

Implementing Health Across All Policies in New York State

Presentation to Ad Hoc Committee to Lead Prevention Agenda

May 17, 2017

The Governor's Vision

- Advance a Health Across All Policies approach to incorporate health considerations into policies, programs and initiatives led by non-health agencies.
- Consider how all of our policies, programs and initiatives support us achieving the Governor's goal of becoming an age friendly state.
- Long term goal is to embed Health in all Policies and considerations for Healthy Aging into all aspects of our government work.

Health in All Policies (HiAP)

Good health requires policies that actively support health 

It requires different sectors working together, for example:

TO ENSURE ALL PEOPLE HAVE EQUAL OPPORTUNITIES TO ACHIEVE THE HIGHEST LEVEL OF HEALTH

An approach to public policies across sectors that systematically takes into account the health and health system implications of decisions, seeks synergies, and avoids harmful health impacts in order to improve population health and health equity. The HiAP approach is founded on health related rights and obligations. It emphasizes the consequences of public policies on health determinants and aims to improve the accountability of policy makers for health impacts at all levels of policy making.

A Health in all Policies approach recognizes that:

- The health and wellbeing of all citizens is essential for overall social and economic development;
- Health is an outcome of a wide range of factors (e.g. changes to the natural, built, social or work environments) many of which are outside the purview of the health sector, necessitating a shared responsibility and integrated response;
- All government policies can have an impact (positive or negative) on the determinants of health for both current and future generations;
- The impacts of health determinants are not equally distributed among population groups and disparities in health must be addressed;
- Efforts to improve the health of the population require sustainable mechanisms that support collaborative government agency work to develop integrated solutions;
- Many of the most pressing health issues require long term budgetary commitments and creative funding approaches;
- Indications of success will emerge over the long term and intermediate outcome measures will need to be established

Older New Yorker Trends/Demographics & Contributions

8 Domains of Age Friendly/Livable Communities

Greg Olsen, Acting Director

Aging in NYS

- New York's total population is over 19 million individuals, and the State **ranks fourth** in the nation in the number of adults age 60 and over – 3.7 million.
- **Demographic** characteristics changing over time have important implications for the state plan on aging.

New York State Trends Demographics

| | 2000 | 2008 | 2010 | 2015 | 2020 | 2025 | 2030 |

Department of State

Corresponding Smart Growth Principles

(Defined in Statute)

- Walkable, Bikable, Transit-Friendly Communities (“Complete Streets”)
- Transit-Oriented Development
- Public Gathering Spaces
- Social and Recreational
- Accessibility and Proximity from Compact, Mixed-Use Development—
Access to Daily Amenities
- Variety of Housing Types, Sizes and Prices
- Active Living by Design

Policy/Programmatic Opportunities

- Downtown Revitalization Initiative
- Smart Growth EPF Planning Grants/Livable NY
- LWRP/BOA Planning/Implementation Grants
- Health Impact Assessments
- Model Aging-in-Place Local Law
- Inter-Agency TOD Working Group
- REDCs
- Regional Sustainability Plans/Clean Energy Communities

Moving Forward

- 12 State Agencies met in the Capitol in March to discuss HAAP initiative and Healthy Aging
- Agencies are currently identifying existing and proposed state level initiatives that support HAAP and Healthy Aging
- After review is complete we will identify ways we can strengthen state level initiatives and investments (programmatic and capital) to assure that they improve health and how they might be changed in low cost, no cost ways if the needs of older persons were considered
- Regular (quarterly) review with Governor's office to monitor progress
- Want to increase local level participation where appropriate in Prevention Agenda to realize the added impact of agency actions through Health and Healthy Aging Across all Policies
