

The AIDS Institute presents...

## Calculating Disparities

December 6th, 2016 1-2:30 pm

Empire State Plaza Concourse  
Meeting Room 1, Albany NY

In this workshop, National Quality Center (NQC) staff will discuss ways to scientifically determine the significance of HIV health outcome disparities between populations. NQC will also demonstrate the tools, resources, and research around on disparities that make up the end+disparities Learning Exchange, a national initiative to reduce disparities in HIV health outcomes.

Transgender women are 50  
times more likely to have HIV  
than other adults.
