**ANNUAL STATE APPLICATION UNDER PART C OF THE
INDIVIDUALS WITH DISABILITIES EDUCATION ACT AS AMENDED IN 2004
FEDERAL FISCAL YEAR 2011**

CFDA No. 84.181A

ED FORM No. 1 B20--26P

**UNITED STATES DEPARTMENT OF EDUCATION
OFFICE OF SPECIAL EDUCATION PROGRAMS
Washington, DC 20202-2600**

Section I

A. Submission Statements for Part C of IDEA

Select 1 or 2 below. Check 3 if appropriate.

1. The State's policies, procedures, methods, descriptions, and assurances meet all application requirements of Part C of the Act as found in PL 108-446, the Individuals with Disabilities Education Improvement Act of 2004 and applicable regulations (IDEA). The State is able to provide and/or meet all policies, procedures, methods, descriptions, and assurances, found in Sections II.A and II.B of this Application.
- By selecting this submission statement the State has submitted the new and/or revisions to State policies, procedures, methods, and descriptions that meet all requirements found in Section II.A.
2. The State cannot provide policies, procedures, methods, descriptions, and/or assurances for all application requirements of Part C of the Act as found in PL 108-446, the Individuals with Disabilities Education Improvement Act of 2004. The State has determined that it is unable to provide the policies, procedures, methods, descriptions, and/or assurances that are checked 'No' in Sections II.A and II.B. However, the State assures that throughout the period of this grant award the State will operate consistent with all requirements of IDEA in PL 108-446 and applicable regulations. The State will develop and/or make such changes to existing policies, procedures, methods, descriptions, and assurances as are necessary to bring the policies, procedures, methods, descriptions, and assurances into compliance with the requirements of IDEA, as amended, as soon as possible, and not later than June 30, 2012. The State has included the date by which it expects to complete necessary changes associated with policies, procedures, methods, descriptions, and assurances marked 'No'. The items checked 'Yes' are enclosed with this application.¹

Optional:

3. The State is submitting new or modified State policies and procedures previously submitted to the Department and has checked, under Section II.A, the appropriate 'R' cell(s) found in the 'Yes' column. These modifications are: (1) deemed necessary by the State, for example when the State revises applicable State law or regulations; (2) required by the Secretary because there is a new interpretation of the Act or regulations by a Federal court or the State's highest court; and/or (3) because of an official finding of noncompliance with Federal law or regulation.

B. Conditional Approval for Current Grant Year

If the State received conditional approval for the current grant year, check the appropriate statement(s) below:

1. Conditional Approval Related to Assurances in Section II.A:

- a. Sections II.A and II.B provide documentation of completion of all issues identified in the FFY 2010 conditional approval letter.
- b. As noted in Sections II.A and II.B, the State has not completed all issues identified in the FFY 2010 conditional approval letter.

2. Conditional Approval Related to Other Issues:

- a. The State previously submitted documentation of completion of all issues identified in the FFY 2010 conditional approval letter.
- b. The State is attaching documentation of completion of all issues identified in the FFY 2010 conditional approval letter. *(Attach documentation showing completion of all issues.)*
- c. The State has not completed all issues identified in the FFY 2010 conditional approval letter. *(Attach documentation showing completion of any issues and a list of items not yet completed.)*

¹ If Option 2 is checked, the State is to provide dates in Sections II.A and II.B as to when the required policies, procedures, methods, descriptions, and assurances will be provided, which date can be no later than June 30, 2012. The State will be granted conditional approval until it can provide all policies, procedures, methods, descriptions, and assurances.

Section II

A. State Policies, Procedures, Methods, and Descriptions

As checked below, the State hereby declares that it has or has not filed the following policies, procedures, methods, and descriptions with the U.S. Department of Education, and, as of the date of the signature below, affirms and incorporates by reference those policies, procedures, methods, and descriptions with respect to Part C of PL 108-446.

B. Maintenance and Implementation Activities for the Lead Agency

When completing this section include:

- A description of the nature and scope of each major activity to be carried out under Part C in maintaining and implementing the statewide system of early intervention services. Activities could include enhancing the Comprehensive System of Personnel Development, implementing child find strategies, or ensuring a timely, comprehensive, multidisciplinary evaluation for each child;
- The approximate amount of funds to be spent for each activity; and
- A subtotal of the amount.

(Add columns and rows as needed.)

Major Activity	Part C Funds to be Spent	Description of Activities
Early Intervention Administrative Reimbursement to Municipalities	\$10,040,478	The Department of Health will reimburse municipalities to partially defray the cost of administering the local early intervention system (as required by Section 2556 of the Public Health Law). Funds are used to support local implementation of federal and state requirements for the Early Intervention Program.
Training and Technical Assistance	\$658,650	<p>The Bureau of Early Intervention currently funds contractors to deliver face-to-face training curricula statewide to support the Department of Health's implementation of the Early Intervention Program. The five-year miscellaneous service contracts for delivery of statewide training and development and revision of current training courses ended Sept. 2010.</p> <p>A new RFP was issued in April 2010 for the period 10/1/10 through 9/30/15. A contractor has been selected. Funds will be used for continued support to provide technical assistance and training for parents of children participating in EI; approved EI service coordinators, evaluators, and service providers; municipal representatives responsible for EI implementation; qualified personnel specified in EI regulations; primary referral sources; child care providers; and preservice students and faculty. The Department will continue to develop and implement training and technical assistance activities focusing on the administrative, fiscal, and clinical aspects of the EIP.</p>
Family Initiatives	\$199,999	The Department of Health is committed to providing family-centered early intervention services, improving and refining the early intervention system for families, and promoting parent involvement at the individual, local, and state levels. The current Family Initiatives Coordination Services Project (FICSP) contract period will end June 30, 2011. Funds will continue to be used to support a new competitively procured multiyear contract to fund a variety of family involvement activities to support parents. Activities include the following: planning and delivering regional semiannual "Partners Training," leadership and advocacy training sessions for parents of children receiving early intervention services, development of parent materials, development of family-focused topics for the Department's Web page, oversight of newly developed Web site http://www.eifamilies.com , provision of staff support and mentoring to the Early Intervention Coordinating Council's

		parent members, and involvement by ad hoc task force and committee members.
Public Awareness and Clinical Practice Guidelines	\$5,000	Funds will be used to support the development, production, and distribution of a variety of publications and brochures for parents, primary health care providers, hospitals, other primary referral sources, and the general public. These publications will promote early identification and referral of infants and toddlers with suspected delays to early intervention and provide information about the Early Intervention Program and available services. Many of these publications and other early intervention-related resources are posted on the Bureau of Early Intervention's Web page at http://www.health.ny.gov/community/infants_children/early_intervention/ . The Department has been engaged in development of clinical practice guidelines for certain conditions that may affect eligible children. These guidelines address recommended clinical practices for developmental surveillance, assessment, and intervention with children age birth to three years. Funds will continue to be used to support printing of the updating guidelines. Guidelines are disseminated to early intervention municipalities, providers, parents and others.
Mediation	\$34,975	New York State provides families with the option of mediation through community dispute resolution centers (as required by Section 2549 of the Public Health Law) to resolve disputes about early intervention services. Funds will be used to provide mediation services through a contract with the New York State Dispute Resolution Association Inc.
Monitoring of Municipal Early Intervention Agencies and Approved Service Providers	\$2,369,664	The Department of Health is responsible for supervision of the 57 counties and New York City government agencies that administer the Early Intervention Program at the local level. The Department is also responsible for monitoring approximately 618 contracted agencies, 1,131 contracted individual providers, and 58 municipalities approved by the state to deliver early intervention services. Funds continue to be used to support a multi-year contract to achieve timely and effective monitoring of local governments and approved contracted providers. This also includes monitoring of subcontracted providers who are approved but only have contracts with other EI approved agency providers. Additionally, this contract supports investigative reviews of providers that are the subject of complaints that involve serious health and safety concerns that are brought to the attention of the Department. The contractor will conduct approximately 120 routine on-site reviews per quarter and follow up reviews for providers who had deficiencies found during previous reviews, in the area of health and safety. Additionally, the contractor is conducting follow up on-site visits to providers and municipalities for the purpose of verification of correction of any noncompliance finding that is related to a violation of OSEP regulations. The monitoring data base has been revised to incorporate additional levels of monitoring review types. Their revised data base now produces monitoring reports which include technical assistance for providers who may have findings that result in the need to develop a CAP. The monitoring data base continues to track submission of provider correspondence and generates a variety of management reports related to the status of monitoring efforts.
Early	\$716,908	As lead agency for the Early Intervention Program, the Department of

Intervention Program Information System		Health developed and has maintained an information system known as KIDS – Kids Integrated Data System, to meet local, state, and federal data needs, and to assist in local and state management of service delivery system. KIDS is also the key data source used for state supervision and monitoring of the Early Intervention Program. As indicated in previous Part C Applications, for a variety of reasons, the KIDS application can no longer adequately support the data and operational needs of the program and funds are being used in partial support of a multi-year effort to design and implement a new management information system for the EIP. This new data system is called NYEIS (New York Early Intervention System) and it is anticipated that funds will be requested in future applications to continue to support development, deployment, and maintenance of NYEIS. NYEIS development and design work has been completed and the Department has begun statewide launch and utilization of the system as of September, 2010. Statewide training and implementation is taking an incremental approach and is anticipated to be complete in September 2011. It is anticipated that NYEIS and KIDS will continue to be supported in parallel for 3-5 years.
Data Collection for the State Performance Plan and General Supervision	\$300,000	A memorandum of understanding is being continued with the State University of New York at Buffalo to collaborate with the Department in three important areas: (1) data collection, data analyses, and training and technical assistance to the field necessary to meet the requirements established by OSEP for collection and reporting of child and family outcomes; (2) continue efforts initiated under the GSEG to collect New York State specific child and family outcomes, using the New York State Family Survey; and (3) use of child and family outcome data with communities to improve the quality and effectiveness of EIP services. SUNY Buffalo activities include manually entering and scanning data on child and family outcomes; assuring quality and confidentiality of child and family data; data analyses; and, in collaboration with SUNY Binghamton, conducting the annual NYS Family Survey and maintaining and supplying training and technical assistance materials for municipalities, parents, and EIP providers as needed to participate in the data collection effort.
Technical Assistance Information System & Health Statistics Group (ISHSG)	\$191,779	Funds are allocated to ISHSG for provision of computer systems support to the Early Intervention Program.

F. Description of Optional Use of Part C Funds (For States that Do Not Provide Direct Service for At-Risk Infants and Toddlers)

For any State that does not provide direct services for at-risk infants and toddlers under 20 U.S.C. 1437(a)(4), but chooses to use funds under 20 U.S.C. 1438(5), each Application must include a description of how these funds will be used. Specifically, a State may use Part C funds for initiating, expanding, or improving collaborative efforts related to at-risk infants and toddlers, including establishing linkages with appropriate public or private community-based organizations, services, or personnel for the purpose of:

- Identifying and evaluating at-risk infants and toddlers;
- Making referrals of at-risk infants and toddlers who are identified and evaluated; and
- Conducting periodic follow-up on at-risk infants and toddlers to determine if the status of the infant or toddler's eligibility for Part C services has changed.

A. System of Payments / Use of Insurance / Program Income

The State

does (check as applicable)

does not (check as applicable)

have a system of payments policy for Part C services under 20 U.S.C. 1432(4)(B), which policy may include use of public insurance and benefits, private insurance, or family fees, such as a sliding scale, to pay for Part C services. Any family fees are treated as 'program income' for purposes of 34 CFR §80.25 and are not included in the State's determination of State and local expenditures for purposes of 20 U.S.C. 1437(b)(5)(B).

Note: If the State has adopted new or has revised its existing policies and procedures regarding its system of payments, it must submit these new and/or revised policies and procedures under Item 7 in Section II.A above.

B. Restricted Indirect Cost Rate/Cost Allocation Plan Information

(Note: To be completed if Lead Agency is not a State Educational Agency.)

If the lead agency is not a State educational agency (as well as any outlying areas that have the Department of Interior as its cognizant Federal agency, even if an SEA) check the applicable status below (more than one check mark may be necessary) and enclose appropriate documentation for this Federal Fiscal Year.

The lead agency has a final restricted indirect cost rate or cost allocation plan that has been approved by the State lead agency's cognizant Federal agency and is in effect for this Federal fiscal year (FFY) (ending on June 30, 2012). (Attach a copy of the approved restricted indirect cost rate agreement or cost allocation plan.)

The lead agency has either a provisional or final restricted indirect cost rate or cost allocation plan that expires or expired on March 31, 2011 and the State is in the process of negotiating a new restricted indirect cost rate agreement or cost allocation plan that will be in effect for the period April 1, 2011 through March 31, 2012.² The State lead agency will continue to charge or bill the Part C grant using the provisional or previously approved final restricted indirect cost rate or cost allocation plan until a new rate or plan is negotiated and approved by the State's cognizant Federal agency, at which point the State lead agency must make appropriate adjustments for applicable FFYs. The State acknowledges that a final restricted indirect cost rate may result in an adjustment of the final audited expenditures allowable to be charged to the Part C grant and the Department's approval of this FFY Part C application with an expired or provisional restricted indirect cost rate does not constitute approval of that rate as the final rate for the lead agency for this FFY. When a final restricted indirect cost rate is approved, the lead agency must submit to OSEP: (1) a copy of the "final" restricted indirect cost rate agreement; and (2) details of adjustments made to past GAPS draw downs in light of the "final" rate. (Attach a copy of the previously approved restricted indirect cost rate agreement or cost allocation plan.)

No indirect costs are charged to the Part C grant. The total amount of the Federal Part C grant is used for allowable direct costs.

Other, explanation attached.

² A "provisional" indirect cost rate is a temporary rate established for a future prospective period of time to permit budgeting, obligations, and payment of funds by awarding agencies until such time as the actual indirect costs can be determined and a final rate is established for the applicable period; provisional rates are subject to adjustment by issuance of a "final" rate based on actual indirect costs incurred for the period (usually the organization's fiscal year).
