Engagement and Enrollment (Outreach) Optimization Proposal

Medicaid Managed Care Plans (MMCP), HIV/SNP, and Health and Recovery Plans (HARPs) contracted with Health Homes are required to submit a formal Engagement and Enrollment (Outreach) Optimization Proposal for the purposes of enrolling High-Risk adult and children Health Home eligible members to the Department of Health for approval no later than the close of business on August 31, 2018.

The MMCP, HIV/SNP and HARPs (to be referred to as "Plans" hereafter) must include a minimum of one of the three approved models, outlined in the cover letter, to improve enrollment and engagement of Health Home eligible adults and children. In addition to a minimum of one of the approved models Plans may propose other models for consideration. The Department is developing cost and quality reporting protocols to be shared in advance of October 1, 2018 implementation date.

III. | Scope of work

- a. Provide detailed description of the program structure and expectations such as turnaround times, documentation standards, and standard operating protocols that will guide the proposal.
- b. Clearly define accountability and responsibilities. What responsibilities will the MCO assume? What responsibilities will be carried out by the Health Homes? Care Management Agency? How will these accountabilities be monitored and measured?
- c. Identify the human resources that will be required. How many FTEs will be required and what roles will they serve?
- d. What potential barriers may affect progress towards achieving identified goals? What are some strategies to address those barriers?
- e. How will approaches to this process contribute to the overall objective of the Health Home? How will they contribute to goals specific to the Plan?
- f. Proposed budget including a description of the expenditures to achieve performance targets identified in this proposal. How will the Plan ensure that activities are carried out efficiently and within budget? What percentage of the budget will dedicated to community based bottom up referrals?
