Introduction

The Home Care cost report is required to be completed by agencies who operate one or more of the following entities:

- Certified Home Health Agency (CHHA)
- Licensed Home Care Services Agency (LHCSA)
- Fiscal Intermediary (FI)

An agency is defined as an organization that operates one or more CHHA, LHCSA, or FI. Agencies that operate one or more of these facilities must complete certain parts of this cost report for each of these entities.

An entity is defined as a CHHA, LHCSA, or FI. An entity may be operated as part of a larger agency or may be free-standing.

Some of the schedules in the Home Care cost report will require information at the agency level, while other schedules require information at the entity level. The instructions explicitly state which schedules of the Home Care cost report require agency level information and which schedules require entity level detail (CHHA, LHCSA, or FI) to be reported. A note is included at the beginning of each section to indicate if agency or entity level information is required.

A The letter “A” indicates a schedule requires agency level information to be reported.

E The letter “E” indicates a schedule requires entity level information to be reported.

Reporting Guidance

Since Medicaid reimbursement rates for LHCSAs and FIs are calculated by county, entity level information will need to be broken out separately on schedules where this detail is required. For the purposes of this cost report, LHCSA and FI entities are required to be separated by county. For example, if a LHCSA provides services in two counties, then that agency is said to have two entities for the purposes of Home Care cost report submissions. This should not result in changes to the existing reporting practices, as the Personal Care Cost Report was previously completed by county for LHCSAs and FIs. Note that if an FI currently has a pending application status, has had an application approved, or has previously operated as part of a LHCSA, the FI entity should still be broken out separately for reporting purposes on the Home Care cost report. In addition, some agencies may have office locations that service multiple counties. An
entity should not be identified based on the physical office locations, but rather the county served. A unique LHCSA or FI entity is associated with one county.

For CHHAs, the Operating Certificate will be used as the unique entity identifier and will be the driver for how the information should be reported on certain schedules. For example, if an agency holds three CHHA operating certificates, the agency is said to have three CHHA entities for the purposes of the cost report. CHHA entities are not classified based on county of operation, but rather solely based on their operating certificate.

Please note that all cost report schedules will be completed in the Home Care Tool. The Home Care Tool is a web-based platform that will create a customized view of only the schedules of the cost report required to be completed for your agency and the entities operated by the agency. Based on the information you enter in the “Reporting Hierarchy” tab of the Home Care Tool, only the required schedules will be visible to complete in the “Cost Report Schedules” tab. Note that further details related to the Home Care Tool can be found in the “Completion of Web-based Tool” portion of the Instructions tab.

The cost report schedule instructions specify that a standard set of rules be followed in order to provide consistent data for comparison purposes. The Department of Health (DOH) reserves the right to reject the information submitted if the instructions are not properly followed.

In addition to completing the Home Care cost report, agencies/entities will be required to provide questionnaire responses and participate in audit procedures performed by KPMG, LLP (KPMG).

### Important Items to Note

1. **Allocation Methodology**
   - There are some schedules of the cost report that require an allocation methodology to allocate agency costs or other information to the appropriate entities. The Department of Health has prescribed the Total Operating Expenses allocation methodology to allocate information within the Home Care Cost Report. If a provider is unable to use this approach, they can explicitly document the allocation methodology they used (e.g., Hours of Service, Square Feet Occupied, Time Study). Note that this information will be reviewed by KPMG during the audit process.

2. **Costs**
   - Please note that you are required to report actual costs when completing the Home Care cost report. In addition, the Home Care cost report must include all agency costs (regardless of payor source; i.e., Medicaid, Medicare, third party insurance, private pay).
Revenue figures **should not** be reported in the Home Care cost report besides what is requested in Schedule 19 (Statement of Revenue and Expenses).

3. **Contracting relationships**
   As part of the delivery of services, many agencies have contracting relationships with other agencies to perform direct care services. For example, there are instances where a CHHA will contract out the delivery of HHA services to a LHCSA. If both the CHHA and LHCSA reported the costs of these services as allowable on the Home Care cost report, this would result in double counting. As such, only the agency contracting out the services should report them as allowable on the Home Care cost report. The agency acting as a subcontractor **should not** report these services as allowable. Instead, for all LHCSA schedules that require the reporting of information by service type, there is a line item for “Other non-allowable services.” Any costs related to a LHCSA performing HHA services as part of a contract with a CHHA should be reported in this line. Note that further instructions regarding contracting relationships are covered within the instructions for Schedule 3a, 3b, and 3c of this document.

4. **CPA Certifications**
   The Home Care cost report **does not** need to be certified by a CPA prior to submission. DOH has engaged KPMG, LLP to conduct audits of the Home Care cost report submissions. Although CPA certification is no longer required, agencies may still use a vendor to assist with Home Care cost report preparation and submission. If an agency uses a vendor to support the cost report and/or audit process, the agency is still responsible for accurate and timely submissions and responses to any inquiries. Please also note that an executive level individual will need to sign-off on the completeness and accuracy of the cost report data prior to submission (e.g., CEO or CFO).

5. **Accounting Methodology**
   The Home Care cost report should be completed using the accounting methodology used for your agency’s financial statements (e.g., accrual or cash basis).

   In addition, the Financial Statement Schedules of the Home Care cost report (Schedule 17, Schedule 18, and Schedule 19) should be completed using the reporting period of your agency. For example, if your agency’s fiscal year is July 1st through June 30th, then Schedules 17, 18, and 19 can be completed in line with this reporting period. **It is important to note that no matter the fiscal reporting period of your agency, all other schedules of the Home Care cost report (Schedule 1 through Schedule 16) should be reported on a calendar year basis.**
6. **Providers not required to complete the Home Care Cost Report**

The following providers are not required to complete the Home Care Cost Report:

- Assisted Living Program (ALP) only agencies
- Private pay only agencies
- Hospital-based CHHAs or LHCSAs
- Private duty nursing only agencies
- Agencies receiving no Medicaid reimbursement (through FFS or MLTC)
- LHCSAs who contract with CHHAs and provide no other Home Care services
- CHHAs who provide ONLY Hospice services
- Programs of All–Inclusive Care for the Elderly (PACE) program only facilities
- Nursing Home Transition and Diversion (NHTD) and Traumatic Brain Injury (TBI) program only facilities

7. **Procedural Recommendations**

- Agencies should develop internal cost report policies and procedures to help ensure that costs and statistics are reported properly.
- In an effort to demonstrate segregation of duties during the cost report submission process, agencies should have multiple individuals involved in the cost report preparation, review, and submission of the cost report.

**Note:** Failure to submit all required schedules or failure to resubmit corrected schedules when requested may result in the imposition of sanctions or penalties.

The CHHA Worker Recruitment and Retention add-on is calculated in accordance with Public Health Law 3614, Section 8. The CHHA Worker Recruitment, Training and Retention add-on is calculated in accordance with Public Health Law 3614, Section 9. The LHCSA Worker Recruitment and Retention add-on is calculated in accordance with Chapter 1 of the Laws of 2002, which added Section 367-q of the Social Services Law.

2. **Column 002: Non-Allowable Costs (Adjustment to Expenses)** – Include in this column the reconciliation of interest offsets and recoveries of expense and non-allowable costs. Allowable costs shall be determined by the application of the principles of reimbursement developed for determining payments under Title XVIII of the Federal Social Security Act (Medicare) program.

### Schedule 5a.1, Schedule 5a.2, Schedule 5b, and Schedule 5c – Service Statistics

**Note:** Schedule 5a.1, 5a.2, 5b, and 5c require entity level information.

Schedule 5a.1, Schedule 5a.2, Schedule 5b, and Schedule 5c include the service statistics broken down by service type and payor source at the entity level. Note that an agency is required to complete more than one of the following Schedules if they operate more than one of these entity types:

- **Schedule 5a.1** (for CHHA Pediatric service statistics) – A separate Schedule 5a.1 table should be completed for each unique CHHA entity reporting CHHA Pediatric service statistics.
- **Schedule 5a.2** (for CHHA Episodic service statistics) – A separate Schedule 5a.2 table should be completed for each unique CHHA entity reporting CHHA Episodic service statistics.
- **Schedule 5b** (for LHCSA service statistics) – A separate Schedule 5b table should be completed for each unique LHCSA entity.
- **Schedule 5c** (for FI service statistics) – A separate Schedule 5c table should be completed for each unique FI entity.

Schedule 5a.1, Schedule 5a.2, Schedule 5b, and Schedule 5c are used to aggregate units of service by program type for all individual entities operated by the agency as related to CHHAs, LHCSAs, and FIs by cost reporting period. This section should not include units of service related to non-certifiable programs.

Please follow the below instructions while completing Schedule 5a.1, Schedule 5a.2, Schedule 5b, and Schedule 5c:

Note that in order to best complete these schedules, you should reference your facilities’ statistical payor data report that includes patients, visits, and hours and is separated by payor and service type.
Please review the below information related to Medicaid Fee-for-Service and Medicaid Managed Care before completing Schedule 5a.1, Schedule 5a.2, Schedule 5b, and/or Schedule 5c.

- For Medicaid Fee-for-Service, New York State provides direct reimbursement for the services provided (e.g., you receive a check or direct deposit from New York State).
- For Medicaid Managed Care, reimbursement is provided through contracts that providers have with MLTCs/MCOs (e.g., Empire, BlueCross, AgeWell, Aetna Better Health, etc.).

1. **Columns 001, 004, 013, 016, and 019: Patients** – Data entered into these columns should represent the number of patients associated with the given column header (Medicaid Fee-for-Service [FFS], Medicaid Managed Care [MC], Medicare, Private Pay, or Other). Note the following:
   a. You should use the primary payor to determine where to report a patient (e.g., Medicaid vs. Medicare for a dual-eligible patient).
   b. Note that the “Other” column should include commercial, government (such as Veterans Affairs (VA) and New York State Office for the Aging), workers compensation, and no-fault insurance items. If any other items are included, agencies may be required to provide an explanation.

2. **Columns 002, 005, 014, 017, and 020: Visits/Days** – Data entered in these columns should represent the total number of billable/paid visits or days of service associated with their given column header (Medicaid Fee-for-Service [FFS], Medicaid Managed Care [MC], Medicare, Private Pay, or Other). Note the following:
   a. You should use the primary payor to determine where to report the applicable visits/days (e.g., Medicaid vs. Medicare for a dual-eligible patient).
   b. Note that the “Other” column should include commercial, government (such as Veterans Affairs (VA) and New York State Office for the Aging), workers compensation, and no-fault insurance items. If any other items are included, agencies may be required to provide an explanation.

3. **Columns 003, 006, 012, 018, 021: Hours** – Data entered in this column should represent the total hours for each service provided during the report period associated with their given column header (Medicaid Fee-for-Service [FFS], Medicaid Managed Care [MC], Medicare, Private Pay, or Other). Note the following:
   a. You should use the primary payor to determine where to report the applicable hours (e.g., Medicaid vs. Medicare for a dual-eligible patient).
   b. Note that the “Other” column should include commercial, government (such as Veterans Affairs (VA) and New York State Office for the Aging), workers
compensation, and no-fault insurance items. If any other items are included, agencies may be required to provide an explanation.

4. **Dual-Eligible (Columns 010, 011, and 012)** – Dual-eligible patients need to be captured in a specific way in Schedule 5a.1, Schedule 5a.2, Schedule 5b, and Schedule 5c. When reporting the patients (Column 010), visits/days (Column 011), and hours (Column 012) statistics for dual-eligible individuals, they should be reported in the Dual-eligible columns as well as the columns that are associated with the primary payor (e.g., Medicaid or Medicare). Since the Total Unique columns (022, 023, and 024) do not factor the dual-eligible columns into the calculation, this schedule can track dual-eligible statistics while also calculating the total unique patients, visits/days, and hours.
   a. Note that reporting a patient in the dual-eligible column would mean that the patient had Medicaid and Medicare dual coverage. A patient and the associated unit of service reported in the dual-eligible column should also be reported in either the Medicaid or Medicare columns. Reporting in this manner allows the dual-eligible information to be captured and also allows the automated calculated totals columns (022, 023, and 024) to calculate the total unique values since these automated calculations do not include the information from the dual-eligible columns.

5. **Column 007: Total Medicaid Patients** – Column 007 does not require any information to be entered. This column is an automated calculation and reflects the sum of Column 001 (Medicaid Fee-for-Service Patients) and Column 004 (Medicaid Managed Care Patients).

6. **Column 008: Total Medicaid Visits/Days** – Column 008 does not require any information to be entered. This column is an automated calculation and reflects the sum of Column 002 (Medicaid Fee-for-Service Visits/Days) and Column 005 (Medicaid Managed Care Visits/Days).

7. **Column 009: Total Medicaid Hours** – Column 009 does not require any information to be entered. This column is an automated calculation and reflects the sum of Column 003 (Medicaid Fee-for-Service Hours) and Column 006 (Medicaid Managed Care Hours).

8. **Columns 022: Total Unique Patients** – Column 022 does not require any information to be entered. This column is an automated calculation and reflects the sum of Column 001 (Medicaid Fee-for-Service Patients), Column 004 (Medicaid Managed Care Patients), Column 013 (Medicare Patients), Column 016 (Private Pay Patients), and Column 019 (Other Patients). Note that this column does not include the number of dual-eligible patients in the calculation. As such, Column 022 represents the total number of unique patients.
9. **Column 023: Total Unique Visits/Days** – Column 023 does not require any information to be entered. This column is an automated calculation and reflects the sum of Column 002 (Medicaid Fee-for-Service Visits/Days), Column 005 (Medicaid Managed Care Visits/Days), Column 014 (Medicare Visits/Days), Column 017 (Private Pay Visits/Days), and Column 020 (Other Visits/Days). Note that this column does not include the number of dual-eligible visits/days in the calculation. As such, Column 023 represents the total number of unique visits/days.

10. **Column 024: Total Unique Hours** – Column 024 does not require any information to be entered. This column is an automated calculation and reflects the sum of Column 003 (Medicaid Fee-for-Service Hours), Column 006 (Medicaid Managed Care Hours), Column 015 (Medicare Hours), Column 018 (Private Pay Hours), and Column 021 (Other Hours). Note that this column does not include the number of dual-eligible hours in the calculation. As such, Column 024 represents the total number of unique hours.

11. **Report Fields** – There are some fields in Schedule 5a.1, Schedule 5a.2, Schedule 5b, and Schedule 5c that aren’t applicable to certain parties that will be filling out the cost report. For example, for specific services, the unit of service is only measured by visits, not hours. All columns that should not have data entered in them are highlighted in gray.

When submitting supporting documentation for Schedule 5a.1, Schedule 5a.2, Schedule 5b, and/or Schedule 5c, agencies should note that this statistical data should be substantiated by third-party/system generated reports to demonstrate the completeness and accuracy of the data included in the cost report. Additionally, agencies should clearly label the payor types (e.g., Medicaid Fee-for-Service vs. Medicaid Managed Care) within the supporting documentation files submitted.

**Schedule 6 – FI Tier Statistics**

Note: Schedule 6 requires entity level information.

Schedule 6 includes the Fiscal Intermediary Medicaid tier statistics broken down by service type. As it pertains to Schedule 6, a member month is defined as a count of months that a patient has utilized services.
Please follow the below instructions while completing Schedule 6:

Note that in order to best complete this schedule, you should reference your facilities’ statistical payor data report that includes member month hour ranges separated by Medicaid Fee-for-Service vs. Medicaid Managed Care payors and service type.

5. **Column 005: Tier 2 MC Member Months for 160 - 479 hours** – Data entered into this column should represent the Tier 2 Managed Care member months for 160 - 479 hours.

6. **Column 006: Tier 3 MC Member Months for 480+ hours** – Data entered into this column should represent the Tier 3 Managed Care member months for 480+ hours.

7. **Column 007: Tier 1 FFS + MC Member Months for 1 – 159 hours** – Column 007 does not require any information to be entered. This column is an automated calculation and reflects the sum of Column 001 (Tier 1 FFS member months for 1 - 159 hours) and Column 004 (Tier 1 MC member months for 1 - 159 hours).

8. **Column 008: Tier 2 FFS + MC Member Months for 160 – 479 hours** – Column 008 does not require any information to be entered. 1. **Column 001: Current Charge to the General Public** – For each service that your entity provides, enter the public charges which have been approved by the governing authority.
