Re: CON Project #: _____
Facility Name: _____
Location: _____
Description of Project: _____

To The New York State Department of Health:

I certify that, as a contractor of the above-named facility, it is my duty to prepare working drawings and specifications related to MRI magnetic shielding and radio frequency shielding. I further certify that I have exercised due diligence and, to the best of my knowledge, information and belief the MRI magnetic shielding and radio frequency shielding as designed and specified are in substantial compliance with the requirements of the relevant technical standards listed in 10 NYCRR 711.2, including but not limited to sections 2.2 - 3.4 of the 2010 Guidelines for Design and Construction of Hospital and Health Care Facilities. I have reviewed the manufacturer's certifications accompanying all relevant equipment to ensure that such certifications satisfy all requirements for patient, operator, and public safety.

Further, I agree to submit an architectural rendering identifying the proposed MRI location, including the 5 Gauss line in three-dimensional planes, and demonstrating that the electromagnetic and radio frequency environment are appropriate for the location. Plans that delineate all areas of the room shall be included.

I attest that I have been authorized by the above named facility to make this certification.
