## **1.0 Introduction**

This document is Amendment No. 2 to the Drinking Water State Revolving Fund (DWSRF) Final Intended Use Plan (IUP) for Federal Fiscal Year (FFY) 2024, which was issued on October 25, 2023. This IUP amendment is required as a part of the state's application for the Bipartisan Infrastructure Law (BIL) Lead Service Line Replacement (LSLR) FFY 2023 federal capitalization grant for the DWSRF program. The BIL was signed into law on November 15, 2021, and made available a supplemental appropriation for the DWSRF program to fund lead service line replacement projects or associated activity *directly connected* to the identification, planning, design, and replacement of lead service lines. This DWSRF IUP amendment provides information relative to the state's intended use of the anticipated \$124,039,000 DWSRF FFY 2023 BIL-LSLR federal capitalization grant. This capitalization grant amount includes \$10,383,000 from a reallocation of funds from the FFY 2022 BIL-LSLR national allocation that were declined by other states.

Additional information related to the DWSRF program, including the FFY 2024 IUP, is available at [DWSRF Program Information](#).

## **2.0 Background**

Notice of availability of the FFY 2023 BIL-LSLR funding was published in the New York State Register and Environmental Notice Bulletin on April 26, 2023. These notices indicated the anticipated FFY 2023 BIL-LSLR available amount of \$113,656,000 and the project listing form acceptance deadline of August 25, 2023. A webinar was presented by the NYS Department of Health (DOH) and Environmental Facilities Corporation (EFC) on August 1, 2023, which provided further BIL-LSLR program information. The State was notified of the \$10,383,000 reallocation amount in a memo from the Environmental Protection Agency (EPA) dated November 28, 2023.

## **3.0 Program Goals for the Bipartisan Infrastructure Law Lead Service Line Replacement Funding**

The DWSRF will be used to facilitate financings from the FFY 2023 BIL-LSLR capitalization grant for eligible projects. The BIL-LSLR program funds will be jointly administered by the DOH and EFC to finance projects that are otherwise DWSRF eligible and are lead service line replacement projects or associated activity *directly connected* to the identification, planning, design, and replacement of lead service lines. Any project funded under this appropriation involving the replacement of a lead service line must replace the entire lead service line, not just a portion, unless a portion has already been replaced or is concurrently being replaced with another funding source.

For purposes of the BIL-LSLR funding, a galvanized service line is considered a lead service line if it ever was or is currently downstream of any lead service line, service line of unknown material, or any lead components. Replacement of lead goosenecks, pigtails, and connectors is also eligible for BIL-LSLR funding, whether these are stand-alone or connected to a lead service line.

The EPA requires states to provide 49% of the BIL-LSLR capitalization grant amount as additional subsidy in the form of grants to water systems that meet the state's disadvantaged community criteria (see Section 7.2 of the FFY 2024 IUP).

#### **4.0 Bipartisan Infrastructure Law Lead Service Line Replacement Eligibility and Eligible Project List**

For a project to be eligible for funding under the BIL-LSLR appropriation:

- The project must be otherwise eligible for DWSRF funding.
- The project must be a lead service line replacement project or associated activity directly connected to the identification (inventory), planning, design, and replacement of lead service lines.
- The project must appear on the FFY 2024 BIL-LSLR Eligible Project List (Attachment 1 of this amendment).
- The project must not have incurred any DWSRF-eligible debt prior to November 15, 2021, the enactment date of the BIL.
- To be eligible for BIL-LSLR additional subsidy (grant), the project must meet the state's disadvantaged community eligibility criteria and project eligibility criteria outlined in Sections 7.2 and 7.3 of the FFY 2024 IUP.
- To be eligible for BIL-LSLR interest free financing, the project must meet the project eligibility criteria outlined in Section 7.3 of the FFY 2024 IUP.
- The project must be able to demonstrate the ability to meet all of the requirements for equivalency (Section 10 of the FFY 2024 IUP).

Projects that are eligible for BIL-LSLR funding are indicated on the **BIL-Lead Service Line Replacement Eligible Project List** (Attachment 1 of this amendment). Projects on this list will be awarded additional subsidy and/or interest-free financing subject to the laws of New York State and as outlined in Section 6 of this amendment until the available funds have been exhausted. Projects appearing on the BIL-LSLR Eligible Project List are also added to the FFY 2024 DWSRF IUP Annual List via this amendment, if not already listed.

#### **5.0 Sources and Uses of Funds**

The FFY 2023 BIL-LSLR federal capitalization grant amount, including the reallocation amount, for New York State is expected to be \$124,039,000. Funds provided from this capitalization grant are not subject to a state match requirement.

The state is required to provide 49% of the capitalization grant amount as additional subsidy in the form of grants to water systems that meet the state's disadvantaged community criteria. The State intends to meet this requirement by providing grants to eligible projects as outlined in Section 6 below.

The State is allowed to use up to 31% of the federal BIL-LSLR capitalization grant as "set-asides" for program administration, technical assistance, state public water supervision program management, and special activities. However, given the efficiencies of the New York State DWSRF program, the DOH and the EFC intend to use only 10% (\$12,403,900) of the capitalization grant for program administration, which will maximize the capitalization grant amount available to be used for project funding.

The table below outlines the proposed sources and uses of the FFY 2023 BIL-LSLR funds.

<b>Sources and Uses Federal Fiscal Year 2023 Bipartisan Infrastructure Law Lead Service Line Replacement</b>	
<u>Sources</u>	<u>Amount</u>
FFY 2023 BIL Lead Service Line Replacement Capitalization Grant	\$124,039,000
<b>Total Sources</b>	<b>\$124,039,000</b>
<u>Uses</u>	<u>Amount</u>
State Program Management Set-Aside (10% of Federal Capitalization Grant)	\$12,403,900
Grant Funds Available for Award <sup>1</sup>	\$60,779,110
Interest-free Financing <sup>2</sup>	\$50,855,990
<b>Total Uses</b>	<b>\$124,039,000</b>
<sup>1</sup> Required 49% of FFY 2023 BIL-LSLR capitalization grant to be provided as additional subsidy in the form of grants <sup>2</sup> Amount available for interest-free financing = capitalization grant – set-asides – grants  <b>*Total BIL-LSLR funding capacity = (grants) + (interest free financing) = \$111,635,100</b>	

**6.0 Award of Bipartisan Infrastructure Law Lead Service Line Replacement Funds**

The state is required to provide 49% of the BIL-LSLR capitalization grant amount as additional subsidy in the form of grants to water systems that meet the state’s disadvantaged community criteria. Section 7.0 of the FFY 2024 DWSRF IUP outlines the state’s disadvantaged community and project eligibility criteria. **For purposes of BIL-LSLR funding, projects will be designated as disadvantaged community projects if they meet the state’s disadvantaged community and project eligibility criteria as outlined in sections 7.2 and 7.3 of the FFY 2024 DWSRF IUP, with the exception that the municipal population does not need to be less than 300,000.** Projects that are designated as a disadvantaged community for BIL-LSLR purposes are indicated as such on the BIL-LSLR Eligible Project List (Attachment 1).

As presented in Table 1 above, \$60,779,110 will be available for BIL-LSLR grant awards to eligible disadvantaged community projects.

The BIL-Lead Service Line Replacement Eligible Project List includes all projects determined by DOH to be eligible recipients of BIL-LSLR funding. Projects on this list are for lead service line replacement, inventory, or associated activity and have submitted a project listing form and an acceptable engineering report by August 25, 2023. Projects on this list were evaluated and prioritized using the same priority ranking system as the base DWSRF program (see Attachment 1 of the FFY 2024 DWSRF IUP), which ranks projects in accordance with criteria associated with public health, compliance, and financial need.

Subject to the laws of New York State, projects on the BIL-Lead Service Line Replacement Eligible Project List will be awarded grant and/or interest-free financing as outlined below. Projects on the list will be awarded in public health priority score order until the available

funds have been exhausted. See Table 1 above for available grant and interest-free financing amounts.

- Lead Service Line replacement projects that are designated as a disadvantaged community are eligible for a BIL-LSLR grant award in the amount of 70% of the total net-eligible project cost after outside grants, but not to exceed \$10 million.
- Lead Service Line inventory projects that are designated as a disadvantaged community are eligible for a BIL-LSLR grant award in the amount of 100% of the total net-eligible project cost after outside grants, but not to exceed \$2 million.
- Projects that receive a BIL-LSLR grant award will also receive BIL-LSLR interest-free financing, subject to availability, for eligible project costs not covered by the grant award.
- Projects that do not meet the state's disadvantaged community eligibility criteria are eligible for BIL-LSLR interest-free financing only, subject to availability.
- Lead service line replacement projects are limited to \$10 million in BIL-LSLR grant.
- Lead service line inventory projects are limited to \$2 million in BIL-LSLR grant.
- Applicant communities are limited to \$10 million in grant for replacement projects and \$2 million in grant for inventory projects in any FFY, for a combined applicant community limit of \$12 million in total BIL-LSLR grant in any FFY. Applicant communities may be eligible for additional BIL-LSLR grant in a subsequent FFY for a distinct, separate, eligible project or projects.
- Applicant communities are limited to \$14 million in BIL-LSLR interest-free financing in any FFY but may be eligible for additional BIL-LSLR interest-free financing in a subsequent FFY for a distinct, separate, eligible project or projects.
- A project may potentially receive only a partial grant or interest-free financing award if the BIL-LSLR funds are exhausted before a full award can be provided to that project.

Projects that are eligible for BIL-LSLR funding will also be eligible for DWSRF base program financing for any eligible project costs not covered by a BIL-LSLR grant or interest-free financing award. DWSRF base program loan financing will be offered at terms and interest rate as determined by the project's standing on the current DWSRF IUP Annual List.

## **7.0 Drinking Water State Revolving Fund Program Requirements**

All DWSRF program requirements apply to projects that receive BIL funds, including BIL-LSLR funds. In addition, BIL-LSLR funds are entirely federal funds directly from the

DWSRF federal capitalization grant. Therefore, all federal equivalency requirements apply to projects that receive any BIL-LSLR funding.

DWSRF program requirements and federal equivalency requirements are outlined in the FFY 2024 DWSRF IUP in sections indicated below:

- Architectural and Engineering (A/E) Procurement, for those A/E services to be eligible for reimbursement through a project funded through EFC. (Section 2.0)
- State Environmental Review Process / National Environmental Protection Act Equivalency (Section 10.0)
- Disadvantaged Business Enterprises (Section 10.0)
- Single Audit Reporting (Section 10.0)
- Prohibition on certain telecommunications and video surveillance services or equipment in accordance with 2 CFR 200.216 (Section 10.0)
- American Iron and Steel (Section 11.1)
- Build America, Buy America (Section 11.2)
- Davis-Bacon Federal Prevailing Wage (Section 11.3)
- NYS Smart Growth Public Infrastructure Policy Act (Section 11.5)

Additional information related to the federal requirements for equivalency projects can be found in the New York State Revolving Fund Equivalency Guidance Packet, which is available on EFC's website at <https://efc.ny.gov/forms-tools>.

## **8.0 Public Review and Comment on this Amendment No. 2**

A public notice on the availability of draft Amendment No. 2 to the FFY 2024 DWSRF IUP and request for comments was published in the NYSDEC Environmental Notice Bulletin (ENB) on January 17, 2024. The public comment period ended on February 16, 2024.

Below is a summary of comments that were received and responses provided:

- Project 19619 (C) Batavia's population was updated to 15,600.
- DOH received a small number of program specific comments regarding awards to municipalities with populations over 300,000. The DOH has responded to these comments directly.
