

**New York State (NYS) WIC Program  
RFP for Training Services for the Bureau of Supplemental Food Programs**

**ADDENDUM #1**

The following is an addendum to RFP No. 0710300335 (Training Services for the Bureau of Supplemental Food Programs) representing a **revised page 26** to reflect the correct Maximum Points (Technical Proposal 75, Cost Proposal 25, Total Combined Score 100) and the Percentage of Total Score (Technical Proposal 75%, Cost Proposal 25%, Total Combined Score 100%).

a. Total Component Combined Score

The scores from the Technical Proposal and Cost Proposal will be used to produce a total score based on the assigned weights for each major section. The scores will be normalized by using the following formulas:

- The highest scoring Technical Proposal will be awarded 75 points, with the following formula:  $X/Y*75$ , where X = raw score of technical proposal being scored and Y = the raw technical score of the highest scoring Technical Proposal.
- The cost component will be normalized using the following formula:  $Y/X*25$ , where X = the total cost for the proposal being scored and Y = total proposal cost for the lowest priced Cost Proposal.

<b>Section</b>	<b>Maximum Points</b>	<b>Percentage of Total Score</b>
<b>Technical Proposal</b>	<b>75</b>	<b>75%</b>
<b>Cost Proposal</b>	<b>25</b>	<b>25%</b>
<b>Total Combined Score</b>	<b>100</b>	<b>100%</b>

The proposer with the highest Total Combined Score whose proposal meets all project requirements and, in the judgment of the selection committee, reflects the best value will be selected.
