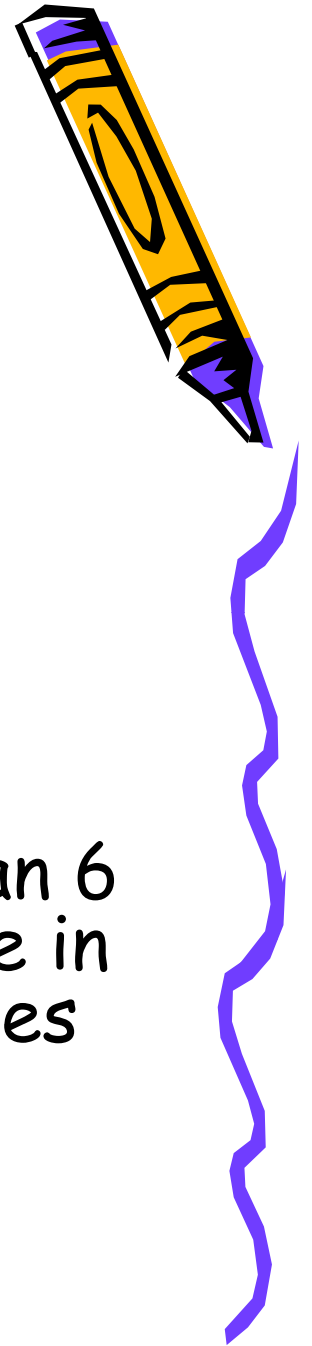

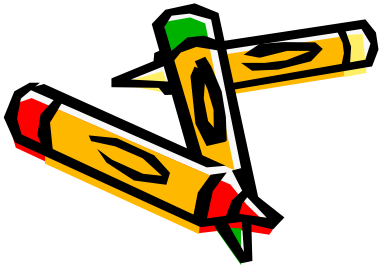

Who can have access to data

- Health care providers
 - Hospitals
 - State and local health departments
 - Certified home health agencies
 - Local social services districts*
 - Office of Children and Family Services*
 - Schools, including licensed day care centers*
 - Health insurance plans*
 - Parents (through HCP only)
 - Women, Infant and Children (WIC) clinics
- *View-only access unless they administer immunizations

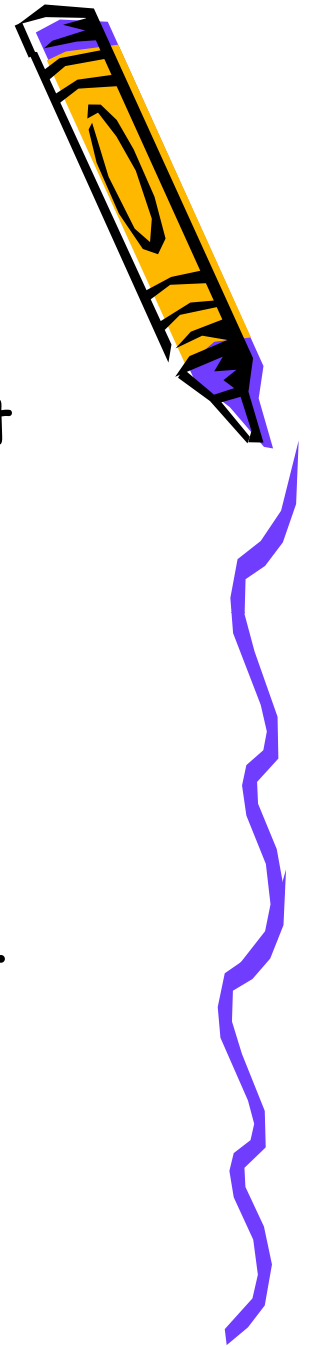

NYSIIS Stats

- System went live for providers on February 25, 2008.
- As of July 20, 2010 NYSIIS contains 3.2 million patients and 37.9 million immunizations.
 - 9,625 user accounts established from 3,203 participating organizations.
- Approximately 80% of children less than 6 years of age with two or more shots are in the system, though this percentage varies by region.

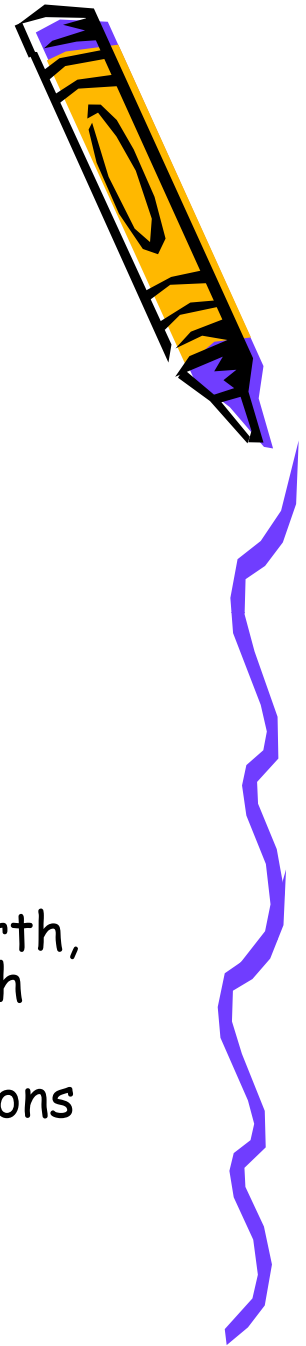

NYSIIS School Users

- Schools can have read-only access for student look up.
 - Data cannot be entered or edited by school users.
- School nurses must participate in a recorded NYSIIS training to gain access to NYSIIS.
 - Register at: <http://nysdoh.webex.com>
- Users **MUST** have their own NYSDOH Health Commerce System account to access NYSIIS.

School User Functions

- Find Student
 - Student Info, Immunization History, Recommended Vaccines
- Manage Lists
 - Create or edit up to 10 lists
- School Reports
 - Student list (name, DOB for each student in the selected list)
 - Student immunization history list (name, date of birth, immunization history, recommended vaccine for each student in the selected list)
 - Immunizations due (name, date of birth, immunizations due for each student in the selected list).
