Pursuant to the authority vested in the Commissioner of Health by Section 2807-z(9) of the Public Health Law, Section 86-4.16(d) of Title 10 (Health) of the Official Compilation of Codes, Rules and Regulations of the State of New York is hereby amended to be effective upon publication of a Notice of Adoption in the New York State Register, to read as follows:

Subdivision (d) of section 86-4.16 of 10 NYCRR is amended to read as follows:

(d) Documented increases in overall operating costs of a facility resulting from capital renovation, expansion, replacement or the inclusion of new programs, staff or services approved by the commissioner through the certificate of need (CON) process may be the basis for an application for revision of a certified rate, provided, however, that such CON approval shall not be required with regard to such applications for rate revisions which are submitted by federally qualified health centers or rural health centers which are exempt from such CON approval pursuant to section 2807-z of the Public Health Law. To receive consideration for reimbursement of such costs in the current rate year, a facility shall submit, at the time of appeal or as requested by the commissioner, detailed staffing documentation, proposed budgets and financial data, anticipated utilization expressed in terms of threshold visits and/or procedures and, where relevant, the final certified costs of construction approved by the department. An appeal may be submitted pursuant to this paragraph at any time throughout the rate period. Any modified rate certified or approved pursuant to this paragraph shall be effective on the date the new service or program is implemented or, in the case of capital renovation, expansion or replacement, on the date the project is completed and in use.
REGULATORY IMPACT STATEMENT

Statutory Authority:

The statutory authority for this regulation is contained in Public Health Law (PHL) § 2807-z(9), which authorizes the Commissioner to promulgate regulations implementing the provisions of PHL § 2807-z, which, among other things, exempts diagnostic and treatment centers (DTCs) which are federally qualified health centers (FQHCs) from certificate of need (CON) requirements for capital projects which are budgeted at under $3 million. The rate regulation revisions presented here are set forth in section 86-4.16(d) of Title 10 (Health) of the Official Compilation of Codes, Rules, and Regulations of the State of New York (NYCRR) and allows certain Medicaid rate adjustments related to such CON exempt capital projects.

Legislative Objectives:

PHL § 2807-z exempts FQHCs from having to seek CON review and approval for certain capital projects with budgeted costs under $3 million. This will allow such projects to go forward more quickly. The proposed regulation amendment implements this statute by deleting the requirement in § 86-4.16(d) for CON approval as a condition for FQHCs to secure Medicaid rate adjustments associated with such now CON exempt capital projects.

Needs and Benefits:

The proposed regulation implements the provisions of PHL Section 2807-z, which exempts certain types of diagnostic and treatment centers from CON review for capital projects under $3 million. As specified in PHL § 2807-z(6) and (7), the exempted facilities are those which receive federal grant funding reflecting their designation by the federal government as FQHCs or as rural health centers.
COSTS:

Costs to Private Regulated Parties:

There will be no additional costs to private regulated parties.

Costs to State Government:

The enacted state budget for SFY 2012-13 does not include any state share annually to cover the anticipated 12 month total incremental cost to the Medicaid Program for providing reimbursement related to eligible capital projects. As the FQHC payment rate was not effective until after January 1, 2013, less spending occurred in the 2012-13 fiscal year due to the nine month delay in implementation.

Costs of Local Government:

Local districts’ share of Medicaid costs is statutorily capped; therefore, there will be no additional costs to local governments as a result of this proposed regulation.

Costs to the Department of Health:

There will be no additional costs to the Department of Health as a result of this proposed regulation.

Local Government Mandates:

The proposed regulation does not impose any new programs, services, duties or responsibilities upon any county, city, town, village, school district, fire district or other special district.

Paperwork:

No additional paperwork is required to be filed by FQHCs.
**Duplication:**

This regulation does not duplicate any existing federal, state or local government regulation.

**Alternatives:**

No significant alternatives are available. The enhanced reimbursement available to FQHCs as a result of this proposed regulation ensures that their Medicaid rates reflect appropriate adjustments related to CON exempt capital projects and are therefore, are reasonable to meet the needs of the diverse patient populations they serve.

**Federal Standards:**

The proposed regulation does not exceed any minimum standards of the federal government for the same or similar subject areas.

**Compliance Schedule:**

The proposed regulation conforms Medicaid rate regulations with the provisions of enacted provisions of the Public Health Law. There is no period of time necessary for regulated parties to achieve compliance with the regulation.

STATEMENT IN LIEU OF

REGULATORY FLEXIBILITY ANALYSIS

No regulatory flexibility analysis is required pursuant to section 202-b(3)(a) of the State Administrative Procedure Act. The proposed amendment does not impose an adverse economic impact on small businesses or local governments, and it does not impose reporting, record keeping or other compliance requirements on small businesses or local governments.
No rural area flexibility analysis is required pursuant to section 202-bb(4)(a) of the State Administrative Procedure Act. The proposed amendment does not impose an adverse impact on rural areas, and it does not impose reporting, record keeping or other compliance requirements on public or private entities in rural areas.
JOB IMPACT STATEMENT

A Job Impact Statement is not required pursuant to Section 201-a(2)(a) of the State Administrative Procedure Act. It is apparent from the nature and purpose of the proposed rule that it will not have a substantial adverse impact on jobs or employment opportunities. The proposed regulation establishes a Federally Qualified Health Center (FQHC) rate-setting methodology to reimburse Diagnostic and Treatment Centers for the capital costs of less than $3 million which are not subject to the regulation regarding certificate of need process or requirements. The proposed regulation has no adverse implications for job opportunities. Rather, the additional revenue generated by FQHCs as a result of the new payment rate may provide them with the financial resources they need to add staff, thus enhancing their ability to provide expanded services.
