

**Medicaid Transportation Management Initiative
Finger Lakes and Northern NY Regions
Funding Availability Solicitation (FAS) #1208060100**

Amendment #1

Section D.4.3 of the FAS is revised below.

Added language appears in underline [__] and deleted language appears in strikethrough [--].

D.4.3. Executive Summary (3 page limit)

Do not include any cost information in this section of the proposal. See Section D.5.

The Executive Summary should include a clear, concise summary of the proposed approach to the project specifications as well as the bidder's past experience conducting relevant projects. Additionally, a general description of the capabilities and planned roles of any proposed subcontractor(s), a summary of the bidder's understanding of the various review components and required processes should be included.

Provide a narrative overview of your proposed service as transportation manager for the New York State Medicaid Transportation Management Initiative – Finger Lakes/Northern New York Regions. The narrative must include a “roll-out” plan that briefly describes each phase, ~~and include a timeline~~ showing how the transportation management functions will be implemented in each region. The location of the Core Management Team must be identified and how this location will allow the management team access to the Finger Lakes Region and/or Northern New York Region counties to fulfill the requirements of the FAS must be explained.
