Would you like to live in the community instead of a nursing home?

We Can Help.

New York’s Medicaid-eligible seniors and people with physical disabilities can receive the services they need while living in a community-based setting, such as their home.

The New York State Nursing Home Transition and Diversion Program provides this support.

Program participants choose:

WHERE they live

WHAT services they receive

WHO their service providers are

This program is available to Medicaid-eligible New Yorkers who are:

• in need of nursing home level of care,
• 18 years of age or older, and
• able to live safely in the community with services and supports.
