<b>Q2: Title of your recommendation</b>	Access to HIV PrEP for under 18 years old
<b>Q3: Please provide a description of your proposed recommendation</b>	
It is very difficult for young people to access PrEP without their parents consent, due to insurance issues and organizational protocols.	
<b>Q4: For which goal outlined in the Governor's plan to end the epidemic in New York State does this recommendation apply? (Select all that apply)</b>	Facilitating access to Pre-Exposure Prophylaxis (PrEP) for high-risk persons to keep them HIV negative
<b>Q5: This recommendation should be considered by the following Ending the Epidemic Task Force Committee (Select all that apply)</b>	Prevention Committee: Develop recommendations for ensuring the effective implementation of biomedical advances in the prevention of HIV, (such as the use of Truvada as pre-exposure prophylaxis (PrEP)); for ensuring access for those most in need to keep them negative; and for expansion of syringe exchange, expanded partner services, and streamlined HIV testing by further implementing the universal offer of HIV testing in primary care, among others. The Committee will focus on continuing innovative and comprehensive prevention and harm reduction services targeted at key high risk populations, as well as grant-funded services that engage in both secondary and primary prevention.
<b>Q6: Does this recommendation require a change to an existing policy or program, or the creation of a new policy or program?</b>	Unknown
<b>Q7: Would implementation of this recommendation be permitted under current laws or would a statutory change be required?</b>	Unknown
<b>Q8: Is this recommendation something that could feasibly be implemented in the short-term (within the next year) or long-term (within the next three to six years)?</b>	Unknown

## Ending the Epidemic Task Force Recommendation Form

### **Q9: What are the perceived benefits of implementing this recommendation?**

More preventative tools for high risk group and potentially an opportunity to engage HIV neg individuals in more routine care.
