Defining the End of AIDS

Governor Andrew Cuomo announcing his new initiative to combat the AIDS epidemic before the NYC Gay Pride Parade.

Credit Michael Appleton for The New York Times

Goal

Reduce from 3,000 to 750 new HIV infections per year by the end of 2020.

Three Point Plan

1. Identify all persons with HIV who remain undiagnosed and link them to health care.
2. Link and retain those with HIV in health care, to treat them with anti-HIV therapy to maximize virus suppression so they remain healthy and prevent further transmission.
3. Provide Pre-Exposure Prophylaxis for persons engaged in high-risk behaviors to keep them HIV negative.

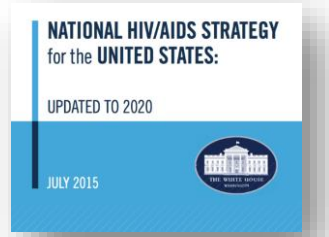
Blueprint Alignment with NHAS 2020



STRATEGY GOALS

1. Reduce New Infections
2. Increase Access to Care and Improve Health Outcomes for People Living with HIV
3. Reduce HIV-Related Health Disparities and Health Inequities
4. Achieve a More Coordinated National Response to the HIV Epidemic

POLICY AND ACTION

"Several jurisdictions have, through focused efforts, seen decreasing trends in HIV, including the States of New York and Massachusetts and the cities of San Francisco and Los Angeles. In addition, some States and local areas have put forth their own plans to "end AIDS," such as **New York State**, Washington State, and San Francisco." – NHAS 2020 Pg. 17

RECOMMENDED ACTIONS

Support and strengthen integrated and patient-centered HIV and related screening (STIs, substance use, mental health, IPV, viral hepatitis infections) and linkage to basic services (housing, education, **employment**).

About this Webinar Series

The AIDS Institute is pleased to announce a webinar series designed to engage a wide range of health and human services providers and consumers in discussing how they can take action in their communities to implement the recommendations outlined in the *2015 Blueprint For Achieving the Goals Set Forth by Governor Cuomo to End the Epidemic in NYS by the end of 2020.*

This goals of this webinar series are to:

1. Engage stakeholders in discussions about their role in implementing the *Blueprint.*
2. Bring attention to recommendations in the plan related to specific vulnerable populations.
3. Share innovative strategies for HIV prevention, testing and linkage/retention in care.

Wednesday, September 16 1:00 – 2:30 pm	**Ending the Epidemic and the Criminal Justice System** To register: http://hivtrainingny.org/Account/LogOn?crs=1444 • What are the ETE recommendations for the Criminal Justice system? • How can we improve testing, prevention and linkage to care services for people who interact with the criminal justice system?
Wednesday October 21 10:00 – 11:30 am	**Ending the Epidemic: Vocational Opportunities for People Living with HIV** To register: http://hivtrainingny.org/Account/LogOn?crs=1446 • Why is creating employment opportunities considered an important part of the plan to end the epidemic? • What programs exist to help people with HIV transition to work? • How might employment impact health, housing and other benefits?
Wednesday November 18 1:00 -2:30 pm	**Ending the Epidemic: Achieving and Sustaining Viral Suppression among Women** To register: http://hivtrainingny.org/Account/LogOn?crs=1447 • What are the unique clinical and counseling considerations for women? • What steps do clinical settings need to take to be prepared? • How can we ensure that women who can benefit from PrEP and PEP learn about these interventions?
Wednesday December 9 10:00 – 11:30 am	**Ending the Epidemic and Older Adults** To register: http://hivtrainingny.org/Account/LogOn?crs=1445 • What are the ETE recommendations related to older people? • How can we improve testing, prevention and linkage to care services for older adults?
