

After the initial three year period of designation, NYSDOH is required to review Health Home performance to determine whether Health Homes should be approved to operate beyond the three year period.

NYSDOH Health Home Team and State Partners are currently preparing to conduct 3-year redesignation site visits to all Health Homes beginning September 2015. As part of this process, site visits will include a review of selected care management agencies within each Health Home network.

To assure Health Homes and care management agencies understand the process for redesignation, NYSDOH will be conducting an informational webinar on August 12, 2015 from 1:00pm – 2:30pm. All Health Homes and care management agencies are invited to attend this webinar.

Please register for Health Home Redesignation Process on Aug 12, 2015 1:00 PM EDT at:

<https://attendee.gotowebinar.com/register/8729422303919848961>

After registering, you will receive a confirmation email containing information about joining the webinar.

Thank You,
NYSDOH Health Home Program
