<b>County</b>	Kings
<b>Council</b>	New York City
<b>Network</b>	INDEPENDENT
<b>Reporting Organization</b>	Maimonides Midwood Community Hospital
<b>Reporting Organization Id</b>	1293
<b>Reporting Organization Type</b>	Hospital (pfi)
<b>Data Entity</b>	Maimonides Midwood Community Hospital

RN DAY SHIFT STAFFING

Provide a description of Clinical Unit, including a description of typical patient services provided on the unit and the unit's location in the hospital.	Planned average number of Registered Nurses (RN) on the unit providing direct patient care per day on the Day Shift? (Please provide a number with up to 4 digits. Ex: 10.50)	Planned total hours of RN nursing care per patient including adjustment for case mix and acuity on the Day Shift (Please provide a number with up to 4 digits. Ex: 10.50)	Planned average number of patients on the unit per day on the Day Shift? (Please provide a number with up to 4 digits. Ex: 10.50)	What is the planned average number of patients for which one RN on the unit will provide direct patient care per day on the Day Shift (Please provide a number with up to 4 digits. Ex: 10.50) ?
911 Receiving ED - 29 Bays in the main ED and 6 Chairs in the Fast Track.	6	1.8	70	7
PCU - Progressive Care Unit - 12 Bed Capacity	4	4.2	10.08	3
ICU - 7 Bed total capacity	3	6.25	5.8	2
4th Floor- Medical and Surgical Unit - 24 beds with 15 beds tele capacity.	3	1.8	19.82	7
3rd Floor Medical and Surgical Unit - 41 beds total capacity with 15 beds tele capacity.	4	1.8	28.41	7
2nd Floor -Medical and Surgical Unit - 41 total beds capacity with 15 beds tele capacity.	4	1.8	26.55	7

LPN DAY SHIFT STAFFING

Provide a description of Clinical Unit, including a description of typical patient services provided on the unit and the unit's location in the hospital.	Planned average number of Licensed Practical Nurses (LPN) on the unit providing direct patient care per day on the Day Shift? (Please provide a number with up to 4 digits. Ex: 10.50)	Planned total hours of LPN care per patient including adjustment for case mix and acuity on the Day Shift (Please provide a number with up to 4 digits. Ex: 10.50)

DAY SHIFT CONSENSUS INFORMATION

<p><b>Provide a description of Clinical Unit, including a description of typical patient services provided on the unit and the unit's location in the hospital.</b></p>	<p><b>Our Clinical Staffing Committee reached consensus on the clinical staffing plan for this unit:</b></p>	<p><b>If no, Chief Executive Officer Statement in support of clinical staffing plan for this unit:</b></p>	<p><b>Statement by members of clinical staffing committee selected by the general hospital administration (management members):</b></p>	<p><b>Statement by members of clinical staffing committee that were registered nurses, licensed practical nurses, and ancillary members of the frontline team (employee members):</b></p>
---	--	--	---	---

911 Receiving ED - 29 Bays in the main ED and 6 Chairs in the Fast Track.	No	Yes	<p>providing safe and effective care to the patients of its community. The propose staffing ratios for nurses, PCA and NSA staff takes in account all the additional ancillary support staff that is providing safe and optimum care at MMCH. A long side of nurses and PCA's, MMCH provides phlebotomist techs, EKG techs and IV team that reduces the burden of the front-line Nurses and PCA to manage the above tasks. The ratios proposed takes into account the lower CMI the institution has been experiencing, which reflects the overall acuity of the facilities patients. The frontline managers are constantly evaluating and assessing the clinical operation ensure patients are getting safe and optimum care. Staffing may</p>	<p>for patient care and safety. Management's recommendation for minimal staffing is not consistent with the legislation NYSHCSC Law 2805-t. Sufficient staffing ensures patients receive the attention, expertise, and support they need. It allows for swift responses to emergencies, reduces the risk of errors, and improves outcomes. Insufficient staffing jeopardizes lives and compromises care quality. Management's suggestion prioritizes cost-cutting over patients. To achieve our goal, we must recognize that adequate staffing is non-negotiable. It is essential for optimal care and patient well-being. Patient safety depends on it, and management must acknowledge the significance of proper</p>

NIGHT SHIFT CONSENSUS INFORMATION

Provide a description of Clinical Unit, including a description of typical patient services provided on the unit and the unit's location in the hospital.	Our Clinical Staffing Committee reached consensus on the clinical staffing plan for this unit:	If no, Chief Executive Officer Statement in support of clinical staffing plan for this unit:	Statement by members of clinical staffing committee selected by the general hospital administration (management members):	Statement by members of clinical staffing committee that were registered nurses, licensed practical nurses, and ancillary members of the frontline team (employee members):
911 Receiving ED - 29 Bays in the main ED and 6 Chairs in the Fast Track	No	Yes	providing safe and effective care to the patients of its community. The propose staffing ratios for nurses, PCA and NSA staff takes in account all the additional ancillary support staff that is providing safe and optimum care at MMCH. A long side of nurses and PCA's, MMCH provides phlebotomist techs, EKG techs and IV team that reduces the burden of the front-line Nurses and PCA to manage the above tasks. The ratios proposed takes into account the lower CMI the institution has been experiencing, which reflects the overall acuity of the facilities patients. The frontline managers are constantly evaluating and assessing the clinical operation ensure patients are getting safe and optimum care. Staffing may	for patient care and safety. Management's recommendation for minimal staffing is not consistent with the legislation NYSHCSC Law 2805-t. Sufficient staffing ensures patients receive the attention, expertise, and support they need. It allows for swift responses to emergencies, reduces the risk of errors, and improves outcomes. Insufficient staffing jeopardizes lives and compromises care quality. Management's suggestion prioritizes cost-cutting over patients. To achieve our goal, we must recognize that adequate staffing is non-negotiable. It is essential for optimal care and patient well-being. Patient safety depends on it, and management must acknowledge the significance of proper
