## **I. Introduction**

### **A. Intent of Request for Applications and Description of Program**

The intent of this Request for Applications (RFA) is to support a national initiative of the federal Center for Medicare and Medicaid Services (CMS) that aims to: (1) improve the quality of nursing home care for residents with dementia, and (2) reduce off-label use of antipsychotic medications for this population. The Department of Health will support the initiative by providing nursing homes with small grants to implement one or more Electronic Dementia Guide to Excellence (EDGE) and/or Dementia Grants Program interventions.

The New York State Department of Health (Department), certifies, surveys, and conducts complaint investigations for over 600 nursing homes. These facilities provide short and long-term care to residents who are unable to live independently due to physical or other limitations associated with age or medical need. Residents of nursing homes are provided with medical supervision and personal care services necessary to maintain their highest physical, mental and psychosocial well-being. Under contract with the federal Centers for Medicare and Medicaid Services (CMS), to ensure compliance with federal and State minimum standards, Department inspectors survey all nursing homes on average every 12 months and conduct investigations of complaints from nursing home residents regarding the care and services received.

The Department also engages the nursing home industry in quality improvement projects that focus on improving health and quality of life for nursing home residents with dementia. Some experts have estimated that up to 75% of nursing home residents have cognitive impairment and up to 66% are living with dementia.

The Department's Dementia Grants Program has long recognized that many interventions that are good for residents with dementia, benefit most if not all residents regardless of whether they have a dementia. Over the course of the past decade, the Department has encouraged nursing homes to develop and distribute to every nursing home in the State high quality training packages on the Dementia Grants Program interventions they have implemented and tested for effectiveness.

Additionally, the Department has created pages on its public website (the Electronic Dementia Guide to Excellence - <http://www.health.ny.gov/diseases/conditions/dementia/edge/>) that provide nursing home nurse educators with all of the material they need to train staff on and implement many of the Dementia Grants Program interventions.

### **B. Background**

In 2004, the Department established the Nursing Home Quality Improvement (NHQI) Program. Funding to support program activities is derived from the State's share of federally-imposed civil monetary penalties (CMP) and from State-imposed enforcement fines collected from nursing homes that are non-compliant with federal and State health and safety standards. This RFA is part of the NHQI Program.

On May 30, 2012, the federal Centers for Medicare and Medicaid Services (CMS) announced

the Partnership to Improve Dementia Care. CMS' press release stated that the Partnership is "an initiative to ensure appropriate care and use of antipsychotic medications for nursing home patients. This partnership among federal and state partners, nursing homes and other providers, advocacy groups and caregivers has set a national goal of reducing use of antipsychotic drugs in nursing home residents by 15 percent by the end of 2012." The concern addressed by this initiative is the substitution of chemical restraints for physical restraints for residents with difficult to manage behaviors. These residents do not have any mental illnesses or mental health diagnoses, yet they are given antipsychotic drugs to control their difficult behaviors. This is despite the fact that these drugs nearly double the risk of death for those with dementia.<sup>1</sup>

These drugs are not approved for the treatment of dementia. In addition to death, antipsychotic drug side effects may include stroke, heart attack, increased risk of pneumonia, excessive sedation, lethargy, dizziness, falls, agitation, confusion, restlessness, delirium, hallucinations, tremors, involuntary body movements, muscle weakness, seizures, parkinsonism, cognitive decline, neuroleptic malignant syndrome, headache, dry mouth, constipation, weight gain, weight loss, urinary retention, and blurred vision.<sup>2, 3, 4, 5, 6</sup> The Food and Drug Association's (FDA) "black box" information includes warnings about treating elderly patients with dementia. More information can be found here:

<http://www.fda.gov/Drugs/DrugSafety/PostmarketDrugSafetyInformationforPatientsandProviders/ucm094303.htm>.

As nursing homes decrease their reliance on this off-label antipsychotic drug use, their staff will have to find alternative approaches to managing residents with difficult behaviors. Over the past 20 years, through its Dementia Grants Program, the Department has provided grant funding to many nursing homes to develop effective approaches to managing residents' difficult behaviors without resorting to either chemical or physical restraints. In the past ten years, the Department has provided nursing homes with additional funds to develop high quality training materials on their interventions and distribute them to every nursing home in the State. The most recent projects were completed in late 2011, and the training materials were mailed to

Intervention training materials distributed to nursing homes to date include but are not limited to:

- Pain assessment and management in residents with dementia using web-based education and infomatics;
- Assessment, detection and treatment of pain in nursing home residents with advanced dementia;
- Daily oral care for the nursing home resident with dementia;
- Vision care;
- Recognizing, preventing and care planning for resident-to-resident aggression and abuse;
- Bathing without a battle;
- Music therapy;
- Enhancing cultural competency;
- Sexual expression in nursing home residents with dementia;
- Person-centered therapeutic recreation;
- Rhythmic activities for every day care; and
- Caring communication at the end of life.

**NOTE: The Department is unable to replace Dementia Grants Program training materials that have been misplaced or lost. It is unable to supply additional copies of these materials to nursing homes.**

Several interventions and their associated training materials have been posted on the Electronic Dementia Guide to Excellence (EDGE) on the Department's public website at <http://www.health.ny.gov/diseases/conditions/dementia/edge/>. These include:

- Tea group;
- Big band;
- 1:1 person centered visits;
- Individualized music;
- Worship services;
- Gentle bathing;
- Breakfast club;
- Social interactions;
- Simple pleasures;
- Therapeutic drumming; and
- Falls prevention.

The intent of this Request for Applications (RFA) is to support CMS' initiative and nursing homes that aim to reduce off-label use of antipsychotic medications by providing the facilities with funds to implement one or more EDGE and/or Dementia Grants Program interventions. Applicants must select and implement one or more of the above interventions although they may modify the interventions to be a better fit with the strengths and needs of their own residents and staff.

There are dozens of different interventions and strategies that staff can use to: (a) identify precipitants of behaviors; (b) avoid these precipitants; and (c) respond to the behaviors with non-pharmacological interventions and activities when they occur anyway. Applicants are in no way limited to implementing only EDGE and/or Dementia Grants Program interventions. They should also, in addition to this requirement, try interventions that are not included in EDGE and Dementia Grants Program training packages, e.g.:

- Ascertain what actions or activity seem to precipitate the behavior; identify and implement alternative approaches to interacting with the resident so as to avoid precipitating the behavior in the future;
- Ascertain the environmental conditions that seem to be associated or correlated with the behavior; implement modifications to those conditions while keeping the resident safe;
- Redirection for residents with perseverating behaviors;
- Offer residents whose behaviors appear to be precipitated around sundown by fatigue, an opportunity to take a nap or “get some extra rest” earlier in the day;
- Pain assessment and treatment.

To that end, applicants should describe in their applications other interventions that they might use. This discussion should demonstrate that the applicant is aware of the broad array of non-pharmacological interventions and strategies that have been used successfully by others, and is capable of creating new ones tailored to the specific characteristics and needs of individual residents.

Additionally, the Department understands that off-label use of antipsychotics in elderly people with dementia but without a diagnosis or history of mental illness may be appropriate in some cases.

*The over-riding goal for nursing homes whose projects are funded under this RFA will be to provide better care as evidenced by a decrease in both off-label use of antipsychotics and difficult to manage behaviors. Thus the medical director and residents’ physicians (and/or their nurse practitioner or physician assistant) must support and be engaged in planning and implementing the project. Applications that do not explicitly recognize the critical roles and responsibilities of the medical director and residents’ attending physicians will probably not score high enough to be funded.*

Applicants are urged to approach this project as a quality improvement project: identify and quantify the problem (and the processes and assumptions that create it); develop a plan to address the issue; train and inform all staff; implement; evaluate; and revise the plan and training accordingly.

## **C. Problem or Issue**

The problem addressed by this RFA is the use of chemical restraints to manage residents with the behavioral symptoms of dementia. Nursing home staff and physicians must first try non-pharmacological approaches other than physical restraints to avoid precipitating these behaviors and to respond to them compassionately and effectively when they occur. The interventions described in EDGE and in the Dementia Grants Program training materials distributed to New York nursing homes over the course of the last decade provide proven alternative approaches to preventing and managing these symptoms.

## **II. Who May Apply**

### **A. Minimum Eligibility Requirements**

Only nursing homes licensed under Article 28 of New York's Public Health Law are eligible to apply for funds. All proprietary, public and not-for-profit nursing homes are eligible regardless of survey (regulatory compliance) history although the Department reserves the right to decline to award funds under this initiative to nursing homes with a history of poor survey and/or complaint investigation results.

### **B. Preferred Eligibility Requirements**

Preference will be given to nursing homes whose use of antipsychotic drugs for long stay residents is above 21% (the statewide average for 2012 quarters 1-3) as shown on the Department's website (<http://nursinghomes.nyhealth.gov/>) at the time that applications are reviewed and scored by the Department of Health. Five points will be added to their weighted technical scores.

## **III. Detailed Specifications and Contract Deliverables**

### **A. Anticipated Time Frames**

The anticipated start date for the 18-month grant contracts awarded through this procurement is March 1, 2014.

### **B. Available Funds**

Approximately \$611,000 is available for this initiative. About 22 awards will be made. Grants may not exceed \$28,000. Applicants will compete on cost, among other criteria.

### **C. Contract Deliverables**

#### **a. Project Requirements**

Through this Request for Applications (RFA), the Department will award contracts to nursing homes to implement one or more Dementia Grants Program projects and/or EDGE

interventions. Nursing homes may not develop new interventions. They may, if they wish, modify these existing interventions to fit their own specific needs and circumstances. However, the Department will not fund any project that “re-invents the wheel.”

The scope of each nursing home’s proposed project is probably more specific to the nursing home than to the intervention(s) selected to be implemented. Scope could be very complex and broad, depending on the extent of changes required in the medical director’s and medical attendings’ roles, responsibilities, involvement in residents’ care and engagement with facility staff. This is because every project requires active support and participation from the medical professionals to safely reduce and discontinue off-label antipsychotic use. Applicants need to address this in their discussion of scope and in their implementation plan

Those awarded contracts must conduct simple evaluations of their projects. Basically, applicants should:

- Determine eligibility criteria to participate in the intervention;
- Determine criteria to withdraw a resident from the intervention;
- Specify measureable desired resident outcomes;
- Measure these outcomes both before (pre-test) and after (post-test) the intervention is implemented;
- Calculate changes in resident outcomes from pre-test to post-test; and
- Determine the significance of the changes.

The MDS 3 must be used whenever possible to determine eligibility and withdrawal criteria and resident outcomes. For example, if an eligibility criterion to participate in the intervention(s) is cognitively intact or moderately impaired but not severely impaired, the Brief Interview for Mental Status (BIMS) must be used to assess cognitive status. Nursing homes are not required to use the point spreads provided on Page C-14 of CMS’s RAI Version 3.0 Manual for cognitively intact, moderately impaired and severely impaired.

All projects must measure residents on cognitive status (Section C), mood (Section D), behavior (Section E), medications (Section N) and restraints (Section P) using the MDS 3. Applicants may specify additional measures as appropriate to the intervention(s). If these measures are not imbedded in the MDS 3, other sources may be used. However, nursing homes may not construct their own measures. They must use measures that have been tested, whose validity and reliability have been established in the literature, whose scoring has been developed and tested, and for which training materials have been developed and are available to the nursing home.

With regard to behaviors as measured with items in Section E of the MDS 3, it may be the case that, as off-label antipsychotic use is reduced, there is an initial increase in these behaviors followed by a decrease as staff learn how to avoid precipitating them. Nursing homes may want to track this variable more frequently than other outcomes, e.g., weekly. This is because they may have to use trial and error to find effective non-pharmacological interventions for specific residents.

All projects must also measure antipsychotic use as follows. This is a much simpler calculation than the one used by CMS for long stay residents. Select a day between September 1, 2013 and September 7, 2013. For all long stay residents (30 days or more) in your facility on the day you select, determine how many are living with dementia. Of this group, how many have neither a mental health diagnosis nor a history of mental health illnesses? This number is the denominator. Of this group, how many are taking an antipsychotic medication? (There would be a number other than 0 (zero) in Box A for Item N0410 on the MDS 3 for these residents.) This number is the numerator.

For example, on September 1, 2013, a hypothetical nursing home has 100 long stay residents who are assumed to have dementia or have been diagnosed with dementia. Of this group, 90 have neither a mental health diagnosis nor a history of mental health illnesses. Of this group of 90 residents, antipsychotics have been prescribed for 25.  $25/90 = 28\%$ . This hypothetical nursing home's off-label antipsychotic use rate, for purposes of this RFA and this project, is 28%. The goal of this project is to reduce this rate of 28% without increasing the rate of difficult to manage behaviors.

The research design for the simple evaluation must be approved by the Department of Health. Eligibility, withdrawal, resident outcome and all other MDS 3 data must be collected during the timeframes specified in the research design. **These timeframes may vary from those required for MDS completion by the federal CMS and the Department of Health.**

Nursing homes are expected to adhere to the RAI guidance for the MDS 3 measures they use to evaluate the effectiveness of their intervention(s), regardless of whether it coincides with federal and state required time frames for completion of the MDS 3.

Grant awards are capped at \$28,000. The Department anticipates funding about 22 applicants. Grant contract term is eighteen months.

Nursing homes will be reimbursed on a quarterly basis for expenditures in accordance with approved budgets. However, they will be reimbursed for these approved expenditures only after completing the deliverables as specified in their work plan for that quarter. For example:

- The work plan may have only two deliverables in the first quarter: an approved evaluation plan. and an approved work plan. Nursing homes would be reimbursed for expenses incurred in the first quarter only after the evaluation plan and the work plan are approved by the Department of Health.
- A sixth quarter deliverable is preparing the final report, which includes the results of the evaluation. Nursing homes would be reimbursed for expenses incurred in the sixth quarter only after they have submitted their final report, including the results of the evaluation, to the Department of Health.

Even the best work plan might have to be revised if the nursing home encounters unexpected circumstances, such as losing employees who are critical to the success of the project or an evacuation in advance of a hurricane. Likewise, it may be desirable to move grant funds from one budget line to another. In either case, the nursing home must submit a revised work plan

and/or budget modification to the Department of Health for approval in a timely fashion.

Applicants must specify the Medical Director's responsibilities with regard to the proposed project. The Medical Director's responsibilities may require more time than he/she has allocated to the nursing home in the past and for which he/she has been compensated by the nursing home. In such cases, nursing homes awarded funds through this initiative may use them to compensate the Medical Director for the additional time required by the project. This holds true for other personnel as well if the hours they spend on the project are above and beyond the hours they normally spend in the nursing home and for which they are compensated.

See Section V for detailed guidance regarding application content, format and structure.

Applicants agree that all state funds dispersed under this procurement will, if applicable to them, be bound by the terms, conditions, obligations and regulations promulgated by the Department. To provide assistance with compliance regarding Executive Order #38 and the related regulations, please refer to the Executive Order #38 website at: <http://executiveorder38.ny.gov>.

#### **I. Vendor Identification Number**

Effective January 1, 2012, in order to do business with New York State, you must have a vendor identification number. As part of the Statewide Financial System (SFS), the Office of the State Comptroller's Bureau of State Expenditures has created a centralized vendor repository called the New York State Vendor File. In the event of an award and in order to initiate a contract with the New York State Department of Health, vendors must be registered in the New York State Vendor File and have a valid New York State Vendor ID.

If already enrolled in the Vendor File, please include the Vendor Identification number on the application cover sheet. If not enrolled, to request assignment of a Vendor Identification number, please submit a New York State Office of the State Comptroller Substitute Form W-9, which can be found on-line at:

[http://www.osc.state.ny.us/vendor\\_management/issues\\_guidance.htm](http://www.osc.state.ny.us/vendor_management/issues_guidance.htm).

Additional information concerning the New York State Vendor File can be obtained on-line at: [http://www.osc.state.ny.us/vendor\\_management/index.htm](http://www.osc.state.ny.us/vendor_management/index.htm), by contacting the SFS Help Desk at 855-233-8363 or by emailing at [helpdesk@sfs.ny.gov](mailto:helpdesk@sfs.ny.gov).

## **J. Vendor Responsibility Questionnaire**

The New York State Department of Health recommends that vendors file the required Vendor Responsibility Questionnaire online via the New York State VendRep System. To enroll in and use the New York State VendRep System, see the VendRep System Instructions available at [http://www.osc.state.ny.us/vendrep/vendor\\_index.htm](http://www.osc.state.ny.us/vendrep/vendor_index.htm) or go directly to the VendRep system online at <https://portal.osc.state.ny.us>.

Vendors must provide their New York State Vendor Identification Number when enrolling. To request assignment of a Vendor ID or for VendRep System assistance, contact the Office of the State Comptroller's Help Desk at 866-370-4672 or 518-408-4672. Vendors may also email the Vendor Responsibility Unit directly through their website at [http://www.osc.state.ny.us/vendrep/contact\\_us\\_email.htm](http://www.osc.state.ny.us/vendrep/contact_us_email.htm).

Vendors opting to complete and submit a paper questionnaire can obtain the appropriate questionnaire from the VendRep website at: [http://www.osc.state.ny.us/vendrep/forms\\_vendor.htm](http://www.osc.state.ny.us/vendrep/forms_vendor.htm) or may contact the Office of the State Comptroller's Help Desk for a copy of the paper form.

Applicants should complete and submit the Vendor Responsibility Attestation (Attachment 5).

## **K. Vendor Prequalification for Not-for-Profits**

Beginning July 31, 2013, all not-for-profit vendors subject to prequalification will be required to prequalify prior to grant application and execution of contracts.

Prequalification is a new statewide process designed to facilitate prompt contracting for not-for-profit vendors. Interested vendors will be asked to submit commonly requested documents, and answer frequently asked questions once. The application requests organizational information about the vendor's *capacity*, *legal compliance*, and *integrity*.

Not-for-profit vendors subject to prequalification will submit their responses online in the new Grants Gateway, and all information will be stored in a virtual, secured vault. Once a vendor is registered with the system, State agencies will have ready access to the vault, eliminating redundant submissions of such information by the vendor. Not-for-profits will only have to prequalify every three years, with responsibility to keep their information current throughout the three year period. To obtain access to the Grants Gateway, vendors should submit a

registration form downloadable on the Grants Reform website at:

## **L. General Specifications**

1. By signing the "Application Form" each applicant attests to its express authority to sign on behalf of the applicant.
2. Contractors will possess, at no cost to the State, all qualifications, licenses and permits to engage in the required business as may be required within the jurisdiction where the work specified is to be performed. Workers to be employed in the performance of this contract will possess the qualifications, training, licenses and permits as may be required within such jurisdiction.
3. Submission of an application indicates the applicant's acceptance of all conditions and terms contained in this RFA, including the terms and conditions of the contract. Any exceptions allowed by the Department during the Question and Answer Phase (Section IV.B.) must be clearly noted in a cover letter attached to the application.
4. An applicant may be disqualified from receiving awards if such applicant or any subsidiary, affiliate, partner, officer, agent or principal thereof, or anyone in its employ, has previously failed to perform satisfactorily in connection with public bidding or contracts.
5. Provisions Upon Default
  - a. The services to be performed by the Applicant shall be at all times subject to the direction and control of the Department as to all matters arising in connection with or relating to the contract resulting from this RFA.
  - b. In the event that the Applicant, through any cause, fails to perform any of the terms, covenants or promises of any contract resulting from this RFA, the Department acting for and on behalf of the State, shall thereupon have the right to terminate the contract by giving notice in writing of the fact and date of such termination to the Applicant.
  - c. If, in the judgement of the Department, the Applicant acts in such a way which is likely to or does impair or prejudice the interests of the State, the Department acting on behalf of the State, shall thereupon have the right to terminate any contract resulting from this RFA by giving notice in writing of the fact and date of such termination to the Contractor. In such case the Contractor shall receive equitable compensation for such services as shall, in the judgement of the State Comptroller, have been satisfactorily performed by the Contractor up to the date of the termination of this agreement, which such compensation shall not exceed the total cost incurred for the work which the Contractor was engaged in at the time of such termination, subject to audit by the State Comptroller.

## **V. Completing the Application**

### **A. Application Format**

Hand written applications will not be accepted. PDFs and copies of documents, such as resumes, must be readable. Reviewers are not responsible for deciphering poor quality copies and PDFs in the application. They are not required to consider the information in poor quality copies and PDFs in the application scoring process.

Use no smaller than 10 point font. Margins (top, bottom, left, right) should be no less than .75 inches.

Material that is not required to be included in the application should be appended to the application after all of the required attachments. Reviewers are under no obligation to consider such information regardless of where it is placed in the application. Paginate the application.

Observe the page limits for each section of the application. Material in excess of the page limits for each section will not be considered when your application is scored.

Use the Application Table of Contents (Attachment 1). Do not alter it in any way other than to change font or font size and enter page numbers. The organization of the Application Table of Contents explicitly reflects the information required to rate or score the application on the evaluation criteria. For example, reviewers will rate each application on specific aspects of its evaluation plan such as resident outcomes and how the applicant proposes to measure them. The Application Table of Contents indicates that this information should be placed in Sections V.c. and V.d. Applications should have a Section V.c. titled "Resident outcomes measured at baseline (time one) and follow-up (time two)." Applications should have a Section V.d. titled "How these resident outcomes will be measured."

The Department's application reviewers and raters are not required to hunt through an application to find the information required to score applications on a criterion. They will consider the information contained in section(s) of the application that address each criterion, as specified by the Application Table of Contents in Attachment 1. They may, at their sole discretion, also consider information included in other sections of the application. But they are not required to do so.

Applicants are advised to use the section and sub-section headings in the Application Table of Contents verbatim in their applications to ensure that reviewers are able to locate the information that the applicant intends to be used to score its application on each criterion.

### **B. Application Content**

The content of each section of the Application Table of Contents is described in more detail below.

**Cover Sheet:** Use Attachment 2. Information entered on the Cover Sheet must be identical to information provided in the Vendor Responsibility Questionnaire.

**Application Table of Contents:** Use Attachment 1, explained above.

**Statement of Understanding:** Page limit is one page. State your understanding of the issues addressed by this RFA, the Department's vision for the scope of funded projects, and your expectations for the changes your project will create in your facility.

**Intervention(s):** Page limit is three pages. In this section, address the following:

- Identify the EDGE and/or Dementia Grants Program intervention(s) that you wish to implement in your facility. Discuss a sample of the other interventions and strategies you might try.
- Why did you select these particular intervention(s)?
- How will these intervention(s) help staff recognize and address the behavioral symptoms of dementia?
- How will these intervention(s) lead to reduced off-label antipsychotic drug use and other desired resident outcomes?
- If you plan to modify the EDGE and Dementia Grants Program intervention(s) to be a better fit with your facility, please describe the modifications and why they are needed and appropriate for your facility.

**Evaluation Plan:** Page limit is three pages.

- Eligibility criteria to participate in the intervention(s);
- Criteria to withdraw a resident from the intervention(s);
- Resident outcomes that will be measured at baseline (time one) and follow-up (time two);
- How you will measure these resident outcomes;
- How you will determine differences in residents' outcomes, i.e., changes from baseline (time one) to follow-up (time two); and
- How you will ascertain whether the differences, if any, are significant.

**Implementation Plan:** Page limit is ten pages. *This is not a work plan.* Describe the roles and responsibilities for the proposed intervention(s) of the following. If the person does not have any roles and responsibilities for the proposed project(s), please note this:

- Administrator;
- Medical Director;
- Director of Nursing Services;
- Other department heads (specify);
- Medical attendings (physicians, nurse practitioners and physician assistants);
- Nurses;
- Pharmacist or consulting pharmacist;
- CNAs; and
- Other staff (specify).

In addition, discuss the following:

- How will you work with families, medical attendings, nurses, CNAs and other staff to gain their support for reducing off-label anti-psychotics before you initiate any reductions?
- Impact on residents: How will you safely reduce and/or eliminate off-label antipsychotic use for residents who do not have an appropriate mental health diagnosis? How will you manage residents whose behavioral symptoms reassert themselves as antipsychotics are tapered off despite the residents' participation in the intervention(s)?
- Impact on direct care staff: How will you support CNAs and other direct care givers as you wean residents off these drugs and they start exhibiting the behaviors that led to the drugs in the first place? How will you know if and when residents start exhibiting the behaviors that led to the drugs in the first place?

**Work Plan:** No page limit. Use Attachment 3. The work plan should lay out in appropriate chronological order objectives, deliverables, budget category charged to produce the deliverable(s). major tasks and milestones, time frames for starting and completing the task, and performance measures, if any.

In a separate, sealed and labeled (RFA title, RFA number, name of applicant) envelope place the following:

**Budget:** No page limit. Use Attachment 5. Budgets cannot exceed \$28,000. Calculate fringe benefits as a percentage of salary expense. State the fringe rate used to calculate the budget.

Grant funds cannot be used to pay for any services, expenses or staff time that is already reimbursed through Medicaid or Medicare payments. Such expenses include but are not limited to expenses associated with space/property and utilities and current staff.

Grant funds may be used for, among other expenses, the following as long as they are associated with the applicant's project or interventions:

- to compensate the Medical Director and/or consulting pharmacist for additional time required for the proposed project beyond the usual amount of time s/he is paid for;
- to pay for temporary agency staff to provide coverage when employees are taken off the floor to be trained on the intervention;
- training materials;
- to hire a project director, quality improvement consultant or other expert;
- to pay current staff overtime if overtime is required to implement the intervention;
- to purchase supplies and equipment for the specific intervention(s); and/or
- moveable capital (i.e., equipment), but such expenses are limited to \$5,000.

**Vendor Responsibility Attestation:** Use Attachment 5.

### **C. Review Process**

#### 1. Late Submissions

It is the applicant's responsibility to ensure that its application is delivered to the address provided in Section IV. D. prior to the date and time specified on the cover sheet of this RFA. With the following possible exception, late applications will not be accepted. Applications due to a documentable delay by the carrier may be considered at the Department of Health's discretion.

#### 2. Pass/Fail Criteria

At the discretion of the Department of Health, all applications may be rejected.

Applications will be reviewed on the following pass/fail criteria. Those that fail one or more pass/fail criteria will be rejected, will not be further reviewed, and are ineligible to be awarded a contract:

- are not submitted by the due date and time;
- are, according to the information on the required cover sheet for the application, submitted by an applicant that is a nursing home licensed under Article 28 of New York's Public Health Law,
- do not propose at least one intervention(s) that is a Dementia Grants Program project or EDGE project;
- do not include the financial part of the application in a separate, labeled envelope;

- did not complete and submit without alterations (other than those specified in this RFA) the required cover sheet and Application Table of Contents;

At the time the sealed envelopes with project budgets are opened in order to conduct the financial review, projects that meet the following criteria will be eliminated from further consideration:

- did not use the required budget form; and/or
- budget exceeds \$28,000.

### 3. Technical Criteria

Applications that pass the pass/fail criteria will proceed to the technical review. Technical criteria are worth 70 points. The following sections of the application will be scored according to how well they present the required information. The required information is described in Section V of this RFA. Applicants are urged to pay close attention to Section V of this RFA and to include all of the required information and discussions. Applications that fail to provide the information will not score high enough to be funded. The technical criteria evaluate the following: Statement of Understanding, Intervention(s), Evaluation Plan, Implementation Plan and Work Plan.

Applicants must have a raw technical score of 53 or more technical points to proceed to the next step of the application evaluation process. The application with the highest raw technical score will be assigned a weighted technical score of 70 points. All other applications will be assigned a weighted technical score according to the following formula:

$(a/b)(70)$  = weighted technical score where a = score to be weighted and b = unweighted score of application with highest technical score.

Preference points will be awarded to applicants whose use of antipsychotic drugs for long stay residents is above 21% (the current statewide average) as shown on the Department's website (<http://nursinghomes.nyhealth.gov/>). Five points will be added to their weighted technical scores. Thus, these preference points do not help the applicant reach the minimum 53 technical points required to be eligible to be funded.

### 4. Financial Criterion

Financial proposals will then be opened and reviewed. The financial criterion is worth 30 points. Any budget that exceeds \$28,000 will not be further reviewed and is not eligible to be awarded a contract.

Financial scores will be calculated as follows. The application with the lowest budget will be assigned a financial score of 30 points. All other applications will be assigned a weighted financial score according to the following formula:

$(a/b)(30)$  = weighted financial score where a = lowest budget and b = budget to be

weighted.

Each application's weighted technical score and weighted financial score will be summed. Applications will be rank ordered according to total score. Proceeding from highest to lowest score, applications will be selected to be funded until the funding allocated to this initiative has been awarded and/or exhausted.

#### 5. Procedure in Event of a Tie in Scores

In the event of a tie in scores that results in more applications than can be funded, the determining factor(s), in descending order of importance, will be:

- Lowest budget;
- Minority/Women-owned Business Enterprise (MWBE) utilization;

#### 6. Vendor Responsibility and Reference Check

The applicants selected at this point will proceed to the next level of review. The Vendor Responsibility Questionnaire for each applicant will be reviewed to determine if it is a responsible vendor. If it is a responsible vendor, the applicant will be offered a grant contract.

#### 7. Debriefings

Following the announcement of the applicants awarded contracts under this RFA, unsuccessful applicants may request a debriefing from the NYS DOH Bureau of Professional Credentialing no later than 10 days from the date of the award or non-award announcement. This debriefing will be limited to the positive and negative aspects of the subject application. In the event unsuccessful applicants wish to protest the award resulting from this RFA, applicants should follow the protest procedures established by the Office of the State Comptroller (OSC). These procedures can be found on the OSC website at <http://www.osc.ny.gov/agencies/guide/MyWebHelp>.

**STATE OF NEW YORK  
MASTER CONTRACT FOR GRANTS**

This State of New York Master Contract for Grants (Master Contract) is hereby made by and between the State of New York acting by and through the applicable State Agency (State) and the public or private entity (Contractor) identified on the face page hereof (Face Page).

**WITNESSETH:**

**WHEREAS**, the State has the authority to regulate and provide funding for the establishment and operation of program services, design or the execution and performance of construction projects, as applicable and desires to contract with skilled parties possessing the necessary resources to provide such services or work, as applicable; and

**WHEREAS**, the Contractor is ready, willing and able to provide such program services or the execution and performance of construction projects and possesses or can make available all necessary qualified personnel, licenses, facilities and expertise to perform or have performed the services or work, as applicable, required pursuant to the terms of the Master Contract;

**NOW THEREFORE**, in consideration of the promises, responsibilities, and covenants herein, the State and the Contractor agree as follows:

**STANDARD TERMS AND CONDITIONS**

**I. GENERAL PROVISIONS**

**A. Executory Clause:** In accordance with Section 41 of the State Finance Law, the State shall have no liability under the Master Contract to the Contractor, or to anyone else, beyond funds appropriated and available for the Master Contract.

**B. Required Approvals:** In accordance with Section 112 of the State Finance Law (or, if the Master Contract is with the State University of New York (SUNY) or City University of New York (CUNY), Section 355 or Section 6218 of the Education Law), if the Master Contract exceeds \$50,000 (or \$85,000 for contracts let by the Office of General Services, or the minimum thresholds agreed to by the Office of the State Comptroller (OSC) for certain SUNY and CUNY contracts), or if this is an amendment for any amount to a contract which, as so amended, exceeds said statutory amount including, but not limited to, changes in amount, consideration, scope or contract term identified on the Face Page (Contract Term), it shall not be valid, effective or binding upon the State until it has been approved by, and filed with, the New York Attorney General Contract Approval Unit (AG) and OSC. If, by the Master Contract, the State agrees to give something other than money when the value or reasonably estimated value of such consideration exceeds \$10,000, it shall not be valid, effective or binding upon the State until it has been approved by, and filed with, the AG and OSC.

**Budget Changes:** An amendment that would result in a transfer of funds among program activities or budget cost categories that does not affect the amount, consideration, scope or other terms of such contract may be subject to the approval of the AG and OSC where the amount of such modification is, as a portion of the total value of the contract, equal to or greater than ten percent for contracts of less than five million dollars, or five percent for contracts of more than

Contract Number: # \_\_\_\_\_

five million dollars; and, in addition, such amendment may be subject to prior approval by the applicable State Agency as detailed in Attachment D (Payment and Reporting Schedule).

**C. Order of Precedence:**

In the event of a conflict among (i) the terms of the Master Contract (including any and all attachments and amendments) or (ii) between the terms of the Master Contract and the original request for proposal, the program application or other attachment that was completed and executed by the Contractor in connection with the Master Contract, the order of precedence is as follows:

1. Standard Terms and Conditions
2. Modifications to the Face Page
3. Modifications to Attachment A-2<sup>1</sup>, Attachment B, Attachment C and Attachment D
4. The Face Page
5. Attachment A-2<sup>2</sup>, Attachment B, Attachment C and Attachment D
6. Modification to Attachment A-1
7. Attachment A-1
8. Other attachments, including, but not limited to, the request for proposal or program application

**D. Funding:** Funding for the term of the Master Contract shall not exceed the amount specified as “Contract Funding Amount” on the Face Page or as subsequently revised to reflect an approved renewal or cost amendment. Funding for the initial and subsequent periods of the Master Contract shall not exceed the applicable amounts specified in the applicable Attachment B form (Budget).

**E. Contract Performance:** The Contractor shall perform all services or work, as applicable, and comply with all provisions of the Master Contract to the satisfaction of the State. The Contractor shall provide services or work, as applicable, and meet the program objectives summarized in Attachment C (Work Plan) in accordance with the provisions of the Master Contract, relevant laws, rules and regulations, administrative, program and fiscal guidelines, and where applicable, operating certificate for facilities or licenses for an activity or program.

**F. Modifications:** To modify the Attachments or Face Page, the parties mutually agree to record, in writing, the terms of such modification and to revise or complete the Face Page and all the appropriate attachments in conjunction therewith. In addition, to the extent that such modification meets the criteria set forth in Section I.B herein, it shall be subject to the approval of the AG and

---

<sup>1</sup> To the extent that the modifications to Attachment A-2 are required by federal requirements and conflict with other provisions of the Master Contract, the modifications to Attachment A-2 shall supersede all other provisions of this Master Contract. See Section I(V).

<sup>2</sup> To the extent that the terms of Attachment A-2 are required by federal requirements and conflict with other provisions of the Master Contract, the federal requirements of Attachment A-2 shall supersede all other provisions of this Master Contract. See Section I(V).

OSC before it shall become valid, effective and binding upon the State. Modifications that are not subject to the AG and OSC approval shall be processed in accordance with the guidelines stated in the Master Contract.

**G. Governing Law:** The Master Contract shall be governed by the laws of the State of New York except where the Federal Supremacy Clause requires otherwise.

**H. Severability:** Any provision of the Master Contract that is held to be invalid, illegal or unenforceable in any respect by a court of competent jurisdiction, shall be ineffective only to the extent of such invalidity, illegality or unenforceability, without affecting in any way the remaining provisions hereof; provided, however, that the parties to the Master Contract shall attempt in good faith to reform the Master Contract in a manner consistent with the intent of any such ineffective provision for the purpose of carrying out such intent. If any provision is held void, invalid or unenforceable with respect to particular circumstances, it shall nevertheless remain in full force and effect in all other circumstances.
