

2021 World AIDS Day & Ending the Epidemic Summit

Overcoming Pandemics: ETE and COVID-19

From the Ground Up: Over 40 Years of Public Health

Department
of Health

Dear Educator,

It gives us great pleasure to announce that **registration is OPEN** for the **2021 World AIDS Day and Ending the Epidemic (ETE) Summit!**

Both events will be held virtually from November 30 - December 2, 2021.

World AIDS Day is intended to provide a learning experience for middle and high school students across New York State and can benefit students regardless of their school's learning model -- in person, hybrid or remote. We are hoping to reach many students via screen this year!

The AIDS Institute has a wonderful program in the works on December 1st for World AIDS Day.

We are excited to use Whova as our event platform. Educators can download the **Whova** event app: https://whova.com/portal/wadea_202111

Once you register you will receive a confirmation email from the **Whova** virtual event platform.

December 1 will include a state-wide World AIDS Day Recognition Ceremony, HIV 101 presentation, young adult speaker panel, live Q/A session with the speaker panel, a virtual tour of panels from the AIDS Memorial Quilt, and the annual Commissioner's Special Recognition Awards.

Keep an eye on your email for further updates from **Whova**. Any questions regarding World AIDS Day can be sent to worldaidsday@health.ny.gov.

We look forward to seeing you!
