

ENDING THE EPIDEMIC SUMMIT 2018

About the Artist

Angela Rivera is a graduate of Binghamton University where she received her Bachelor of Fine Arts (BFA) in Design. She has been with the New York State Department of Health AIDS Institute since April of 2006 where she worked in both the NYC and Albany offices. Ms. Rivera has been assistant to (3) AIDS Institute Directors and now serves as Senior Executive Assistant where she works on special projects and assignments to move the mission of the Center forward.

Angela based her design theme for this year's ETE Summit on the portfolio of work the AIDS Institute encompasses to achieve ETE. The logo contains vibrant colors representing the amazing and diverse people we serve along with various charting images to represent "Making It Happen" while the arrow represents a portion of the AIDS ribbon bringing us to "Getting It Done!"
