# Use Case Specification: EDRS\_UC\_012\_Print\_Permits

## 1. EDRS\_UC\_012\_Print\_Permits

### 1.1 Brief Description

This use case describes the function of printing disposition and other permits from within the EDRS. Each jurisdiction will make the decisions on what permits their business processes require.

Once a Case is registered by the registrar in the use case EDRS\_UC\_064\_Register\_a\_Case, the registrar indicates whether a disposition permit for that case can be printed or not. Once the registrar approves for disposition on the case, the funeral home user can use this use case to print the disposition permit for that case.

Disinterment Permit was discussed by the EDRS group, but due to its rare occurrence, it was not included in the National Model. The jurisdictions would develop system requirements to implement it, if it is required for their business process. The 'place of disposition' on the case can be changed by using the amendment process or addendum process.

## 2. Actor(s)

### 2.1 Funeral Director

### 2.2 Medical Certifier

### 2.3 ME/Coroner

### 2.4 Funeral Home Clerk

### 2.5 Medical Data Entry Clerk

## 3. Pre-Conditions

### 3.1 Death Certificate Case is 'Registered'.

### 3.2 Registrar has approved the printing of 'Disposition Permit' on the case.

## 4. Flow of Events

### 4.1 Basic Flow

	<u>Actor</u>	<u>System</u>
1.	Select option to 'Print Permit'.	<p>Display list of 'Registered' cases for which registrar has approved of issuance of 'Disposition Permit'.</p> <p><i>Only identifying information of the case is displayed.</i></p> <p><i>Only the cases owned by the facility of the logged in user are displayed.</i></p> <p><i>If the disposition permit for a case has already been printed 'x' number of times equal to jurisdictionally defined limit, the case</i></p>

EDRS	Version: 2.6
Use Case Specification: EDRS_UC_012_Print_Permits	Date: 01/14/04

		<i>does not appear in this list.</i>
2.	Select a Case from the list and option to 'Print Disposition Permit' for the selected case.	Print 'Disposition Permit' for the selected case.
3.		Update the number of times the 'Disposition Permit' was printed.
4.		Update event log.
5.		Exit.

## 5. Post-Conditions

5.1 The 'Disposition Permit' for the Death Certificate Case is printed.

5.2 Updated event log

## 6. Special Requirements / Business Rules

6.1 The registrar will be able to authorize additional permit printing. The actor will contact the registrar to request such authorization.

6.2 The user can print the disposition permit for only the cases that they owned for example a funeral home user can print disposition permits for the cases that they owned (completed the Personal Information on it) and submitted it for registration.

6.3 A disposition permit for a case can be printed only 'x' (jurisdictionally defined) number of times. Once number of printed copies reaches that limit the case is not available for the funeral home user to print its disposition permit.

## 7. Data

7.1 Registered Case information

7.2 Disposition Permit

7.3 Number of times a disposition permit for a case can be printed

7.4 Activity History

7.5 Event log entry
