

## Attachment 8: Logic Model

**RFA #** Health and Human Services for Lesbian, Gay, Bisexual and Transgender Individuals, Families and Communities

**Program Name:** WayOut Youth

**Problem Statement:** LGBTQ youth age 13-16 face bullying and family rejection. They have few social supports and coping skills. Adolescents are coming out at younger ages and there are no services in our geographic region to address their unique developmental needs.

Goal	Objectives	Outputs / Activities	Immediate Outcomes	Long Term Outcomes
To decrease bullying and family rejection for LGBTQ youth.	Provide LGBTQ youth age 13-16 with age appropriate activities designed to increase resilience to bullying and provide social support to mitigate family rejection.	Run a weekly group in 12-week cycles (3 times per year) including: Team-building exercises Disclosure and coping strategies Social activities Group problem-solving  Anti-bullying training in schools  Activities for youth and their families	High attendance and retention at the program  After 12 weeks, students score better on scales measuring coping and resilience, report increased awareness and utilization of LGBTQ supports and report fewer instances of bullying  Schools that were provided training will implement and enforce anti-bullying policies and protocols.	Schools report a decrease in incidences of LGBTQ bullying.  LGBTQ youth participants report an increase in positive family interaction.
