<b>ID Care Plan for Disruptive Behaviors</b>				
<b>Problem/Strength</b>	<b>Date/Goal</b>	<b>Approach</b>	<b>Discipline</b>	<b>Outcomes</b>
1. Resident scratches, bites and kicks CNA's during personal care 1-3x per shift on all 3 shifts.	Resident will have 1 less episode per shift of physically aggressive behavior during personal care per day for the next month.	<ol style="list-style-type: none"> <li>1. A meeting will be held with caregivers on each shift to discuss possible causative factors and effective and ineffective approaches used.</li> <li>2. All members of the direct caregiving team and the ID team will track and document all actual physically aggressive behavior (PAB) they observe and the circumstances surrounding it Using EDGE Worksheets for the next week (e.g. 2/3-2/10).</li> <li>3. Environmental factors present before, during and following the behavior will be recorded also.</li> <li>4. Family will be consulted for help in understanding PAB in light of resident preferences for ADL's and past history of coping skills.</li> <li>5. ID team will plan approaches based on information obtained.</li> </ol>		
Resident has had fewer incidents of PAB in last 2 wks. since new care plan approaches have been used by staff (now 3x per wk. instead of 3x per day) since 5/15	Resident will have fewer than 3 incidents of PAB per wk. for the next 4 wks.	<ol style="list-style-type: none"> <li>1. All staff caring for resident will learn approaches found to be effective in preventing PAB in resident.</li> <li>2. Staff will continue to use EDGE worksheets to track disruptive behaviors and plan new approaches as needed</li> </ol>
