

The New York State Prehospital Pediatric Care Course, 2001: A Continuing Education Course for EMTs

Credits:

This curriculum was developed by the Fire Department of the City of New York under contract with the New York State Department of Health/Health Research Incorporated. Funding was provided through grant #6 H33 MC 00036 from the Emergency Medical Services for Children Program. The Emergency Medical Services for Children (EMSC) Program is administered by the Maternal and Child Health Bureau, Health Resources and Services Administration, Public Health Service, U.S. Department of Health and Human Services in cooperation with the National Highway Traffic Safety Administration.

Health Research Incorporated (HRI) retains title and copyright of this curriculum. This curriculum should not be published or duplicated without prior written consent of HRI, except as required by law. Any references to this curriculum should include the New York State Department of Health and the State of New York.

Acknowledgements:

This curriculum is based on *The Teaching Resource for Instructors in Prehospital Pediatrics (1998, Version 2)* and the teachings of its authors; George Foltin, M.D.; Michael Tunik, M.D.; Arthur Cooper, M.D.; David Markenson, M.D.; Marsha Treiber, M.S.; Regina Phillips and Tamia Karpeles. Illustrations and charts used in this curriculum are taken from TRIPP. In every aspect of this PCC curriculum, their work provides the cornerstones of the teaching.

This curriculum is not a substitute for regional protocol. If conflicts arise between regional protocol and this curriculum, follow regional protocol.

The overall objective of this program is to make prehospital pediatric care more accessible to all EMTs and First Responders. Each lesson may be used independently or in combination with others as needed.

Authors:

Ann M. Fitton, EMT-P, Wilfredo Silvestry, EMT-P, John S. McFarland, EMT-P,
