- May 16- May 18, 2012
- August 1- August 3, 2012

**Radon Measurement Proficiency
Fee: \$40 Continental Breakfast and Lunch Included!**

Measure!

From radon science basics to certification test preparation, our Radon Measurement Proficiency course is your best introduction to the why, how, and when of radon.

In this 2-day class, you will learn:

- About selection, placement, and set up/operation of measurement devices
- How to calculate radon levels
- How to conduct quality assurance tests to ensure accurate results
- How to make mitigation referrals for your customers if radon exceeds dangerous levels

In addition, you will leave with a fundamental understanding of radon science, including:

- Radioactive decay
- Types of radiation
- Health risks
- How radon enters and moves through buildings
- Measurement devices

Most importantly, this course will prepare you to sit for the national NEHA or NRSB exam. We administer both National Radon Measurement Certification Exams. If you are interested in taking either exam, you may do so at the conclusion of the course, but you must register for each exam separately at an additional cost of \$150.00.

Past Attendees Include:

- Realtors
- Home Inspectors
- Laboratory analysts
- Contractors
- Environmental Health Professionals
- Engineers
- Radon Measurement Professionals

Radon Mitigation

Fee: \$95 Continental Breakfast and Lunch Included!

cpe.rutgers.edu

Don't Just Measure, Mitigate!

Boost your earning potential by expanding into the field of radon mitigation! You can begin your move into the field with this three-day workshop. You must complete the two day Radon Measurement Proficiency course first.

In this 3-day class, you will learn:

- How to diagnose and then correct radon problems in the home
- How air pressure affects ventilation
- Fan sizes and the impact on both air flow and operating costs
- How radon moves through water
- The importance of safety precautions for mitigation work
- Mitigation techniques for new construction

This course will prepare you to sit for national (NEHA, NRSB) certification programs. We administer both of the National Radon Mitigation Certification Exams. If you are interested in taking either exam, you can register for it at an additional cost of \$150.00.

Past Attendees Include:

- Radon Mitigators
- Home Inspectors
- Asbestos Inspectors
- Designers / Builders
- Plumbing Contractors
- Propane Service Technicians
- Engineers
- Environmental Consultants

A list of certified radon testers/mitigators is maintained on the NYS Department of Health website. The NYS Department of Health highly recommends the use of a certified radon provider.

For a listing of these firms go to:

http://www.health.ny.gov/environmental/radiological/radon/certified_radon_testers/county_map.htm

What our Students are Saying:

The Class:

- “The instructors are very good.”
- “Very interesting and potentially lucrative.”
- “Reputable, experienced instructors.”
- “Instructors were top notch pioneers in the area of radon.”

Our Instructor- Harry Grafton

- “Was very knowledgeable, had a great attitude and a good sense of humor.”
- “Instructor’s colorful experiences added to understanding of the material.”
- “Informative ,very good information, and personable.”
- “Well-spoken, held attention, answered all questions”

NEHA-NRPP and NRSB Certification

Choose to take the National Environmental Health Association (NEHA) or the National Radon Safety Board (NRSB) exam, which will further your career and job opportunities!

NEHA-NRPP and NRSB both manage the certification of individuals offering a radon measurement and mitigation services to the public. NEHA-NRPP and NRSB promote a network of radon professionals qualified through the examination process, and through continuing education requirements, to the public looking for a high quality radon service.

The national examinations (NEHA-NRPP or NRSB) are administered in the evening at the conclusion of each course.

For more information or for a complete list of all certified individuals in the United States, please go to the NEHA website www.neha.org, or the NRSB web site www.nrsb.org.
