## LYME DISEASE ALERT

Do a thorough body check for ticks after being outdoors.

## **How To Remove A Tick**

Deer tick size (left to right) larva, nymph, adult

- Using tweezers, grasp tick near the mouth parts, as close to skin as possible.
  - Pull tick in a steady, upward motion away from skin.
    - DO NOT use kerosene, matches, or petroleum jelly to remove tick.
  - Disinfect site with soap and water, rubbing alcohol or hydrogen peroxide.
- Record date and location of tick bite. If rash or flu-like symptoms appear contact your health care provider immediately.

DISEASE RISK IS REDUCED IF TICK IS REMOVED WITHIN 36 HOURS.
