

New York State HCV Provider Directory

The purpose of this directory is to provide information to patients living with HCV on where they can access experienced HCV clinical care providers within New York State.

The following list of clinical providers have joined this voluntary directory, but other qualified providers in NYS also provide HCV care. The New York State Department of Health (NYSDOH) AIDS Institute is continually seeking to identify clinicians who are willing to be listed in this web-based public directory of experienced HCV care practitioners.

Participation in this directory is voluntary. It is compiled through provider self-identification, and includes physicians, nurse practitioners, physician assistants, and doctors of osteopathic medicine with experience in HCV care and treatment and who meet the [NYSDOH definition of an experienced HCV provider](#). Please note that this list in no way constitutes credentialing or certification in a specialty. **Inclusion in this list does not confer any endorsement by the NYSDOH.** We confirm that practitioners are licensed to practice in New York State.
