

# *Training Resources for Evidence Based Interventions*

**Prior to registering for any DEBI training**, the organization should learn as much as possible about the intervention on <http://effectiveinterventions.org/>. A fact sheet and agency readiness assessment is available for each of the DEBIs to help agencies determine if the intervention is a good match for the agency and its target population. If you need assistance determining whether a specific intervention is the right one for your agency, please contact Janet Foster, Assistant Director of Program Development, Division of HIV Prevention, AIDS Institute at 518-473-2300.

## **CDC Funded Capacity Building Assistance (CBA) Programs**

The agencies listed below are funded by the CDC to offer capacity building assistance (CBA) to improve the ability of community-based organizations (CBOs) to design, develop, implement, and evaluate HIV prevention interventions that meet the needs of their target communities. Capacity building assistance may include: technical assistance; training; diffusion of evidence based interventions; other tailored services based on need. For information about DEBI-related trainings offered by CBAs, you may visit: <http://effectiveinterventions.org/>, submit a formal request for their assistance (see instructions below) or contact them as indicated below.

**Cicatelli Associates (CAI):** Visit their website at <http://cicatelli.org/CEBI/default.htm>

**Harm Reduction Coalition:**

**Latino Commission on AIDS:** Visit their website [www.latinoaids.org](http://www.latinoaids.org), or call 212- 675-3288

**How to Request Services From a CBA – The CDC’s CBA Request Information System (CRIS)** is used to submit CBA Requests, as well as monitor, track, and follow-up on CBA Requests. A user ID and password are required to access this CDC-sponsored web application. Instructions for registering and requesting CBA can be found at [www.cdc.gov/hiv/cba](http://www.cdc.gov/hiv/cba). CBA is available to eligible agencies at no cost to you or your agency.

## **Do You Need Help Accessing Training or TA on Evidence Based Interventions?**

Assistance is available to help meet your organization’s training and technical assistance needs around selecting and implementing effective behavioral interventions. For more information, please contact Janet Foster, Assistant Director of Program Development, Division of HIV Prevention, AIDS Institute at 518-473-2300.
