RE: Letter of Interest: Health Home  
Application to Serve Children

Dear Ms. Astin,

On behalf of Family and Children's Association (FCA), please accept this letter as an indication of our interest to submit a Health Home application to Serve Children. We understand that the submission of this Letter of Interest is optional, and the information contained herein is not binding and does not create an obligation to submit a Health Home Application to Serve Children.

To the extent FCA elects to submit a Health Home application to Serve Children, we are seeking a new Health Home Designation. We anticipate that FCA would be the lead applicant and through a Governance Committee, would assemble, maintain and reimburse a network of regional providers.

Our organization would serve the Nassau/Suffolk region.

Sincerely,

Jeffrey L. Reynolds, Ph.D, CEAP, SAP  
President/CEO
