

Medicaid Nursing Home/Child (Foster) Care Drug Carve-out List

The list below represents drugs that are carved-out of the Medicaid nursing home/child (foster) care rates, **as of July 1, 2007**. Claims for drugs on this list may be billed directly to Medicaid by an enrolled pharmacy.

Medicaid is the payor of last resort. Medicare Part D or other insurance should be billed first.

The list will be periodically updated to add **only** the generic equivalents of drugs currently on the list or new antiretrovirals used in the treatment of HIV/AIDS. The list can be accessed at the following website:

http://www.health.state.ny.us/health_care/medicaid/program/docs/carveout.pdf.

If a drug has an "NH" indicator, it is included on the nursing home carve-out list. If a drug has an "FC" indicator, it is included on the child (foster) care agency carve-out list.
