

**DIVISION OF HIV AND HEPATITIS HEALTH CARE
NEW YORK STATE DEPARTMENT OF HEALTH – AIDS INSTITUTE**

People Aging with HIV (PAWH) Pilot supports the health of people living with diagnosed HIV over 50 years of age. Services include outreach, non-medical and medical case management, health education, psychosocial support services, insurance navigation, cognitive, physical, and behavioral screening services and other tailored services identified regionally that are consistent with the pilot goals. Program models include both medical facilities and community-based organizations statewide and address barriers and needs of older adults living with HIV so that they can maintain optimal health, including but not limited to sustained viral suppression, improved management of co-morbidities, and improved emotional health and sense of social connectedness.

Eligibility: Ryan White eligible PLWH must have documented proof of being infected with HIV/AIDS; a NYS resident; meet all income and recertification requirements.

Questions related to this pilot project can be directed to: John.Hartigan@health.ny.gov (HIV and Aging, Project Director) or Ashley.Smith@health.ny.gov (PAWH Contract Manager)
