Health Homes Serving Children

Draft Work Group Developed Process for Determining Complex Trauma Eligibility for Health Home for Stakeholder Feedback
Overview of Today’s Webinar

✓ Today’s Task – Operationalize CMS/SAMHSA Complex Trauma Health Home Eligibility Criteria Included in Approved State Plan
✓ Review of Health Home Eligibility Criteria
  ✓ Complex Trauma Definition
  ✓ CMS Guidance
✓ Stakeholder Work Group and its Members
✓ Complex Trauma Proposed Tools and Process
✓ Complex Trauma Workflow
✓ Considerations
✓ Reminder: Upcoming Training Schedule
✓ Questions
Operationalizing CMS/SAMHSA Complex Trauma Definition in Health Homes

• SPA includes a CMS/SAMHSA definition of Complex Trauma that is consistent with chronic condition eligibility criteria for Health Homes

• Task: How to “operationalize” the complex trauma definition within the Health Home model using the guidance provided by CMS/SAMHSA
  • Per CMS/SAMHSA the Complex Trauma definition reflects the ACA authorization for the Health Home program which provides benefits to Medicaid members with chronic conditions – Complex Trauma is different that a child who experiences a traumatic event
  • CMS/SAMHSA is also requiring the State develop procedures/approach for documenting and assessing if a child meets the Health Home Complex Trauma definition
To leverage the expertise of trauma informed experts in this task the State reached out to a small Work Group of trauma-informed care experts, including providers and clinicians, for the purpose of proposing recommendations to implement the Complex Trauma definition, including:

- Tools to assess complex trauma
- Who and what training/credentials are needed to determine complex trauma?
- Who can administer tools to determine trauma domains (e.g., allow individual screenings to be done by qualified individuals, while charging licensed practitioner to aggregate, synthesize and interpret information to ultimately determine if a child meets the complex trauma definition)
- The procedures/approach for verifying and documenting complex trauma

The Work Group’s recommendations will be presented during today’s webinar for feedback from the larger stakeholder community – Comments are due June 14th – please send to hhsc@health.ny.gov with Complex Trauma Feedback in the Subject Line

Consensus stakeholder and State Agency Partner guidance and processes for implementing complex trauma in children’s Health Homes will be presented to CMS and SAMHSA on June 21st
Health Home

Eligibility Criteria
Health Home *Chronic Condition* Eligibility Criteria

- The individual **must** be enrolled in Medicaid
- Medicaid members eligible to be enroll in a Health Home **must** have:
  - Two or more chronic conditions (e.g., Substance Use Disorder, Asthma, Diabetes*) **OR**
  - One single qualifying chronic condition:
    ✓ HIV/AIDS or
    ✓ Serious Mental Illness (SMI) (Adults) or
    ✓ Serious Emotional Disturbance (SED) or Complex Trauma (Children)

* See DOH Website for list of chronic conditions

- Chronic Condition Criteria is NOT population specific (e.g., being in foster care, under 21, in juvenile justice etc. does not alone/automatically make a child eligible for Health Home)
- In addition, the Medicaid member **must** be appropriate for the intensive level of care management services provided by Health Home, i.e., satisfy appropriateness criteria
Health Home Appropriateness Criteria

Individuals must meet the Chronic Condition Criteria AND be Appropriate for Health Home Care Management

Appropriateness Criteria: Individuals meeting the Health Home eligibility criteria must be appropriate for the intensive level of care management provided by Health Homes. Assessing whether an individual is appropriate for Health Homes includes determining if the person is:

- At risk for an adverse event (e.g., death, disability, inpatient or nursing home admission, mandated preventive services, or out of home placement)
- Has inadequate social/family/housing support, or serious disruptions in family relationships;
- Has inadequate connectivity with healthcare system;
- Does not adhere to treatments or has difficulty managing medications;
- Has recently been released from incarceration, placement, detention, or psychiatric hospitalization;
- Has deficits in activities of daily living, learning or cognition issues, or
- Is concurrently eligible or enrolled, along with either their child or caregiver, in a Health Home.
Many aspects of a child’s healthy physical and mental development rely on this secure attachment, a primary source of safety and stability.

d. Wide-ranging, long-term adverse effects can include impairments in:
   i. physiological responses and related neurodevelopment,
   ii. emotional responses,
   iii. cognitive processes including the ability to think, learn, and concentrate,
   iv. impulse control and other self-regulating behavior,
   v. self-image, and
   vi. relationships with others.
Essential Parameters Associated with Complex Trauma Definition:

- Exposure to trauma leads to adverse prolonged effects
- Nature of trauma exposure is interpersonal; occurs in multiplicity and/or recurring traumatic events
- Multiple developmental impairments/diagnoses
- Multiple functional impairments (behavioral indicators of severity)

Screening and Assessment:

- The assessment of complex trauma involves both assessing the child’s exposure to multiple or recurring traumatic events, as well as the wide-ranging and severe impact of this trauma exposure across domains of development. It is important that mental health providers, family members, and other caregivers become aware of specific questions to ask when seeking the most effective services for these children
- SAMHSA/CMS have provided a variety of documents to the State on Complex Trauma definition and assessment process
  - (CMS/SAMHSA has recommended tools identified by the National Child Traumatic Stress Network http://www.nctsn.org/content/standardized-measures-assess-complex-trauma)
- Along with today’s Webinar these will be posted the DOH Health Home for Children Website
Stakeholder Work Group of Trauma Informed Experts

Complex Trauma DRAFT Proposed Process for Health Homes Serving Children

June 8, 2016
Stakeholder Work Group Process

• CHARGE from NYS

• National Experts Consulted

• Work Group Membership
Work Group Members

- **Phyllis Silver, MEd; CHAIR** Complex Trauma Work Group; President Silver Health Strategies
- **Mandy Habib, Psy.D.; Co-Chair** Complex Trauma Work Group, National Child Traumatic Stress Network, Co-Director, Institute for Adolescent Trauma Training & Treatment, School of Social Work Adelphi University
- **Andrea Smyth, President**, A Smyth Advocacy and Executive Director of the NYS Coalition for Children’s Mental Health Services
- **Dawn Chirichella-Besemer, Psy.D.;** Vice-President of Behavioral Health Services, MercyFirst
- **Susan Chinitz, Psy.D.;** Former Director, Early Childhood Center, Albert Einstein College of Medicine
- **David Collins, LMSW;** Assistant Vice President for Programs and Policy, The Children’s Village
- **David Goldstein, PsyD;** Vice President, Child Health and Well-Being, JCCA
- **Laura Maggiulli, Ph.D. LMSW;** Director of Research Hillside Family of Agencies
- **Anthony P. Mannarino, PhD;** Director of the Center for Traumatic Stress in Children and Adolescents and Vice Chair, Department of Psychiatry, Allegheny General Hospital
- **David Wallace, LCSW-R;** Director of Clinical Services LaSalle School
- **Jaime Madden, LCSW;** Assistant Commissioner Program Innovation & Planning, Division of Policy, Planning & Measurement for NYC Administration for Children’s Services
- **Aisha van Ter Sluis,** Senior Health Policy Advisor Program Innovation & Planning, Division of Policy, Planning & Measurement for NYC Administration for Children’s Services
Complex Trauma DRAFT Tools and Needed Information

1. Complex Trauma Exposure Screen Form and Referral Cover Sheet – Completed by non-licensed professional or licensed professional

2. Complex Trauma Exposure Assessment Form – Must be completed by Licensed Professional

3. Functional Impairment Assessment through the completion of the appropriate identified NCTSN guideline list of domain assessment tools - Must be completed by Licensed Professional

4. Complex Trauma Eligibility Determination Form - Must be completed by Licensed Professional

5. Other family and child history and information obtained – Gathered and obtained by non-licensed professional or the assessing licensed professional

*NOTE:

Measures should be taken to avoid redundant assessing of the child and family
Complex Trauma Referral Cover Sheet

For Referral of a Child/Youth with Complex Trauma as a Single Qualifying Condition in order to Establish Eligibility for Health Home

Required Information

## Complex Trauma Exposure Screen Form

Please indicate whether the child experienced the following types of traumatic events using all available information (e.g., self- or caregiver report, review of records, etc.). To avoid undue distress, if speaking directly with the child, ask only about types for which you do not already have information. If information for a particular trauma is known, you do not need to request additional details for that type. For example, if the child has a documented history of physical maltreatment, endorse “V,” and move on to the next category.

### Sources of Information

Definition of “Licensed Professional”

Licensed Masters Social Worker, LMSW
Licensed Clinical Social Worker, LCSW,
Psychologist,
Psychiatrist,
Licensed Nurse Practitioner, LNP,
Licensed Marriage and Family Therapist, LMFT,
Licensed Mental Health Counselor, LMHC,
Psychiatric Nurse Practitioner
Complex Trauma Exposure Assessment

Please indicate whether the child experienced the following types of traumatic events using all available information (e.g., self- and caregiver report, clinical interviews, review of records, standardized instruments, etc.). Please review and complete each category. Include significant details and characteristics of the event where indicated, including the child/adolescent’s role in the event (i.e., victim or witness), as well as additional noteworthy details in the space provided. It will not always be clear whether a particular event rises to the level of a Trauma, or would be better categorized as a significant stressor (but not a Trauma). Therefore, you will have to use your clinical judgment to determine whether an event qualifies as a Trauma. Some traumatic events may fit in more than one category (for example, physical bullying could also be considered to be an assault). When this happens, please choose the one category that you feel best describes the traumatic event. Any time you endorse the box labeled “other”, please specify or elaborate. Record additional noteworthy information about the traumatic event in the “additional details” column, such as specific details or context surrounding the traumatic event, the child’s relationship to the perpetrator, or the extent of a child’s injuries. After you have endorsed “Y”, that a trauma has occurred, note whether it was experienced for more than 18 months, and provide the child’s actual ages during which the trauma occurred (e.g., ages 6-8, 11-15, or 9, 13, 14 if multiple discrete events). After completing this assessment, determine whether the child/adolescent has been exposed to complex trauma based on interpersonal traumas experienced or witnessed. Additionally, assess for the presence of non-interpersonal traumas (but do not include these in the complex trauma determination).

Sources of information (check all that apply): □ Parents/Caregiver □ Chart/Records Review □ Standardized Instrument (list all): □ Child/Youth Report □ Structured interview □ Other (specify):

<td></td>
</tr>
</tbody>
</table>
### Complex Trauma Exposure Assessment (Cont.)

#### Physical Assault/Interpersonal Violence (Episodic) - (not as a result of DV)
- Have you ever seen or heard someone being beaten, or who was badly hurt?
- Have you ever seen someone who was dead or dying, or watched or heard them being killed?
- Has anyone ever hit you or beaten you up (physically assaulted you)?
- Has anyone ever physically threatened you or tried to physically assault you?
- Have you ever seen a close relative or friend physically threatened?

#### Community Violence (Chronic) - i.e., living with constant neighborhood danger
- Did you live or go to school in an area where there was a lot of violence (e.g., where you heard gunshots or people fighting or getting jumped)?
- Did you live or go to school in an area where it wasn’t safe to leave the house or building?
- Did you live in an area with a lot of gang violence or drugs?

#### Terrorism/War/Political Violence
- Have you, a close relative, or friend been involved in, or in direct danger from a terrorist attack or war. Or, been involved in, or directly affected by, political violence resulting in mass injuries?

#### Stalking/Kidnapping
- Has anyone ever stalked you? Did anyone ever try to kidnap you?

#### Bullying (ongoing pattern vs. episodic/occasional difficulties with friends)
- Did other children/adolescents often...
  - Curse at you, insult you, put you down, or humiliate or tease you?
  - Physically intimidate or bother you (e.g., trip, shove you, break or destroy your things), or act in a way that made you afraid that you might be physically hurt?
  - Do things to turn people against you or isolate you (e.g., spread lies/rumors)?

### Possible Triggers

- **Victim:**
  - >1 assault
  - Attempted only

- **Witness:**
  - Injury
  - Homicide
  - Suicide

- **Stranger:**
  - Relative
  - Friend
  - Weapon used
  - Event occurred in school
  - Occurred while living in a violent community

- **Serious injury:**
  - >6 mos.
  - 1-2 yrs.
  - 2-4 yrs.
  - >4 yrs.

- **Threatened with weapon:**
  - Gang-related

- **Death:**
  - Injury
  - Relative

- **Perpetrator:**
  - Relative
  - Stranger
  - Other:
  - Weapon used
  - Injury
  - Trafficking
  - Custody dispute

- **Cyber-bullying:**
  - Based on:
    - Sexual orientation/identity
    - Race/ethnicity
    - Religion
    - Gender

Complex Trauma Eligibility Determination Form – DRAFT 5/26/16

Children’s Eligibility for Health Home Care Management services on the basis of Complex Trauma is based on three criteria. All three must be present in order for a child to be determined eligible. In addition to eligibility, the child must separately be determined appropriate for Health Home Care Management in accordance with current DOH guidance.

Child Name:  DOB:  Medicaid#:  CMA:  Health Home:  Date:

I. Trauma Exposure

Based on the Trauma Exposure Assessment, has the child been exposed to multiple interpersonal traumatic events, or at least one chronic interpersonal trauma lasting 12 months or more?  Yes  No

<table>
<thead>
<tr>
<th>Exposure Category</th>
<th>Present? Y/N</th>
<th>Chronic? Y/N</th>

</tbody>
</table>

III. Links Between Traumatic Exposure and Experience of Functional Impairments
In your professional opinion, are the Functional Impairments listed in Section II resulting from, or linked to, the Trauma Exposure described in Section I? 

Yes  No

Are these Functional Impairments best explained as a result of Complex Trauma, and not as the result of some other diagnosis or developmental delay? 

Yes  No

Comments:

IV. Eligibility Determination

As a licensed professional acting within my scope of practice, I find that the child referenced herein (IS) (IS NOT) eligible for Health Home enrollment on the basis of Complex Trauma.

Print Name: ___________________________  Credential: ___________________________  License #: ___________________________

Signature: ___________________________  Date: ___________________________

Attachments:

- Referral Cover Sheet
- Medical Consent
- Trauma Exposure Assessment
- Functional Impairment Assessment Materials (list)
- Collateral / Background Materials Provided (list)

* As long as complex trauma is present, the addition of a co occurring disorder does not disqualify the child from eligibility.
Workflow Process – Scenario #1
Workflow Process – Scenario #2

SCENARIO #2: Complex Trauma (CT) Health Home Referral Workflow: DRAFT 6.8.16

Referral Phase

1. Need Identified by Licensed Professional with access to tools

Referral Assignment and Assessment Phase

1. Licensed professional completes CT eligibility determination form
   - Positive Determination: Exposure + Impairment + Link between exposure and impairment
   - Negative Determination: No Link between exposure and impairment

   - Health Home assigns Care Management (CM) Agency
     - Licensed assessor: Link exposure to functional impairment
     - May overlap with Full Exposure Screen, Use NCTSN Guidelines for Assessing Complex Trauma. Take Measure to avoid Redundant Assessing. Licensed Personnel as Mentioned

Eligibility and Enrollment Phase

1. HH CM gathers all documentation to verify CT and any other child history and/or diagnoses
   - Assigned CM Assesses Health Home Appropriateness
   - Eligible
   - Enroll Child in HH
   - Use assessments, supporting documentation to create Plan of Care

**Make referral in MAPP if have access. If no access to MAPP, contact LDSS, LGU, HH, MCP, or CMA to make referral in MAPP**
Things To Consider

• Conflict of Interest and Firewalls within agencies between the Health Home Care Manager and the Licensed Professional conducting the Complex Trauma assessment and determination (they should not be the same person)

• Feedback from Lead Health Homes and care managers on implementing recommended processes

• Training needs for Health Homes and CMAs in developing integrated care plans for children with complex trauma

• Qualifications of licensed professionals in trauma informed care experience

• Measures should be taken to avoid redundant assessing of the child and family

Stakeholder Feedback due by Tuesday June 14th

hhsc@health.ny.gov

with Complex Trauma Feedback in the Subject Line
Stakeholder Work Group Members Bios

Phyllis Silver, MEd CHAIR Complex Trauma Work Group; President Silver Health Strategies

Phyllis Silver currently serves as the Executive Director of the Partnership for Quality Care (PQC), a labor/management coalition of health care providers and SEIU health care workers. Prior to joining PQC, Phyllis spent 36 years in public service in the Executive branches of both Massachusetts and New York State. She served as the Deputy Director of the NYS Office of Public Health where she led New York’s public health programs, overseeing vital activities including: the State’s clinical and environmental laboratories; New York’s AIDS programs; regulation of environmental contamination in air, water, and food; disease control and emergency preparedness/response activities. She led community organizing to combat the 1990 NYC measles epidemic, initiated enrollment of the Medicaid population into managed care plans, in addition to daily public health statewide operations. Throughout her career, Phyllis has focused on enhancing the lives and health of underserved and neglected populations. Since 2012 Phyllis has served as a consultant to the Council of Family and Child Caring Agencies and in 2013 authored a report about health care for children placed in foster care in order to provide NYS agencies with a proposal for a roadmap for Medicaid managed care for New York’s children and youth in foster care. Phyllis graduated from George Washington University and spent her early career as a speech pathologist with a Master’s degree from Northeastern University.

Andrea Smyth; President, A Smyth Advocacy, Albany, NY 1999-present

Ms. Smyth is the founder and manager of an independent public policy and government relations consulting firm specializing in securing funding and policy changes. Ms. Smyth has participated in the development of the state’s child advocacy center network, the Children’s Plan, expansion of the children’s mental health Home and Community Based Waiver Services and design of the B2H Child and Family Services Waiver. She engineered the Campaign for Summer Jobs resulting in a $35 million program, urged TANF dedicated funding for Advantage Afterschool and redesigned state funding for youth delinquency prevention programs.

As the Executive Director of the NYS Coalition for Children’s Mental Health Services, she has been appointed to and served on the Children’s Subcommittee of the Behavioral Health Medicaid Redesign Team, the APG Clinic Advisory Group, the Children’s Day Treatment Redesign Advisory Group and the Statewide System of Care SAMHSA Grant Advisory Group.

Dawn Chirichella-Besemer, Psy.D.; Vice-President of Behavioral Health Services MercyFirst

Dr. Chirichella-Besemer is Vice-President of Behavioral Health Services at MercyFirst, a child-welfare agency located on Long Island, New York. She is a New York State licensed psychologist with 18 years of experience in the child welfare system. She has functioned in the capacity of a direct care worker, caseworker, research assistant, a Director of Behavioral Health and Research, and as a clinician in private practice. She currently oversees the implementation and development of clinical services across the family foster care and residential care domains, with trauma-based treatment being the focus of her work. Dr. Chirichella-Besemer is a certified SPARCS (Structured Psychotherapy for Adolescents Responding to Chronic Stress) group therapy facilitator, and co-leads groups with the youth at MercyFirst. Dr. Chirichella-Besemer has also been trained at the Sanctuary® Institute, served as a member of the MercyFirst steering committee for the implementation of the Sanctuary® Model, and has presented at national conferences on research related to Posttraumatic Stress Disorder and secondary traumatization.

Susan Chinitz, Psy.D.; Former Director, Early Childhood Center Albert Einstein College of Medicine

She is a psychologist with specialties in the areas of infant mental health and developmental disabilities in infancy and early childhood. She is the former Director of the Early Childhood Center, the Center for Babies, Toddlers and Families, and the Parent Infant Family Court project, all therapeutic programs for children birth to five years of age at the Albert Einstein College of Medicine, where she was a Professor of Clinical Pediatrics and the Patricia T. and Charles S. Raizen Distinguished Scholar in Pediatrics. Dr. Chinitz is currently affiliated with the Center for Court Innovation where she is spearheading an effort to integrate developmental science into Family Court practice for infants and toddlers. Dr. Chinitz is on the Board of the New York Zero to Three Network, the Community Advisory Board of the NYC Nurse Family Partnership, and has been a member of the Frontiers of Innovation initiative of the Harvard Center on the Developing Child. She has developed models of infant mental health service provision and developmental supports for children in primary pediatrics, preschool and childcare programs, and within the child welfare system, and has provided consultation and technical assistance to practitioners from other disciplines as well as other child serving organizations and government agencies. She has received the ACS Commissioner’s Child Advocacy Award, Women of Achievement Award from the Bronx Women’s Bar Association, and the Distinguished Alumni Award from the Ferkauf Graduate School of Psychology, Yeshiva University.

David Collins, LMSW; Assistant Vice President for Programs and Policy The Children’s Village

David is the Assistant Vice President for Programs and Policy at The Children’s Village, where he is responsible for agency-wide quality improvement, health care strategy, and program development. Previously, he served as the Assistant Commissioner for Program Innovation and Planning at New York City’s Administration for Children’s Services, where he was responsible for the design, procurement, and implementation of major child welfare and juvenile justice reform initiatives, including the rollout of numerous evidence-based, trauma-informed preventive services. He serves on the New York State Children’s MRT, the OCFS Foster Care Advisory Committee, and the MRT Behavioral Health Subcommittee. Since 2009, he has served as the lead representative of The Children’s Village on five trips to Baghdad, Iraq, providing training, technical support, and capacity building to Iraqi NGOs and public sector leaders regarding trauma-informed work with children and families impacted by war. In 2012, he helped develop and deliver a Community Care Worker training program for Iraqi NGOs that provided aid workers and volunteers with tools and activities to help children process traumatic experiences and support families in meeting their emotional and developmental needs. He has recently presented on evidence-based practice and child welfare system reform at the Global Implementation Conference (Dublin, 2015), the Blueprints Conference for Healthy Youth Development (Denver, 2016), Columbia University School of Social Work (New York, 2015), and at multiple child welfare peer conferences sponsored by Casey Family Programs.

David Goldstein, PsyD.; Vice President, Child Health and Well-Being JCCA

Dr. Goldstein is Vice President, Child Health and Well-Being at the JCCA. Dr. Goldstein has been at the forefront of trauma-informed treatment for children in foster care for decades. He has worked for JCCA for 28 years and has extensive experience in community-based programs, residential programs, group programs and specialized services. He is also a recognized and respected expert in New York State on the care and treatment of children, young people and families in child welfare, and how managed care affects children’s behavioral health care.

**Mandy Habib, Psy.D.; Co-Chair**
Complex Trauma Work Group, National Child Traumatic Stress Network, Co-Director, Institute for Adolescent Trauma Training & Treatment, School of Social Work Adelphi University

Mandy Habib received her M.A., and Psy.D. from Long Island University, C.W. Post Campus, in Brookville, New York following completion of an internship in Clinical Psychology at Queens Children’s Psychiatric Center, NY. She has had many years of research and clinical experience working in the field of traumatic stress in a variety of settings. In her current capacity as the Coordinator for the Adolescent Trauma Treatment Development Center at North Shore Hospital, Dr. Habib has co-authored SPARCS (Structured Psychotherapy for Adolescents Responding to Chronic Stress), a 16 session group treatment for chronically traumatized adolescents. She has led North Shore’s treatment development and dissemination efforts as part of it’s SAMHSA funded National Child Traumatic Stress Network (NCTSN) Learning Collaborative training model, within which she has conducted a half dozen learning collaborative to date, including two regional SAMHSA funded SPARCS learning collaborative and two state sponsored collaborative in Illinois and North Dakota. In her role as a treatment developer and trainer she has expanded North Shore’s dissemination of trauma informed services to more than 40 agencies across the country, thus broadening the provision of trauma sensitive care to youth in outpatient, group home, residential, foster care, and school settings in rural, suburban, and urban areas. Early research and clinical activities included conducting and evaluating a group therapy program for children with Attention-Deficit Hyperactivity Disorder, as well as the use of Dialectical Behavior Therapy in working with women with Borderline Personality Disorder in both an individual and group setting. Dr. Habib currently holds appointments at Long Island Jewish Medical Center and North Shore University Hospital.

**Laura Maggiulli, Ph.D. LMSW; Director of Research Hillside Family of Agencies**

Dr. Maggiulli is Director of Research at Hillside Family of Agencies whose current work includes, but is not limited to, the following: day-to-day coordination and implementation of HFA’s research and practice efforts; study design and methodology; grantsmanship; dissemination of HFA research findings in peer-reviewed journals and conference presentations; and applying current, cutting-edge research techniques, technologies, skills, and theories to her work at Hillside. Additionally, Laura focuses on the implementation and sustainability of evidence-based and -informed practices across the system of care. Other key areas of work include developing processes that use research, evidence, and data to drive decision-making and to support meaningful value-based outcomes and social impact. Research interests include evidence-based practices, implementation science, and the integration of physical and mental health and overall wellness. Laura attained a UB Bachelor’s of Arts in Psychology, a University at Buffalo, Master’s Degree in Social Work, and a Ph.D. from the University at Buffalo, Social Welfare program.

**Anthony P. Mannarino, PhD.;** Director of the Center for Traumatic Stress in Children and Adolescents and Vice Chair, Department of Psychiatry, Allegheny General Hospital

Dr. Mannarino is the Director of the Center for Traumatic Stress in Children and Adolescents and Vice Chair, Department of Psychiatry, Allegheny General Hospital, Pittsburgh, PA. He is also Professor of Psychiatry at the Drexel University College of Medicine. Dr. Mannarino has been a leader in the field of child traumatic stress for the past 25 years. He has been awarded numerous federal grants from the National Center on Child Abuse and Neglect and the National Institute of Mental Health to investigate the clinical course of traumatic stress symptoms in children and to develop effective treatment approaches for traumatized children and their families. Dr. Mannarino has received many honors for his work, including the Betty Elmer Outstanding Professional Award, the Most Outstanding Article Award for papers published in the journal Child Maltreatment given by the American Professional Society on the Abuse of Children (APSAC), the Model Program Award from the Substance Abuse and Mental Health Services Administration for “Cognitive Behavioral Therapy for Child Traumatic Stress”, and the Legacy Award from the Greater Pittsburgh Psychological Association. Dr. Mannarino has completed two-year terms as the President of APSAC and the President of the Section on Child Maltreatment, Division of Child and Family Policy and Practice, American Psychological Association. He is one of the co-developers of Trauma-Focused Cognitive-Behavioral Therapy (TF-CBT).

**David Wallace, LCSW-R;** Director of Clinical Services LaSalle School

David is currently the Director of Clinical Services at LaSalle School and Adjunct Faculty at Sage Graduate School, in Albany, NY. With nearly 20 years of experience in child welfare and juvenile justice, Mr. Wallace has developed an expertise in treating juvenile sexual aggression, complex mental health and trauma. As an active trainer, Mr. Wallace has presented to audiences throughout North America and has provided professional training services to the New York State Office of Mental Health and to Departments of Probation and Child and Family Services across New York State. Mr. Wallace also serves on a number of state and national associations, boards and committees, dedicated to the improvement of treatment services to youth and families.
