

EDRS Funeral Home Use Case Diagram

This use case would be used by all the actors to access the system.

Search would be a generic function available to all actors. It is also accessed from the EDRS_UC_004_Relinquish_Case, EDRS_UC_008_Request_for_Medical_Certification, MRS_UC_007_Set_or_Reset_Indicator_on_a_Record, MRS_UC_006_Modify_a_Registered_Record and MRS_UC_008_View_Record_History.

The functionality in this use case is invoked everytime data is entered/updated in a field which has a soft or a hard edit associated to it in the following use cases: EDRS_UC_002_Create_a_Case - FH, EDRS_UC_065_Update_a_Case - FH, EDRS_UC_002_Create_a_Case - MC and EDRS_UC_066_Update_a_Case - MC.
