Supplemental Nutrition Assistance Program Education (SNAP-Ed) Education and Administrative Reporting System (EARS) Form

For additional resources and information on the Education and Administrative Reporting System Form, visit <https://snaped.fns.usda.gov/national-snap-ed/education-and-administrative-reporting-system>.

OMB BURDEN STATEMENT: According to the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0584-0594. The time to complete this information collection is estimated to average 60 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

Unless otherwise noted, the following applies to all items in this form:

- 1) **Population** refers to SNAP-Ed participants (individuals participating in or exposed to SNAP-Ed activities, which consist of direct education; social marketing; and policy, systems, and environmental change (PSE) interventions). Indirect education, which may be incorporated into the aforementioned interventions, will be captured as indirect intervention channels.
- 2) **Reach** is defined as the audience that experiences the intervention or encounters an improved environment on a regular (typical) basis and is assumed to be influenced by it.
- 3) **Actual counts** are counts that can be collected with a high degree of certainty. **Estimated counts** are only appropriate when enough information to provide actual counts is not available, as may be the case for statistics representing the reach of PSEs.
- 4) Fields providing totals for data will be automatically calculated.
- 5) Key points are noted throughout the form to assist with reporting.

ITEM 1 Data on SNAP-Ed

State: _____

Federal Fiscal Year: _____

An **Implementing Agency** is an organization that has a contract or formal agreement with the State Supplemental Nutrition Assistance Program (SNAP) to develop and deliver nutrition education and obesity prevention activities. If your State directly administers programs, then your State Agency must complete this form. Use one form per Implementing Agency.

Implementing Agency name: _____

ITEM 2 Direct education - information on participation by age and sex**Number of SNAP-Ed participants (unduplicated) by age group and sex:**

Reporting an **unduplicated count** means providing the number of unique individuals per intervention, regardless of the number of direct education sessions.

A row may have both **actual counts** and **estimated counts**. **Actual counts** should be used whenever possible. **Estimated counts** are appropriate in certain cases, such as when single presentations are given to families at school events.

Age	Female	Male	Actual Count	Estimated Count	Total
Less than 5 years					
5-17 years					
18-59 years					
60 years or older					
Total					

Explanation of estimation method(s) - 3,000 character limit

For any **estimated counts**, please describe the methods used to determine the number of participants.

ITEM 3**Direct education - information on participation by race and ethnicity****Number of unduplicated SNAP-Ed participants by race and ethnicity:**

As in Item 2, a row may have both **actual counts** and **estimated counts**. **Actual counts** should be used whenever people self-identify.

Estimated counts are appropriate in certain cases, such as when individuals do not identify with a specific race and are assigned one or more than one for reporting purposes.

		Actual Count of SNAP-Ed Participants	Estimated Count of SNAP-Ed Participants
Ethnicity	Hispanic/Latino		
	Non-Hispanic/Latino		
Race (select one or more)	American Indian or Alaska Native		
	Asian		
	Black or African American		
	Native Hawaiian or Other Pacific Islander		
	White		
Total			

ITEM 4**Direct education - characterizing education session format, delivery, time, and use of interactive media****Programming details:**

Interactive multimedia integrates text, audio, graphics, still images, and moving pictures into one computer-controlled, multimedia product that provides an individualized educational experience based on a participant's input.

Format	A. Number Delivered	B. Time Range		C. Number of Sessions Delivered Using Interactive Multimedia
		Session (in	Number of Sessions
