

Iron-Fortified Infant Formulas That Do Not Require Medical Statements In CACFP

We recommend that the day care center or home offer the type of formula that the infant's health care provider has suggested to the infant's parent (or guardian). If the child care facility offers a different type of formula, the infant's parent may choose to decline the offered formula, and supply another type. Meals containing only infant formula supplied by a parent, and no other component, are not reimbursable.

Follow-up Iron-fortified Formulas that Do Not Require Medical Statements when They are Served to Infants at the Ages Indicated:

When served to infants 4 months and older:

These types of formulas do not require medical statements when they are served to infants 4 months of age or older. (A medical statement is required if they are served to infants less than 4 months of age):

- Carnation Follow-up Formula (milk-based) – This formula is specifically designed for infants 4 to 12 months of age who are eating cereal and other baby foods.
- Carnation Follow-up Soy Formula (soy-based) – This formula is specifically designed for infants 4 to 12 months of age and older who are eating cereal and other baby foods.
- Gentle Moments 2 Infant Formula with Iron (milk-based, sold through Wal-Mart) – This formula is designed for infants 4 months as the infant grows and adjusts to solid foods.
- Wyeth-produced Private Store Brand "Follow-on" Infant Formulas – These types of formulas are designed for infants 4 months and older and are intended to replace traditional starter formula when an infant is eating cereal and other baby foods. They are not intended to replace breastmilk. These formulas have been specially formulated for use as a supplement to the solid food portion of the older infant's diet:
