

**NEW YORK STATE DEPARTMENT OF HEALTH
CHRONIC HEPATITIS B VIRUS SURVEILLANCE SUMMARY
2004-2009**

EXPLANATION OF DATA INCLUDED IN THIS REPORT:

This summary includes all confirmed chronic hepatitis B cases (excluding New York City) reported to the New York State Department of Health Chronic Hepatitis Disease Registry with a case year of 2004-2009 by Local Health Departments. The data presented in this summary should be interpreted with caution. These data do not represent incidence or prevalence of chronic hepatitis B in New York State. The data in the Chronic Hepatitis Disease Registry are dynamic: as new information becomes available for persons reported to the disease registry, the case information may change; the case status of the disease report may change based on new information or corrections to reported information. Therefore, year to year aggregate case counts and data elements may change over time. The data presented in this report are preliminary through December 31, 2010.
