Dear Health Plans:

The purpose of this letter is to provide Health Plans with an update to the psychiatric inpatient rates. The Centers for Medicare and Medicaid Services (CMS) recently approved State Plan Amendment 18-0059, which increased the payment adjustment factor for psychiatric inpatient services provided to individuals that are 17 years of age and under from 1.0872 to 1.3597, effective July 1, 2018. This age adjustment payment factor is applied to the psychiatric operating per diem rate component.

The enclosed rate schedules include the rate components required to process Medicaid claims. Also enclosed are updated payment calculation files that display how each component from the schedules is used in the payment of a Medicaid claim, where applicable. **Based on the above change, plans are encouraged to process adjustments according to the terms of their provider contracts with hospitals. This includes any reprocessing that should occur consistent with those agreements.**

On the attached schedules, we have included all acute care hospitals and the Medicaid Managed Care Rates and informational GME rate components, for the following inpatient services:

***July 1, 2018 (New publication for Psychiatric rates only):***

- Psychiatric Exempt Unit (Per Diem)

***November 1, 2018 (Updated publication for Psychiatric rates and restoration of informational GME rate components for Acute and Exempt rates):***

- Acute Case Payment (Per Discharge)
- Specialty Hospitals - Long Term Acute, Cancer and Blythedale Children's (Per Diem)
- Psychiatric Exempt Unit (Per Diem)
- Chemical Dependency Rehab Exempt Unit (Per Diem)
- Critical Access Hospitals (Per Diem)
- Medical Rehab Exempt Unit (Per Diem)
- Chemical Dependency Detoxification Exempt Unit (Per Diem) – **separate schedule** (no changes)

**July 1, 2018:**

**Psychiatric Exempt Unit Rate Schedule** – These are the rate components to be used for psychiatric exempt units within a general hospital:

1. **Psychiatric Billing Rate (age 18 and over):** This is the operating portion of the billing rate which consists of the statewide price adjusted by an institution specific adjustment factor (ISAF) and a rural adjustment factor (if applicable). Since individuals age 18 and over are not eligible for an age adjustment factor, this column represents the billing rate without any adjustment for the age factor (or any other adjustment factors related to Mental Retardation or Comorbidities).

- 1a. **Psychiatric Billing Rate (age 17 and under):** Rate from column 1 adjusted by 1.3597 age adjustment factor only (no adjustments related to Mental Retardation or Comorbidities have been applied).
2. **Psychiatric Non-Operating Billing Rate (w/out DME):** Capital portion of the billing rate.
3. **Psychiatric DME:** Direct Medical Education per diem add-on which has been provided for informational purposes only.
4. **Psychiatric ECT Payment:** This is the Electroconvulsive Therapy add-on (per treatment) which has been adjusted by the same ISAF as the statewide price.
5. **Psychiatric ALC Per Diem Rate:** Alternative Level of Care per diem for those patients who no longer require psychiatric services and are awaiting placement or discharge.

**November 1, 2018:**

**Acute Care Per Case Rate Schedule** – These are the rate components to be paid to hospitals for acute case payment services:

1. **Default & Contract Discharge Case Payment Rate (Including PHL 2807-c(33) but Excluding GME):** Acute per case payment to be used when either an HMO plan contract is applicable or not applicable. This is the statewide price adjusted by ISAF (Column 3) and transition adjustments (if applicable).
2. **Default & Contract Statewide Base Price (Including PHL 2807-c(33)):** Statewide base price when HMO contract is applicable or not applicable for information purposes only. The statewide price is used in the development of the discharge rate in Column 1.
3. **Institutional Specific Adjustment Factor (ISAF):** Hospital specific adjustment to reflect wage differences (Wage Equalization Factor).
4. **High Cost Charge Convertor:** Charge convertor to reduce hospital charges for cost outlier payments.
5. **Indirect Medicaid Education Percentage (IME%):** This is the indirect medical education percentage and is provided for informational purposes only.
6. **Direct Medical Education (DME) Add-on:** This is the Direct Medical Education per discharge add-on and is provided for informational purposes only.
7. **Capital Per Discharge (Excluding Non-Comparable Add-ons):** Capital Per Discharge to be included after application of Service Intensity Weights (SIW's).
8. **Ambulance Add-ons:** This represents ambulance per discharge to be added on after application of SIW.
9. **TEA Physician Add-on:** This is the add-on for physician costs for those hospitals that are Teaching Election Amendment hospitals for the Medicare program to be added on after application of SIW.
10. **School of Nursing Add-on:** This represents an add-on per discharge for those hospitals with Schools of Nursing and is added after application of SIW.
11. **Minimum Wage Add-on:** This represents an add-on per discharge for those hospitals affected by the minimum wage increases effective January 1, 2018.
12. **Quality Pool Add-on:** This represents an add-on per discharge for hospitals that qualify for the Quality Pool for SFY 2018-19.
13. **Sole Community Provider Pool Add-on:** This represents an add-on per discharge for hospitals that qualify for the Sole Community Provider Pool for SFY 2018-19.
