By December 1 of each calendar year, SDOH will issue the general parameters of the Quality Incentive measures to be implemented for the subsequent year which form the basis for awarding the Quality Incentive in the year following the measurement. In no instance will quality data scores for years prior to measurement year 2007 be utilized for contract termination.

- iii) If SDOH suspends, limits or revokes Contractor's Certificate of Authority under PHL § 4404, and:
- A) if such action results in the Contractor ceasing to have authority to serve the entire contracted service area, as defined by Appendix M of this Agreement, this Agreement shall terminate on the date the Contractor ceases to have such authority; or
 - B) if such action results in the Contractor retaining authority to serve some portion of the contracted service area, the Contractor shall continue to offer its MMC and/or FHPlus products under this Agreement in any designated geographic areas not affected by such action, and shall terminate its MMC and/or FHPlus products in the geographic areas where the Contractor ceases to have authority to serve.
- iv) No hearing will be required if this Agreement terminates due to SDOH suspension, limitation or revocation of the Contractor's Certificate of Authority.
- v) Prior to the effective date of the termination the SDOH shall notify Enrollees of the termination, or delegate responsibility for such notification to the Contractor, and such notice shall include a statement that Enrollees may disenroll immediately without cause.
- b) Contractor and SDOH Initiated Termination

The Contractor and the SDOH each shall have the right to terminate this Agreement in its entirety, for the Contractor's MMC or FHPlus product, or for any or all products in specified counties of the Contractor's service area, in the event that SDOH and the Contractor fail to reach agreement on the monthly Capitation Rates. In such event, the party exercising its right shall give the other party written notice specifying the reason for and the effective date of

termination, which shall not be less time than will permit an orderly transition of Enrollees, but no more than ninety (90) days.

c) Contractor Initiated Termination

i) The Contractor shall have the right to terminate this Agreement in its entirety, for the Contractor's MMC or FHPlus product, or for any or all products in specified counties of the Contractor's service area, in the event that SDOH materially breaches the Agreement or fails to comply with any term or condition of this Agreement that is not cured within twenty (20) days, or within such longer period as the parties may agree, of the Contractor's written request for compliance. iii) The Contractor shall have the right to terminate this Agreement in its entirety, for either the Contractor's MMC or FHPlus product, or for either or both products in specified counties of the Contractor's service area, if the Contractor is unable to provide services pursuant to this Agreement because of a natural disaster and/or an act of God to such a degree that Enrollees cannot obtain reasonable access to services within the Contractor's organization, and, after diligent efforts, the Contractor cannot make other provisions for the delivery of such services. The Contractor shall give SDOH written notice of any such termination that specifies:

A) the reason for the termination, with appropriate documentation of the circumstances arising from a natural disaster and/or an act of God that preclude reasonable access to services;

B) the Contractor's attempts to make other provision for the delivery of services; and

C) the effective date of the termination, which shall not be less time than will permit an orderly transition of Enrollees, but no more than ninety (90) days.

d) Termination Due To Loss of Funding

In the event that State and/or Federal funding used to pay for services under this Agreement is reduced so that payments cannot be made in full, this Agreement shall automatically terminate, unless both parties agree to a modification of the obligations under this Agreement. The effective date of such termination shall be ninety (90) days after the Contractor receives written notice of the reduction in payment, unless available funds are insufficient to continue payments in full during the ninety (90) day period, in which case SDOH shall give the Contractor written notice of the earlier date upon which the Agreement shall terminate. A reduction in State and/or Federal funding cannot reduce monies due and owing to the Contractor on or before the effective date of the termination of the Agreement.

2.8 Close-Out Procedures

a) Upon termination or expiration of this Agreement in its entirety, for the Contractor's MMC or FHPlus product, or for any or all products in specified counties of the Contractor's service area, and in the event that it is not scheduled for renewal, the Contractor shall comply with close-out procedures that the Contractor develops in conjunction with LDSS and that the LDSS, and the SDOH have approved. The close-out procedures shall include the following:

i) The Contractor shall promptly account for and repay funds advanced by SDOH for coverage of Enrollees for periods subsequent to the effective date of termination;

ii) The Contractor shall give SDOH, and other authorized federal, state or local agencies access to all books, records, and other documents and upon request, portions of such books, records, or documents that may be required by such agencies pursuant to the terms of this Agreement;

iii) If this Agreement is terminated in its entirety, the Contractor shall submit to SDOH, and authorized federal, state or local agencies, within ninety (90) days of termination, a final financial statement, made by a certified public accountant or a licensed public accountant, unless the Contractor requests of SDOH and receives written approval from SDOH and all other governmental agencies from which approval is required, for an extension of time for this submission;

iv) The Contractor shall establish an appropriate plan acceptable to and prior approved by the SDOH for the orderly transition of Enrollees. This plan shall include the provision of pertinent information to identified Enrollees who are: pregnant; currently receiving treatment for a chronic or life

threatening condition; prior approved for services or surgery; or whose care is being monitored by a case manager to assist them in making decisions which will promote continuity of care; and

- v) SDOH shall promptly pay all claims and amounts owed to the Contractor.
- b) Any termination of this Agreement by either the Contractor or SDOH shall be done by amendment to this Agreement, unless the Agreement is terminated by the SDOH due to conditions in Section 2.7 (a)(i) or Appendix A of this Agreement.

2.9 Rights and Remedies

3. COMPENSATION

3.1 Capitation Payments

- a) Compensation to the Contractor shall consist of a monthly capitation payment for each Enrollee and the Supplemental Capitation Payments as described in Section 3.1 (d), 3.9 (b) and (e), and 3.10 (b) where applicable.
- b) The monthly Capitation Rates are attached hereto as Appendix L and shall be deemed incorporated into this Agreement without further action by the parties.
- c) The monthly capitation payments, the Supplemental Newborn Capitation Payment, the Low Birth Weight Kick Payment and the Supplemental Maternity Capitation Payment, when applicable, to the Contractor shall constitute full and complete payments to the Contractor for all services that the Contractor provides, except for payments due the Contractor as set forth in Sections 3.12, 3.13, and 3.14 of this Agreement for MMC Enrollees.
- d) Capitation Rates shall be effective for the entire contract period, except as described in Section 3.2.
- e) In accordance with Section 6.9 of this Agreement, the Contractor shall receive the Aliessa capitation payment for Enrollees listed in the monthly Roster generated by SDOH, or the 834 File generated by the NYSoH, that match Aliessa logic criteria detailed in supplemental guidance issued by SDOH.

3.2 Modification of Rates During Contract Period

- a) Any technical modification to Capitation Rates during the term of the Agreement as agreed to by the Contractor, including but not limited to, changes in premium groups, reinsurance or Benefit Package, shall be deemed incorporated into this Agreement without further action by the parties upon approval of such modifications by the SDOH and the US Department of Health and Human Services (DHHS).
- b) Any other modification to Capitation Rates, as agreed to by the Department and the Contractor during the term of the Agreement shall be deemed incorporated into this Agreement without further action by the parties upon approval of such modifications by the SDOH, the State Division of the Budget and DHHS as of the effective date of the modified Capitation Rates as established by the SDOH and approved by the State Division of the Budget and DHHS.
- c) In the event that the SDOH and the Contractor fail to reach agreement on modifications to the monthly Capitation Rates, the SDOH will provide formal written notice to the Contractor of the amount and effective date of the

modified capitation rates approved by the State Division of the Budget and DHHS. The Contractor shall have the option of terminating this Agreement, in its entirety, for the Contractor's MMC or FHP product, or for any or all products in specified counties of the Contractor's service area, if such approved modified Capitation Rates are not acceptable. In such case, the Contractor shall give written notice to the SDOH and the LDSS within thirty (30) days from the date of the formal written notice of the modified Capitation Rates from the SDOH specifying the reasons for and effective date of termination. The effective date of termination shall be ninety (90) days from the date of the Contractor's written notice, unless the SDOH determines that an orderly transfer of Enrollees to another MCO or disenrollment to Medicaid fee-for-service can be accomplished in fewer days. The terms and conditions of the Contractor's approved phase-out plan must be accomplished prior to termination.

- d) Effective April 1, 2014, it will be incumbent on Contractors to negotiate payment agreements with personal care agencies (PCAs) sufficient to cover expenditures related to the Central Insurance Program (CIP) previously administered by the New York City Human Resources Administration (HRA). This expense covers the Workers' Compensation, disability and general liability insurance for applicable PCAs in New York City. As an alternative to negotiating payment arrangements with the PCAs, Contractors may pay the adjusted HRA rates and postpone negotiating payment agreements until the new provider contract term.
- e) Effective April 1, 2015, and consistent with Sections 11 and 12 of Part B of Chapter 57 of the Laws of 2015, Contractors must reimburse qualifying hospitals at rates published by the SDOH on the Managed Care Publication Schedule for Hospital Quality Pool and Sole Community Hospital Programs.
- f) Pursuant to Section 22 of this Agreement, the Contractor shall include VBP arrangements in subcontracts with Participating Providers. At the sole discretion of the State, the Contractor's Capitation Rate shall be reduced for failure to meet VBP arrangement goals, in accordance with the methodology and timeline as set forth in the NYS VBP Roadmap approved by CMS.

3.3 Rate Setting Methodology

- a) Capitation rates shall be determined prospectively and shall not be retroactively adjusted to reflect actual Medicaid fee-for-service data or Contractor experience for the time period covered by the rates. Capitated rates shall be certified to be actuarially sound in accordance with 42 CFR § 438.6(c).
- b) Notwithstanding the provisions set forth in Section 3.3(a) above, the SDOH reserves the right to terminate this Agreement, in its entirety for the

Contractor's MMC or FHPlus product, or for any or all products in specified counties of the Contractor's service area, pursuant to Section 2.7 of this Agreement, upon determination by SDOH that the aggregate monthly Capitation Rates are not cost effective.

3.4 Payment of Capitation

- a) The monthly capitation payments for each Enrollee are due to the Contractor from the Effective Date of Enrollment until the Effective Date of Disenrollment of the Enrollee or termination of this Agreement, whichever occurs first. The Contractor shall receive a full month's capitation payment for the month in which Disenrollment occurs. The Roster generated by SDOH with any modification communicated electronically or in writing by the LDSS or the Enrollment Broker prior to the end of the month in which the Roster is generated, shall be the Enrollment list for purposes of eMedNY premium billing and payment, as discussed in Section 6.9 and Appendix H of this Agreement.
- b) Upon receipt by the Fiscal Agent of a properly completed claim for monthly capitation payments submitted by the Contractor pursuant to this Agreement, the Fiscal Agent will promptly process such claim for payment and use its best efforts to complete such processing within thirty (30) business days from date of receipt of the claim by the Fiscal Agent. Processing of Contractor claims shall be in compliance with the requirements of 42 CFR § 447.45. The Fiscal Agent will also use its best efforts to resolve any billing problem relating to the Contractor's claims as soon as possible. In accordance with Section 41 of the New York State Finance Law (SFL), the State and LDSS shall have no liability under this Agreement to the Contractor or anyone else beyond funds appropriated and available for this Agreement.

3.5 Denial of Capitation Payments

If the US Centers for Medicare and Medicaid Services (CMS) denies payment for new Enrollees, as authorized by SSA § 1903(m)(5) and 42 CFR § 438.730 (e), or such other applicable federal statutes or regulations, based upon a determination that Contractor failed substantially to provide medically necessary items and services, imposed premium amounts or charges in excess of permitted payments, engaged in discriminatory practices as described in SSA § 1932(e)(1)(A)(iii), misrepresented or falsified information submitted to CMS, SDOH, LDSS, the Enrollment Broker, or an Enrollee, Prospective Enrollee, or health care provider, or failed to comply with federal requirements (i.e. 42 CFR § 422.208 and 42 CFR § 438.6 (h) relating to the Physician Incentive Plans), SDOH and LDSS will deny capitation payments to the Contractor for the same Enrollees for the period of time for which CMS denies such payment.

3.6 SDOH Right to Recover Premiums

a) MMC Recovery Scenarios

SDOH shall have the right to recover capitation payments made to the Contractor for an MMC Enrollee when, for the entire applicable payment month(s), SDOH determines that the MMC Enrollee was or is:

- i) deceased;
- ii) incarcerated;
- iii) non-consensually enrolled;
- iv) no longer residing in the Contractor's service area or New York State;
- v) in Long Term Placement (Permanent Placement) Status in a residential institution or an institutional care facility prior to:

 - B) April 1, 2015, for MMC Enrollees in Westchester, Nassau or Suffolk Counties; or
 - C) July 1, 2015, for MMC Enrollees in remaining counties
- vi) in an Institution for Mental Diseases, unless the capitation payment is allowed pursuant to 42 C.F.R. § 438.6(e);
- vii) a child in receipt of foster care services whose status or placement in foster care renders the child ineligible to be enrolled in the MMC program;
- viii) simultaneously enrolled or in receipt of Comprehensive Third Party Health Insurance coverage;
- ix) simultaneously enrolled or in receipt of comprehensive health care coverage through any government health insurance program;
- x) simultaneously enrolled or in receipt of comprehensive health care coverage through a third party commercial insurer, where the insurer has covered or agrees to cover the Enrollee, who is an infant or the mother of an infant if both will be covered, from the infant's date of birth; or
- xi) otherwise ineligible to be enrolled in the MMC program pursuant to this Agreement or State or federal law.

b) FHPlus Recovery Scenarios

SDOH shall have the right to recover capitation payments made to the Contractor for an FHPlus Enrollee when, for the entire applicable payment month(s), SDOH determines that the FHPlus Enrollee was or is:

- i) deceased;
- ii) incarcerated;
- iii) non-consensually enrolled; or
- iv) no longer resides in Contractor's service area or New York State.

c) Concurrent Fee-for-service (FFS) Payments

SDOH shall have the right to withhold or recover capitation payments made to the Contractor for an Enrollee when FFS claims were paid for benefit package services rendered on behalf of the Enrollee during the applicable payment month(s), and where:

- i) the payment month(s) correspond with a period for which the Enrollee was retroactively enrolled into Contractor's MMC or FHPlus product;
- ii) the Enrollee had been assigned multiple CINs; or
- iii) the Enrollee was no longer eligible for MMC.

d) Duplicate Payments

SDOH shall have the right to recover any duplicate MMC or FHPlus capitation payments made to the Contractor for an MMC or FHPlus Enrollee, respectively. SDOH shall not allow, under any circumstance, duplicate Medicaid payments for an Enrollee, and shall have the right to recover such payments if made.

e) Reimbursement for Encounters and Recovery Rules

- i) For withholds and recoveries made pursuant to Section 3.6(a)(iv)-(vii), (a)(ix)-(xi), (b)(iv), and (c), SDOH shall reimburse the Contractor the cost of benefits provided for any encounter(s) that occurred during the applicable payment month(s) and for which the Contractor has not already received reimbursement from any source.
- ii) For withholds and recoveries made pursuant to Section 3.6(a)(viii) of this Agreement, SDOH shall reimburse the Contractor the cost of the benefits

provided for any encounter(s) that occurred during the applicable payment month(s), except for instances when:

A) the Contractor has already received reimbursement from any source;
or

B) such Comprehensive Third Party Health Insurance coverage is provided through another product offered by Contractor (or a parent, subsidiary, or sister entity).

iii) SDOH reimbursements provided to the Contractor under Section 3.6(e) of this Agreement shall be limited to verifiable expenses.

iv) All withholds and recoveries, and the submission of costs for reimbursement, shall be made pursuant to Appendix H of this Agreement and Guidelines developed by SDOH.

v) Notwithstanding any provision of this Section, no withholds or recoveries shall be made for a period prior to the effective disenrollment dates specified in Section 7 of Appendix H.

3.7 Third Party Health Insurance Determination

a) Point of Service (POS)

The Contractor will make diligent efforts to determine whether Enrollees have third party health insurance (TPHI). The LDSS is also responsible for making diligent efforts to determine if Enrollees have TPHI and to maintain third party information on the WMS/eMedNY Third Party Resource System. If TPHI coverage is known at the POS, the Plan shall use the TPHI information to coordinate benefits (e.g., alert the provider and ask them to bill the TPHI that should be primary to the Plan).

The Contractor shall make good faith efforts to coordinate benefits and must inform the LDSS of any known changes in status of TPHI insurance eligibility within five (5) business days of learning of a change in TPHI. The Contractor may use the Roster as one method to determine TPHI information.

b) Post Payment and Retroactive Recovery – Non Pharmacy

The State, and/or its designee, will also be vested with the responsibility to collect any reimbursement for Benefit Package services obtained from TPHI. In no instances may an Enrollee be held responsible for disputes over these recoveries. A recovery shall not exceed the encounter data paid claim amount.

The State will continue to identify available TPHI and post this information to the eMedNY System. The TPHI information will appear on the Contractor's next roster and TPHI file. The Contractor will have six months from the later of the date the TPHI has been posted (eMedNY transaction date) or the Contractor's claim payment date to pursue any recoveries for medical services. All recoveries outside this period will be pursued by the State.

For Federal or State-initiated and Federal or State-identified recoveries, the Federal or State Government will direct providers to refund the State directly. In those instances where the provider adjusted the recovery to the Contractor in error, the Contractor will refund the adjusted recovery to the State.

c) Post Payment and Retroactive Recovery – Pharmacy

The Federal or State, and or their designee, will be vested with the sole responsibility to collect any reimbursement for Benefit Package services obtained from TPHI.

d) TPHI Reporting

The Contractor shall report TPHI activities through the Medicaid Encounter Data System (MEDS III) or its successor system and Medicaid Managed Care Operating Report (MMCOR) in accordance with instructions provided by SDOH. To prevent duplicative efforts, the Contractor shall, on a quarterly basis, share claim specific TPHI disposition (paid, denied, or recovered) information with the State. If no information is received from the Contractor, the State will assume there are no retroactive recoveries being pursued by the Contractor and will initiate recovery processing.

3.8 Other Insurance and Settlements

The Contractor is not allowed to pursue cost recovery against personal injury awards the Enrollee has received. Any recovery against these resources is to be pursued by the Medicaid program and the Contractor cannot take actions to collect these funds. Pursuit of Worker's Compensation benefits and No-fault Insurance by the Contractor is authorized, to the extent that they cover expenses incurred by the Contractor.

3.9 Payment For Newborns

a) The Contractor shall be responsible for all costs and services included in the Benefit Package associated with an Enrollee's newborn, unless the child is Excluded from Medicaid Managed Care pursuant to Appendix H of this Agreement, or the Contractor does not offer a MMC product in the mother's county of fiscal responsibility.

- b) The Contractor shall receive a capitation payment from the first day of the newborn's month of birth and, in instances where the Contractor pays the hospital or birthing center for the newborn stay, a Supplemental Newborn Capitation Payment.
 - i) The Contractor shall receive a Low Birth Weight Kick Payment in lieu of the Supplemental Newborn Capitation Payment if the newborn infant weighed less than 1,200 grams at birth.
- c) The Capitation Rate and Supplemental Newborn Capitation Payment or Low Birth Weight Kick Payment for a newborn will begin the month following certification of the newborn's eligibility and enrollment, retroactive to the first day of the month in which the child was born.
- d) The Contractor cannot bill for a Supplemental Newborn Capitation Payment or Low Birth Weight Kick Payment unless the newborn hospital or birthing center payment has been paid by the Contractor. The Contractor must submit encounter data evidence for the newborn stay. Failure to have supporting records may, upon an audit, result in recoupment of the Supplemental Newborn Capitation Payment by SDOH.
- e) The following provisions apply to the HIV SNP Program Only:
 - i) For the newborn's first six months of life, the monthly capitation rate paid to the Contractor for newborns of infected Enrollees enrolled in the Contractor's SNP will be the HIV children's rate. In order for payment to continue at the HIV children's rate beyond the sixth month of the child's life, the Contractor will be required to provide, in a format as determined by the AIDS Institute and with appropriate consent for any necessary testing, clinical documentation of HIV infection in the child.
 - ii) Except as described in (e), above, for newborns of infected mothers enrolled in the SNP, the monthly capitation rates paid to the Contractor for uninfected children enrolled in the SNP shall be as follows:
 - A) If Contractor also participates in the Partnership Plan as a mainstream Medicaid managed care plan, the children's capitation rates established for the mainstream plan will be paid.
 - B) If Contractor does not participate as a mainstream Medicaid managed care plan, the average capitation rate paid for that premium group in the plan's region will be paid.
 - iii) If the Contractor participates as a mainstream Medicaid managed care plan, Contractor will receive the supplemental newborn capitation payment established for the mainstream plan. If Contractor does not

participate as a mainstream Medicaid managed care plan, Contractor will receive the average newborn capitation payment in the plan's region.

3.10 Supplemental Maternity Capitation Payment

- a) The Contractor shall be responsible for all costs and services included in the Benefit Package associated with the maternity care of an Enrollee.
- b) In instances where the Enrollee is enrolled in the Contractor's MMC or FHPlus product on the date of the delivery of a child, the Contractor shall be entitled to receive a Supplemental Maternity Capitation Payment. The Supplemental Maternity Capitation Payment reimburses the Contractor for the inpatient and outpatient costs of services normally provided as part of maternity care, including antepartum care, delivery and post-partum care. The Supplemental Maternity Capitation Payment is in addition to the monthly Capitation Rate paid by the SDOH to the Contractor for the Enrollee.
- c) In instances where the Enrollee was enrolled in the Contractor's MMC or FHPlus product for only part of the pregnancy, but was enrolled on the date of the delivery of the child, the Contractor shall be entitled to receive the entire Supplemental Maternity Capitation Payment. The Supplemental Capitation payment shall not be pro-rated to reflect that the Enrollee was not enrolled in the Contractor's MMC or FHPlus product for the entire duration of the pregnancy.
- d) In instances where the Enrollee was enrolled in the Contractor's MMC or FHPlus product for part of the pregnancy, but was not enrolled on the date of the delivery of the child, the Contractor shall not be entitled to receive the Supplemental Maternity Capitation Payment, or any portion thereof.
- e) Costs of inpatient and outpatient care associated with maternity cases that end in termination or miscarriage shall be reimbursed to the Contractor through the monthly Capitation Rate for the Enrollee and the Contractor shall not receive the Supplemental Maternity Capitation Payment.
- f) The Contractor may not bill a Supplemental Maternity Capitation Payment until the hospital inpatient or birthing center delivery is paid by the Contractor, and the Contractor must submit encounter data evidence of the delivery, plus any other inpatient and outpatient services for the maternity care of the Enrollee to be eligible to receive a Supplemental Maternity Capitation Payment. Failure to have supporting records may, upon audit, result in recoupment of the Supplemental Maternity Capitation Payment by the SDOH.

3.11 Contractor Financial Liability

Contractor shall not be financially liable for any services rendered to an Enrollee prior to his or her Effective Date of Enrollment.

3.12 Inpatient Hospital Stop-Loss Insurance for Medicaid Managed Care (MMC) Enrollees

- a) The Contractor must obtain stop-loss coverage for inpatient hospital services for MMC Enrollees. A Contractor may elect to purchase stop-loss coverage from New York State. In such cases, the Capitation Rates paid to the Contractor shall be adjusted to reflect the cost of such stop-loss coverage. The cost of such coverage shall be determined by SDOH.
- b) Under NYS stop-loss coverage, if the hospital inpatient expenses incurred by the Contractor for an individual MMC Enrollee during any calendar year reaches \$100,000, the Contractor shall be compensated for eighty percent (80%) of the cost of hospital inpatient services in excess of this amount up to a maximum of \$250,000. Above that amount, the Contractor will be compensated for one hundred percent (100%) of cost. All compensation shall be based on the lower of the Contractor's negotiated hospital rate or Medicaid rates of payment. Effective January 1, 2016, hospital inpatient expenses shall also include expenses for detoxification services provided in inpatient hospital facilities certified pursuant to 14 NYCRR Part 816 and expenses for services delivered in OASAS certified 14 NYCRR Part 818 Chemical Dependence Inpatient Rehabilitation and Treatment programs for all Enrollees.

The Contractor has elected to have NYS provide stop-loss reinsurance for MMC Enrollees.

OR

The Contractor has not elected to have NYS provide stop-loss reinsurance for MMC Enrollees.

- c) For HIV SNPs only, if the hospital inpatient expenses incurred by the Contractor for an individual Enrollee during any calendar year reaches \$100,000, the Contractor shall be compensated for eighty-five percent (85%) of the cost of hospital inpatient services between \$100,000 and \$300,000 incurred by the HIV SNP during that period. Above that amount the Contractor will be compensated for one hundred percent (100%) of costs. All compensation shall be based on the lower of the Contractor's negotiated hospital rate or Medicaid rates of payment. Effective January 1, 2016, hospital inpatient expenses shall also include expenses for detoxification services provided in inpatient hospital facilities certified pursuant to 14 NYCRR Part 816 and expenses for services delivered in OASAS certified 14 NYCRR Part 818 Chemical Dependence Inpatient Rehabilitation and Treatment programs for all Enrollees.

3.13 Mental Health Stop-Loss for MMC Enrollees

- a) The Contractor will be compensated for medically necessary and clinically appropriate inpatient mental health services provided to MMC Enrollees, in a psychiatric inpatient program licensed by the Office of Mental Health according to the following schedule:
- i) For Episodes of Inpatient Psychiatric Care provided to Enrollees beginning before January 1, 2016, the State will reimburse the Contractor 100% of payments for days in excess of a combined total of thirty (30) days;
 - ii) For Episodes of Inpatient Psychiatric Care commencing on or after January 1, 2016, the State will reimburse the Contractor for 50% of payments made for the 46th through the 60th day of the episode and 100% of payments made for the days in the episode beyond the 60th day;
 - iii) For Episodes of Inpatient Psychiatric Care commencing on or after January 1, 2017, the State will reimburse the Contractor for 50% of payments made for the 61st through the 100th day of the episode and 100% of payments made for the days in the episode beyond the 100th day; and
 - iv) For Episodes of Inpatient Psychiatric Care commencing on or after January 1, 2018, the State will reimburse Contractor for 100% of the payments made for days in the episode or care beyond the 100th day.
 - v) The Contractor shall be reimbursed for such Episodes of Inpatient Psychiatric Care at the lower of the Contractor's negotiated inpatient rate or Medicaid rate of payment.

 - ii) Notwithstanding the provisions of paragraph a of this section, the State shall not calculate an annual Minimum Expense Target until such time as all advances to Behavioral Health Providers have been fully reconciled against actual claims made. In the event that such calculation is more than 12 months following the end of a calendar reporting period, the State shall be precluded from recovering any difference.

- iii) In determining whether to exercise its right to recover pursuant to paragraph i above, the State shall consider:

- iii) The Contractor will ensure FI subcontracts are compliant with Section 22.5 and other applicable provisions of this Agreement. Contractor agreements with FIs are not health care provider agreements as provided by 10 NYCRR Subpart 98-1. No such agreement may contain provisions that would be considered management functions under 10 NYCRR Subpart 98-1 without the express written approval of the SDOH.

- iv) The Contractor shall inform FIs of its claims procedures. The Contractor shall process all claims and pay clean claims in a timely manner, as determined by the agreement with the FI, and notify FIs in writing as to the reason(s) claims are fully or partially denied, in accordance with Appendix F of the this Agreement. SDOH may require a plan of correction, impose sanctions or take other regulatory action should it determine the Contractor consistently delays payments to FIs without due cause.
- v) The Contractor must submit a list of participating FIs by county to SDOH annually and upon request in a manner and form described by SDOH.
- e) During the Transition Period, the Contractor shall not require an Enrollee in receipt of CDPAS prior to November 1, 2012 to change their consumer directed personal assistant due to an existing relationship with an FI that is not within the Contractor's network. The Contractor is prohibited from coercing or threatening a personal assistant to change FIs.

10.37 Discharge Planning

- a) The Contractor will make all reasonable efforts to work with hospitals, Article 31 mental health facilities, Article 32 OASAS programs, RHCFs and outpatient and community based providers in developing discharge plans for their Enrollees when a change in the Enrollee's level of care is proposed. As part of discharge planning, the Contractor shall arrange for and authorize covered services as medically necessary for the Enrollee's care. If the Enrollee is in need of Long Term Services and Supports, the discharge plan will be prepared in accordance with Appendix S of this Agreement. For the purposes of this Section, "reasonable efforts" include, but are not limited to, as applicable and appropriate to the Enrollee's circumstances: participation in discharge planning meetings; face to face meetings with the Enrollee to assess needs and preferences for care; identification of medical, environmental or social obstacles to safe discharge; referral to the Contractor's care management program; assignment to a Health Home and collaboration with its outreach, enrollment and care management efforts; referral to Medicaid waiver programs; and/or referral to state and local government agencies.
- b) Consistent with this Agreement, where the Enrollee has intensive medical or behavioral health needs, the Contractor will ensure sufficient time is provided to fully implement the discharge plan and PCSP, including assurance of informal and formal supports at the lower level of care, and may consider authorizing trial discharges, if clinically appropriate.
- c) Where safe discharge from a hospital, Article 31 mental health facility, Article 32 OASAS program, or skilled nursing facility cannot be arranged solely due

to the Enrollee's lack of housing, the Contractor shall continue coverage of the stay, and work collaboratively with the facility to explore all options and referrals available considering the Enrollee's specific circumstances, including coordination with housing providers, homeless services and Health Home care management agencies, as applicable.

- d) In accordance with Appendix K.2 (2) of this Agreement, the Contractor is responsible for covering the continued stay in a hospital, Article 31 mental health facility, Article 32 OASAS program, or RHCF until the Enrollee may be safely discharged. Unless the reimbursement rate is set by statute, regulation or this Agreement, the Contractor may negotiate a reimbursement rate for the period of stay beyond the date the Contractor determines the Enrollee no longer requires the facility level of care or cannot be discharged solely due to lack of housing. For those stays where the Enrollee's safe discharge cannot be arranged solely due to lack of housing, the plan's obligation to continue coverage of such stay will end when the Contractor has determined that the Enrollee no longer requires facility level of care, and when:
 - i) the Enrollee is safely discharged; or
 - ii) the Enrollee refuses to comply with a safe discharge plan, which, where applicable, includes a PCSP developed in accordance with this Agreement; or
 - iii) the facility ceases to work collaboratively with the Contractor to explore options for the Enrollee's safe discharge, in which case the Contractor must maintain sufficient documentation regarding the facility's unwillingness to work with the Contractor toward a safe discharge, to demonstrate, upon SDOH request, that the denial of continued coverage of the stay was justified.

10.38 Critical Incidents

- a) The Contractor must have effective mechanisms to identify, address and seek to prevent instances of abuse, neglect and exploitation of its Enrollees in receipt of Long Term Services and Supports on a continuous basis. Such mechanisms will include, at a minimum:

When an Enrollee presents a medical order or when a Participating ADHC/AIDS ADHC Provider notifies the Contractor of an Enrollee presenting with a medical order for assessment, the Contractor must arrange for coverage of up to two (2) visits for completion of the assessment. The Contractor may require prior authorization for additional visits, up to a total of five (5) visits within thirty (30) days, to complete the assessment. The Contractor shall cover the assessment visit(s) even if it does not authorize the Enrollee for ADHC/AIDS ADHC services.

Such timeframe may be extended by SDOH as necessary for a limited

period to manage the large number of assessments anticipated during the initial HARP enrollment period.

- ii) The Contractor shall ensure that BHHCBS eligibility assessments are conducted by a State-designated provider in compliance with Federal conflict-free case management requirements.

 - D) That the approved plan of care is reassessed no less frequently than annually, and when warranted by a significant change in the Enrollee's medical and behavioral health condition. Such reassessment shall document the Enrollee's progress in meeting his or her goals from prior plans of care and shall be documented in the Enrollee's record.
- iv) The Contractor shall have policies and procedures in place to ensure appropriate communication and record sharing between Enrollees' care managers and treating providers.

In addition, or alternatively, SDOH may impose sanctions, including monetary penalties, as permitted by law.

Medical records of Enrollees pursuant to this Agreement shall be confidential and shall be disclosed to and by other persons within the Contractor's organization, including Participating Providers, only as necessary to provide medical care, to conduct quality assurance functions and peer review functions, or as necessary to respond to a complaint and appeal under the terms of this Agreement.

20.4 Length of Confidentiality Requirements

The provisions of this Section shall survive the termination of this Agreement and shall bind the Contractor so long as the Contractor maintains any individually identifiable information relating to Enrollees, Potential Enrollees and Prospective Enrollees.

21. Provider Network

21.1 Network Requirements

- a) The Contractor will establish and maintain a network of Participating Providers.
 - i) In establishing the network, the Contractor must consider the following: anticipated Enrollment, expected utilization of services by the population to be enrolled, the number and types of providers necessary to furnish the services in the Benefit Package, the number of providers who are not accepting new patients, and the geographic location of the providers and Enrollees.
 - ii) The Contractor's network must contain all of the provider types necessary to furnish the prepaid Benefit Package, including but not limited to: hospitals, physicians (primary care and specialists), mental health and substance abuse providers, allied health professionals, ancillary providers, DME providers, home health providers, and pharmacies, if applicable.
 - A) The Contractor must demonstrate that its network contains sufficient Indian Health Care Providers to ensure access, within time/distance standards as set forth in Section 15.5 of this Agreement, to Native American Enrollees.
 - iii) To be considered accessible, the network must contain a sufficient number and array of providers to meet the diverse needs of the Enrollee population. This includes being geographically accessible (meeting time/distance standards) and being accessible for the disabled. For the HIV SNP Program, this includes the following requirements [Applicable to the HIV SNP Program only]:
 - A) Designated AIDS Centers: At least one Designated AIDS Center per borough/county or access availability for at least seventy-five percent (75%) of the enrollee population by borough/county, whichever is greater.
 - B) HIV Primary Care Medicaid Programs: Access availability for at least twenty-five percent (25%) of the enrollee population.
 - C) Maternal/Pediatric HIV Specialized Care Centers: Access availability for one hundred percent (100%) of HIV infected women enrollees with HIV infected and/or HIV-exposed children up to the age of 18 months.

D) HIV Co-located Substance Abuse & Primary Care Programs: Access availability for at least fifty percent of the enrollee population with diagnosed substance abuse problems.

- b) The Contractor shall not include in its network any provider
 - i) who has been sanctioned or prohibited from participation in Federal health care programs under either Section 1128 or Section 1128A of the SSA; or
 - ii) who has had his/her license suspended by the New York State Education Department or the SDOH Office of Professional Medical Conduct.
 - iii) who has not enrolled with the State as a Medicaid provider, unless such provider is not required to be enrolled as a Medicaid provider. The Contractor may provisionally credential a non-enrolled provider for 120 days pending enrollment with SDOH.
 - A) An enrolled Medicaid provider is not required to provide services to a Medicaid beneficiary who is not enrolled in MMC.
- c) The Contractor must require that Participating Providers offer hours of operation that are no less than the hours of operation offered to commercial members or, if the provider serves only MMC Enrollees and/or FHPlus Enrollees, comparable to hours offered for Medicaid fee-for-service patients.
- d) The Contractor shall submit its network for SDOH to assess for adequacy through the HCS prior to execution of this Agreement, quarterly thereafter throughout the term of this Agreement, and upon request by SDOH when SDOH determines there has been a significant change that could affect adequate capacity and quarterly thereafter.
- e) Contractor must limit participation to providers who agree that payment received from the Contractor for services included in the Benefit Package is payment in full for services provided to Enrollees, except for the collection of applicable co-payments from Enrollees as provided by law.

21.2 Absence of Appropriate or Available Network Provider

- a) In the event that the Contractor determines that it does not have a Participating Provider with appropriate training and experience to meet the particular health or behavioral health care needs of an Enrollee, or who does not have an available appointment, the Contractor shall make a referral to an appropriate Non-Participating Provider, pursuant to a treatment plan approved by the Contractor in consultation with the Primary Care Provider, the Non-Participating Provider and the Enrollee or the Enrollee's designee. The Contractor shall pay for the cost of the services in the treatment plan provided

by the Non-Participating Provider for as long as the Contractor is unable to provide the service through a Participating Provider.

- i) In accordance with 42 CFR 438.910(d)(3), the Contractor shall not apply more stringent processes, strategies, evidentiary standards or other factors for Enrollees to access behavioral health services from Non-Participating Providers than those that the Contractor applies to Enrollees to access physical health benefits from Non-Participating Providers.

21.3 Suspension of Enrollee Assignments To Providers

The Contractor shall ensure that there is sufficient capacity, consistent with SDOH standards, to serve Enrollees under this Agreement. In the event any of the Contractor's Participating Providers are no longer able to accept assignment of new Enrollees due to capacity limitations, as determined by the SDOH, the Contractor will suspend assignment of any additional Enrollees to such Participating Provider until such provider is capable of further accepting Enrollees. When a Participating Provider has more than one (1) site, the suspension will be made by site.

21.4 Credentialing

a) Credentialing/Recredentialing Process

- i) The Contractor shall have in place a formal process, consistent with SDOH Recommended Guidelines for Credentialing Criteria, for credentialing Participating Providers on a periodic basis (not less than once every three (3) years) and for monitoring Participating Providers performance. This shall include, but not be limited to, requesting and reviewing any certifications required by contract or 18 NYCRR § 521.3 completed by the Participating Provider since the last time the Contractor credentialed the Participating Provider.
- ii) When credentialing OMH-licensed, OMH-operated and OASAS-certified providers, the Contractor shall accept OMH and OASAS licenses, operation and certifications in place of, and not in addition to, any Contractor credentialing process for individual employees, subcontractors or agents of such providers. The Contractor shall still collect and accept program integrity related information from these providers, as required in Sections 18 of this Agreement, and shall require that such providers not employ or contract with any employee, subcontractor or agent who has been debarred or suspended by the federal or state government, or otherwise excluded from participation in the Medicare or Medicaid program.

- iii) [Applicable to HIV SNP Program only]: The Contractor shall have in place a formal process for assessing on a periodic basis (not less than annually) that all HIV Specialist PCPs meet the qualifications for HIV Specialist PCP as defined in Section 1 of this Agreement.
- iv) [Applicable to HARP and HIV SNP Programs only] When credentialing BHHCBS providers, the Contractor shall accept the State-issued BHHCBS designation in place of, and not in addition to, any Contractor credentialing process for individual employees, subcontractors or agents of such providers. The Contractor shall still collect and accept program integrity related information from these providers, as required in Sections 18 of this Agreement, and shall require that such providers not employ or contract with any employee, subcontractor or agent who has been debarred or suspended by the federal or state government, or otherwise excluded from participation in the Medicare or Medicaid program.
- v) As part of the credentialing or re-credentialing processes, the Contractor shall require that Mental Health Providers certify that they will not seek reimbursement from the Contractor for Conversion Therapy provided to an Enrollee.
 - A) For the purposes of Section 21.4 (a) (v) of this Agreement, Mental Health Providers means a person subject to the provisions Education Law Article 131, 153, 154, or 163; or any other person designated as a mental health professional pursuant to law, rule, or regulation.

b) Licensure

The Contractor shall ensure, in accordance with Article 44 of the PHL, that persons and entities providing care and services for the Contractor in the capacity of physician, dentist, physician assistant, registered nurse, other medical professional or paraprofessional, or other such person or entity satisfy all applicable licensing, certification, or qualification requirements under New York law and that the functions and responsibilities of such persons and entities in providing Benefit Package services under this Agreement do not exceed those permissible under New York law.

c) Minimum Standards

- i) The Contractor agrees that all network physicians will meet at least one (1) of the following standards, except as specified in Section 21.15 (c) and Appendix I of this Agreement:
 - A) Be board-certified or board-eligible in their area of specialty;
 - B) Have completed an accredited residency program; or

- C) Have admitting privileges at one (1) or more hospitals participating in the Contractor's network.
- ii) [Applicable to HIV SNP Program only]: The Contractor agrees that all physicians acting as PCPs for Enrollees with HIV infection must possess the qualifications for HIV Specialist PCP as defined in Section 1 of this Agreement.
 - A) Modifications for homeless Enrollees include the following:
 - I) A Homeless HIV infected HIV SNP Enrollee may designate a shelter physician, who may not be HIV experienced, as his or her PCP while in the shelter system.
 - II) If a newly enrolled homeless HIV infected person is engaged in care with a primary care provider who is not HIV experienced, the Contractor may designate that PCP until such time as the Enrollee can be transitioned to an HIV experienced PCP.
 - III) In both cases, the Contractor must employ a co-management model in which an HIV Specialist assists the non-HIV experienced PCP in an ongoing consultative relationship as part of routine care and continues with primary responsibility for decisions related to HIV-specific clinical management in coordinating with the non-HIV experienced PCP. The Contractor will provide the AIDS Institute with evidence of this ongoing co-management on request.
 - IV) Alternatively, the Contractor may designate an HIV Experienced PCP for a homeless Enrollee in a shelter, but allow the Enrollee to seek urgent and non-HIV primary care from the shelter provider.

21.5 Exclusion or Termination of Providers and Other Prohibited Relationships

- a) If SDOH excludes or terminates a provider from its Medicaid program, the Contractor shall, upon learning of such exclusion or termination, immediately terminate the Provider Agreement with the Participating Provider with respect to the Contractor's MMC and/or FHPlus product, and agrees to no longer utilize the services of the subject provider, as applicable. The Contractor shall access information pertaining to excluded Medicaid providers through the SDOH Health Commerce System (HCS). Such information available to the Contractor on the HCS shall be deemed to constitute constructive notice. The HCS should not be the sole basis for identifying current exclusions or termination of previously approved providers. Should the Contractor become aware, through the HCS or any other source, of an SDOH exclusion or

termination, the Contractor shall validate this information with the Office of Health Insurance Programs and comply with the provisions of this Section.

- b) Consistent with 42 CFR 455.416(c), if a Participating Provider has been terminated, as defined in 42 CFR 455.101, on or after January 1, 2011, under the Medicare Program, the Medicaid program or CHIP program of any other State, or the network of another NYS Medicaid Managed Care Organization, the Contractor shall, upon notification of such termination from SDOH or OMIG, immediately terminate the Provider Agreement with the Participating Provider with respect to the Contractor's MMC and/or FHPlus product, and agrees to no longer utilize the services of the subject provider, as applicable.
- c) Prohibited Relationships
 - i) The Contractor may not have a relationship of a type described in 42 U.S.C. § 1320a-7(b)(8)(A) with a person described by 42 U.S.C. § 1320a-7(b)(8)(B).
 - ii) The Contractor may not have a substantial contractual relationship as defined in 42 C.F.R § 431.55(h)(3), either directly or indirectly, with an individual convicted of certain crimes as described in 42 U.S.C. § 1320a-7(b)(8)(B) or with an individual or entity described in 42 C.F.R. § 438.610(a) or (b).
 - iii) The Contractor may not contract, directly or indirectly, for the furnishing of healthcare, utilization review, medical social work, or administrative services with:
 - A) an individual or entity described in 42 C.F.R. § 438.610(a) or (b); or
 - B) an individual or entity that would provide such services through an individual or entity identified in 42 C.F.R. § 438.610(a) or (b).
 - iv) The Contractor may not have a relationship of a type described by 42 C.F.R. § 438.610(c) with an individual or entity described in 42 C.F.R. § 438.610(a) or (b).
- d) If Medicaid payments are made by the Contractor to any person, individual, or entity identified in Section 21.5 of this Agreement, for dates of service after the applicable exclusion or termination effective date, the Contractor shall report and explain within sixty (60) days of identifying the payment, in a form and format to be determined by OMIG in consultation with SDOH, when and how the payment was identified, and the date on which the encounter data was adjusted to reflect the recovery.

21.6 Application Procedure

- a) The Contractor shall establish a written application procedure to be used by a health care professional interested in serving as a Participating Provider with the Contractor. The criteria for selecting providers, including the minimum qualification requirements that a health care professional must meet to be considered by the Contractor, must be defined in writing and developed in consultation with appropriately qualified health care professionals. Upon request, the application procedures and minimum qualification requirements must be made available to health care professionals.
- b) The selection process may not discriminate against particular providers that serve high-risk populations or specialize in conditions that require costly treatment.
- c) The Contractor may not discriminate with regard to the participation, reimbursement, or indemnification of any provider who is acting within the scope of his or her license or certification under applicable State law, solely on the basis of that license or certification. This does not preclude the Contractor from including providers only to the extent necessary to meet its needs; or from establishing different payment rates for different counties or different specialists; or from establishing measures designed to maintain the quality of services and control costs consistent with its responsibilities.
- d) If the Contractor does not approve an individual or group of providers as Participating Providers, it must give the affected providers written notice of the reason for its decision.

21.7 Evaluation Information

The Contractor shall develop and implement policies and procedures to ensure that Participating Providers are regularly advised of information maintained by the Contractor to evaluate their performance or practice. The Contractor shall consult with health care professionals in developing methodologies to collect and analyze Participating Providers profiling data. The Contractor shall provide any such information and profiling data and analysis to its Participating Providers. Such information, data or analysis shall be provided on a periodic basis appropriate to the nature and amount of data and the volume and scope of services provided. Any profiling data used to evaluate the performance or practice of a Participating Provider shall be measured against stated criteria and an appropriate group of health care professionals using similar treatment modalities serving a comparable patient population. Upon presentation of such information or data, each Participating Provider shall be given the opportunity to discuss the unique nature of his or her patient population which may have a bearing on the Participating Provider's profile and to work cooperatively with the Contractor to improve performance.

21.8 Choice/Assignment of Primary Care Providers (PCPs)

- a) The Contractor shall offer each Enrollee the choice of no fewer than three (3) Primary Care Providers within distance/travel time standards as set forth in Section 15.5 of this Agreement. This requirement does not apply to Enrollees restricted as specified in Appendix Q of this Agreement.
- b) Contractor must assign a PCP to Enrollees who fail to select a PCP. The assignment of a PCP by the Contractor may occur after written notification to the Contractor of the Enrollment (through Roster or other method) and:
 - i) after written notification of the Enrollee by the Contractor but in no event later than thirty (30) days after notification of Enrollment, and only after the Contractor has made reasonable efforts as set forth in Section 13.6 of this Agreement to contact the Enrollee and inform him/her of his/her right to choose a PCP; or
 - ii) in the case of an Enrollee restricted for primary care services, in accordance with Appendix Q of this Agreement.
- c) PCP assignments should be made taking into consideration the following:
 - i) Enrollee's geographic location;
 - ii) any special health care needs, if known by the Contractor; and
 - iii) any special language needs, if known by the Contractor.
- d) In circumstances where the Contractor operates or contracts with a multi-provider clinic to deliver primary care services, the Enrollee must choose or be assigned a specific provider or provider team within the clinic to serve as his/her PCP. When an Enrollee chooses or is assigned to a team, one of the practitioners must be designated as "lead" provider for that Enrollee. This "lead" provider will be held accountable for performing the PCP duties.
- e) Pursuant to 42 USC 1396u-2(h), the Contractor shall permit a Native American Enrollee to select a Participating Indian Health Care Provider to serve as his/her PCP, provided that:
 - i) such Indian Health Care Provider has the available capacity to serve such Enrollee, and
 - ii) such Enrollee is not a Restricted Enrollee, as defined in Appendix Q of this Agreement.

21.9 Enrollee PCP Changes

- a) The Contractor must allow Enrollees the freedom to change PCPs, without cause, within thirty (30) days of the Enrollee's first appointment with the PCP. After the first thirty (30) days, the Contractor may elect to limit the Enrollee to changing PCPs every six (6) months without cause. This paragraph does not apply to Enrollees restricted to an RRP Provider for primary care in accordance with Appendix Q of this Agreement.
- b) The Contractor must process a request to change PCPs and advise the Enrollee of the effective date of the change within thirty (30) days of receipt of the request. The change must be effective no later than the first (1st) day of the second (2nd) month following the month in which the request is made.
- c) The Contractor will provide Enrollees with an opportunity to select a new PCP in the event that the Enrollee's current PCP leaves the network or otherwise becomes unavailable. Such changes shall not be considered in the calculation of changes for cause allowed within a six (6) month period. The Contractor will allow Enrollees to change PCPs with good cause as provided by 18 NYCRR Part 360-10.7 (b).
- d) In the event that an assignment of a new PCP is necessary due to the unavailability of the Enrollee's former PCP, such assignment shall be made in accordance with the requirements of Section 21.8 of this Agreement.
- e) In addition to those conditions and circumstances under which the Contractor may assign an Enrollee a PCP when the Enrollee fails to make an affirmative choice of a PCP, the Contractor may initiate a PCP change for an Enrollee under the following circumstances:
 - i) The Enrollee requires specialized care for an acute or chronic condition and the Enrollee and Contractor agree that reassignment to a different PCP is in the Enrollee's interest.
 - ii) The Enrollee's place of residence has changed such that he/she has moved beyond the PCP travel time/distance standard.
 - iii) The Enrollee's PCP ceases to participate in the Contractor's network.
 - iv) The Enrollee's behavior toward the PCP is disruptive and the PCP has made all reasonable efforts to accommodate the Enrollee.
 - v) The Enrollee has taken legal action against the PCP or the PCP has taken legal action against the Enrollee.

- vi) The Enrollee is newly restricted for primary care services or a condition for changing the RRP Provider is met, as specified in Appendix Q of this Agreement.
- f) Whenever initiating a change, the Contractor must offer affected Enrollees, except for Enrollees restricted in accordance with Appendix Q of this Agreement, the opportunity to select a new PCP in the manner described in this Section.

21.10 Provider Status Changes

a) PCP Changes

- i) The Contractor agrees to notify its Enrollees of any of the following PCP changes:
 - A) Enrollees will be notified within fifteen (15) days (five days for HIV SNPs) from the date on which the Contractor becomes aware that such Enrollee's PCP has changed his or her office address or telephone number.
 - B) If a PCP ceases participation in the Contractor's network, the Contractor shall provide written notice within fifteen (15) days (five days for HIV SNPs) from the date that the Contractor becomes aware of such change in status to each Enrollee who has chosen the provider as his or her PCP. In such cases, the notice shall describe the procedures for choosing an alternative PCP and, in the event that the Enrollee is in an ongoing course of treatment, the procedures for continuing care consistent with subdivision 6 (e) of PHL § 4403.
 - C) Where an Enrollee's PCP ceases participation with the Contractor, the Contractor must ensure that the Enrollee selects or is assigned to a new PCP within thirty (30) days of the date of the notice to the Enrollee.

b) Other Provider Changes

In the event that an Enrollee is in an ongoing course of treatment with another Participating Provider who becomes unavailable to continue to provide services to such Enrollee, the Contractor shall provide written notice to the Enrollee within fifteen (15) days from the date on which the Contractor becomes aware of the Participating Provider's unavailability to the Enrollee. In such cases, the notice shall describe the procedures for continuing care consistent with PHL § 4403(6)(e) and for choosing an alternative Participating Provider.

21.11 PCP Responsibilities

In conformance with the Benefit Package, the PCP shall provide health counseling and advice; conduct baseline and periodic health examinations; diagnose and treat conditions not requiring the services of a specialist; arrange inpatient care, consultations with specialists, and laboratory and radiological services when medically necessary; coordinate the findings of consultants and laboratories; and interpret such findings to the Enrollee and the Enrollee's family, subject to the confidentiality provisions of Section 20 of this Agreement, and maintain a current medical record for the Enrollee. The PCP shall also be responsible for determining the urgency of a consultation with a specialist and shall arrange for all consultation appointments within appropriate time frames.

21.12 Member to Provider Ratios

- a) [Not applicable to HIV SNP Program]: The Contractor agrees to adhere to the member-to-PCP ratios shown below. These ratios are Contractor-specific, and assume the practitioner is a full time equivalent (FTE) (defined as a provider practicing forty (40) hours per week for the Contractor):
 - i) No more than 1,500 Enrollees for each physician, or 2,400 for a physician practicing in combination with a registered physician assistant or a certified nurse practitioner.
 - ii) No more than 1,000 Enrollees for each certified nurse practitioner.
- b) [Applicable to HIV SNP Program only]:
 - i) The HIV SNP Contractor agrees to adhere to the member-to-HIV Specialist PCP ratios shown below. These ratios are Contractor-specific, and assume that the HIV Specialist PCP is a full-time equivalent (FTE) (defined as a provider practicing forty (40) hours per week for the Contractor):
 - A) No more than 350 Enrollees for each physician or PCP certified nurse practitioner, or
 - B) No more than 500 Enrollees for a physician practicing in combination with a registered physician assistant or a certified nurse practitioner.
 - ii) The above member-to-provider ratio may be waived under the following circumstances:
 - A) The HIV SNP can demonstrate that HIV Specialist PCPs are not available in sufficient number to achieve the required ratios, AND

- B) The proposed HIV SNP member-to-provider ratio demonstrates to the AIDS Institute Medical Director's satisfaction that the ratio is sufficient to meet the needs of the HIV SNP's Enrollee case-mix characteristics.
 - C) Waivers may be granted for a period of time to be determined by the AIDS Institute Medical Director, but not to exceed one year. A waiver of the member-to-provider ratio does not relieve the requirement that the PCP meet the HIV Specialist PCP criteria.
- c) The Contractor agrees that these ratios will be prorated for Participating Providers who represent less than a FTE to the Contractor.

21.13 Minimum PCP Office Hours

a) General Requirements

A PCP must practice a minimum of sixteen (16) hours a week at each primary care site.

b) Waiver of Minimum Hours

The minimum office hours requirement may be waived under certain circumstances. A request for a waiver must be submitted by the Contractor to the Medical Director of the Office of Health Insurance Programs for review and approval; and the physician must be available at least eight hours/week; the physician must be practicing in a Health Provider Shortage Area (HPSA) or other similarly determined shortage area; the physician must be able to fulfill the other responsibilities of a PCP (as described in this Section); and the waiver request must demonstrate there are systems in place to guarantee continuity of care and to meet all access and availability standards (24-hour/7 days per week coverage, appointment availability, etc.).

21.14 Primary Care Practitioners

a) General Limitations

The Contractor agrees to limit its PCPs to the following primary care specialties: Family Practice, General Practice, General Pediatrics, and General Internal Medicine (and Infectious Diseases for HIV SNPs) except as specified in paragraphs (b), (c), (d) and (e) of this Section.

[Applicable to HIV SNP Program only]: In addition, the Contractor agrees to limit its HIV Specialist PCPs to PCPs who meet the HIV Specialist PCP qualifications as defined in Section 1 of this Agreement for all Enrollees who are HIV infected, except as allowed in Section 21.4 c) ii) of this Agreement.

b) Specialist and Sub-specialist as PCPs

The Contractor is permitted to use specialist and sub-specialist physicians as PCPs when such an action is considered by the Contractor to be medically appropriate and cost-effective. As an alternative, the Contractor may restrict its PCP network to primary care specialties only, and rely on standing referrals to specialists and sub-specialists for Enrollees who require regular visits to such physicians.

c) OB/GYN Providers as PCPs

The Contractor, at its option, is permitted to use OB/GYN providers as PCPs, subject to SDOH qualifications and, applicable to the HIV SNP Program only, subject to the HIV Specialist PCP criteria in Section 1 of this Agreement.

d) Certified Nurse Practitioners as PCPs

The Contractor is permitted to use certified nurse practitioners as PCPs, subject to their scope of practice limitations under New York State Law and, applicable to the HIV SNP Program only, subject to the HIV Specialist PCP criteria in Section 1 of this Agreement for HIV infected Enrollees.

e) Behavioral Health Clinics

The Contractor is permitted to use Primary Care Providers employed by behavioral health clinics, including: mental health clinics operated pursuant to OMH regulations 14 NYCRR Part 598 or 599; OASAS-certified clinics, including Opioid Treatment Programs certified pursuant to OASAS regulations 14 NYCRR Parts 816.8, 822, or 825; and Diagnostic and Treatment Centers (D&TCs), authorized pursuant to NYCRR Part 404. Enrollees choosing to receive their primary care services at a Behavioral Health Clinic must choose or be assigned a specific provider or provider team within the clinic to serve as his/her PCP. When an Enrollee chooses or is assigned to a team, one of the practitioners must be designated as "lead" provider for that Enrollee. This "lead" PCP will be held accountable for performing all required PCP duties.

f) The following requirements related to PCPs are applicable to the HIV SNP Program's HIV Specialist PCPs only:

i) PCP Education

A) The Contractor shall require that its PCPs participate annually in at least ten (10) hours of Continuing Medical Education that is consistent

with guidelines for HIV specialty care as determined by the AIDS Institute.

B) In addition, the Contractor shall ensure that PCPs attend educational programs as required to ensure understanding of and familiarity with the following areas:

I) New advances in HIV clinical care, including management of antiretroviral therapy;

II) State-of-the-art diagnostic techniques including quantitative viral measures and resistance testing;

III) Strategies to promote treatment adherence;

IV) Management of opportunistic infections and diseases;

V) Management of HIV-infected patients with comorbid conditions;

VI) Access and referral to clinical trials;

VII) Occupational exposure management, post-exposure prophylaxis protocols and infection control issues;

C) Educational programs are to be conducted in coordination with the New York State Clinical Education Initiative or the AIDS Institute when possible.

ii) Pediatric Co-Management Model of Care

A) The AIDS Institute Office of the Medical Director may approve a Pediatric Co-Management Model of Care by the Contractor under

certain circumstances described below. An approved Pediatric Co-Management Model of Care will exempt the Contractor for a defined period of time, from the HIV Specialist PCP requirement in 21.14 (a) for HIV-infected child Enrollees up to the age of thirteen (13) years in specific counties/boroughs.

- B) Upon AIDS Institute approval of the Contractor's proposed Model of Care, the Contractor may allow a non-HIV Specialist Pediatrician or Family Practice Practitioner to serve as a PCP for HIV-infected child Enrollees up to the age of thirteen (13) years provided that an HIV Specialist Pediatrician participates in an ongoing clinical management relationship for decisions related to HIV-specific clinical care, and sees such Enrollees in person as follows:
 - I) At least every three (3) months; and
 - II) Whenever the Enrollee has a rise in viral load by one (1) log; and
 - III) Whenever the Enrollee has a downward change in immunologic or clinical classification; and
 - IV) Whenever there is a change to the Enrollee's antiretroviral therapy regimen.
- C) A Contractor-specific Pediatric Co-management Model may be approved at the sole discretion of the AIDS Institute Office of the Medical Director on a county/borough basis and for a defined period of time at the discretion of the AIDS Institute under the following circumstances:
 - I) The Contractor demonstrates to the Department's satisfaction that it has made best efforts to include a sufficient number of HIV Specialist PCP Pediatricians in its network, and that HIV Specialist PCP Pediatricians are not available in sufficient number to achieve network requirements for the Contractor in specific counties/boroughs; and

iii) Homeless Enrollee Co-Management Model of Care

- A) The AIDS Institute may approve a Homeless Enrollee Co-Management Model of Care submitted by the Contractor under certain circumstances described below. An approved Homeless Enrollee Co-Management Model of Care will exempt the Contractor for a defined period of time designated by the AIDS Institute from the HIV Specialist PCP requirement in Section 21.14 a) of this Agreement for HIV-infected homeless Enrollees.
- B) Upon AIDS Institute approval of the Contractor's proposed Homeless Enrollee Co-Management Model of Care, the Contractor may allow a non-HIV Experienced Practitioner as described in Section 21.4 c) ii) of this Agreement to serve as a PCP for HIV-infected homeless Enrollees provided that the practitioner participates in an ongoing clinical management relationship for decisions related to HIV-specific clinical care, and such Enrollees receive ongoing HIV clinical care as follows:
 - D) At least every six (6) months; and
 - II) Whenever the Enrollee has a rise in viral load by one (1) log; and
 - III) Whenever the Enrollee has a downward change in immunologic or clinical classification; and
 - IV) Whenever there is a change to the Enrollee's antiretroviral therapy regimen.
- C) A Contractor-specific Homeless Enrollee Co-Management Model of Care must be approved on a case-by-case basis and for a defined period of time at the sole discretion of the AIDS Institute.

21.15 PCP Teams

a) General Requirements

The Contractor may designate teams of physicians/certified nurse practitioners to serve as PCPs for Enrollees. Such teams may include no more than four (4) physicians/certified nurse practitioners and, when an Enrollee chooses or is assigned to a team, one of the practitioners must be designated as "lead provider" for that Enrollee. In the case of teams comprised of medical residents under the supervision of an attending physician, the attending physician must be designated as the lead physician.

b) Registered Physician Assistants as Physician Extenders

The Contractor is permitted to use registered physician assistants as physician-extenders, subject to their scope of practice limitations under New York State Law.

The Contractor will establish hospital networks capable of furnishing the full range of tertiary services to Enrollees. Contractors shall ensure that all Enrollees have access to at least one (1) general acute care hospital within thirty (30) minutes/thirty (30) miles travel time (by car or public transportation) from the Enrollee's residence unless none are located within such a distance. If none are located within thirty (30) minutes travel time/thirty (30) miles travel distance, the Contractor must include the next closest site in its network. Contractor shall also comply with the network requirements for inpatient psychiatric care provided in Section 21.19 of this Agreement.

The Contractor is responsible for facilitating Enrollees' access to health and psychosocial service providers that support Enrollees' ability to sustain wellness and to adhere to treatment regimens. Providers of such services are often supported by private or public grant funds or other fiscal arrangements. To promote Enrollee access to these service providers, the Contractor shall establish linkage agreements in the form of either contractual arrangements or memoranda of understanding (MOU) with providers including, as appropriate, but not limited to, those listed in Section 10.31 (b) of this Agreement.

- b) Notwithstanding the provisions set forth in Section 21.33 (a) above, the Contractor shall not compensate either a participating or a non-participating Indian Health Care Provider for services provided to a Native American Enrollee an amount less than the Medicaid fee-for-service rate for similar services. This provision does not apply to an Indian Health Care Provider that has been designated as an FQHC.

- x) that the Subcontractor shall report such information, or make such information available, to Contractor as is applicable to the Subcontractor's roles and responsibilities under the subcontract, and in a time and fashion necessary to enable Contractor to produce or report such information

required under Section 18.5(a) of this Agreement, or other sections, and related guidance from SDOH or OMIG: and

- xi) the Subcontractor agrees to comply with all applicable Medicaid laws, regulations, including applicable sub-regulatory guidance, directives of SDOH, and the terms of this Agreement.
- c) Section 22.5(b) of this Agreement shall only apply to Subcontractors meeting the definition of such term under 42 C.F.R. § 438.2. A Participating Provider is not a Subcontractor by virtue of their Provider Agreement with the Contractor.
- d) The Contractor shall, upon contracting with a Participating Provider or Subcontractor, provide the following information about the grievance and appeal system to such Participating Provider or Subcontractor:
 - i) the right of the Enrollee, or, with the Enrollee's written consent, a provider or an authorized representative, to file grievances and appeals;

- e) The Contractor must ensure that punitive action is not taken against a provider who requests an expedited resolution or supports an Enrollee's service authorization request, appeal, or grievance.
- f) The Contractor shall impose obligations and duties on its Subcontractors, and Participating Providers, that are consistent with this Agreement, and that do not impair any rights accorded to LDSS, SDOH, OMH, OASAS, DHHS, Office of the Medicaid Inspector General (OMIG), Office of the State Comptroller (OSC) or the New York State Office of the Attorney General.

- g) No subcontract, including any Provider Agreement, shall limit or terminate the Contractor's duties and obligations under this Agreement.
- h) Nothing contained in this Agreement shall create any contractual relationship between SDOH and any Subcontractor Participating Provider, Non-Participating Provider or third parties. Nothing in this paragraph shall be construed to limit the authority of the New York State Office of the Attorney General to commence any action pursuant to 31 U.S.C. § 3729 et seq., State Finance Law § 187 et seq., Social Services Law § 145-b or other New York or Federal statutes, regulations or rules.
- i) Any subcontract, including any Provider Agreement, entered into by the Contractor shall fulfill the requirements of 42 CFR Part 438 that are appropriate to the service or activity delegated or performed under such subcontract, including HCBS settings requirements that comply with Section 10.44 of this Agreement.
- j) The Contractor shall also require that, in the event the Contractor fails to pay any Subcontractor or Participating Provider in accordance with the subcontract, the Subcontractor or Participating Provider will not seek payment from the SDOH, LDSS, the Enrollees, or persons acting on an Enrollee's behalf.
- k) The Contractor shall include in every Provider Agreement a procedure for the resolution of disputes between the Contractor and its Participating Providers.
- l) The Contractor shall ensure that all Provider Agreements entered into with Participating Providers require acceptance of a woman's Enrollment in the Contractor's MMC or FHPlus product as sufficient to provide services to her newborn, unless the newborn is excluded from Enrollment in the MMC Program pursuant to Section 6.1 of this Agreement, or the Contractor does not offer a MMC product in the mother's county of fiscal responsibility.
- m) The Contractor must monitor the Subcontractor's or Participating Provider's performance on an ongoing basis and subject it to formal review according to time frames established by the State, consistent with State laws and regulations, and the terms of this Agreement. When deficiencies or areas for improvement are identified, the Contractor and Subcontractor or Participating Provider must take corrective action and report deficiencies as required by section 18.5(xviii) of this Agreement.
- n) The Contractor shall not enter into any agreement with any Participating Provider, Non-Participating Provider, Subcontractor or third party that would limit any right to commence an action or to obtain recovery from such providers by the State, including, but not limited to, the New York State

Office of the Attorney General, SDOH, OMIG and OSC, even under circumstances where the Contractor has obtained an overpayment recovery from a provider. Nothing in this Agreement shall be construed to limit the amount of any recovery sought or obtained by the New York State Office of the Attorney General, SDOH, OMIG, and OSC from any Contractor, Participating Provider, Non-Participating Provider, Subcontractor, or from any third party.

- o) Each year the Contractor must meet the percentage of total provider payment targets that are detailed in the NYS Value-Based Payment Roadmap. The Contractor must submit a proposed plan to the SDOH by December 1st each year to identify which providers will be impacted by the alternate payment arrangements, the type of arrangements the Contractor has implemented or plans to implement, and the percent of provider payments impacted. The Contractor must receive approval from DOH, OMH, and OASAS for alternative payment arrangements affecting licensed, certified or designated Behavioral Health Providers if the methodology differs from traditional fee for service.
- p) The Contractor shall include the following contract provisions in Provider Agreements with providers operated, licensed or certified by OMH or OASAS with five or more active Plan members in treatment required pursuant to Section 21.19(a)(ii) of this Agreement:
 - i) The Provider Agreement shall be for a minimum term of 24 months from the Behavioral Health Inclusion Date in each geographic service area, unless otherwise prohibited by the terms of this Agreement; and

- r) For subcontracted Pharmacy Benefit Manager(s) and pharmacies providing services to the Contractor's Enrollees:
 - i) Notwithstanding the timely access to records provision of Section 19.3(b) of this Agreement, the Contractor shall require its subcontracted Pharmacy Benefit Manager(s) to grant SDOH, OMIG, and the New York State Office of the Attorney General access to view real time point of sale claims transactions, including but not limited to, any paid, denied,

reversed and/or adjusted claims, submitted by any pharmacy to the Contractor's Pharmacy Benefit Manager;

- ii) In the event the Contractor does not utilize a Pharmacy Benefit Manager for some or all pharmacy claims, and notwithstanding the timely access to records provision of Section 19.3(a) of this Agreement, the Contractor shall grant SDOH, OMIG, and the New York State Office of the Attorney General access to view real time point of sale claims transactions, including but not limited to, any paid, denied, reversed and/or adjusted claims submitted by any pharmacy to the Contractor's pharmacy claims processing system; and
- iii) The Contractor shall not reimburse any subcontracted pharmacy, and shall require its subcontracted Pharmacy Benefit Managers(s) to not reimburse any subcontracted pharmacy, in excess of usual and customary charges for any prescription drug.

- a) Contractor shall make payments to Participating Providers and to Non-Participating Providers, as applicable, for items and services covered under this Agreement on a timely basis, consistent with the claims payment procedures described in SIL § 3224-a.
- b) In processing payments, the Contractor shall comply with requirements at 42 CFR 447.45(d)(5) and (6).

22.7 Recovery of Overpayments

- a) i) Consistent with the exception language in Section 3224-b of the Insurance Law and with 10 NYCRR 98-1.17, the Contractor shall have and retain the right to audit providers' claims for a six (6) year period from the date the care, services or supplies were provided or billed, whichever is later, and to recoup any overpayments discovered as a result of the audit. This six (6) year limitation does not apply to situations in which fraud may be involved or in which the provider or an agent of the provider prevents or obstructs the Contractor's auditing.
- ii) The parties acknowledge that the New York State Office of the Attorney General, SDOH, the Office of the Medicaid Inspector General (OMIG) and the Office of the State Comptroller (OSC) have the right to recover overpayments, penalties, and other damages from Participating Providers, Non-Participating Providers, Contractors, subcontractors, and third parties in the Contractor's network as a result of any investigation, audit or action commenced by the New York State Office of the Attorney General, SDOH, OMIG, and OSC, including, but not limited to any litigation

brought pursuant to State Finance Law § 187 et seq. or 31 U.S.C. § 3729 et seq. by, or on behalf of the New York State Office of the Attorney General. The Contractor shall not have a right to recover from the State any recovery obtained by the State pursuant to 31 U.S.C. § 3729 et seq., State Finance Law § 187 et seq., 18 NYCRR Parts 515, 516, 517, or 518, or other New York or Federal statutes, regulations or rules.

- iii) The parties agree that where the Contractor has previously recovered overpayments, by whatever mechanism utilized by the Contractor, from a Participating Provider, said overpayment recovery shall not be recovered from that Participating Provider for any such previously recovered identifiable overpayments that are the subject of a further investigation, audit or action commenced by the agencies listed in Section 22.7 d).
 - iv) The parties agree that where the Contractor has recovered overpayments from a Participating Provider, the Contractor shall retain said recoveries, except where such recoveries are made on behalf of the OMIG or SDOH as provided in Section 22.7 (b), or pursuant to a combined audit as provided in Section 22.7 (c) of this Agreement.
 - v) Where the Contractor has recovered overpayments from a Participating Provider, a Non-Participating Provider, or a Subcontractor due to fraud, waste or abuse, the Contractor shall retain said recoveries, except where such recoveries were made in violation of the Contractor's obligation to comply with the fraud, waste and abuse reporting requirements of Section 18.5(a)(vii) of this Agreement. If SDOH or OMIG, or with respect to cases of potential fraud, the New York State Office of the Attorney General, determines that the Contractor has recovered an overpayment in violation of Section 18.5(a)(vii) of this Agreement, the Contractor shall either remit the full amount it recovered to the SDOH within five (5) business days of notification or SDOH shall withhold the amount recovered from a payment otherwise owed to the Contractor.
- b) The OMIG or SDOH shall have the authority to require that the Contractor recover an overpayment, penalty or other damages owed to the Medicaid program, including any interest, from any provider consistent with the requirements of Insurance Law § 3224-b. In such cases the OMIG or SDOH may charge the provider a collection fee as set forth in State Finance Law, in an amount to be determined by the OMIG or SDOH in its sole discretion. The Contractor shall remit, on a monthly basis, to the SDOH all amounts collected from the provider. Upon collection of the full amount owed to the Medicaid program, the Contractor may retain the collection fee to account for the Contractor's reasonable costs incurred to collect the debt. The Contractor shall report the amounts recovered in its Provider Investigative Report in accordance with Section 18.5(a)(viii)(F) of this Agreement. OMIG or SDOH will only require that the Contractor recover an overpayment, penalty or other

damage where there has been a final determination. For purposes of this section, a final determination is defined as:

- i) a Notice of Agency Action issued by the OMIG pursuant to 18 NYCRR Part 515;
 - ii) a Notice of Agency Action issued by the OMIG pursuant to 18 NYCRR Part 516;
 - iii) a Final Audit Report issued by the OMIG pursuant to 18 NYCRR Part 517;
 - iv) a stipulation of settlement or repayment agreement resolving any outstanding audit, investigation, or review; or
 - v) an Administrative Hearing Decision issued by SDOH pursuant to 18 NYCRR Part 519; however, only a timely request for an administrative hearing, as defined in 18 NYCRR 519.7, shall delay OMIG's request pending a decision.
- c) Consistent with 18 NYCRR § 517.6(g) the OMIG may enter into an agreement with the Contractor to conduct a combined audit or investigation of the Contractor's Participating Provider, Non-Participating Provider, or subcontractor. Such agreement shall be executed by the parties prior to the commencement of the audit or investigation. The portion of any recoveries as a result of a combined audit or investigation that is not owed to the federal government shall be shared between the Contractor and OMIG as provided for in the combined audit or investigation agreement. In no event shall the Contractor share in any recovery which results from the referral of a pending investigation of a credible allegation of fraud by the State to the New York State Office of the Attorney General or other law enforcement organization pursuant to 42 C.F.R. § 455.23 and other pertinent authority.
- d) Nothing in this Agreement shall be construed to limit the authority of the New York State Office of the Attorney General, OMIG, OSC or SDOH to investigate, audit or otherwise obtain recoveries from any Participating Provider, Non-Participating Provider, Contractor, subcontractor, or third party.
- e) The Contractor shall have procedures in place for Participating Providers, Non-Participating Providers, Subcontractors, or all other third parties to report to the Contractor when it has received an overpayment, to return the overpayment to the Contractor within sixty (60) calendar days after the date on which the overpayment was identified, and to notify the Contractor in writing of the reason for the overpayment. The Contractor shall report any amount recovered in its quarterly Medicaid Managed Care Operating Report

and its Provider Investigative Report in accordance with Section 18.5(a)(viii)(F) of this Agreement.

22.8 Restrictions on Disclosure

- a) The Contractor shall not by contract or written policy or written procedure prohibit or restrict any health care provider from the following:
 - i) Disclosing to any subscriber, Enrollee, patient, designated representative or, where appropriate, Prospective Enrollee any information that such provider deems appropriate regarding:
 - A) a condition or a course of treatment with such subscriber, Enrollee, patient, designated representative or Prospective Enrollee, including the availability of other therapies, consultations, or tests; or
 - B) the provisions, terms, or requirements of the Contractor's MMC or FHPlus products as they relate to the Enrollee, where applicable.
 - ii) Filing a complaint, making a report or comment to an appropriate governmental body regarding the policies or practices of the Contractor when he or she believes that the policies or practices negatively impact upon the quality of, or access to, patient care.
 - iii) Advocating to the Contractor on behalf of the Enrollee for approval or coverage of a particular treatment or for the provision of health care services.

22.9 Transfer of Liability

No contract or agreement between the Contractor and a Participating Provider shall contain any clause purporting to transfer to the Participating Provider, other than a medical group, by indemnification or otherwise, any liability relating to activities, actions or omissions of the Contractor as opposed to those of the Participating Provider.

22.10 Termination of Health Care Professional Agreements

- a) General Requirements
 - i) The Contractor shall not terminate a contract with a health care professional unless the Contractor provides to the health care professional a written explanation of the reasons for the proposed termination and an opportunity for a review or hearing as hereinafter provided. For purposes of this Section, a health care professional is an individual licensed, registered or certified pursuant to Title VII of the Education Law.

- ii) These requirements shall not apply in cases involving imminent harm to patient care, a determination of fraud, or a final disciplinary action by a state licensing board or other governmental agency that impairs the health care professional's ability to practice.
- b) Notice of Health Care Professional Termination
- i) When the Contractor desires to terminate a contract with a health care professional, the notification of the proposed termination by the Contractor to the health care professional shall include:
 - A) the reasons for the proposed action;
 - B) notice that the health care professional has the right to request a hearing or review, at the provider's discretion, before a panel appointed by the Contractor;
 - C) a time limit of not less than thirty (30) days within which a health care professional may request a hearing; and
 - D) a time limit for a hearing date which must be held within thirty (30) days after the date of receipt of a request for a hearing.
 - c) No contract or agreement between the Contractor and a health care professional shall contain any provision which shall supersede or impair a health care professional's right to notice of reasons for termination and the opportunity for a hearing or review concerning such termination.

22.11 Health Care Professional Hearings

- a) A health care professional that has been notified of his or her proposed termination must be allowed a hearing. The procedures for this hearing must meet the following standards:
 - i) The hearing panel shall be comprised of at least three persons appointed by the Contractor. At least one person on such panel shall be a clinical peer in the same discipline and the same or similar specialty as the health care professional under review. The hearing panel may consist of more than three persons, provided however, that the number of clinical peers on such panel shall constitute one-third or more of the total membership of the panel.
 - ii) The hearing panel shall render a decision on the proposed action in a timely manner. Such decision shall include reinstatement of the health care professional by the Contractor, provisional reinstatement subject to

conditions set forth by the Contractor or termination of the health care professional. Such decision shall be provided in writing to the health care professional.

- iii) A decision by the hearing panel to terminate a health care professional shall be effective not less than thirty (30) days after the receipt by the health care professional of the hearing panel's decision. Notwithstanding the termination of a health care professional for cause or pursuant to a hearing, the Contractor shall permit an Enrollee to continue an on-going course of treatment for a transition period of up to ninety (90) days, and post-partum care, subject to the provider's agreement, pursuant to PHL § 4403(6)(e).
- iv) In no event shall termination be effective earlier than sixty (60) days from the receipt of the notice of termination.

22.12 Non-Renewal of Provider Agreements

Either party to a Provider Agreement may exercise a right of non-renewal at the expiration of the Provider Agreement period set forth therein or, for a Provider Agreement without a specific expiration date, on each January first occurring after the Provider Agreement has been in effect for at least one year, upon sixty (60) days' notice to the other party; provided, however, that any non-renewal shall not constitute a termination for the purposes of this Section.

22.13 Notice of Participating Provider Termination

- a) The Contractor shall notify SDOH of any notice of termination or non-renewal of an IPA or institutional network Provider Agreement, or medical group Provider Agreement that serves five percent or more of the enrolled population in a LDSS and/or when the termination or non-renewal of the medical group provider will leave fewer than two Participating Providers of that type within the LDSS, unless immediate termination of the Provider Agreement is justified. The Contractor shall also notify OMH and OASAS of any notice of termination or nonrenewal of a Provider Agreement with a Behavioral Health Provider that serves five percent or more of the enrolled population in a LDSS and/or when the termination or non-renewal of the provider will leave fewer than two Participating Providers of that type within the LDSS, unless immediate termination of the Provider Agreement is justified. The notice shall include an impact analysis of the termination or non-renewal with regard to Enrollee access to care.
- b) The Contractor shall provide the notification required in (a) above to the SDOH, and OMH and OASAS if applicable, if the Contractor and the Participating Providers have failed to execute a renewal Provider Agreement forty-five (45) days prior to the expiration of the current Provider Agreement.

- c) In addition to the notification required in (a) above, the Contractor shall submit a contingency plan to SDOH, and OMH and OASAS if applicable, at least forty-five (45) days prior to the termination or expiration of the Provider Agreement, identifying the number of Enrollees affected by the potential withdrawal of the provider from the Contractor's network and specifying how services previously furnished by the Participating Provider will be provided in the event of its withdrawal from the Contractor's network. If the Participating Provider is a hospital, the Contractor shall identify the number of doctors that would not have admitting privileges in the absence of such Participating hospital.
- d) If the Participating Provider is a hospital and the Contractor and the hospital are in agreement that the termination or non-renewal will occur on the scheduled date indicated, separate written notice must be submitted to SDOH from the hospital and the Contractor. Both letters must be submitted as part of the forty-five (45) day notification to the Department. The Contractor must also provide the hospital with a copy of the "MCO/Hospital Terminations and Non-Renewal Guidelines" making the hospital aware of its responsibilities during the cooling off period, including, but not limited to, submission of a sample member notice, if applicable, to SDOH for review and approval. In addition, the Contractor must submit the impact/disruption analysis.
- e) If the Participating Provider is a hospital and either party desires to continue negotiations, all notices or requests submitted to the SDOH by the Contractor or hospital must include a copy to the other contracted party to the agreement. If the Contractor and the hospital do not submit a letter indicating the termination will occur as scheduled, the SDOH will assume the parties will continue to negotiate and Enrollees will be afforded the two months cooling off period as defined in statute. The Contractor must pay and the hospital must accept the previous contracted rate during the two month cooling off period. The Contractor must submit an impact/disruption analysis and draft notices to members and providers to SDOH for review upon the termination unless a contract extension is secured. If the Contractor and the hospital extend the term of the agreement, the extended date becomes the new termination date for purposes of PHL § 4406-c (5-c).
- f) If the Participating Provider is a hospital and either party wishes to request a waiver of the cooling off period, a written request must be made to the Director of the Bureau of Certification and Surveillance no more than five business days after the Contractor submits the notice of termination to the SDOH. The waiver request must include a detailed rationale as to why the cooling off period should not be afforded to Enrollees. The SDOH will respond to the request within three business days. If the SDOH denies the waiver request, the Contractor and the hospital must adhere to the specifications above. If the SDOH issues a waiver of the cooling off period,

the Contractor must immediately submit draft Enrollee notices and an impact/disruption analysis to SDOH in order to issue timely notification.

- g) In addition to the notification required in (a) above, the Contractor shall develop a transition plan for Enrollees who are patients of the Participating Provider withdrawing from the Contractor's network subject to approval by SDOH, and OMH and OASAS if applicable. SDOH may direct the Contractor to provide notice to the Enrollees who are patients of PCPs or specialists including available options for the patients, and availability of continuing care, consistent with Section 13.8 of this Agreement, not less than thirty (30) days prior to the termination or expiration of the Provider Agreement. To the extent practicable, such notices shall be forwarded to SDOH for review and approval forty-five (45) days prior to the termination or expiration of the Provider Agreement. In the event that Provider Agreements, other than those with hospitals, are terminated or are not renewed with less than the notice period required by this Section, the Contractor shall immediately notify SDOH, and OMH and OASAS if applicable, and develop a transition plan on an expedited basis and provide notice to affected Enrollees upon SDOH consent to the transition plan and Enrollee notice.
- h) If the Participating Provider is a hospital and the Contractor and the hospital agree to the termination or non-renewal so there will be no cooling off period, notices must be issued to Enrollees at least thirty (30) days prior to the termination and must reflect all transitional care requirements pursuant to PHL § 4406-c (5-c) and § 4403.6 (e). If notices are not sent thirty (30) days prior to the scheduled termination or non-renewal, the termination date must be adjusted to allow the required thirty (30) day notification to Enrollees.
- i) If the Contractor and the hospital continue negotiations and a cooling off period begins, notices must be issued to Enrollees within fifteen (15) days of the commencement of the cooling off period and must include language regarding the cooling off period and transitional care. When a cooling off period is required, notice may not be issued to Enrollees by either party prior to the start of the cooling off period.
- j) If the SDOH issues a waiver of the cooling off period, the Contractor must immediately submit draft Enrollee notices and an impact/disruption analysis to SDOH in order to issue timely notification. The notices must be sent to Enrollees at least thirty (30) days prior to the scheduled termination unless a contract extension is secured. If Enrollee notices are not sent at least thirty (30) days prior to the scheduled termination or non-renewal, the termination date must be adjusted to allow the required thirty (30) day notification to Enrollees.

- k) Upon Contractor notice of failure to renew, or termination of, a Provider Agreement, the SDOH, in its sole discretion, may waive the requirement of submission of a contingency plan upon a determination by the SDOH that:
 - i) the impact upon Enrollees is not significant, and/or
 - ii) the Contractor and Participating Provider are continuing to negotiate in good faith and consent to extend the Provider Agreement for a period of time necessary to provide not less than thirty (30) days notice to Enrollees.
- l) SDOH reserves the right to take any other action permitted by this Agreement and under regulatory or statutory authority, including but not limited to terminating this Agreement.

- a) If Contractor elects to operate a Physician Incentive Plan, the Contractor agrees that no specific payment will be made directly or indirectly to a Participating Provider that is a physician or physician group as an inducement to reduce or limit medically necessary services furnished to an Enrollee. Contractor agrees to submit to SDOH annual reports containing the information on its Physician Incentive Plan in accordance with 42 CFR § 438.6(h). The contents of such reports shall comply with the requirements of 42 CFR §§ 422.208 and 422.210 and be in a format to be provided by SDOH.
- b) The Contractor must ensure that any Provider Agreements for services covered by this Agreement, such as agreements between the Contractor and other entities or between the Contractor's subcontracted entities and their contractors, at all levels including the physician level, include language requiring that the Physician Incentive Plan information be provided by the sub-contractor in an accurate and timely manner to the Contractor, in the format requested by SDOH.
- c) In the event that the incentive arrangements place the Participating physician or physician group at risk for services beyond those provided directly by the physician or physician group for an amount beyond the risk threshold of twenty-five percent (25%) of potential payments for covered services (substantial financial risk), the Contractor must comply with all additional requirements listed in regulation, such as: conduct Enrollee/disenrollee satisfaction surveys; disclose the requirements for the Physician Incentive Plans to its beneficiaries upon request; and ensure that all physicians and physician groups at substantial financial risk have adequate stop-loss protection. Any of these additional requirements that are passed on to the subcontractors must be clearly stated in their Provider Agreement.

 - i) Development of the capacity for claims systems to recognize procedures coded with the modifiers PA (surgical or other invasive procedure performed on the wrong body part), PB (surgical or other invasive procedure performed on the wrong patient), and PC (wrong surgical or invasive procedure performed on a patient).

ii) Development of the capacity for claims systems to reject/deny claims coded with the modifiers PA, PB and PC.

The Contractor is not required to contract with home attendant vendor agencies unwilling to accept the applicable HRA rate or the Medicaid fee-for-service rate as long as the Contractor maintains an adequate network of Participating Providers to treat members.
- c) The Contractor will require that subcontractors employing home care aides certify annually, on forms provided by SDOH, to the Contractor that all home care aide services provided through the subcontractor are in compliance with PHL § 3614-c. The Contractor shall develop protocols to establish a verification system to demonstrate compliance with requirements. Such verification system must be sufficient to verify that home care aide wages provided by each subcontractor meet or exceed the local wage requirements pursuant to subdivision 3 and applicable notices and regulations. Solely collecting the certification or an attestation of compliance is not sufficient to meet this requirement. The local wage requirements are subject to change pursuant to subdivision 3 and applicable notices and regulations, all wages provided must comply with the current rate in effect.

- b) The liquidated damages prescribed in this section are not intended to be in the nature of a penalty, but are intended to be reasonable estimates of the SDOH's and OMIG's projected financial loss and/or damage to the program resulting from the Contractor's nonperformance, including financial loss as a result of audit, investigation or review delays. Accordingly, in the event the Contractor fails to perform in accordance with this Agreement, the SDOH or OMIG may assess liquidated damages as provided in this Section.

A) the determination was based upon a mistake of fact; or

B) the SDOH and/or OMIG were materially responsible for the breach.

iv) Within sixty (60) days of receiving written arguments or documentation in response to the Notice of Damages, OMIG will review the determination and notify the Contractor of the results of that review. Said plan must be approved by the SDOH, be filed with the SDOH, and be kept on file by the Contractor.

25. FAIR HEARINGS

25.1 Enrollee Access to Fair Hearing Process

Enrollees may access the fair hearing process in accordance with applicable federal and state laws and regulations. Contractors must abide by and participate in New York State's Fair Hearing Process and comply with determinations made by a fair hearing officer.

25.2 Enrollee Rights to a Fair Hearing

Enrollees may request a fair hearing regarding adverse LDSS determinations concerning enrollment, disenrollment and eligibility, and regarding the denial, termination, suspension or reduction of a State approved cost-effective alternative service, clinical treatment or other Benefit Package services by the Contractor. For issues related to disputed services, Enrollees must have received an adverse Action Appeal determination from the Contractor or its Subcontractor either overriding a recommendation to provide services by a Participating Provider or confirming the decision of a Participating Provider to deny those services. An Enrollee may also seek a fair hearing for a failure by the Contractor to act with reasonable promptness with respect to such services. Reasonable promptness shall mean compliance with the timeframes established for review of grievances and utilization review in Sections 44 and 49 of the Public Health Law, the Grievance and Appeal System requirements of 42 CFR Part 438 and Appendix F of this Agreement. The Contractor may not act in any manner so as to restrict the

Enrollee's right to a fair hearing or influence an Enrollee's decision to pursue a fair hearing.

25.3 Contractor Notice to Enrollees

- a) Contractor must issue a written notice of Action and right to fair hearing within applicable timeframes to any Enrollee when taking an adverse Action and when making an Appeal determination as provided in Appendix F of this Agreement.
- b) Contractor agrees to serve notice on affected Enrollees and must maintain documentation of such.

25.4 Aid Continuing

- a) Pursuant to SSL §365-a(8) and 18 NYCRR §360-10.8(g)(2), the Contractor shall be required to continue the provision of the Benefit Package services that are the subject of the fair hearing to an Enrollee (hereafter referred to as "aid continuing") if so ordered by the NYS Office of Administrative Hearings (OAH) under the following circumstances:
 - i) Contractor has or is seeking to restrict, reduce, suspend or terminate a treatment or Benefit Package service currently being provided; and
 - ii) Enrollee has filed a timely request for a fair hearing with OAH
- b) If so ordered by OAH, the Contractor shall be responsible for providing aid continuing, and shall not cease to provide aid continuing until one of the following occurs:
 - i) the Enrollee withdraws the request for aid continuing or the fair hearing; or
 - ii) OAH determines that the Enrollee is not entitled to aid continuing; or
 - iii) OAH completes the administrative process and/or issues a fair hearing decision adverse to the Enrollee; or
 - iv) the provider order has expired, except in the case of a home bound Enrollee or where the Enrollee is challenging the restriction.
- c) The Contractor shall provide aid continuing in a manner and duration as ordered by OAH. If the Contractor believes the Enrollee is not eligible for aid continuing, the Contractor may provide documentation of such to OAH and seek rescission of the aid continuing order.

- d) If the services and/or benefits in dispute have been terminated, suspended or reduced and the Enrollee timely requests a fair hearing, Contractor shall, at the direction of either SDOH or LDSS, restore the disputed services and/or benefits consistent with the provisions of Section 25.4 (b) of this Agreement.

25.5 Responsibilities of SDOH

SDOH will make every reasonable effort to ensure that the Contractor receives timely notice in writing by fax, or e-mail, of all requests, schedules and directives regarding fair hearings.

25.6 Contractor's Obligations

- a) Contractor shall appear at all scheduled fair hearings concerning its clinical determinations and/or Contractor-initiated disenrollments to present evidence as justification for its determination or submit written evidence as justification for its determination regarding the disputed benefits and/or services. If Contractor will not be making a personal appearance at the fair hearing, the written material must be submitted to OAH at least three (3) business days prior to the scheduled hearing and contain a phone number by which the hearing officer may contact a Contractor's representative, who has knowledge of the issue under review, during the hearing. If the hearing is scheduled fewer than three (3) business days after the request, Contractor must deliver the evidence to the hearing site no later than one (1) business day prior to the hearing, otherwise Contractor must appear in person. Notwithstanding the above provisions, Contractor may be required to make a personal appearance at the discretion of the hearing officer and/or SDOH.
- b) The Contractor must provide to the Enrollee or the Enrollee's authorized representative copies of the documents the Contractor will present at the fair hearing, also known as the "evidence packet." Copies of the evidence packet must be provided without charge. Within ten (10) business days of receiving notification of a hearing request, the Contractor must mail copies of the evidence packet to the Enrollee or the Enrollee's authorized representative. If, due to the scheduling of the fair hearing, the evidence packet cannot be prepared at least five (5) business days before the hearing, and there is not sufficient time for the evidence packet to be mailed, the Contractor must provide the Enrollee or the Enrollee's authorized representative such copies no later than at the time of the hearing.
- c) Upon request, the Contractor must provide the Enrollee or the Enrollee's authorized representative access to the Enrollee's case file, and provide copies of documents contained in the file. If so requested, copies of the case file must be provided without charge and within a reasonable time before the date of the hearing. If the request for copies of the case file is made less than five (5) business days before the hearing, the Contractor must provide the Enrollee

and the Enrollee's authorized representative such copies no later than at the time of the hearing. Such documents must be provided to the Enrollee and the Enrollee's authorized representative by mail within a reasonable time from the date of the request if the Enrollee or the Enrollee's authorized representative request that such documents be mailed; provided however, if there is insufficient time for such documents to be mailed and received before the scheduled date of the hearing, such documents may be presented at the hearing instead of being mailed.

- d) Despite an Enrollee's request for a State fair hearing in any given dispute, Contractor is required to maintain and operate in good faith its own internal Complaint and Appeal processes as required under state and federal laws and by Section 14 and Appendix F of this Agreement. Enrollees may seek redress of Adverse Determinations through Contractor's internal process and the State fair hearing process, pursuant to Appendix F of this Agreement. If Contractor has reversed its initial determination and provided the service to the Enrollee, Contractor may request a waiver from appearing at the hearing and, in submitted papers, explain that it has withdrawn its initial determination and is providing the service or treatment formerly in dispute.
- e) Contractor shall comply with all determinations rendered by OAH at fair hearings.
 - i) Contractor shall cooperate with SDOH efforts to ensure that Contractor is in compliance with fair hearing determinations. Failure by Contractor to maintain such compliance shall constitute breach of this Agreement. Nothing in this Section shall limit the remedies available to SDOH, LDSS or the federal government relating to any non-compliance by Contractor with a fair hearing determination or Contractor's refusal to provide disputed services.
 - ii) If the Contractor believes there is an error of law or fact in the fair hearing decision, the Contractor must comply with the fair hearing decision while seeking a correction or review of the decision from OAH, pursuant to 18 NYCRR Part 358-6.6.
- f) If SDOH investigates a Complaint that has as its basis the same dispute that is the subject of a pending fair hearing and, as a result of its investigation, concludes that the disputed services and/or benefits should be provided to the Enrollee, Contractor shall comply with SDOH's directive to provide those services and/or benefits and provide notice to the Enrollee to which services have been authorized. The Contractor may request a waiver from appearing at the hearing and, in submitted papers, explain that it has withdrawn its initial determination and is providing the service or treatment formerly in dispute.

- g) If SDOH, through its Complaint investigation process, or OAH, by a determination after a fair hearing, directs Contractor to provide a service that was initially denied by Contractor, Contractor may either directly provide the service, arrange for the provision of that service or pay for the provision of that service by a Non-Participating Provider. If the services were not furnished during the period the fair hearing was pending, the Contractor must authorize or furnish the disputed services promptly and as expeditiously as the Enrollee's health condition requires and no more than 72 hours from the date the Contractor receives notice of the fair hearing decision.
- h) Contractor agrees to abide by changes made to this Section of the Agreement with respect to the fair hearing, Action, Service Authorization, Complaint and Appeal processes by SDOH in order to comply with any amendments to applicable state or federal statutes or regulations.

STANDARD CLAUSES FOR NYS CONTRACTS

The parties to the attached contract, license, lease, amendment or other agreement of any kind (hereinafter, "the contract" or "this contract") agree to be bound by the following clauses which are hereby made a part of the contract (the word "Contractor" herein refers to any party other than the State, whether a contractor, licenser, licensee, lessor, lessee or any other party):

1. EXECUTORY CLAUSE. In accordance with Section 41 of the State Finance Law, the State shall have no liability under this contract to the Contractor or to anyone else beyond funds appropriated and available for this contract.

2. NON-ASSIGNMENT CLAUSE. In accordance with Section 138 of the State Finance Law, this contract may not be assigned by the Contractor or its right, title or interest therein assigned, transferred, conveyed, sublet or otherwise disposed of without the State's previous written consent, and attempts to do so are null and void. Notwithstanding the foregoing, such prior written consent of an assignment of a contract let pursuant to Article XI of the State Finance Law may be waived at the discretion of the contracting agency and with the concurrence of the State Comptroller where the original contract was subject to the State Comptroller's approval, where the assignment is due to a reorganization, merger or consolidation of the Contractor's business entity or enterprise. The State retains its right to approve an assignment and to require that any Contractor demonstrate its responsibility to do business with the State. The Contractor may, however, assign its right to receive payments without the State's prior written consent unless this contract concerns Certificates of Participation pursuant to Article 5-A of the State Finance Law.

3. COMPTROLLER'S APPROVAL. In accordance with Section 112 of the State Finance Law (or, if this contract is with the State University or City University of New York, Section 355 or Section 6218 of the Education Law), if this contract exceeds \$50,000 (or the minimum thresholds agreed to by the Office of the State Comptroller for certain S.U.N.Y. and C.U.N.Y. contracts), or if this is an amendment for any amount to a contract which, as so amended, exceeds said statutory amount, or if, by this contract, the State agrees to give something other than money when the value or reasonably estimated value of such consideration exceeds \$25,000, it shall not be valid, effective or binding upon the State until it has been approved by the State Comptroller and filed in his office. Comptroller's approval of contracts let by the Office of General Services is required when such contracts exceed \$85,000 (State Finance Law § 163.6-a). However, such pre-approval shall not be required for any contract established as a centralized contract through the Office of General Services or for a purchase order or other transaction issued under such centralized contract.

4. WORKERS' COMPENSATION BENEFITS. In accordance with Section 142 of the State Finance Law, this contract shall be void and of no force and effect unless the

Contractor shall provide and maintain coverage during the life of this contract for the benefit of such employees as are required to be covered by the provisions of the Workers' Compensation Law.

5. NON-DISCRIMINATION REQUIREMENTS. To the extent required by Article 15 of the Executive Law (also known as the Human Rights Law) and all other State and Federal statutory and constitutional non-discrimination provisions, the Contractor will not discriminate against any employee or applicant for employment, nor subject any individual to harassment, because of age, race, creed, color, national origin, sexual orientation, gender identity or expression, military status, sex, disability, predisposing genetic characteristics, familial status, marital status, or domestic violence victim status or because the individual has opposed any practices forbidden under the Human Rights Law or has filed a complaint, testified, or assisted in any proceeding under the Human Rights Law. Furthermore, in accordance with Section 220-e of the Labor Law, if this is a contract for the construction, alteration or repair of any public building or public work or for the manufacture, sale or distribution of materials, equipment or supplies, and to the extent that this contract shall be performed within the State of New York, Contractor agrees that neither it nor its subcontractors shall, by reason of race, creed, color, disability, sex, or national origin: (a) discriminate in hiring against any New York State citizen who is qualified and available to perform the work; or (b) discriminate against or intimidate any employee hired for the performance of work under this contract. If this is a building service contract as defined in Section 230 of the Labor Law, then, in accordance with Section 239 thereof, Contractor agrees that neither it nor its subcontractors shall by reason of race, creed, color, national origin, age, sex or disability: (a) discriminate in hiring against any New York State citizen who is qualified and available to perform the work; or (b) discriminate against or intimidate any employee hired for the performance of work under this contract. Contractor is subject to fines of \$50.00 per person per day for any violation of Section 220-e or Section 239 as well as possible termination of this contract and forfeiture of all moneys due hereunder for a second or subsequent violation.

6. WAGE AND HOURS PROVISIONS. If this is a public work contract covered by Article 8 of the Labor Law or a building service contract covered by Article 9 thereof, neither Contractor's employees nor the employees of its subcontractors may be required or permitted to work more than the number of hours or days stated in said statutes, except as otherwise provided in the Labor Law and as set forth in prevailing wage and supplement schedules issued by the State Labor Department. Furthermore, Contractor and its subcontractors must pay at least the prevailing wage rate and pay or provide the prevailing supplements, including the premium rates for overtime pay, as determined by the State Labor Department in accordance with the Labor Law. Additionally, effective April 28, 2008, if this is a public work contract covered by Article 8 of the Labor Law, the Contractor understands and agrees that the filing of payrolls in a manner consistent with Subdivision 3-

a of Section 220 of the Labor Law shall be a condition precedent to payment by the State of any State approved sums due and owing for work done upon the project.

7. NON-COLLUSIVE BIDDING CERTIFICATION. In accordance with Section 139-d of the State Finance Law, if this contract was awarded based upon the submission of bids, Contractor affirms, under penalty of perjury, that its bid was arrived at independently and without collusion aimed at restricting competition. Contractor further affirms that, at the time Contractor submitted its bid, an authorized and responsible person executed and delivered to the State a non-collusive bidding certification on Contractor's behalf.

8. INTERNATIONAL BOYCOTT PROHIBITION. In accordance with Section 220-f of the Labor Law and Section 139-h of the State Finance Law, if this contract exceeds \$5,000, the Contractor agrees, as a material condition of the contract, that neither the Contractor nor any substantially owned or affiliated person, firm, partnership or corporation has participated, is participating, or shall participate in an international boycott in violation of the federal Export Administration Act of 1979 (50 USC App. Sections 2401 et seq.) or regulations thereunder. If such Contractor, or any of the aforesaid affiliates of Contractor, is convicted or is otherwise found to have violated said laws or regulations upon the final determination of the United States Commerce Department or any other appropriate agency of the United States subsequent to the contract's execution, such contract, amendment or modification thereto shall be rendered forfeit and void. The Contractor shall so notify the State Comptroller within five (5) business days of such conviction, determination or disposition of appeal (2 NYCRR § 105.4).

9. SET-OFF RIGHTS. The State shall have all of its common law, equitable and statutory rights of set-off. These rights shall include, but not be limited to, the State's option to withhold for the purposes of set-off any moneys due to the Contractor under this contract up to any amounts due and owing to the State with regard to this contract, any other contract with any State department or agency, including any contract for a term commencing prior to the term of this contract, plus any amounts due and owing to the State for any other reason including, without limitation, tax delinquencies, fee delinquencies or monetary penalties relative thereto. The State shall exercise its set-off rights in accordance with normal State practices including, in cases of set-off pursuant to an audit, the finalization of such audit by the State agency, its representatives, or the State Comptroller.

10. RECORDS. The Contractor shall establish and maintain complete and accurate books, records, documents, accounts and other evidence directly pertinent to performance under this contract (hereinafter, collectively, the "Records"). The Records must be kept for the balance of the calendar year in which they were made and for six (6) additional years thereafter. The State Comptroller, the Attorney General and any other person or entity authorized to conduct an examination, as well as the

agency or agencies involved in this contract, shall have access to the Records during normal business hours at an office of the Contractor within the State of New York or, if no such office is available, at a mutually agreeable and reasonable venue within the State, for the term specified above for the purposes of inspection, auditing and copying. The State shall take reasonable steps to protect from public disclosure any of the Records which are exempt from disclosure under Section 87 of the Public Officers Law (the "Statute") provided that: (i) the Contractor shall timely inform an appropriate State official, in writing, that said records should not be disclosed; and (ii) said records shall be sufficiently identified; and (iii) designation of said records as exempt under the Statute is reasonable. Nothing contained herein shall diminish, or in any way adversely affect, the State's right to discovery in any pending or future litigation.

11. IDENTIFYING INFORMATION AND PRIVACY NOTIFICATION. (a) Identification Number(s). Every invoice or New York State Claim for Payment submitted to a New York State agency by a payee, for payment for the sale of goods or services or for transactions (e.g., leases, easements, licenses, etc.) related to real or personal property must include the payee's identification number. The number is any or all of the following: (i) the payee's Federal employer identification number, (ii) the payee's Federal social security number, and/or (iii) the payee's Vendor Identification Number assigned by the Statewide Financial System. Failure to include such number or numbers may delay payment. Where the payee does not have such number or numbers, the payee, on its invoice or Claim for Payment, must give the reason or reasons why the payee does not have such number or numbers.

(b) Privacy Notification. (1) The authority to request the above personal information from a seller of goods or services or a lessor of real or personal property, and the authority to maintain such information, is found in Section 5 of the State Tax Law. Disclosure of this information by the seller or lessor to the State is mandatory. The principal purpose for which the information is collected is to enable the State to identify individuals, businesses and others who have been delinquent in filing tax returns or may have understated their tax liabilities and to generally identify persons affected by the taxes administered by the Commissioner of Taxation and Finance. The information will be used for tax administration purposes and for any other purpose authorized by law. (2) The personal information is requested by the purchasing unit of the agency contracting to purchase the goods or services or lease the real or personal property covered by this contract or lease. The information is maintained in the Statewide Financial System by the Vendor Management Unit within the Bureau of State Expenditures, Office of the State Comptroller, 110 State Street, Albany, New York 12236.

25. CERTIFICATION OF REGISTRATION TO COLLECT SALES AND COMPENSATING USE TAX BY CERTAIN STATE CONTRACTORS, AFFILIATES AND SUBCONTRACTORS.

To the extent this agreement is a contract as defined by Tax Law § 5-a, if the contractor fails to make the certification required by Tax Law § 5-a or if during the term of the contract, the Department of Taxation and Finance or the covered agency, as defined by Tax Law § 5-a, discovers that the certification, made under penalty of perjury, is false, then such failure to file or false certification shall be a material breach of this contract and this contract may be terminated, by providing written notification to the Contractor in accordance with the terms of the agreement, if the covered agency determines that such action is in the best interest of the State.

SDOH will inform the Contractor when the five percent (5%) threshold has been reached. Materials to be translated include those key materials, such as informational brochures, that are produced for routine distribution. SDOH will determine the need for other-than-English translations based on county-specific census data or other available measures.

For all foreign language translation of Outreach/Advertising material, member handbooks, brochures and pamphlets, the Contractor must submit an annual certification that attests that the individual(s) that will be performing the foreign language translation of the materials described in this section will use his/her best efforts to accurately translate the material into the specified language. Translated materials must meet the readability standards described in Section 13.8 of this Agreement. - a) The Contractor's Action Appeals process shall indicate the following regarding resolution of Appeals of an Action:
 - i) The Enrollee, or his or her designee, will have sixty (60) days from the date of the notice of Action to file an Action Appeal. An Enrollee requesting an Action Appeal within ten (10) days of the notice of Action or by the intended date of an Action, whichever is later, that involves the reduction, suspension, or termination of previously approved services, or the partial approval, reduction, suspension, or termination of a subsequent authorization period for LTSS or RHCF services, may request aid continuing in accordance with Section 6 of this Appendix.
 - ii) The Enrollee may file a written Action Appeal or an oral Action Appeal. Oral Action Appeals must be followed by a written, signed, Action Appeal. The Contractor may provide a written summary of an oral Action Appeal to the Enrollee (with the acknowledgement or separately) for the Enrollee to review, modify if needed, sign and return to the Contractor. If the Enrollee or provider requests expedited resolution of the Action Appeal, the oral Action Appeal does not need to be confirmed in writing. If a determination is reached before the written acknowledgement is sent, the Contractor may include the written acknowledgement with the notice of Action Appeal determination (one notice).

- v) The Contractor must have a process for handling expedited Action Appeals. Expedited resolution of the Action Appeal must be conducted when the Contractor determines or the provider indicates that a delay would seriously jeopardize the Enrollee's life, physical or mental health or ability to attain, maintain, or regain maximum function, or when the Action involved a Concurrent Review Request or a Prior Authorization Request meeting the conditions described in PHL 4903 (2)(b), for proposed mental health or substance use disorder service, where the Enrollee, or the Enrollee's designee, has certified the proposed services are for an individual who will be appearing, or has appeared, before a court of competent jurisdiction (subject to the provisions of Section 10.9 of this Agreement). Based on the transaction date of the Enrollment of the newborn, the newborn will appear on either the next month's Roster, the subsequent month's Roster or the 834 file. If the newborn's Enrollment is not completed by this process, the LDSS is responsible for entering the Enrollment on the appropriate state systems (see (c)(iv) below). The NYSoH shall update the demographic data for the newborn and enroll the newborn in the mother's MCO if the newborn is not already enrolled, and send the Contractor an 834 electronic enrollment file.

 - iii) The Contractor will accept Enrollment applications for unborns if that is the mothers' intent, even if the mothers are not and/or will not be enrolled in the Contractor's MMC or FHPlus product. When a mother is ineligible for Enrollment or chooses not to enroll, the Contractor will accept Enrollment applications for pre-enrollment of unborns who are eligible.
 - iv) The Contractor is responsible for provision of services to a newborn and payment of the hospital or birthing center bill if the mother is an Enrollee at the time of the newborn's birth, even if the newborn is not yet on the Roster or the Contractor has not yet been notified by NYSoH via a 834 file, unless the Contractor does not offer a MMC product in the mother's county of fiscal responsibility or the newborn is Excluded from the MMC Program pursuant to Section 2(b)(xi) of this Appendix.

- b) SDOH Responsibilities:
 - i) The SDOH, NYSoH, LDSS or Enrollment Broker will assign MMC Eligible Persons not pre-coded in state systems as Exempt or Excluded, who have not chosen a MCO offering a MMC product in the required time period, to a MCO offering a MMC product using an algorithm as specified in §364-j(4)(d) of the SSL.
 - ii) SDOH will ensure the auto-assignment process automatically updates the state enrollment system, and will notify MCOs offering MMC products of auto-assigned individuals electronically.
 - iii) SDOH will notify the LDSS electronically on a daily basis of those individuals for whom SDOH has selected a MCO offering a MMC product through the Automated PCP Update Report. This does not apply for NYSoH Medicaid enrollees.
- c) NYSoH or LDSS Responsibilities:
 - i) The NYSoH or LDSS is responsible for tracking an individual’s choice period.

5. Roster Reconciliation:

- a) All Enrollments are effective the first of the month.

 - B) SDOH shall send the Contractor and LDSS monthly, at the time of the first monthly roster production, a Disenrollment Report listing those Enrollees from the previous month's roster who were disenrolled, transferred to another MCO, or whose Enrollments were deleted from the file.
 - C) The SDOH shall also forward an error report as necessary to the Contractor and LDSS.
 - D) In LDSSs where the Enrollment Broker services are utilized, Enrollment error reports are generated by the Enrollment Broker to the Contractor generally within 24-48 hours of Contractor Enrollment submissions, and the Contractor is able to resubmit corrections via the Enrollment Broker before Roster pulldown. Changes in Enrollee eligibility status and reports of Disenrollments processed by the Enrollment Broker that occur subsequent to production of the monthly roster shall be reported by the Enrollment Broker through electronic file transfer.
 - E) On the first (1st) weekend after the first (1st) day of the month following the generation of the first (1st) Roster, SDOH shall send the Contractor and LDSS a second Roster which contains any additional Enrollees that the LDSS has added for Enrollment for the current month. The SDOH will also include any additions to the error report that have occurred since the initial error report was generated. The Contractor must accept this second roster information as well as any other state-designated official enrollment report as an official adjustment to the first roster.
- c) LDSS Responsibilities:
 - i) The LDSS is responsible for notifying the Contractor electronically or in writing of changes to the first Roster that will not show up on the second Roster and error report, no later than the end of the month. To the extent practicable the date specified must allow for timely notice to Enrollees regarding their Enrollment status. The Contractor and the LDSS may develop protocols for the purpose of resolving Roster discrepancies that remain unresolved beyond the end of the month.

- d) Contractor Responsibilities:
- i) The Contractor is at risk for providing Benefit Package services for those Enrollees listed on the 1st and 2nd Rosters for the month in which the 2nd Roster is generated. Contractor is not at risk for providing services to Enrollees who appear on the monthly Disenrollment report.
 - ii) The Contractor must submit claims to the State's Fiscal Agent for all Eligible Persons that are on the 1st and 2nd Rosters, adjusted to add Eligible Persons enrolled by the LDSS or the Enrollment Broker after Roster production and to remove individuals disenrolled by LDSS after Roster production (as notified to the Contractor). In the cases of retroactive Disenrollments, the Contractor is responsible for submitting an adjustment to void any previously paid premiums for the period of retroactive Disenrollment, where the Contractor was not at risk for the provision of Benefit Package services. Payment of subcapitation does not constitute "provision of Benefit Package services."

6. 834 Enrollment Process

- a) The Contractor shall be notified of Enrollments into its Medicaid managed care plan via 834 files listing individuals who are determined to be eligible for Medicaid and have selected the Contractor's plan for Enrollment through the NYSoH Marketplace. All Enrollments are effective the first day of the month.

7. **Disenrollment:**

- a) NYSoH or LDSS Responsibilities:
 - i) The NYSoH, Enrollment Broker or LDSS is responsible for accepting requests for Disenrollment directly from Enrollees and may not require Enrollees to approach the Contractor for a Disenrollment form. All requests for Disenrollment must be directed to the NYSoH, LDSS or the Enrollment Broker as appropriate.
 - ii) Enrollees may initiate a request for an expedited Disenrollment to the NYSoH, Enrollment Broker or LDSS. The NYSoH or LDSS will expedite the Disenrollment process for HIV SNP Enrollees and when an Enrollee’s request for Disenrollment involves an urgent medical need or a complaint of non-consensual Enrollment. If approved, the NYSoH or LDSS will process the Disenrollment through the appropriate state system.
 - iii) The NYSoH, Enrollment Broker or LDSS is responsible for processing routine Disenrollment requests to take effect on the first (1st) day of the following month if the request is made **before** the fifteenth (15th) day of the month.  - v) The NYSoH, Enrollment Broker or LDSS is responsible for informing Enrollees of their rights relative to changing MCOs. Individuals who are eligible for HIV SNP enrollment may request transfer from an MCO to an HIV SNP, or from an HIV

SNP to another HIV SNP at any time. Enrollees subject to Lock-In may disenroll from their current MCO and transfer to another MCO after the grace period for Good Cause as defined below. The NYSoH, LDSS, or Enrollment Broker is responsible for determining if the Enrollee has Good Cause and processing the transfer request in accordance with the procedures outlined in this Appendix. The NYSoH or LDSS is responsible for providing Enrollees with notice of their right to request a fair hearing if their Disenrollment request is denied. Such notice must include the reason(s) for the denial. An Enrollee has Good Cause to disenroll from their current MCO if:

- A) The Contractor has failed to furnish accessible and appropriate medical care services or supplies to which the Enrollee is entitled under the terms of the contract under which the Contractor has agreed to provide services. This includes, but is not limited to the failure to:

- D) It is determined by the NYSoH, the LDSS, the SDOH, or its agent that the Enrollment was not consensual; or
- E) The Enrollee, the Contractor and the NYSoH or LDSS agree that a change of MCOs would be in the best interest of the Enrollee; or
- F) The Enrollee's medical condition requires related services to be performed at the same time but all such related services cannot be arranged by the Contractor because the Contractor has elected not to cover one of the services the Enrollee seeks, and the Enrollee's Primary Care Provider or another

provider determines that receiving the services separately would subject the Enrollee to unnecessary risk; or

- G) An FHPlus Enrollee is pregnant; or
 - H) The Contractor does not contract with an FQHC and one or more other MCOs in the Enrollee's county of fiscal responsibility provide the service.
 - I) [Applicable to HIV SNP Program only]: The HIV+ Enrollee is a child who is an SSI recipient with serious emotional disturbances whose behavioral health benefits are provided through the Medicaid fee-for-service program; or
 - J) The Enrollee moves out of the Contractor's service area, as designated in Appendix M of this Agreement; or
 - K) The Contractor does not, because of moral or religious objections, cover the service the Enrollee seeks; or
 - L) The Enrollee is in receipt of LTSS, as defined in Appendix S of this Agreement, and such Enrollee would have to change their residential, institutional, or employment supports provider based on such provider no longer being a Participating Provider and as a result such Enrollee would experience a disruption in their residence or employment.

The NYSoH or LDSS will provide the MMC Enrollee with a notice of his or her right to request a fair hearing.
- viii) In instances where an MMC Enrollee requests Disenrollment due to MMC exclusion, the NYSoH or LDSS must notify the MMC Enrollee of the approval or denial of exclusion/Disenrollment status, including fair hearing rights if Disenrollment is denied.
- ix) The NYSoH, Enrollment Broker or LDSS is responsible for ensuring that retroactive Disenrollments are used only when absolutely necessary. Circumstances warranting a retroactive Disenrollment are rare and include when comprehensive third party health insurance has provided coverage or agrees to provide coverage for an infant OR the infant and mother effective on the infant's date of birth; an Enrollee is determined to have been non-consensually enrolled in a MCO; he or she enters or resides in a residential institution under circumstances which render the individual excluded from the MMC program; is incarcerated; he or she is in a psychiatric hospital under circumstances which render the individual

excluded from managed care; is simultaneously in receipt of comprehensive health care coverage from an MCO and is enrolled in either the MMC or FHPlus product of the same MCO; or he or she has died

- x) The SDOH may recover premiums paid for Medicaid or FHPlus Enrollees whose eligibility for those programs was based on false information, when such false information was provided as a result of intentional actions or failures to act on the part of an employee of the Contractor; and the Contractor shall have no right of recourse against the Enrollee or a provider of service for the cost of services provided to the Enrollee for the period covered by such premiums.
- xi) The NYSoH or LDSS is responsible for notifying the Contractor of the retroactive Disenrollment prior to the action. Once this information is obtained, the NYSoH or LDSS and Contractor will agree on a retroactive Disenrollment or prospective Disenrollment date.
- xii) In all cases of retroactive Disenrollment, including Disenrollments effective the first day of the current month, the NYSoH, Enrollment Broker or LDSS is responsible for sending notice to the Contractor at the time of Disenrollment, of the Contractor's responsibility to submit to the SDOH's Fiscal Agent voided premium claims within thirty (30) business days of notification from the NYSoH, Enrollment Broker, or LDSS for any full months of retroactive Disenrollment.
- xiii) The NYSoH, Enrollment Broker or LDSS is responsible for promptly notifying the Contractor electronically or in writing of a MMC Enrollee in foster care whose eligibility or placement status changes such that he/she is disenrolled by the NYSoH, Enrollment Broker or LDSS, or is transferred to another MCO.
- xiv) Failure by the NYSoH, Enrollment Broker, or LDSS to notify the Contractor of a disenrollment does not affect the right of the SDOH to withhold or recover capitation payment(s) as authorized by Section 3.6 of this Agreement or for the State Attorney General to bring legal action to recover any overpayment.

Where applicable, the NYSoH or LDSS may consult with local mental health and Substance Use Disorder authorities in the district when making the determination to approve or disapprove the request.
- xxii) The SDOH, NYSoH or LDSS is responsible for establishing procedures whereby the Contractor refers cases which are appropriate for an SDOH, NYSoH or LDSS-initiated Disenrollment and submits supporting documentation to the SDOH, NYSoH or LDSS.
- xxiii) After the NYSoH, Enrollment Broker or LDSS receives and, if appropriate, approves the request for Disenrollment either from the Enrollee or the Contractor, the NYSoH, Enrollment Broker or LDSS is responsible for updating the appropriate state systems with an end date. The Enrollee is removed from the Contractor's Roster or NYSoH sends the Contractor a 834 file indicating the Enrollee's disenrollment. If the Enrollee is not otherwise exempt or excluded, he/she will be required to enroll in another MMC product.
- xxiv) In the event that the NYSoH, Enrollment Broker, or LDSS determination of the request for Disenrollment is not within timeframes specified in Appendix H of this Agreement, the disenrollment is considered approved for the effective date that would have been established had the NYSoH, Enrollment Broker, or LDSS made the determination within timeframes specified in Appendix H of this Agreement.
- xxv) The NYSoH Enrollment Broker, or LDSS is responsible for promptly disenrolling an MMC Enrollee who has requested disenrollment without cause for circumstances described in Section 8.6(d) of this Agreement.

b) Contractor Responsibilities:

- i) The Contractor must accept and transmit all requests for transfers from its Enrollees to the NYSoH, LDSS or Enrollment Broker, and shall not impose any barriers to Disenrollment requests.
- ii) The Contractor will make a good faith effort to identify cases which may be appropriate for an NYSoH or LDSS-initiated Disenrollment. Within five (5) business days of identifying such cases and following NYSoH or LDSS procedures, the Contractor will, in writing or electronically, refer cases which are appropriate for an NYSoH or LDSS-initiated Disenrollment and will submit supporting documentation to the NYSoH or LDSS. This includes changes in status for its Enrollees that may impact eligibility for Enrollment, including, but not limited to address changes, incarceration, death, exclusion from the MMC

program, the apparent enrollment of a member in the Contractor's MMC or FHPlus product under more than one CIN, or the availability of Third Party Health Insurance (TPHI) to the Enrollee.

- iii) Pursuant to Section 8.7 of this Agreement, the Contractor may initiate an involuntary Disenrollment if the Enrollee engages in conduct or behavior that seriously impairs the Contractor's ability to furnish services to either the Enrollee or other Enrollees, provided that the Contractor has made and documented reasonable efforts to resolve the problems presented by the Enrollee.
- iv) The Contractor may not request Disenrollment because of an adverse change in the Enrollee's health status, or because of the Enrollee's utilization of medical services, diminished mental capacity, or uncooperative or disruptive behavior resulting from the Enrollee's special needs (except where continued Enrollment in the Contractor's MMC or FHPlus product seriously impairs the Contractor's ability to furnish services to either the Enrollee or other Enrollees).
- v) The Contractor must make a reasonable effort to identify for the Enrollee, both verbally and in writing, those actions of the Enrollee that have interfered with the effective provision of covered services as well as explain what actions or procedures are acceptable.
- vi) The Contractor shall give prior verbal and written notice to the Enrollee, with a copy to the NYSoH or LDSS, of its intent to request Disenrollment. The copy of the notice to the NYSoH or LDSS must include the documentation of reasonable efforts. The written notice shall advise the Enrollee that the request has been forwarded to the NYSoH or LDSS for review and approval. The written notice must include the mailing address and telephone number of the NYSoH or LDSS.
- vii) The Contractor shall keep the NYSoH or LDSS informed of decisions related to all complaints filed by an Enrollee as a result of, or subsequent to, the notice of intent to disenroll.
- viii) The Contractor will not consider an Enrollee disenrolled without confirmation from the NYSoH or LDSS as described in Section 5 of this Appendix.
- ix) [Applicable to HIV SNP Program only]: The HIV SNP Contractor will prepare a written discharge plan to assure continuity of care at the time of Disenrollment. With the Enrollee's consent, information will also be provided on and referrals provided to case management resources and primary care providers. The Contractor will provide the discharge plan to the Enrollee within fifteen (15) days of the notice of or request for Disenrollment and, with the Enrollee's consent, to his or her designated provider.
- x) [Applicable to children in foster care only]: The Contractor will prepare a written discharge plan to assure continuity of care at the time of Disenrollment. Information will also be provided on and referrals provided to case management

resources and primary care providers. The discharge plan should be provided to the Enrollee or his/her legal guardian, his/her designated care provider, and the NYSoH or LDSS within fifteen (15) days of the notice of or request for Disenrollment.

APPENDIX I

New York State Department of Health Guidelines for Use of Medical Residents and Fellows

Medical Residents and Fellows

1. Medical Residents and Fellows for Primary Care.

- a) The Contractor may utilize medical residents and fellows as participants (but not designated as ‘primary care providers’) in the care of Enrollees as long as all of the following conditions are met:
- i) Residents/fellows are a part of patient care teams headed by fully licensed and Contractor credentialed attending physicians serving patients in one or more training sites in an “up weighted” or “designated priority” residency program. Residents/fellows in a training program which was disapproved as a designated priority program solely due to the outcome measurement requirement for graduates may be eligible to participate in such patient care teams.
 - ii) Only the attending physicians and certified nurse practitioners on the training team, not residents/fellows, may be credentialed to the Contractor and may be empanelled with Enrollees. Enrollees must be assigned an attending physician or certified nurse practitioner to act as their PCP, though residents/fellows on the team may provide care during all or many of the visits to the Enrollee as long as the majority of these visits are under the direct supervision of the Enrollee's designated PCP. Enrollees have the right to request and receive care by their PCP in addition or instead of being seen by a resident or fellow.
 - iii) Residents/fellows may work with attending physicians and certified nurse practitioners to provide continuity of care to patients under the supervision of the patient's PCP. Patients must be made aware of the resident/fellow and attending PCP relationship and be informed of their rights to be cared for directly by their PCP.
 - iv) Residents/fellows eligible to be involved in a continuity relationship with patients must be available at least twenty percent (20%) of the total training time in the continuity of care setting and no less than ten percent (10%) of training time in any training year must be in the continuity of care setting and no fewer than nine (9) months a year must be spent in the continuity of care setting.
 - v) Residents/fellows meeting these criteria provide increased capacity for Enrollment to their team according to the formula below. Only hours spent routinely scheduled for patient care in the continuity of care training site may count as providing capacity and are based on 1.0 FTE=40 hours.

PGY-1	300 per FTE
PGY-2	750 per FTE
PGY-3	1125 per FTE
PGY-4 and above	1500 per FTE

- vi) In order for a resident/fellow to provide continuity of care to an Enrollee, both the resident/fellow and the attending PCP must have regular hours in the continuity site and must be scheduled to be in the site together the majority of the time.
- vii) A preceptor/attending is required to be present a minimum of sixteen (16) hours of combined precepting and direct patient care in the primary care setting to be counted as a team supervising PCP and accept an increased number of Enrollees based upon the residents/fellows working on his/her team. Time spent in patient care activities at other clinical sites or in other activities off-site is not counted towards this requirement.
- viii) A sixteen (16) hour per week attending may have no more than four (4) residents/fellows on their team. Attendings spending twenty-four (24) hours per week in patient care/supervisory activity at the continuity site may have six (6) residents/fellows per team. Attendings spending thirty-two (32) hours per week may have eight (8) residents/fellows on their team. Two (2) or more attendings may join together to form a larger team as long as the ratio of attending to residents/fellows does not exceed 1:4 and all attendings comply with the sixteen (16) hour minimum.
- ix) Responsibility for the care of the Enrollee remains with the attending physician. All attending and resident/fellow teams must provide adequate continuity of care, twenty-four (24) hour a day, seven (7) days a week coverage, and appointment and availability access. Enrollees must be given the name of the responsible primary care physician (attending) in writing and be told how he or she may contact the attending physician or covering physician, if needed.
- x) Residents/fellows who do not qualify to act as continuity providers as part of an attending and resident/fellow team may still participate in the episodic care of Enrollees as long as that care is under the supervision of an attending physician credentialed to the Contractor. Such residents/fellows do not add to the capacity of that attending to empanel Enrollees.
- xi) Certified nurse practitioners and registered physician's assistants may not act as attending preceptors for resident physicians or fellows.

2. Medical Residents and Fellows as Specialty Care Providers

- a) Residents/fellows may participate in the specialty care of Enrollees in all settings supervised by fully licensed and Contractor credentialed specialty attending physicians.
- b) Only the attending physicians, not residents or fellows, may be credentialed by the Contractor. Each attending must be credentialed by each MCO with which he or she will participate. Residents/fellows may perform all or many of the clinical services

- for the Enrollee as long as these clinical services are under the supervision of an appropriately credentialed specialty physician. Even when residents/fellows are credentialed by their program in particular procedures, certifying their competence to perform and teach those procedures, the overall care of each Enrollee remains the responsibility of the supervising Contractor credentialed attending.
- c) The Contractor agrees that although many Enrollees will identify a resident or fellow as their specialty provider, the responsibility for all clinical decision-making remains ultimately with the attending physician of record.
 - d) Enrollees must be given the name of the responsible attending physician in writing and be told how they may contact their attending physician or covering physician, if needed. This allows Enrollees to assist in the communication between their primary care provider and specialty attending and enables them to reach the specialty attending if an emergency arises in the course of their care. Enrollees must be made aware of the resident/fellow and attending relationship and must have a right to be cared for directly by the responsible attending physician, if requested.
 - e) Enrollees requiring ongoing specialty care must be cared for in a continuity of care setting. This requires the ability to make follow-up appointments with a particular resident/fellow and attending physician team, or if that provider team is not available, with a member of the provider's coverage group in order to insure ongoing responsibility for the patient by his/her Contractor credentialed specialist. The responsible specialist and his/her specialty coverage group must be identifiable to the patient as well as to the referring primary care provider.
 - f) Attending specialists must be available for emergency consultation and care during non-clinic hours. Emergency coverage may be provided by residents/fellows under adequate supervision. The attending or a member of the attending's coverage group must be available for telephone and/or in-person consultation when necessary.
 - g) All training programs participating in the MMC or FHPlus Program must be accredited by the appropriate academic accrediting agency.
 - h) All sites in which residents/fellows train must produce legible (preferably typewritten) consultation reports. Reports must be transmitted such that they are received in a time frame consistent with the clinical condition of the patient, the urgency of the problem and the need for follow-up by the primary care physician. At a minimum, reports should be transmitted so that they are received no later than two (2) weeks from the date of the specialty visit.
 - i) Written reports are required at the time of initial consultation and again with the receipt of all major significant diagnostic information or changes in therapy. In addition, specialists must promptly report to the referring primary care physician any significant findings or urgent changes in therapy which result from the specialty consultation.

3. Training Sites

All training sites must deliver the same standard of care to all patients irrespective of payor. Training sites must integrate the care of Medicaid, FHPlus, uninsured and private patients in the same settings.

APPENDIX J

New York State Department of Health Guidelines for Contractor Compliance with the Federal Americans with Disabilities Act

I. OBJECTIVES

Title II of the Americans With Disabilities Act (ADA) and Section 504 of the Rehabilitation Act of 1973 (Section 504) provides that no qualified individual with a disability shall, by reason of such disability, be excluded from participation in or denied access to the benefits of services, programs or activities of a public entity, or be subject to discrimination by such an entity. Public entities include State and local government and ADA and Section 504 requirements extend to all programs and services provided by State and local government. Since MMC and FHPlus are government programs, health services provided through MMC and FHPlus Programs must be accessible to all that qualify for them.

Contractor responsibilities for compliance with the ADA are imposed under Title II and Section 504 when, as a Contractor in a MMC or FHPlus Program, a Contractor is providing a government service. If an individual provider under contract with the Contractor is not accessible, it is the responsibility of the Contractor to make arrangements to assure that alternative services are provided. The Contractor may determine it is expedient to make arrangements with other providers, or to describe reasonable alternative means and methods to make these services accessible through its existing Participating Providers. The goals of compliance with ADA Title II requirements are to offer a level of services that allows people with disabilities access to the program in its entirety, and the ability to achieve the same health care results as any Enrollee.

Contractor responsibilities for compliance with the ADA are also imposed under Title III when the Contractor functions as a public accommodation providing services to individuals (e.g. program areas and sites such as Marketing, education, member services, orientation, Complaints and Appeals). The goals of compliance with ADA Title III requirements are to offer a level of services that allows people with disabilities full and equal enjoyment of the goods, services, facilities or accommodations that the entity provides for its customers or clients. New and altered areas and facilities must be as accessible as possible. Whenever Contractors engage in new construction or renovation, compliance is also required with accessible design and construction standards promulgated pursuant to the ADA as well as State and local laws. Title III also requires that public accommodations undertake “readily achievable barrier removal” in existing facilities where architectural and communications barriers can be removed easily and without much difficulty or expense.

The State uses MCO Qualification Standards to qualify MCOs for participation in the MMC and FHPlus Programs. Pursuant to the State’s responsibility to assure program access to all Enrollees, the Plan Qualification Standards require each MCO to submit an ADA Compliance Plan that describes in detail how the MCO will make services, programs and activities readily accessible and useable by individuals with disabilities. In the event that certain program sites are not readily accessible, the MCO must describe reasonable alternative methods for making the services or activities accessible and usable.

The objectives of these guidelines are threefold:

- To ensure that Contractors take appropriate steps to measure access and assure program accessibility for persons with disabilities;
- To provide a framework for Contractors as they develop a plan to assure compliance with the Americans with Disabilities Act (ADA); and
- To provide standards for the review of the Contractor Compliance Plans.

These guidelines include a general standard followed by a discussion of specific considerations and suggestions of methods for assuring compliance. Please be advised that, although these guidelines and any subsequent reviews by State and local governments can give the Contractor guidance, it is ultimately the Contractor's obligation to ensure that it complies with its Contractual obligations, as well as with the requirements of the ADA, Section 504, and other federal, state and local laws. Other federal, state and local statutes and regulations also prohibit discrimination on the basis of disability and may impose requirements in addition to those established under ADA. For example, while the ADA covers those impairments that "substantially" limit one or more of the major life activities of an individual, New York City Human Rights Law deletes the modifier "substantially".

II. DEFINITIONS

- A. "Auxiliary aids and services" may include qualified interpreters, note takers, computer-aided transcription services, written materials, telephone handset amplifiers, assistive listening systems, telephones compatible with hearing aids, closed caption decoders, open and closed captioning, telecommunications devices for Enrollees who are deaf or hard of hearing (TTY/TDD), video test displays, and other effective methods of making aurally delivered materials available to individuals with hearing impairments; qualified readers, taped texts, audio recordings, Braille materials, large print materials, or other effective methods of making visually delivered materials available to individuals with visual impairments.

discrimination in policies and procedures and communication. Communications with individuals with disabilities are required to be as effective as communications with others. The Contractor Compliance Plan must include a detailed description of how Contractor services, programs, and activities are readily accessible and usable by individuals with disabilities. In the event that full physical accessibility is not readily available for people with disabilities, the Contractor Compliance Plan will describe the steps or actions the Contractor will take to assure accessibility to services equivalent to those offered at the inaccessible facilities.

 - This may include the implementation of a referral system to ensure that the health care needs of Enrollees with disabilities are met appropriately
 - The Contractor shall describe policies and procedures to allow for the continuation of existing relationships with out-of-network providers, when in the best interest of the Enrollee with a disability
4. Submission of the ADA Compliance Summary Report or Contractor statement that data submitted to SDOH on the Health Commerce System (HCS) files is an accurate reflection of each network's physical accessibility

E. POPULATIONS WITH SPECIAL HEALTH CARE NEEDS

STANDARD FOR COMPLIANCE

The Contractor will have satisfactory methods for identifying persons at risk of, or having, chronic disabilities and determining their specific needs in terms of specialist physician referrals, durable medical equipment, medical supplies, home health services, etc. The Contractor will have satisfactory systems for coordinating service delivery and, if necessary, procedures to allow continuation of existing relationships with out-of-network provider for course of treatment.

SUGGESTED METHODS FOR COMPLIANCE

1. Procedures for requesting standing referrals to specialists and/or specialty centers, specialist physicians to function as PCP, out-of-network referrals, and continuation of existing relationships with out-of-network providers for course of treatment
2. Linkages with behavioral health agencies, disability and advocacy organizations, etc.
3. Adequate network of providers and sub-specialists (including pediatric providers and sub-specialists) and contractual relationships with tertiary institutions
4. Procedures for assuring that these populations receive appropriate diagnostic work-ups on a timely basis
5. Procedures for assuring that these populations receive appropriate access to durable medical equipment on a timely basis
6. Procedures for assuring that these populations receive appropriate allied health professionals (Physical, Occupational and Speech Therapists, Audiologists) on a timely basis
7. State designation as a Well Qualified Plan to serve the OPWDD population and look-alikes

COMPLIANCE PLAN SUBMISSION

1. A description of arrangements to ensure access to specialty care providers and centers in and out of New York State, standing referrals, specialist physicians to function as PCP, out-of-network referrals, and continuation of existing relationships (out-of-network) for diagnosis and treatment of rare disorders
2. A description of appropriate service delivery for children with disabilities. This may include a description of methods for interacting with school districts, child protective service agencies, early intervention officials, behavioral health, and disability and advocacy organizations.
3. A description of the sub-specialist network, including contractual relationships with tertiary institutions to meet the health care needs of people with disabilities

F. ADDITIONAL ADA RESPONSIBILITIES FOR PUBLIC ACCOMMODATIONS

Please note that Title III of the ADA applies to all non-governmental providers of health care. Title III of the Americans with Disabilities Act prohibits discrimination on the basis of disability in the full and equal enjoyment of goods, services, facilities, privileges, advantages or accommodations of any place of public accommodation. A public accommodation is a private entity that owns, leases or leases to, or operates a place of public accommodation. Places of public accommodation identified by the ADA include, but are not limited to, stores (including pharmacies) offices (including doctors' offices), hospitals, health care providers, and social service centers.

New and altered areas and facilities must be as accessible as possible. Barriers must be removed from existing facilities when it is readily achievable, defined by the ADA as easily accomplishable without much difficulty or expense. Factors to be considered when determining if barrier removal is readily achievable include the cost of the action, the financial resources of

the site involved, and, if applicable, the overall financial resources of any parent corporation or entity. If barrier removal is not readily achievable, the ADA requires alternate methods of making goods and services available. New facilities must be accessible unless structurally impracticable.

Title III also requires places of public accommodation to provide any auxiliary aids and services that are needed to ensure equal access to the services it offers, unless a fundamental alteration in the nature of services or an undue burden would result. Auxiliary aids include but are not limited to qualified sign interpreters, assistive listening systems, readers, large print materials, etc. Undue burden is defined as “significant difficulty or expense”. The factors to be considered in determining “undue burden” include, but are not limited to, the nature and cost of the action required and the overall financial resources of the provider. “Undue burden” is a higher standard than “readily achievable” in that it requires a greater level of effort on the part of the public accommodation.

Please note also that the ADA is not the only law applicable for people with disabilities. In some cases, State or local laws require more than the ADA. For example, New York City’s Human Rights Law, which also prohibits discrimination against people with disabilities, includes people whose impairments are not as “substantial” as the narrower ADA and uses the higher “undue burden” (“reasonable”) standard where the ADA requires only that which is “readily achievable”. New York City’s Building Code does not permit access waivers for newly constructed facilities and requires incorporation of access features as existing facilities are renovated. Finally, the State Hospital code sets a higher standard than the ADA for provision of communication (such as sign language interpreters) for services provided at most hospitals, even on an outpatient basis.

The Enrollee must be informed of this fact by the vision care provider at the time that the glasses are ordered.

Examinations which include refraction are limited to once every twenty four (24) months unless otherwise justified as medically necessary.

Occupational eyeglasses can be provided in addition to regular glasses but are available only in conjunction with a regular vision benefit once in any twenty-four (24) month period. CMCM programs do not provide services directly, but refer to a wide range of service Providers. Some of these services are: medical, social, psycho-social, education, employment, financial, and mental health. CMCM referral to community service agencies and/or medical providers requires the case manager to work out a mutually agreeable case coordination approach with the agency/medical providers. Consequently, if an Enrollee of the Contractor is participating in a CMCM program, the Contractor must work collaboratively with the CMCM case manager to coordinate the provision of services covered by the Contractor. CMCM programs will be instructed on how to identify a managed care Enrollee on EMEVS and informed on the need to contact the Contractor to coordinate service provision.

- e) School-Based Health Centers

A School-Based Health Center (SBHC) is an Article 28 extension clinic that is located in a school and provides students with primary and preventive physical and mental health care services, acute or first contact care, chronic care, and referral as needed. SBHC services include comprehensive physical and mental health histories and assessments, diagnosis and treatment of acute and chronic illnesses, screenings (e.g., vision, hearing, dental, nutrition, TB), routine management of chronic diseases (e.g., asthma, diabetes), health education, mental health counseling and/or referral, immunizations and physicals for working papers and sports.

- f) Conversion or Reparative Therapy

Conversion Therapy is any practice by a mental health professional that seeks to change an individual’s sexual orientation or gender identity, including efforts to change behaviors, gender expressions, or to eliminate or reduce sexual or romantic attractions or feelings toward individuals of the same sex.

Conversion therapy does not include counseling or therapy for an individual who is seeking to undergo a gender transition or who is in the process of undergoing a gender transition, that provides acceptance, support, and understanding of an individual or the facilitation of an individual’s coping, social support, and identity exploration and development, including sexual orientation-neutral interventions to

 - ii) The Contractor may not pay a “commission” or fixed amount per enrollment;

 - iv) Sign-on bonuses for facilitators are prohibited;

Accordingly, the Contractor will require and ensure that any approved agreement or contract pertaining to the above programs contains a statement that the subcontractor or other contracting party may not further disclose the MCD without such approval.

The Recipient Restriction Program is intended to reduce the cost of inappropriate utilization of Medicaid and FHPlus covered services by identifying and managing Enrollees exhibiting abusive or fraudulent behavior. Through increased coordination of medical services that control the number of providers the Enrollee may select for care and the referrals to services, medications, and equipment, Enrollees in the Recipient Restriction Program are ensured access to medically necessary quality health care, and unnecessary costs to the Medicaid program are prevented.

meets the Contractor's criteria for restriction and should be managed by the Contractor's Recipient Restriction Program.

2. Enrollees Subject to the Restriction Program

a) Enrollees to be restricted are:

- i) New Enrollees restricted under the FRRP prior to the effective date of enrollment, where the restriction period for services included in the Benefit Package has not yet expired;

- a) The Contractor must have effective mechanisms to ensure an Enrollee is restricted to an RRP Provider upon enrollment for Enrollees meeting the condition of Section (2)(a)(i) or (ii) of this Appendix if the restriction is indicated on the Contractor's roster on the Effective Date of Enrollment, and within 45 days of confirming an Enrollee has met the conditions in Section (2)(a)(iii), (iv) or (v) of this Appendix.
- b) The Contractor must have effective mechanisms to monitor Benefit Package services provided to the Restricted Enrollee and identify when a Restricted Enrollee attempts to access restricted services from other than their RRP Provider. When a restriction is in place, the Enrollee may only access the restricted service through the RRP Provider(s), except where the Enrollee is referred to an alternate provider authorized by the Contractor or the RRP Provider.

- c) The Contractor must have effective mechanisms for identifying Participating Providers who are able to function as RRP Providers and meet the requirements for providing necessary health care services and referrals for Restricted Enrollees.
 - i) The Contractor must inform the RRP Provider of their responsibilities for providing care and referrals for the Restricted Enrollee.
 - ii) The Contractor shall institute and maintain a current patient profile for each Enrollee restricted for pharmacy services. Such profile must contain, at a minimum: the identity of the prescriber of the drugs and supplies; the strength, quantity and dosage regimen of any drugs; and the dates of service for all drugs and supplies dispensed.  - iii) The Contractor shall send written notice confirming an Enrollee's restriction to the RRP Provider, including: the date of the restriction; the scope, type, and length of restriction; and any other Enrollee restrictions and associated RRP Providers. Such notice shall be made when the Contractor imposes, modifies, or continues a restriction or when the Contractor changes the Restricted Enrollee's RRP Provider. Such notice is not required when the Contractor administers an existing restriction for a new Enrollee as provided by Section 4(c)(i) and (ii) of this Appendix.
- d) The Contractor must have effective mechanisms to review utilization data and other information as may be necessary to, at a minimum, identify Enrollee behaviors, as described in Section 4(i) of this Appendix, that may indicate Abusive Practices or pattern of misuse of services.
- e) The Contractor shall establish criteria for determining an Enrollee has engaged in Abusive Practices or demonstrated a pattern of misuse of Benefit Package services that is in accordance with 18 NYCRR 360-6.4 where appropriate, and consistent with criteria established by OMIG. 4. Protocols for Restrictions

- a) Restriction for Misuse of Benefit Package Services.
 - i) The Contractor shall routinely review utilization data, such as encounter data, to assess and identify whether any Enrollee appears to have a pattern of over utilization, under utilization or mis-utilization of Medicaid or FHPlus services and restrict Enrollees where misuse of services meets the Contractor's criteria for restriction. See Section 4(i) below for indicators of suspected misuse of services.

- ii) The RRPRT will perform an analysis of Enrollee-specific data and/or conduct a complete review of the Enrollee's medical records and any other information the RRPRT deems appropriate to make a determination about the medical appropriateness of such services.
 - iii) The RRPRT may determine whether the Enrollee's pattern of care is appropriate, that the Enrollee is to be referred to the Contractor's case management services to improve coordination of care, that the Enrollee has demonstrated a pattern of misuse and is to be restricted to an RRP provider(s) with appropriate notice as required in Section 6 of this Appendix, or that, where the misuse of care was due to provider actions, other appropriate corrective actions are to be taken. All determinations will be in writing and signed by a licensed, certified or registered health care professional who is a member of the RRPRT.
 - A) The Contractor will not restrict an Enrollee where the pattern of care under review is found to be the result of an adverse change in the Enrollee's health status, diminished mental capacity, or uncooperative or disruptive behavior resulting from the Enrollee's special needs, prior to making reasonable efforts to improve the Enrollee's coordination of services through case management or other appropriate methods.
 - iv) The RRPRT may determine, upon information provided by the Enrollee through an Action Appeal, fair hearing or other credible source, that the pattern of care does not meet the Contractor's criteria for restriction, and will subsequently promptly remove any such restriction of services, if previously implemented.
 - v) The RRPRT will coordinate findings of both Contractor and OMIG initiated restrictions with the Contractor's SIU and/or Quality assurance program, as appropriate.
 - vi) The Contractor shall restrict Enrollees, with appropriate notice as required in Section 6 of this Appendix, where OMIG has determined a restriction on Benefit Package services is required to effectively implement a restriction on Medicaid services that are not part of the Benefit Package. OMIG will be responsible for providing documented evidence and other supporting documentation as needed to support the restriction and complete the Recipient Information Packet.
 - A) Upon notice of a Fair Hearing to be held in relation to such restriction, the Contractor will be responsible for notifying OMIG of the Fair Hearing and OMIG will be responsible for assisting the Contractor in presenting evidence and appearing at the hearing in support of the restriction as provided by Section 25.6 of this Agreement. Such assistance may include, upon request by the Enrollee to the Contractor, providing records which can identify services paid for by FFS on behalf of the Enrollee.
- b) Restriction for Abusive Practice.

- i) The Contractor shall restrict Enrollees, with appropriate notice as required in Section 6 of this Appendix, confirmed by the Contractor, SDOH or OMIG to have engaged in an Abusive Practice, as defined by Section 1 (e) of this Appendix. Restriction for a confirmed Abusive Practice does not require a review by the RRPRT.
 - ii) When the Contractor is to impose a restriction on an Enrollee for Abusive Practices confirmed by OMIG, OMIG is responsible for providing documented evidence and other supporting documentation as needed to support the restriction and complete the Recipient Information Packet.
 - A) Upon notice of a Fair Hearing to be held in relation to such restriction, the Contractor will be responsible for notifying OMIG of the Fair Hearing and OMIG will be responsible for assisting the Contractor in presenting evidence and appearing at the hearing in support of the restriction as provided by Section 25.6 of this Agreement. OMIG is responsible for providing the date that the restriction ends to the Contractor, as well as the recipient information packet (or similar documentation with the reason for restriction) and the name of current restricted provider.
 - ii) The Contractor will implement and administer the restriction until the end of the restricted period. Such administration of an existing restriction is not a new restriction, is not an Action under Appendix F of this Agreement, and does not require a Notice of Intent to Restrict. However, the Contractor will inform a new Enrollee in writing, which may be combined with the welcome letter or other notice, that the existing restriction will continue to be implemented for the same purpose and time period as previously imposed by an LDSS or MCO. The Contractor shall monitor the Enrollee to determine if the Enrollee's actions meet the Contractor's criteria for additional restrictions, in accordance with (a) or (b) above, and if so determined, the Contractor will restrict with appropriate notice as required by Section 6 of this Appendix and notify OMIG of their action within ten (10) business days.
 - iii) Except for Court Ordered Restrictions, if the Enrollee is restricted to an RRP Provider that is not participating in the Contractor's Network, the Contractor shall provide transitional care as required by Section 15.6 of this Agreement and shall

require the Restricted Enrollee to change the RRP Provider as specified in Section 5 of this Appendix.

The Contractor shall comply with restrictions ordered by, and the associated RRP provider selected by, a court of competent jurisdiction, in accordance with Section 10.9 of this Agreement. The Contractor will initiate restrictions to Enrollees in local districts where the RRP is a part of the Drug Treatment Court contract.
- e) Continued Restriction.
 - i) The Contractor shall monitor the Enrollee's compliance with a restriction. Sixty (60) days prior to the end of the restriction period, the Contractor will assess the Enrollee's compliance with the restriction and determine whether an additional restriction period is appropriate.
 - A) The Contractor will continue the restriction when it is determined by the Contractor that the Enrollee's actions continue to meet criteria for restriction, as provided by Section (a) above, or there is evidence of non-compliance with a restriction.
 - B) The Contractor will continue restriction when it is confirmed that during the previous restriction period, an Enrollee engaged in Abusive Practices; received or attempted to receive services inappropriately from non-RRP providers; or was placed in additional restriction by the FRRP.
 - ii) The Contractor's determination not to continue a restriction will in no way preclude any subsequent decisions to restrict as provided by (a) or (b) above.

- f) Emergency Services. At no time will the Contractor restrict an Enrollee's access to Emergency Services or to a specific provider of Emergency Services or deny coverage of Emergency Services for a Restricted Enrollee, except as provided by Appendix G of this Agreement.

 - ii) Duplicative drugs, supplies or appliances. The Enrollee has received two or more similarly acting drugs in an overlapping time frame or has received duplicative supplies or appliances. The drugs, if taken together, may result in harmful drug interactions or adverse reactions.  - iii) Duplicative health care services. The recipient has received health care services from two or more providers for the same or similar conditions in an overlapping time frame. Health care services include, but are not limited to, physician, clinic pharmacy, dental, podiatry, and DME services.

8. Minority And Women Owned Business Policy Statement

The SDOH recognizes the need to take affirmative action to ensure that Minority and Women Owned Business Enterprises are given the opportunity to participate in the performance of the SDOH's contracting program. This opportunity for full participation in our free enterprise system by traditionally socially and economically disadvantaged persons is essential to obtain social and economic equality and improve the functioning of the State economy.

It is the intention of the SDOH to provide Minority and Women Owned Business Enterprises with equal opportunity to bid on contracts awarded by this agency in accordance with the State Finance Law.

10. Certification Regarding Debarment and Suspension

- a) Regulations of the U.S. Department of Health and Human Services, located at Part 76 of Title 45 of the Code of Federal Regulations (CFR), implement Executive Orders 12549 and 12689 concerning debarment and suspension of participants in Federal program and activities. Executive Order 12549 provides that, to the extent permitted by law, Executive departments and agencies shall participate in a government wide system for non-procurement debarment and suspension. Executive Order 12689 extends the debarment and suspension policy to procurement activities of the Federal Government. A person who is debarred or suspended by a Federal agency is excluded from Federal financial and non-financial assistance and benefits under Federal programs and activities, both directly (primary covered transaction) and indirectly (lower tier covered transactions). Debarment or suspension by one Federal agency has government wide effect.

- b) Pursuant to the above cited regulations, the SDOH (as a participant in a primary covered transaction) may not knowingly do business with a person who is debarred, suspended, proposed for debarment, or subject to other government wide exclusion (including an exclusion from Medicare and State health care program participation on or after August 25, 1995), and the SDOH must require its contractors, as lower tier participants, to provide the certification as set forth below:
 - i) **CERTIFICATION REGARDING DEBARMENT, SUSPENSION, INELIGIBILITY AND VOLUNTARY EXCLUSION-LOWER TIER COVERED TRANSACTIONS**

Instructions for Certification

- A) By signing this Agreement, the Contractor, as a lower tier participant, is providing the certification set out below.
- B) The certification in this clause is a material representation of fact upon which reliance was placed when this transaction was entered into. If it is later determined that the lower tier participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.
- C) The lower tier participant shall provide immediate written notice to the SDOH if at any time the lower tier participant learns that its certification was erroneous when submitted or had become erroneous by reason of changed circumstances.
- D) The terms covered transaction, debarred, suspended, ineligible, lower tier covered transaction, participant, person, primary covered transaction, principal, proposal, and voluntarily excluded, as used in this clause, have the meaning set out in the Definitions and Coverage sections of rules implementing Executive Order 12549. The Contractor may contact the SDOH for assistance in obtaining a copy of those regulations.
- E) The lower tier participant agrees that it shall not knowingly enter into any lower tier covered transaction with a person who is proposed for debarment under 48 CFR Subpart 9.4, debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency with which this transaction originated.
- F) The lower tier participant further agrees that it will include this clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion-Lower Tier Covered Transactions," without modification, in all lower tier covered transactions.

- G) A participant in a covered transaction may rely upon a certification of a participant in a lower tier covered transaction that it is not proposed for debarment under 48 CFR Subpart 9.4, debarred, suspended, ineligible, or voluntarily excluded from covered transactions, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the Excluded Parties List System.
 - H) Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.
 - I) Except for transactions authorized under paragraph E of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is proposed for debarment under 48 CFR Subpart 9.4, suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.
- ii) Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion – Lower Tier Covered Transactions
- A) The lower tier participant certifies, by signing this Agreement, that neither it nor its principals is presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any Federal department agency.
 - B) Where the lower tier participant is unable to certify to any of the statements in this certification, such participant shall attach an explanation to this Agreement.

11. Reports and Publications

- a) Any materials, articles, papers, etc., developed by the Contractor pertaining to the MMC Program or FHPlus Program must be reviewed and approved by the SDOH for conformity with the policies and guidelines of the SDOH prior to dissemination and/or publication. It is agreed that such review will be conducted in an expeditious manner. Should the review result in any unresolved disagreements regarding content, the Contractor shall be free to publish in scholarly journals along with a disclaimer

that the views within the Article or the policies reflected are not necessarily those of the New York State Department of Health.

- b) Any publishable or otherwise reproducible material developed under or in the course of performing this Agreement, dealing with any aspect of performance under this Agreement, or of the results and accomplishments attained in such performance, shall be the sole and exclusive property of the State, and shall not be published or otherwise disseminated by the Contractor to any other party unless prior written approval is secured from the SDOH or under circumstances as indicated in paragraph (a) above. Any and all net proceeds obtained by the Contractor resulting from any such publication shall belong to and be paid over to the State. The State shall have a perpetual royalty-free, non-exclusive and irrevocable right to reproduce, publish or otherwise use, and to authorize others to use, any such material for governmental purposes.
- c) No report, document or other data produced in whole or in part with the funds provided under this Agreement may be copyrighted by the Contractor or any of its employees, nor shall any notice of copyright be registered by the Contractor or any of its employees in connection with any report, document or other data developed pursuant to this Agreement.
- d) All reports, data sheets, documents, etc. generated under this Agreement shall be the sole and exclusive property of the SDOH. Upon completion or termination of this Agreement the Contractor shall deliver to the SDOH upon its demand all copies of materials relating to or pertaining to this Agreement. The Contractor shall have no right to disclose or use any of such material and documentation for any purpose whatsoever, without the prior written approval of the SDOH or its authorized agents.
- e) The Contractor, its officers, agents and employees and subcontractors shall treat all information, which is obtained by it through its performance under this Agreement, as confidential information to the extent required by the laws and regulations of the United States and laws and regulations of the State of New York.

12. Payment

Payment for claims/invoices submitted by the Contractor shall only be rendered electronically unless payment by paper check is expressly authorized by the Commissioner, in the Commissioner's sole discretion, due to extenuating circumstances. Such electronic payment shall be made in accordance with ordinary State procedures and practices. The Contractor shall comply with the State Comptroller's procedures to authorize electronic payments. Authorization forms are available at the State Comptroller's website at www.osc.state.ny.us/epay/index.htm, by email at epunit@osc.state.ny.us or by telephone at 518-474-6019. The Contractor acknowledges that it will not receive payment on any claims/invoices submitted under this Agreement if it does not comply with the State Comptroller's electronic payment procedures, except

where the Commissioner has expressly authorized payment by paper check as set forth above.

In addition to the Electronic Payment Authorization Form, a Substitute Form W-9, must be on file with the Office of the State Comptroller, Bureau of Accounting Operations. Additional information and procedures for enrollment can be found at <http://www.osc.state.ny.us/epay>.

Completed W-9 forms should be submitted to the following address:

13. Provisions Related to New York State Procurement Lobbying Law

The State reserves the right to terminate this Agreement in the event it is found that the certification filed by the Contractor in accordance with New York State Finance Law § 139-k was intentionally false or intentionally incomplete. Upon such finding, the State may exercise its termination right by providing written notice to the Contractor in accordance with the written notification terms of this Agreement.

14. Provisions Related to New York State Information Security Breach and Notification Act

Contractor shall comply with the provisions of the New York State Information Security Breach and Notification Act (General Business Law Section 899-aa; State Technology Law Section 208). Contractor shall be liable for the costs associated with such breach if caused by the Contractor's negligent or willful acts or omissions, or the negligent or willful acts or omissions of Contractor's agents, officers, employees or subcontractors.

15. Accessibility of State Agency Web-based Intranet and Internet Information and Applications

Any web-based intranet and internet information and applications development, or programming delivered pursuant to the contract or procurement, will comply with New York State Enterprise IT Policy NYS-P08005, *Accessibility of Web-Based Information and Applications*, as such policy or standard may be amended, modified or superseded, which requires that state agency web-based intranet and internet information and applications are accessible to persons with disabilities. Web content must conform to New York State Enterprise IT Policy NYS-P08-005, as determined by quality assurance testing. Such quality assurance testing will be conducted by NYSDOH and the awarded contractor and the results of such testing must be satisfactory to NYSDOH before web content will be considered a qualified deliverable under the contract or procurement.

16. New York State Tax Law Section 5-a

Section 5-a of the Tax Law, as amended, effective April 26, 2006, requires certain contractors awarded state contracts for commodities, services and technology valued at more than \$100,000 to certify to the New York State Department of Tax and Finance (DTF) that they are registered to collect New York State and local sales and compensating use taxes. The law applies to contracts where the total amount of such contractors' sales delivered into New York State are in excess of \$300,000 for the four quarterly periods immediately preceding the quarterly period in which the certification is made, and with respect to any affiliates and subcontractors whose sales delivered into New York State exceeded \$300,000 for the four quarterly periods immediately preceding the quarterly period in which the certification is made.

This law imposes upon certain contractors the obligation to certify whether or not the contractor, its affiliates, and its subcontractors are required to register to collect sales and compensating use tax and contractors must certify to DTF that each affiliate and subcontractor exceeding such sales threshold is registered with DTF to collect New York State and local sales and compensating use taxes. The law prohibits the State Comptroller, or other approving agencies, from approving a contract awarded to an offerer meeting the registration requirements but who is not so registered in accordance with the law.

Contractor must complete and submit directly to the New York State Taxation and Finance, Contractor Certification Form ST-220-TD. Unless the information upon which the ST-220-TD is based changes, this form only needs to be filed once with DTF. If the information changes for the contractor, its affiliate(s), or its subcontractor(s), a new form (ST-220-TD) must be filed with DTF.

Contractor must complete and submit to the Department of Health the form ST-220-CA certifying that the contractor filed the ST-220-TD with DTF. Failure to make either of these filings may render an offerer non-responsive and non-responsible. Offerers shall take the necessary steps to provide properly certified forms within a timely manner to ensure compliance with the law.

17. M/WBE Utilization Plan for Subcontracting and Purchasing

The Department of Health (DOH) encourages the use of Minority and/or Women Owned Business Enterprises (M/WBEs) for any subcontracting or purchasing related to this contract. Contractors who are not currently a New York State certified M/WBE must define the portion of all consumable products and personnel required for this proposal that will be sourced from a M/WBE. The amount must be stated in total dollars and as a percent of the total cost necessary to fulfill the Agreement requirements. Supportive documentation must include a detailed description of work that is required including products and services.

The goal for usage of M/WBEs is at least 10% of monies used for contract activities. In order to assure a good-faith effort to attain this goal, the STATE requires that Contractors complete the M/WBE Utilization Plan and submit this Plan.

Contractors that are New York State certified MBEs or WBEs are not required to complete this form. Instead, such Contractors must simply provide evidence of their certified status.

Failure to submit the above referenced Plan (or evidence of certified M/WBE status) will result in disqualification of the vendor from consideration for award.

18. On-going Responsibility

a) General Responsibility Language

The Contractor shall at all times during the Contract term remain responsible. The Contractor agrees, if requested by the Commissioner of Health or his or her designee, to present evidence of its continuing legal authority to do business in New York State, integrity, experience, ability, prior performance, and organizational and financial capacity.

b) Suspension of Work (for Non-Responsibility)

The Commissioner of Health or his or her designee, in his or her sole discretion, reserves the right to suspend any or all activities under this Contract, at any time, when he or she discovers information that calls into question the responsibility of the Contractor. In the event of such suspension, the Contractor will be given written notice outlining the particulars of such suspension. Upon issuance of such notice, the Contractor must comply with the terms of the suspension order. Contract activity may resume at such time as the Commissioner of Health or his or her designee issues a written notice authorizing a resumption of performance under the Contract.

c) Termination (for Non-Responsibility)

Upon written notice to the Contractor, and a reasonable opportunity to be heard with appropriate Department of Health officials or staff, the Contract may be terminated by the Commissioner of Health or his or her designee at the Contractor's expense where the Contractor is determined by the Commissioner of Health or his or her designee to be non-responsible. In such event, the Commissioner of Health or his or her designee may complete the contractual requirements in any manner he or she may deem advisable and pursue available legal or equitable remedies for breach.

19. Provisions Related to the Use of Funds Provided Through This Agreement

Funds provided pursuant to this Agreement shall not be used for any partisan political activity, or for activities that may influence legislation or the election or defeat of any candidate for public office.

APPENDIX S

New York State Department of Health Requirements for Long Term Services and Supports for MMC and FHPlus Programs

Requirements for Long-Term Services and Supports

Long Term Services and Supports (LTSS) include the services and supports used by Enrollees with functional limitations and chronic illnesses who need assistance to perform routine daily activities such as bathing, dressing, preparing meals, and administering medications. Such services may be home or community based or provided in institutional settings. If LTSS are delivered in a community based setting, such setting must comply with requirements at 42 CFR 441.301, consistent with the State-issued “Home and Community Based Services Transition Plan.” An effective system of LTSS is essential for Enrollees in need of these services to live safely in the most integrated and least restrictive setting.

1. Long Term Services and Supports

- a) Community Based Long Term Services and Supports mean the following services provided in the home or community setting (any place of residence, either permanent or temporary, other than a hospital, skilled nursing home, or health related facility) as included in the Benefit Package and provided by the Contractor when medically necessary:
 - i) Private Duty Nursing
 - ii) Skilled Nursing
 - iii) Home Health Services
 - iv) Personal Care Services
 - v) Consumer Directed Personal Assistance Services
 - vi) Adult Day Health Care
 - vii) AIDS Adult Day Health Care
- b) Institutional Long Term Services and Supports mean the following services as included in the Benefit Package and provided by the Contractor when medically necessary:
 - i) Residential Health Care Facility services
 - ii) Non-residential inpatient acute care services where it is anticipated that upon discharge, the Enrollee will be in need of RHCF services or Community Based LTSS.
- c) When the Contractor determines an Enrollee is in need of LTSS, the Contractor shall provide additional services, as included in the Benefit Package and as medically necessary, to maintain the Enrollee’s safety in the most integrated and least restrictive setting and/or for the Enrollee to obtain, maintain, or regain functional capacity. The Contractor shall provide such additional services in accordance with this Appendix

and pursuant to a Person Centered Services Plan (PCSP) as provided by Section 10.35 of this Agreement.

2. Identifying Enrollees in Need of LTSS

- a) The requirements of this Agreement for the arrangement and authorization of LTSS apply when the Contractor determines, pursuant to assessment or provider order, an Enrollee is in receipt of or is expected to require LTSS for at least 120 days.
 - i) When the Contractor identifies an Enrollee who is expected, as demonstrated by an assessment or provider order, to be in receipt of LTSS for less than 120 days, the Contractor shall:
 - A) Arrange for all medically necessary covered services as required by this Agreement, however, the Contractor shall not be required to meet the provisions of this Agreement solely applicable to the arrangement and authorization of LTSS; and
 - B) Provide care management services where the Contractor determines, or the Enrollee's provider states, care management services are necessary due to the Enrollee's condition.
- b) The Contractor will have appropriate mechanisms to identify new Enrollees in receipt of LTSS to ensure these Enrollees are referred or otherwise engaged by the Contractor's care management process. Such mechanisms may include, but are not limited to: use of welcome letters and initial health screenings to encourage Enrollees in receipt of LTSS to contact the Contractor; outreach to auto-assigned Enrollees; establishing a Contractor liaison for communication with the LDSS and other Medicaid managed care plans regarding the Enrollee's PCSP; communication with Participating Providers to encourage prompt notification to the Contractor of new Enrollees in receipt of LTSS; and identification of Service Authorization Requests for LTSS absent a PCSP.
- c) The Contractor will have appropriate mechanisms to ensure Enrollees newly in need of LTSS are referred or otherwise engaged by the Contractor's care management process. Such mechanisms may include but are not limited to: coordination with discharge planners; establishing Contractor liaison with key Participating Providers; developing linkages with member services and/or complaint staff; and protocols linking review of Service Authorization Requests for LTSS to the care management process.

3. Care Management for LTSS

- a) Care management means a process that assists the Enrollee to access necessary covered services as identified in the PCSP. Care management services include referral, assistance in or coordination of services for the Enrollee to obtain needed medical, social, educational, psychosocial, financial and other services in support of

the PCSP, irrespective of whether the needed services are included in the Benefit Package.

- b) The Contractor shall have appropriate organizational structure and mechanisms, which may take the form of dedicated units or staff, to provide care management services to Enrollees in receipt of LTSS.
 - i) Through its care management process, the Contractor will ensure:
 - A) structural linkages with member services, complaint, and service authorization functions to ensure prompt response to Enrollee's request for assistance in accessing LTSS, in accordance with Appendix F of this Agreement;
 - B) maintenance of a record or list of Enrollees currently in receipt of LTSS;
 - C) coordination of PCSP development in accordance with Section 10.35 of this Agreement, including reassessment and update of the PCSP as warranted by the Enrollee's condition but in any event at least once every six (6) months;
 - D) coordination with health care professionals, discharge planners and provider care teams to facilitate Enrollee transitions between levels of care;
 - E) structural linkages with utilization review functions to authorize medically necessary covered services in accordance with an approved PCSP and Appendix F of this Agreement;
 - F) referral of Enrollees in receipt of LTSS to case management and coordination with case management to implement approved PCSP, as needed;
 - G) Enrollees are informed regarding the CDPAS option and are referred to New York State Home and Community Based Services waiver programs and other community resources, as needed;
 - H) routine contact with Enrollees in receipt of LTSS commensurate with the needs of the Enrollee, which may be satisfied by one care management telephone contact per month. However, the Contractor shall conduct at least one facility or home visit every 6 months, which may be combined with scheduled assessments; and
 - I) In a manner and form determined by SDOH, notification to the LDSS when an Enrollee in receipt of LTSS no longer appears on the Contractor's roster and transmittal of the PCSP and other needed documentation to the LDSS and to the Enrollee's new Medicaid managed care plan, if known, to minimize disruption of LTSS.

- ii) The Contractor shall ensure that the level and degree of care management provided and the PCSP addresses the needs of the Enrollee and are based upon the acuity and severity of the Enrollee's physical and mental condition. The potential that an Enrollee may require intermittent acute hospital inpatient services shall not be taken into consideration by the Contractor when assessing an Enrollee's need for care management of LTSS.
- iii) The Contractor shall develop written operational policies and procedures and automated systems in support of care management functions.
- iv) The Contractor shall ensure staff responsible for care management have appropriate experience (as determined by the Contractor) in health care, social work, nursing and/or long term care; are trained in the Contractor's procedures; and the Contractor has sufficient staff capacity to carry out care management functions for the enrolled population utilizing LTSS. If care management is provided via a team approach, the Contractor must ensure its policies and procedures describe responsibilities of team members and how the team is to carry out care management functions.

4. LTSS Transitional Care

- a) New Enrollees previously in FFS. Notwithstanding any benefit- or population-specific FFS to MMC transitional care policy described in this Agreement, the Contractor shall authorize and cover LTSS at the same level, scope and amount as the Enrollee received under the FFS Program for 90 days following Enrollment or until the Contractor's PCSP is in place, whichever is later.
 - i) Except where a Participating Provider Agreement describes an alternate arrangement for authorization of transitional care, the Contractor may not deny payment to providers of transitional care LTSS solely on the basis that the provider failed to request prior authorization.
 - ii) Where an existing medical order has or is about to expire, and a new medical order is required for the continued provision of LTSS during the transitional period but cannot be obtained after reasonable effort, the Contractor shall work with the LTSS provider to arrange a safe transition for the Enrollee, which may be to higher level of care.
- b) Enrollees previously in a Medicaid managed care plan. The Contractor will provide transitional care services pursuant to Section 15.6(a)(i) of this Agreement and the SDOH "Medicaid Managed Care and Family Health Plus Coverage Policy: New Managed Care Enrollees in Receipt of an On-going Course of Treatment."

5. LTSS Authorization Standards

- a) The Contractor will ensure covered LTSS services are authorized in an amount, duration, and scope to meet the needs of the Enrollee pursuant to the PCSP, and shall not reduce or terminate LTSS unless:
 - i) there has been, as demonstrated by an assessment or provider's order, a change in the Enrollee's medical condition, environment, assistive technology, or informal supports;
 - ii) the Enrollee no longer meets the statutory or regulatory criteria for provision of the service;
 - iii) the Enrollee requests a reduction or change in service;
 - iv) there was a documented error in the information the Contractor relied upon for the initial authorization; or
 - v) the conditions of INSL §3238 or 10 NYCRR §98-1.13(n) have been met.
- b) If the Contractor determines to reduce the level or amount of LTSS, the Contractor must ensure that all needs identified in the PCSP are still appropriately addressed, including authorization for assistance with activities of daily living that may have been previously provided to the Enrollee incidentally under a higher or more intense level of service.
 - i) In accordance with section F.1(4)(b) of Appendix F of this Agreement, the Contractor shall ensure the Notice of Action is sent to the Enrollee and provider at least ten (10) days prior to the effective date of an Action that reduces, suspends or terminates LTSS, and that such effective date does not fall on a non-working day, unless the Contractor provides "live" telephone coverage available on a twenty-four (24) hour, seven day a week basis to accept and respond to Complaints, Complaint Appeals and Action Appeals, in a manner that considers the safety of the Enrollee.
 - ii) Consistent with Section 10.37 and Appendix K of this Agreement, if services at an alternate level of care are not immediately available, the Contractor shall ensure continued authorization of LTSS as needed until safe discharge/transition can be effectuated.
- c) The Contractor will make reasonable efforts to effectively communicate with providers and Enrollees during the PCSP development process regarding the need to obtain authorization for the services included in the PCSP, the timing of such reviews and when the Contractor has made its determination, so as to facilitate understanding of when any disagreements among the care planning team are to be resolved through the Contractor's Grievance System.

- d) Pursuant to Appendix F of this Agreement, the Contractor will provide timely notice of all Actions to the Enrollee and their provider, including notice of the Enrollee's right to appeal the Contractor's Action, and right to request a State fair hearing and right to aid continuing as per Section 25 of this Agreement.

Additional Requirements for the HARP and HIV SNP Programs

Additional Requirements for the HARP and HIV SNP Programs

Health and Recovery Plans (HARPs) provide an integrated, enhanced benefit package to adults with Serious Mental Illness and/or Substance Use Disorders to improve health outcomes and promote recovery. The goals of the HARP Program are to reduce unnecessary emergency and inpatient care, increase network capacity to deliver community-based recovery-oriented services and supports, and provide Enrollees with access to an enhanced benefit package, including Care Coordination and Behavioral Health Home and Community Based Services, which will help support Enrollees' well-being and recovery. The HARP, contracting with Health Homes, will also provide care management for all services and assessments for Behavioral Health Home and Community Based Services in compliance with federal and state standards and assurances. Behavioral Health Home and Community Based Services will be available effective January 1, 2016.

1. Applicability

This Appendix applies to the HARP and/or HIV SNP program, as indicated. For the HIV SNP, the State will identify HARP-eligible enrollees currently enrolled in the HIV SNP Program and notify Contractors operating a HIV-SNP of their Enrollees eligible for Behavioral Health Home and Community Based Services. Such identified HARP-eligible enrollees will not be required to enroll in a HARP in order to receive Behavioral Health Home and Community Based Services.

2. Contractor Staffing Requirements

The Contractor shall not reduce staffing levels by more than 5% from the staffing levels approved by the State during the behavioral health qualification process without prior approval from DOH, OMH and OASAS. The Contractor shall provide written notice to the State within seven days after the date of a qualifying reduction. The State reserves the right to modify minimum staffing standards during the term of the Agreement.

3. Identifying Enrollees in Need of Behavioral Health Home and Community Based Services

- b) Where an Enrollee elects to not enroll in a Health Home, and is not receiving care management from an alternative care management entity or ACT program, the Contractor must arrange for completion of the assessment process and development

of plans of care for BHHCBS, as provided by Section 10.41 of this Agreement, through subcontracts with Health Homes or other entities designated by the State for this purpose. The Contractor will be provided with not less than 90 days' notice prior to the inclusion of the cost of such services in the capitation.
- iii) Prior to the inclusion of Behavioral Health Home and Community Based Services in the capitation:
 - A) The Contractor shall process and pay clean provider claims for approved services contained in an Enrollee's plan of care at the State-provided rate schedule, up to the State-determined maximum benefit limits, as described in the State issued Behavioral Health Guidelines. Such benefit limits are subject to change upon reasonable notice to the Contractor and CMS approval.
 - B) The State shall reimburse the Contractor for such services at the State-provided rate schedule via supplemental rate codes outlined in the applicable billing manual.
 - C) The State shall not be financially responsible for services provided to an Enrollee beyond the maximum benefit limits except where the Contractor has obtained prior written approval from the Medical Directors of both OMH and OASAS or their designees. In the request for prior approval, the Contractor must establish that the Enrollee is likely to suffer harm or require inpatient hospitalization without the provision of the proposed Behavioral Health Home and Community Based Services.
- iv) Nothing in this Agreement is intended to prohibit the Contractor from authorizing payment from the Contractor's prepaid capitation rate for Behavioral Health Home and Community Based Services in excess of the State-determined benefit limits.
- c) Behavioral Health Home and Community Based Services Appointment Availability Standards:

- d) Utilization Management:
- i) The Contractor shall use medical necessity criteria and level of care determination criteria for Behavioral Health Home and Community Based Services established by the State.
 - ii) As Enrollees achieve recovery goals, the Plan shall ensure that person-centered planning focuses on adjusting services to meet individualized needs so that improvements in functional impairments can be maintained when there is a reasonable expectation that withdrawal or premature reduction of services may result in loss of rehabilitation gains or goals attained by the Enrollee.
- Medical necessity criteria for BHHCBS shall be no more restrictive than criteria for other covered services.
