	<u><b>Bidder's Question</b></u>	<u><b>Answer</b></u>
1.	On page 6 of the bid under the 'Barcode' header, it mentions where the barcode is to be printed (part #4). However, in the images of the layout (Attachment N), there is not a barcode present on any part. Can you confirm that there IS to be a barcode on the card? If so, which part is it to be printed on?	It is confirmed that that there is a barcode on the card. The barcode must be printed on Attachment N (page 8 of 11) where the blank box next to the notes box is, above *500000000*
