

NEW YORK STATE DEPARTMENT OF HEALTH COMMUNICABLE DISEASE REPORTING REQUIREMENTS

Reporting of suspected or confirmed communicable diseases is mandated under the New York State Sanitary Code (10NYCRR 2.10). The primary responsibility for reporting rests with the physician; moreover, laboratories (PHL 2102), school nurses (10NYCRR 2.12), day care center directors, nursing homes/hospitals (10NYCRR 405.3d) and state institutions (10NYCRR 2.10a) or other locations providing health services (10NYCRR 2.12) are also required to report the diseases listed below.

- 1 Local health department must be notified prior to initiating rabies prophylaxis.
- 2 Diseases that are possible indicators of bioterrorism.
- 3 Including, but not limited to, infections caused by eastern equine encephalitis virus, western equine encephalitis virus, West Nile virus, St. Louis encephalitis virus, La Crosse virus, Powassan virus, and Jamestown Canyon virus.
- 4 Positive shigatoxin test results should be reported as presumptive evidence of disease.
- 5 Only report cases with positive cultures from blood, CSF, joint, peritoneal or pleural fluid. Do not report cases with positive cultures from skin, saliva, sputum or throat.
- 6 Proposed addition to list.
- 7 Any non-treponemal test \geq 1:16 or any positive primary or secondary stage disease or prenatal or delivery test result regardless of titer should be reported by phone; all others may be reported by mail.
- 8 persons with vaccinia infection due to contact transmission, and persons with the following complications from vaccination: eczema vaccinatum, erythema multiforme major or Stevens-Johnson syndrome, fetal vaccinia, generalized vaccinia, inadvertent inoculation, ocular vaccinia, post-vaccinial encephalitis or encephalomyelitis, progressive vaccinia, pyogenic infection of the vaccination site, and any other serious adverse events.

SPECIAL NOTES

- Diseases listed in **bold type** (☛) warrant prompt action and should be reported **immediately** to local health departments by phone followed by submission of the confidential case report form (DOH-389). In NYC use case report form 395V.
- In addition to the diseases listed above, any unusual disease (defined as a newly apparent or emerging disease or syndrome that could possibly be caused by a transmissible infectious agent or microbial toxin) is reportable.
- Outbreaks: while individual cases of some diseases (e.g., streptococcal sore throat, head lice, impetigo, scabies and pneumonia) are not reportable, a cluster or outbreak of cases of any communicable disease is a reportable event.
- Cases of HIV infection, HIV-related illness and AIDS are reportable to:

Division of Epidemiology
P.O. Box 2073, ESP Station
Albany, NY 12220-2073
(518) 474-4284

In New York City: New York City Department of Health
For HIV/AIDS reporting, call:
(212) 442-3388

For more information on disease reporting, call your local health department or the New York State Department of Health Bureau of Communicable Disease Control at (518) 473-4439. In New York City, 1 (866) NYC-DOH1. To obtain reporting forms (DOH-389), call (518) 474-0548.

PLEASE POST THIS CONSPICUOUSLY
