

NEW YORK STATE DEPARTMENT OF HEALTH

The Special Supplemental Nutrition Program for Women, Infants and Children (WIC)

Questions and Answers for IFB No. 1205080237

WIC MICR Toner Cartridges

1. Our company is interested in participating in NYS Dept. of Health's bid for MICR Toner Cartridges and had some questions. Who currently holds this contract and what is their contracted unit price? What is the actual number of toners purchased by the State during the current contract?

ANSWER: The State currently purchases MICR toner under a contract with Vitec Solutions. The contracted unit price is \$105.16. The State has only been purchasing MICR toner cartridges under the current contract for the last nine months; the total number purchased during this timeframe is 2,599. As noted in IFB Section C-1, the Department of Health estimates that it will need approximately 20,000 MICR toner cartridges over the five year contract period.
