ACKNOWLEDGEMENTS

Special thanks go to the local health department enforcement officers, the New York City Department of Consumer Affairs and the youth who participated in the access compliance check surveillance program. For more than 22 years, these dedicated agencies and individuals have been the leaders in the State's effort to increase retailer compliance with the public health law in our communities.

Staff of the New York State Department of Health's Bureau of Community Environmental Health and Food Protection, Tobacco Enforcement Program prepared this report with data provided from the local enforcement officers, other state agencies and programs within the Department of Health. The New York State Department of Health's Tobacco Control Program and the New York State Education Department supplied information regarding tobacco use and trends among minors. The State Department of Taxation and Finance provided registration and revenue data. The New York State Division of Homeland Security and Emergency Services supplied data regarding fires.

PREFACE

The purpose of New York's Adolescent Tobacco Use Prevention Act (ATUPA) is to aid in reducing morbidity and mortality caused by tobacco use by reducing children's access to cigarettes and other tobacco products. It has been well documented that most smokers begin before they are 18 years old, and almost 1,600 youth smoke their first cigarette each day. Many people who start smoking as youth find it nearly impossible to quit during their lifetime. For more than 22 years, state and local enforcement officials have been successful at reducing youth access to tobacco products and improving retailer compliance with the Adolescent Tobacco Use Prevention Act, realizing a reduction in the rate of non-compliance by retailers from 19.0% in 1997 to 7.52% in 2019-2020.

The Adolescent Tobacco Use Prevention Act requires retailers to obtain positive proof that the person buying cigarettes and other restricted products is of the State minimum sales age. ATUPA was amended in 2019, raising the State minimum sales age from 18 to 21 years of age, effective November 13, 2019. Retailers found in violation of this law are subject to fines and loss of their tobacco registrations and lottery licenses for repeated violations. The law also limits the location of vending machines, limits the venues in which free tobacco products can be distributed, and contains other provisions aimed at making tobacco products less accessible to minors and are a part of the State's comprehensive anti-smoking program.

This Annual Report is prepared by the Tobacco Enforcement Program, located in the New York State Department of Health's Center for Environmental Health. The report covers the period April 1, 2018 to March 31, 2020 and includes the following information:

- Number of tobacco compliance checks that were conducted;
- Name and address of tobacco vendors who violated ATUPA regulations and were penalized;
- New York State results of 2019 Youth Risk Behavior Survey (YRBS);
- Tobacco sales data from the State Department of Taxation and Finance; and
- Tobacco-related fire injury data from the Department of State's Fire Reporting System.

During the 2018 – 2020 program years, state and local enforcement officers conducted 62,832 inspections of tobacco retailers to assess compliance with the State's Public Health Law (Adolescent Tobacco Use Prevention Act). Of these inspections, more than 47,523 included unannounced compliance checks where minors attempted to purchase tobacco and other restricted products under the supervision of the enforcement officials. An additional 15,309 visits were made to determine compliance with Department of Health signage requirements and Department of Taxation and Finance registration requirements, to educate retailers about the Public Health Law, to verify vending machine supervision and location compliance and to investigate complaints. A total of 3,361 enforcement actions were taken for noncompliance with ATUPA and more than \$4.23 million in fines were assessed during this period.

In the last 22 program years, State grants totaling nearly \$103.51 million have been awarded to local enforcement officials to implement the Tobacco Enforcement Program, which resulted in a decline in the rate of retailer non-compliance from 19.0 percent to 7.52 percent. From September 1997 to March 2020, more than \$42 million in fines have been levied against 51,823 retailers for violating the ATUPA regulations. The Department of Taxation and Finance has suspended the registrations of 3,614 tobacco retailers as a result of multiple enforcement actions for selling tobacco products to youth. There were also 983 lottery agent licenses suspended by the State Gaming Commission for multiple sales to minors. Of the 777,340 compliance inspections that have taken place during the 22 years, 567,349 (73%) were conducted with the assistance of minors attempting to purchase tobacco products.

New York State Department of Health (NYSDOH)
Center for Environmental Health
Youth Access Tobacco Enforcement Program Annual Report
April 1, 2018 – March 31, 2020

Program Overview

In March 2020, the NYSDOH completed its twenty-second program year of statewide youth tobacco access enforcement. As part of the State's continued commitment to preventing youth access to tobacco, \$4.7 million was awarded to local enforcement officers in 2018-2019 and 2019-2020 to determine and enforce retail tobacco vendor compliance with Article 13-F of the Public Health Law, also known as the Adolescent Tobacco Use Prevention Act (ATUPA). This report covers the period from April 1, 2018 through March 31, 2020.

The ATUPA enforcement program is part of the State's comprehensive tobacco control initiative, the New York State Tobacco Control Program (TCP), administered by the Bureau of Tobacco Control (BTC) in the Division of Chronic Disease Prevention. In 2018-2019 and 2019-2020, the TCP was funded through a state appropriation of \$39.8 million and three federal grants from the Centers for Disease Control and Prevention (CDC) totaling \$2.9 million.

The goals of the State's comprehensive tobacco control program are to prevent the initiation of tobacco use, including e-cigarette and other vaping products use, among youth and young adults; increase adult tobacco use cessation and youth vaping cessation; eliminate exposure to secondhand smoke and vaping aerosol; and promote health equity by focusing on populations disproportionately affected by tobacco use and related health consequences, i.e., those with low income, low educational attainment, poor mental health and/or substance use disorders. TCP's evidence-based, population-level, and policy-driven interventions strive to accelerate tobacco control in New York State. BTC funds and manages statewide and community programs to work towards achieving environmental change on the state and local levels and expand tobacco dependence treatment by medical and mental health care systems.

Statewide and local level actions are used to change the community environment to support and reinforce the State's tobacco-free and vape-free norm and denormalize tobacco and vaping product use through community education and community/organizational mobilization. BTC funds *Advancing Tobacco-Free Communities* grantees, which consist of two components – community engagement and youth action, the latter branded as Reality Check. Community engagement entails educating local community members, organizations, employers, decision-makers, and policymakers about the harms of tobacco use and secondhand smoke exposure to change public opinion about tobacco and tobacco use. Grantees implement a coordinated set of evidence-based strategies to build public and organizational support to foster environments that demand policy change to reduce the impact of retail tobacco and vaping product marketing on youth and eliminate secondhand smoke exposure in the places where people live, learn, work, and play, including in multiunit dwellings and outdoor spaces. Reality Check grantees engage youth, ages 13 – 18, from diverse economic and cultural backgrounds to change community norms about tobacco and e-cigarette use. Grantees achieve this goal through activities aimed at deglamorizing and denormalizing e-cigarette and tobacco use in the youths' communities and by exposing the tobacco industry's manipulative and deceptive marketing practices. The goal of Reality Check initiatives is to create environments open to policy change. Youth engage in civic action, such as community education linked to social action, media advocacy, community and

media events, and advocacy with organizational decision-makers, to advance tobacco-free and vape-free norms.

Health systems transformation strategies address tobacco dependence treatment and cessation from a health systems and organizational perspective. BTC funds *Health Systems for a Tobacco-Free NY* grantees who work with high-level administrators at large or local medical and mental health care systems to encourage and assist them in adopting and implementing policies that increase the provision of evidence-based, guideline-concordant tobacco dependence treatment among disproportionately affected populations as part of routine care. System transformation focuses on establishing a tobacco-user identification system; providing adequate training, resources, and provider feedback; assigning dedicated staff to deliver tobacco dependence treatment; and promoting the use of tobacco cessation benefits among Medicaid members and members of other health care plans.

Mass-reach health communications aim to increase awareness of the dangers of tobacco and vaping products use and secondhand smoke exposure; motivate tobacco users to quit; increase delivery of tobacco dependence treatment; provide information about Medicaid smoking cessation benefits; prevent youth initiation to tobacco and e-cigarettes; expose tobacco industry propaganda; deglamorize and denormalize tobacco and vaping product use; and educate community members and decision-makers about tobacco control. Emotionally evocative and graphic depictions of the negative consequences of tobacco use make up paid media campaigns that promote tobacco use cessation. Campaigns aim to motivate tobacco users who want to quit to speak with their health care providers for assistance and provide contact information for the New York State Smokers' Quitline, which offers free telephonic and web-based information, resources, and quit coaching to New York State residents, and, for eligible New Yorkers who smoke or vape, free starter kits of nicotine replacement therapy. Media campaigns also focus on health care professionals to inform them about their role as providers of tobacco dependence treatment and to increase their knowledge about and use of the Medicaid smoking cessation benefit. Paid media campaigns include television, radio, internet, social media, print, and out-of-home advertising.

Grantees, Reality Check youth, and mobilized community members and leaders garner earned (i.e., free) media via press releases, opinion pieces, letters to the editor, and hosted events to draw attention to the problems of tobacco and e-cigarette use, youth initiation, and secondhand smoke exposure to increase support for policy change that supports the tobacco-free, vape-free norm.

Surveillance and evaluation activities ensure that the NYS TCP uses effective and proven strategies to obtain the goal of a tobacco-free, vape-free New York State. These activities monitor program progress and impact, provide technical assistance and guidance, and manage the effective and efficient investment of state and federal tobacco control funding. Evaluation data from media studies, surveys, and observational projects contribute to the ongoing improvement of the program, help focus key messaging, and determine the effective use of media. The NYS TCP contributes to the science of tobacco control through a variety of data collection activities related to program initiatives and the wide dissemination of program findings.

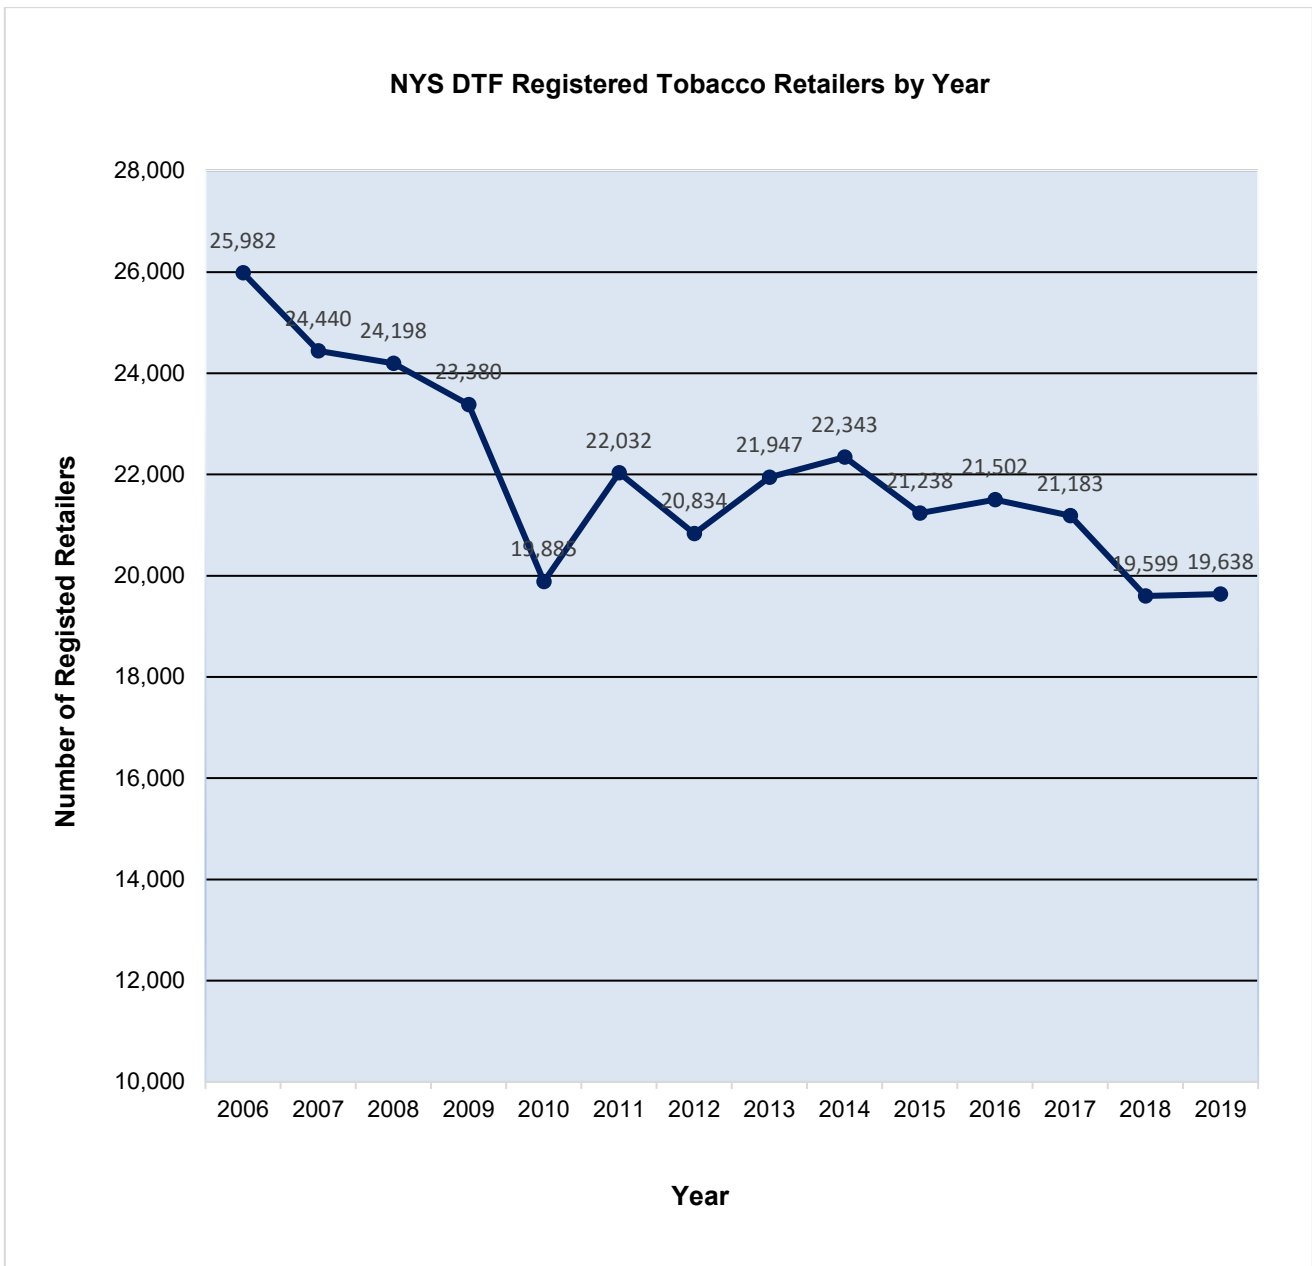

Program Purpose

The goal of the Tobacco Enforcement Program is to lower the prevalence of tobacco use among youth by reducing tobacco product sales and preventing the onset of its use by this population. Specifically, the program seeks to improve tobacco retailer compliance with ATUPA.

Status and Accomplishments

The New York State Department of Taxation and Finance (DTF) reports the total number of registered tobacco retailers in New York State, including the total number of vending machines. A total of 19,599 tobacco retailers were registered as of March 2018 and a total of 19,638 were registered as of July 2019.

Number of DTF registered tobacco retailers in New York State

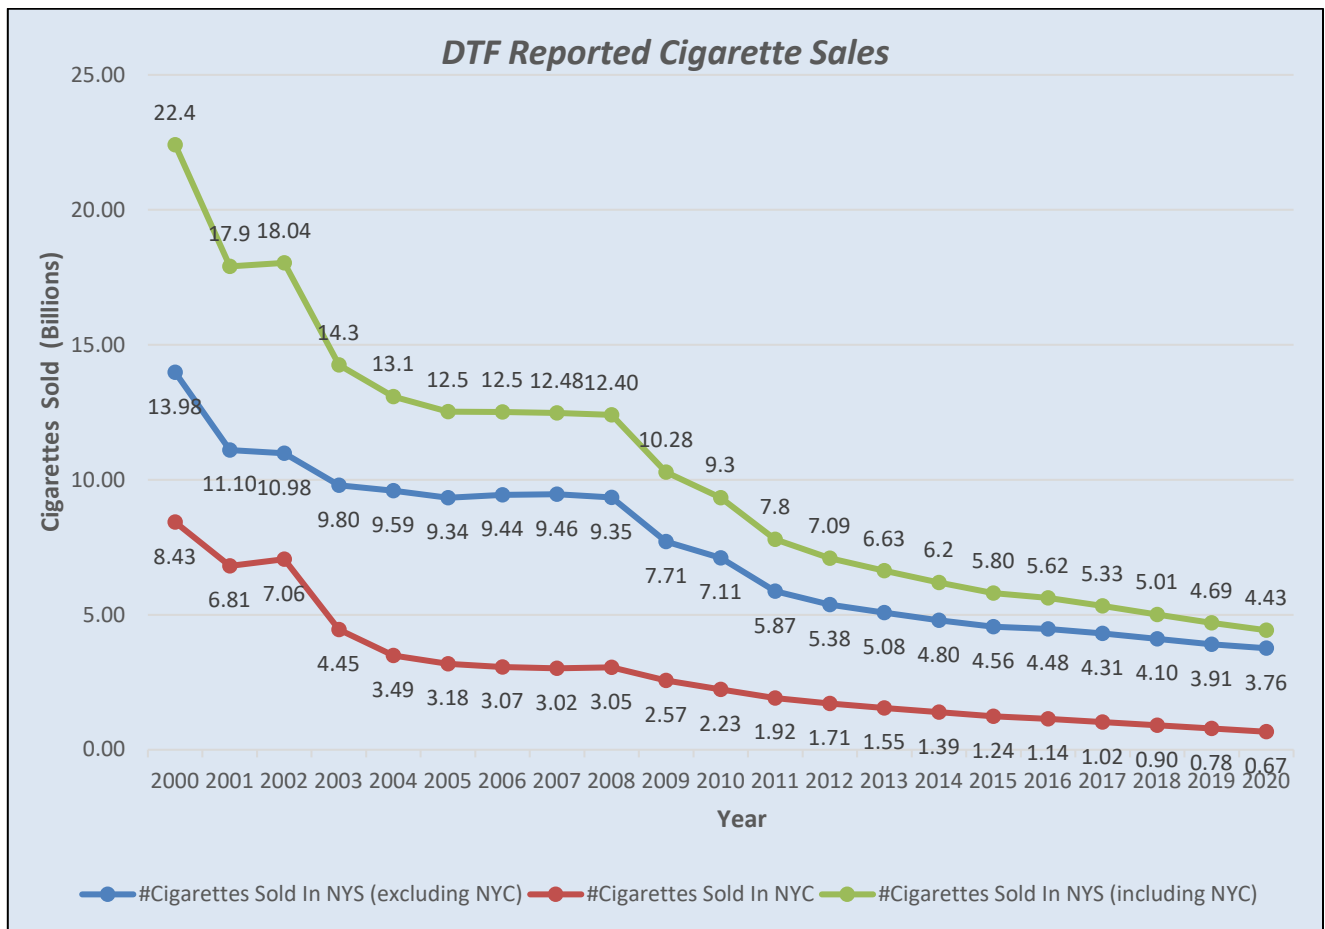

DTF reported number of registered vending machines

The total number of vending machines registered in New York State by DTF was 87 in 2018 and 61 in 2019. This is down from 807 registered in 2010 and considerably lower than the 4,434 registered in 2000.

The Family Smoking Prevention and Tobacco Control Act (Tobacco Control Act; Public Law 111-31; 123 Stat. 1776) was enacted on June 22, 2009, amending the Federal Food, Drug, and Cosmetic Act and providing the U.S. Food & Drug Administration (FDA) with the authority to regulate tobacco products. Effective June 22, 2010 vending machines are only permitted in facilities where no one younger than 18 years of age is present or permitted to enter at any time.

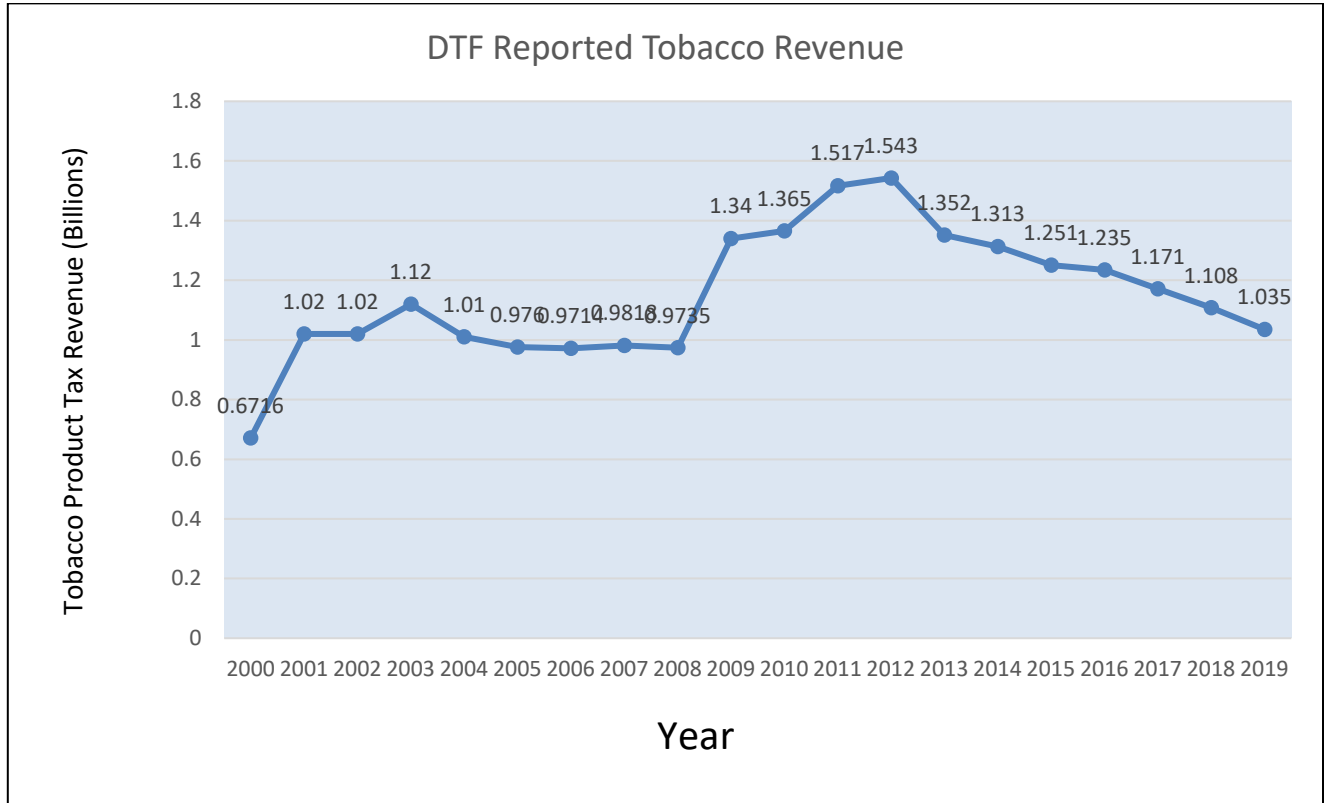

DTF reported number of cigarettes sold in New York State

Approximately 9.12 billion cigarettes were sold in New York State from April 1, 2018 to March 31, 2020. Of this number, approximately 1.45 billion were sold in New York City.

DTF reported tax revenue collected in New York State

Excluding local sales tax, the tax revenue collected by DTF from the sale of cigarettes and tobacco products for the period April 1, 2018 to March 31, 2020 totaled approximately \$2.143 billion from retailer licensure, vending machine registrations, and the excise tax. Retail licensure and vending machine registrations yielded \$11.876 million in this time period. The excise tax on cigarettes yielded \$1.977 billion and taxes on other tobacco products yielded \$154 million in the same time period.

DOH reported the following information:

Number and type of compliance checks conducted in NYS

State and local enforcement officers conducted 62,832 compliance inspections during the time period April 1, 2018 to March 31, 2020. Of these, 47,523 were compliance checks where underage youth attempted to purchase tobacco and other restricted products. Additional visits were made to determine compliance with DTF registration or DOH signage requirements, to educate operators of the Public Health Law requirements, to verify vending machine supervision and location compliance, or to investigate complaints. Appendix 1 reflects a county-by-county listing of compliance investigations. Appendix 1-A reflects a county-by-county 5-year summary of the sale to minor violation rate.

Number of complaints filed against registered tobacco retailers in NYS

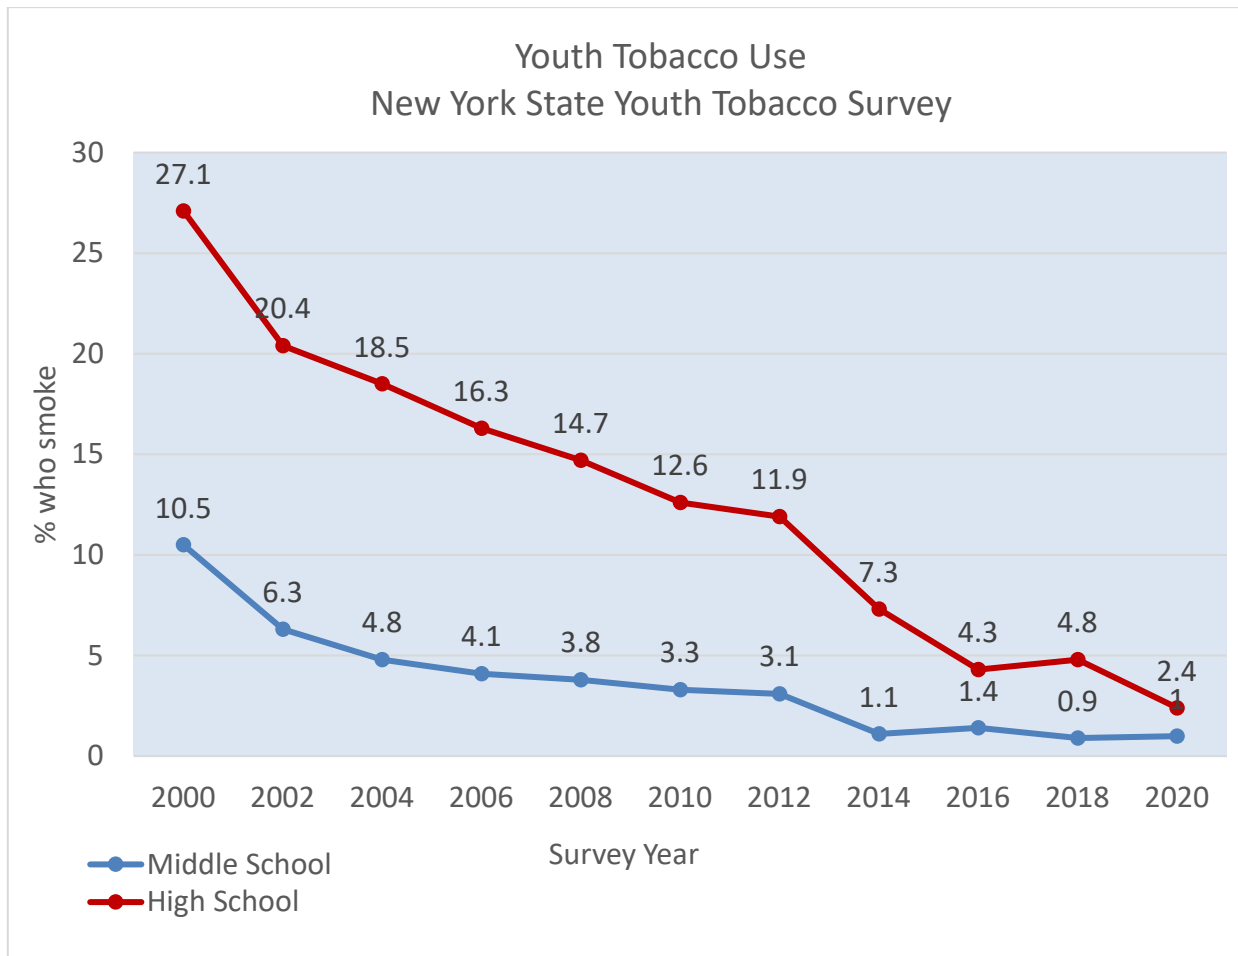

During the time period April 1, 2018 to March 31, 2020, a total of 644 inspections were conducted in response to 391 complaints received concerning potential ATUPA violations. One hundred and sixty-five complaints were filed against registered tobacco retailers. Included in Appendix 1 is a county-by-county breakdown of this data.

Retailers reported by local enforcement officers to have paid fines or were otherwise penalized due to enforcement action

During the time period April 1, 2018 to March 31, 2020, State and local enforcement officers initiated 3,361 enforcement actions for ATUPA violations, for which more than \$4,232,300 in fines were assessed. The names and addresses of penalized tobacco retailers are listed by county in Appendix 2.

Number of tobacco users and trends among minors in New York State

New York State conducts a Youth Tobacco Survey every other year to develop statewide estimates of tobacco use and related behaviors and attitudes for students from grades 6 to 12. The survey includes questions about tobacco use, exposure to environmental tobacco smoke, minors' ability to purchase or otherwise obtain tobacco products, knowledge and attitudes about tobacco and familiarity with pro-tobacco and anti-tobacco media messages. A total of 38 public, parochial, and other private schools agreed to participate in the survey, with a total of 3,895 students completing the survey in 2018. The results of the survey are applicable to New York State youth attending middle school or high school. There has been a significant downward trend in the use of cigarettes by high school and middle school students since 2000. Additional data from the 2020 New York State Youth Tobacco Survey are found in Appendix 4.

Funding disbursement

Appendix 5 lists the funding amounts distributed to 35 county health departments and the New York City Department of Health and Mental Hygiene and the New York City Department of Consumer Affairs to conduct youth access tobacco enforcement activities. As guided by Section 1399-hh of the Public Health Law, funding was based on the number of retail facilities registered with DTF to sell tobacco products within the local health department's jurisdiction. Nine NYS DOH district offices conducted compliance checks in the 22 upstate counties that do not, or did not elect to, conduct enforcement activities in their counties.

Enforcement

During the time period April 1, 2018 to March 31, 2020, a total of 1,803 vendors were reported to DTF for lack of required registration to sell tobacco products. As a result, DTF verified the status of the facilities, directed unregistered retailers to obtain a registration, and fined them up to \$5,000 for non-compliance.

During compliance checks conducted from April 1, 2018 to March 31, 2020, youth purchased tobacco and other restricted products 3,233 times, and 3,361 non-compliant retailers were fined a total of \$4,232,300 for ATUPA violations. Fines collected in this time period totaled \$2,519,347.

During the reporting period from April 1, 2018 to March 31, 2020, a total of 299 retailer registrations to sell tobacco products were suspended by DTF. Of this total, 261 were suspended for six months for multiple sale to minor violations, 9 were suspended for one year for multiple sale to minor or other ATUPA violations, and 29 were permanently revoked for continuing to sell tobacco products while under suspension. During the same reporting period, 75 lottery agent licenses were suspended by the State Gaming Association for multiple sale-to-minor violations.

* Other Regulatory Requirements include proper DTF registration compliance, posting required signs, educating operators of the Public Health Law requirements, verifying vending machine supervision and proper location, attempting compliance checks and/or investigation of complaints.

** Includes compliance checks conducted by adult inspectors for out of the package cigarettes, self-service restrictions, bidis, gutka, etc.

¹ Total does not include date from the first two program years; complete data was not collected during this time period.

² The FFY 2011 program year covers 18 months, October 1, 2010 to March 31, 2012.

³ The tobacco enforcement program year began following the State Fiscal Year (SFY) in 2012.

The tobacco retailer non-compliance rate for FFY 1998 & 1999 is based on the number of enforcement actions for illegal sales to minors; the 2000-forward rate is based on the actual number of sales to minors.

* The FFY 2011 contract period covers the 18 months from October 1, 2010 to March 31, 2012.

** The tobacco enforcement program year from April 1, 2012 forward follows the State Fiscal Year (SFY).

Fires and related injuries and deaths caused or believed to be caused by tobacco products*

The New York State Fire Reporting System data for the period of January 1, 2018 to December 31, 2019 identified 1,151 fires classified as being caused by abandoned or discarded cigarettes. There were 6 deaths and 40 injuries to civilians resulting from fires caused by tobacco products. Twenty-four firefighters were injured. Appendix 6 includes a breakdown of tobacco-related fire statistics by county.

*Data reported by the New York State Division of Homeland Security & Emergency Services

Survey of attitudes and behaviors regarding tobacco use among minors*

The New York State Education Department conducts a Federal Center for Disease Control and Prevention (CDC) funded statewide "Youth Risk Behavior Survey" (YRBS) of students in New York State schools. The survey contains several questions on youth tobacco use and is conducted every two years. For each survey, a new sample of schools and students is selected; student participation is voluntary. New York State data from the YRBS for years 2013, 2015, 2017 and 2019 are included in Appendix 3.

*Data reported by the New York State and New York City Education Departments to the CDC. Additional results are available at: <https://www.cdc.gov/healthyyouth/data/yrbs/results.htm>
