Clinical Staffing Committee and Clinical Staffing Plan
2022

Please see the Committee Charter document that includes the committee responsibilities, member eligibility, scope of representation from the various types of clinical units, frontline team member names and titles, and leader membership.

Individuals on this Committee were nominated and selected by their peer staff to represent the various units through an already-established Shared Governance Committee of Unity Hospital. The Clinical Staffing Committee Meetings are monthly with active participation on pertinent clinical staffing discussions. Minutes are sent out to each committee representative and are made available to be shared with any interested clinical staff.

The Unity Hospital Nursing Staffing Plan has been developed by utilizing staffing grids as a guide for the various units that reflect the expected/ideal clinical staff to patient ratios. The grids reflect direct patient care givers: nursing staff (RN/LPNs), Patient Care Technicians (PCTs) and Patient Service Representatives (PSRs). The newly established Clinical Staffing Committee members reviewed, revised and approved the staffing grids for their perspective units. Please see Attachment 2 for the staffing grids by units.

In addition, The Unity Hospital collaborates with The Unity Hospital of Rochester using the Nursing Centralized Staffing Office that enhances ongoing, up to date, current staffing requirements. The full time Staffing Coordinator has easy access to each 4 week nursing schedule by unit and has access to current patient census for all units. The centralized Staffing Coordinator receives all sick calls in order to enhance appropriate triaging of any per diem or part time staff to the unit of need. Floating staff from one unit, to a similar unit occurs when necessary to meet patient needs.

On the off shifts and weekends, an RN Nursing Supervisor continues the staffing coordination so that 24/7 the staffing needs at Unity Hospital can be addressed by this centralized process. The unit charge RNs are expected to communicate closely with the Nursing Supervisor by addressing changes/increases in patient acuity level that may necessitate additional staffing needs. Hospital census, that include new admissions, patient transfers and expected discharges, are numbers accessed each shift in order to anticipate any changes to staffing needs for the upcoming shifts.

In situations in which the expected nurse to patient ratio for safe staffing cannot be met by the number of staff previously scheduled, provisions and many options are then utilized that include:

- Asking staff to work an additional 4 hours or 8 hours to an existing shift
- Switch scheduled shift/day off to another shift/day to meet the present need
- Adjust the charge nurse to take a full patient assignment in addition to the charge nurse responsibilities
- Assess the skill mix and experience of team members in house and resource share as appropriate to meet the needs of acuity in individual departments
- Offer additional pay incentives to staff nurses in times of high RN vacancy rates
- Utilize Nurse Educator to take a patient assignment
- Utilize RN management to take a patient assignment
- Offer office or specialty area nurses to assist on medical-surgical units as a “helping hands” nurse that is paired with a scheduled unit staff nurse
- Agency RN utilization with contracts for areas with a vacancy

Complaint Reporting:
Concerns related to the Staffing Plan should be entered into the Safe Connect Event reporting system. Concerns will be tracked and brought to the standing Clinical Staffing Committee for review and then responded to accordingly.

Rochester Regional Health’s electronic event reporting system: https://intranet.rochesterregional.org/safeconnect/Pages/Home.aspx

Concerns can also be brought forth to the immediate nurse leader in the department.
Grids are developed as a guide for shift to shift unit based staffing. Decisions to adjust up or down will be made based on patient factors and skill mix of hospital staff.
